EICHNER

PRESENTATION AND ORGANIZATION
FOR WORKSHOP AND GARAGE

VERSATILITY IS OUR STRENGTH

As a leading provider of organization products for car dealerships and vehicle workshops of all kinds, we produce a wide range of planning boards, labeling and information products, license plate boosters and advertising signs as well as a large number of special products in individual designs. The needs of our customers are always at the forefront. Benefit from 90 years of experience as a manufacturer and our know-how in printing and finishing technologies as well as from our large range of quality industry products.

We would be happy to support you with special solutions including graphic design printing. EICHNER products can be found in the top specialty distributors. Our logistics locations in Slovenia and Germany ensure short-term deliveries across Europe.

EICHNER

OVERVIEW OF
OUR PRODUCTS

The perfect basic equipment for planning in your workshop.

The EICHNER workshop planners in high-quality, tough and easy care design are made from polypropylene and can be delivered in various complete sets.

The board elements exhibit modern design and classic colors. The rail system is available for the service boards in the sizes DIN A4, DIN A5, and 2/3 DIN A4.

The allocation of the service boards containing repair jobs is immediately recognisable thanks to the name plates attached to the left edge of the planning board. The schedule in the board indicates who has to complete which jobs when. When the pouch is removed, a copy of the order remains in its place. In this way, there is always an overview of the current processes and possible bottlenecks are reacted to immediately, guaranteeing time is utilised in the best way.

WORKSHOP PLANNERS
>>
Workshop planners with one or two rows and 6, 10 oder 15 rails + additional storage compartment, grey color, blank.

One row, for DIN A4 documents
(insertion depth 210 mm, visible edge 96 mm)

Item-No.	Dimension (mm)	Rails
9019-00203	315 x 900 x 76	6
9019-00106	315 x 1282 x 76	10
9019-00204	315 x 1757 x 76	15

Two rows, for DIN A4 documents
(insertion depth 210 mm, visible edge 96 mm)

Item-No.	Dimension (mm)	Rails
9019-00205	554 x 900 x 76	6
9019-00874	554 x 1282 x 76	10
9019-00878	554 x 1757 x 76	15

Two rows, for DIN A5- and 2/3 A4 documents
(insertion depth 132 mm, visible edge 78 mm)

Item-No.	Dimension (mm)	Rails
9019-00879	554 x 960 x 76	10
9019-00873	554 x 1315 x 76	15

WORKSHOP PLANNERS BIG
>>
Workshop planners with a schedule for DIN A4 documents with five rows and with 6, 10 or 15 rails + additional storage compartment, grey color.

With schedule for DIN A4 documents
(insertion depth 210 mm, visible edge 96 mm)

Item-No.	Dimension (mm)	Rails
9019-00588	1580 x 900 x 76	6
9019-00589	1580 x 1282 x 76	10
9019-00590	1580 x 1757 x 76	15

All workshop planners available in different languages. Simply add the language code to the Item-No. EN, FR, ES, IT, NL, PT, EL, PL or without printing with the code -BL

With schedule for DIN A5- und 2/3 DIN A4-documents
(insertion depth 132 mm, visible edge 78 mm)

Item-No.	Dimension (mm)	Rails
9019-00591	1125 x 675 x 76	6
9019-00592	1125 x 960 x 76	10
9019-00593	1125 x 1315 x 76	15

Custom sizes or languages on request!

Improve productivity

Simple and organized work processes

Visually structured system with color coding

STRUCTURE YOUR WORKFLOWS
WITH STURDY AND SIMPLE CASCADING RACKS.

The modular wall sorting system provides efficient structuring support of work processes. Made from robust ABS plastic, all modules provide long-life usage and convenience in handling due to their light weight. The system also offers maximum flexibility. After mounting the base module on the wall, a sophisticated plug-in system allows for the individual configuration of the storage solutions. Both series „Big" and „Flat" modules are available in five colors and purchased individually. This allows a set-up with singular or mixed colors to match a desired color scheme. Two filling levels of storage compartments can used and hung according needs. A number of five modules is recommended. Thanks to a simple plug-in system, the individual storage modules can identify any organization system that is required. The labeling clips come in two different sizes and are reusable.

WALL SORTER „BIG"
>>

The modules of the „Big" series are ideal for storing our A4 Service Boards. They have a filling height of 34 mm. Work planning can be implemented clearly.

WALL SORTER „FLAT"
>>

The modules of the „Flat" series structure standard A4 forms in the daily work flow. You have a fill height of 9 mm for extensive documents to keep them easily accessible.

WALL SORTER „BIG"

>>

**„Big" basic module for mounting on the wall,
with insert for individual labeling, PU 1 piece**

Item-No.	Size	Color
9218-05055	302 x 262 x 42 mm	grey

„Big" storage compartments, 34 mm fill height, PU 1 piece

Item-No.	Size	Color
9218-05054-010	302 x 262 x 42 mm	blue

9089-00001	250 x 900	A4	Landscape	6	0,8 mm	anthrazit	12,5 cm
9089-00003	200 x 900	A5	Landscape	6	0,8 mm	anthrazit	4 cm

SERVICE BOARD COLLECTOR
>>
A practical index for better organisation on the desk, in the supervisor's office or the workshop. This sturdy job pouch collector easily accommodates repair job orders and service boards and thus improves organisation and saves time for more important things. The resilient plastic makes it a long-lasting aid in in the tough workshop routine. The index provides space for approx seven service boards and can be supplied as either a desk stand or for wall mounting.

For up to 7 DIN A4 job pouches, made of shock-resistant light grey plastic, as a desk stand or for wall mounting. **PU = 1 piece**

Item-No.	Usage
9089-00027	desk
9089-00028	wall mount

SERVICE POUCH „LIGHT"

>>

Transparent PVC front, the back is made of grey PVC without a cardboard core, light model for light duty in the workshop. **PU = 10 pieces**

Item-No.	Size	Key-pocket
9015-00587	DIN A4	no
9015-00588	DIN A4	yes

SNAP HOOK AS KEY HOLDER

>>

Snap hook made of plastic

Item-No.
9015-00467

Snap hook made of metal

Item-No.
9015-00646

SERVICE BOARD „BASIC"

>>

Simple, pocketless service board, with hook-and-loop closure and a cord. **PU = 10 pieces**

Item-No.	Size	Color
9015-00285	DIN A4	blue
9015-00313	DIN A4	red
9015-00315	DIN A4	black
9015-00286	DIN A5	blue

SERVICE BOARD „ECO"

>>

With hook-and-loop closure and clear foil key pocket, including cord; **PU = 10 pieces**

Item-No.	Size	Color
9015-00385	DIN A4	blue
9015-00386	DIN A4	red

9015-00389	DIN A4	yellow
9015-00586	DIN A4	purple
9015-00737	DIN A4	orange
9015-00263	DIN A5	blue
9015-00328	$^2/_3$ DIN A4	red

Key pouch made of foil reinforced with net for storing the car key safely

SERVICE BOARD „EDGE"

>>

In highly resilient transparent foil - made even more sturdy and robust by innovative edge welding - serves to store all of the working documentation in one place. Equipped with a key pocket made of net-reinforced foil on the back and a cord. **PU = 10 pieces**

Item-No.	Size	Color
9015-00266	DIN A4	blue
9015-00267	DIN A4	red
9015-00268	DIN A4	green
9015-00269	DIN A4	grey
9015-00270	DIN A4	yellow
9015-00271	DIN A4	black

ⓘ Patented Original quality from EICHNER!

SERVICE BOARD „EASY OPEN"

>>

With fully transparent foil front, including clamp and a sturdy cardboard core. The extra-hard-wearing design guarantees a long-lasting product. Thanks to the edge welding, the transparent foil can be folded back completely. The hook and loop strip at the side makes it possible to fix the transparent foil. Ideal for use in warehousing and logistics. **PU = 10 pieces**

Item-No.	Size	Color
9015-00670	DIN A4	blue
9015-00671	DIN A4	red
9015-00672	DIN A4	black

SERVICE BOARD „MAGNETIC"

>>

With magnet closure, a net-reinforced key pocket and cord.
PU = 10 pieces

Item-No.	Size	Color
9219-00121	DIN A4	blue
9219-00140	DIN A4	red
9219-00141	DIN A4	grey
9219-00134	DIN A4	black
9219-00139	DIN A4	green
9219-00671	DIN A4	yellow
9219-01216	DIN A4	orange
9219-01217	DIN A4	purple

SERVICE BOARD DIN A4 „TURBO"

>>

With extra-large capacity. The stable and tough design guarantees a particularly long service life. The wide expansion pleat makes it possible to store log books and service records. In addition, there is a net-reinforced key pocket on the back and a cord for wall mounting. **PU = 10 pieces**

Item-No.	Size	Color
9015-00395	DIN A4	blue
9015-00396	DIN A4	red
9015-00397	DIN A4	green
9015-00416	DIN A4	grey
9015-00336	DIN A4	yellow
9015-00337	DIN A4	black

All service boards are available with custom colors and individual printing.

SERVICE BOARD DIN A4 „JUMBO"

>>

With extra-large expansion pleat and additional side closure for storing voluminous on-board literature. The stable and tough design guarantees a particularly long service life. On the back there is a net-reinforced foil key pocket, the cord makes it possible to hang up the service board. **PU = 10 pieces**

Item-No.	Size	Color
9015-00557	DIN A4	blue
9015-00558	DIN A4	red
9015-00559	DIN A4	green
9015-00560	DIN A4	grey
9015-00565	DIN A4	yellow
9015-00568	DIN A4	purple
9015-00654	DIN A4	black
9015-00706	DIN A4	orange

With an extra closure of the expansion-pleat pocket to make it easy to insert bulkier documentation.

DATA PROTECTION IN THE SHOP.
PROTECT YOUR SENSITIVE DATA FROM PRYING EYES.

SERVICE BOARD „SECURE"

>>

These service boards in highly resilient transparent foil feature tear protection and a robust design to securely store all documents in one place. Pixelation in the upper third of the service board perfectly conceals customer data. **PU = 10 pieces**

9015-00720	DIN A4	black
9015-00773	DIN A4	yellow

(i) Patented original quality from EICHNER!

SECURITY STICKERS

>>

For EICHNER service boards

EICHNER security stickers help you adapt your conventional service boards to meet current data protection requirements. The self-adhesive pixelated film can be cut to the dimensions of your service boards. Lines on the back allow you to customise the stickers to the exact size of the various EICHNER service boards. Now you and your customer are on the safe side when it comes to data protection! **PU = 10 pieces**

Item-No.
9218-04056

Fits EICHNER service boards and standard versions

SERVICE BOARD „ROBUST"

>>

Extra-strong and long-lasting version made of 1.6 mm marbled cardboard. The edges are trimmed with colored PVC tape. This product is characterised by high durability and great stability. The cord makes it possible to hang up the job pouch. **PU = 10 pieces**

Item-No.	Size	Color
9017-00180	DIN A4	black
9017-00181	DIN A4	red
9017-00182	DIN A4	yellow
9017-00183	DIN A4	green
9017-00184	DIN A4	blue

SERVICE BOARD „BOLD"

>>

Made of 2 mm thick PVC rigid film and unbeatably sturdy. This makes the service board resistant to temperature fluctuations and mechanical stress. Edge folding prevents the transparent film from tearing even with heavy use. The integrated key compartment and braided cord are also very practical. **PU = 10 pieces**

Item-No.	Size	Color
9015-00731	DIN A4	blue
9015-00732	DIN A4	red
9015-00733	DIN A4	green
9015-00734	DIN A4	grey

Extra-sturdy 2 mm thick rigid plastic

SERVICE BOARD DIN A4 „PREMIUM"

>>

The stable and tough design guarantees a particularly long service life. The transparent pocket bonded onto the front serves to hold the vehicle registration certificate. At the back there is an expansion-pleat pocket with an extra-large capacity for the service record and the inspection logs.
PU = 10 pieces

Item-No.	Size	Color
9015-00512	DIN A4	yellow
9015-00460	DIN A4	blue

9015-00685	19 mm
9015-00686	25 mm
9015-00687	32 mm
9015-00644	38 mm
9015-00688	76 mm

T-CARD SYSTEM BOARDS AND ACCESSORIES
>>
The insert-card boards ensure quick and easy appointment planning and guarantee ease of reference at a glance.

Who is on duty when? What time is something planned for? Who is the backup for whom?

Each board has a time column. The card holders are a fixed part of all boards, each board comes with a stock of 300 large cards (= 50 of each color), as well as 50 small cards (= white).

Construction: the basic
unit is a rigid foam carrier plate with laminated insert slots. Set in an aluminium frame with plastic corner connectors. Including assembly material for wall mounting.

For the T-Card system boards, the T-Cards are required in the sizes S and M.

Item-No.	Dimension (mm)	Columns	Rails
9089-00006	455 x 464	5	20
9089-00007	605 x 464	7	20
9089-00008	455 x 652	5	35
9089-00009	529 x 652	6	35
9089-00010	605 x 652	7	35

T-CARDS, BLANK
>>
The blank T-Cards serve to color-code and highlight the individual processes. They are available in 6 colors and 4 sizes (S, M, L and XL) and are made of sturdy cardboard and can be used on both sides.
Important: For the T-Card system boards, the sizes S and M are required.

T-Cards, blank, 6 colors, 4 sizes, made of sturdy cardboard,
PU = 100 pieces

Size	PU	Dimension (mm)

Size: 52 x 11 cm

The ideal numberplate holder for quick assembly is suitable for every vehicle on the motor vehicle market and corresponds with the German road traffic regulations, the StVZO.

The modern fasteners make handling very quick and easy. Insert the numberplate; press on the advertising plate - that's it. The numberplate holder is made of durable polypropylene, the advertising plate from resilient polystyrene. That means this product is UV-resiliant, car wash-resistant and frost-proof. Individual printing is possible according to your requirements.

NUMBERPLATE HOLDER „EPOXY"
>>
(ground plate including advertising plate)
Item-No.: 9106-01003
Minimum order quantity: 300 pieces

Numberplate holder „Epoxy" - your advertising is guaranteed to make a lasting impression.

Based on the numberplate holder „Plus", consisting of a ground plate and a shield suitable for printing, the numberplate holder „Epoxy" is now available with a 3D advertising plate. The 3D effect is produced using lettering sealed with scratch-proof epoxide resin and is just as resistant to sun and rain as it is to snow and ice.
Your logo in 3D with various backgrounds, fonts and pictograms, even in special colors like silver or gold.
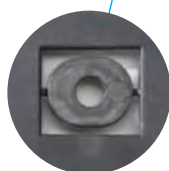

Please contact us about customised printing, we are happy to help.

- **Quick assembly thanks to clever fasteners**
- **UV-resilient, car wash-resistant and frost-proof**
- **Even suitable for curved bumpers**
- **With all common screw-hole combinations**
- **Available as set or separated parts**
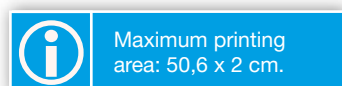

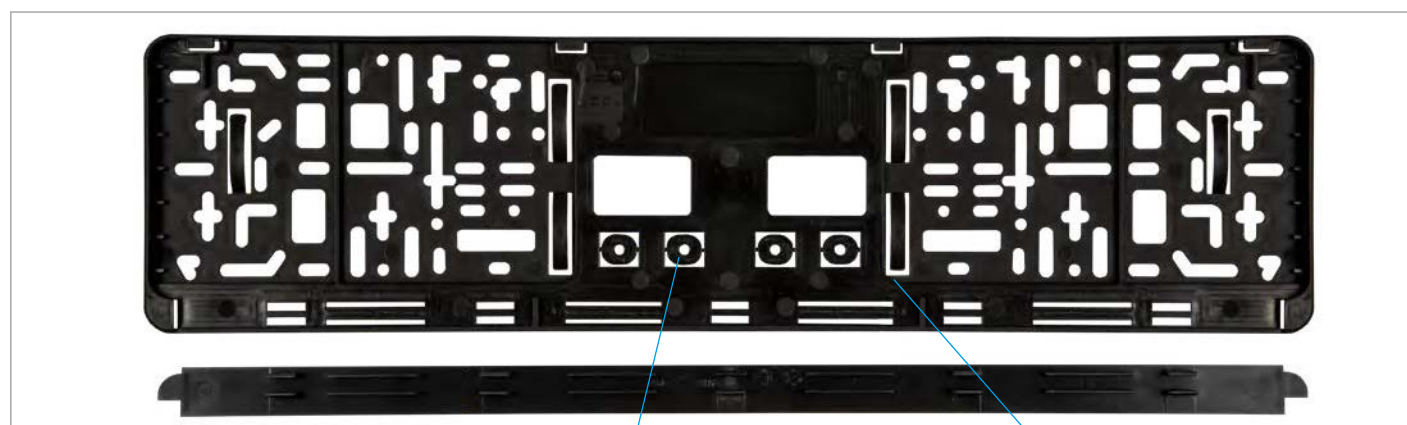

Maximum printing area: 50,6 x 2 cm.

4 integrated washers. Simply push out.

Highly flexible, therefore ideal for curved bumpers.

NUMBERPLATE HOLDER „PLUS"

>>
The EICHNER numberplate holder „Plus" is easy and flexible to use. The modern fasteners make handling very quick and easy. Insert the numberplate; press on the click plate - that`s it. Individually printed (base plate including advertising bar).
Item-No.: 9106-01002

Minimum order quantity: 100 pieces
Color white or silver inclusive. One off charge for setting up screen or film print for the initial order €30.00.

Please contact us about customised printing, we are happy to help.

The numberplate holder is also available in a plain version without print. The base plate and the terminal strip can also be ordered separately.
PU = 1 piece

Item-No.	Type
9106-00995	base plate + strip
9106-00997	base plate
9106-00999	terminal strip

High-quality advertising messages. With raised 3D lettering in chrome look.

NEW

NUMBERPLATE HOLDER „TOP3D"

>>

The EICHNER „Top3D" license plate holder looks particularly elegant thanks to its raised 3D writing. The individual silver lettering and the chrome-look surface give it additional high quality. This key transfer system is intended for wall mounting

Optionally available:
903-00165 Key pocket
„Customer service acceptance"
See p. 43 for more information

KEY ISSUANCE SYSTEM
>>

With this electronic key handover system, the acceptance or handover of keys can be organized contactlessly outside of regular opening hours. In six individual compartments keys can be stored securely separeted from each other. The system is also suitable for large or unshaped keys, which are assigned with their own access code per compartment.

A master password is used to program all subjects and the system settings. All codes are also secured in the event of a power failure. Special features of the key transfer system: A front display ensures an easy operation, as well two time periods can be programmed for access. The creation of locking protocols increases the traceability and offers additional security.

Especially when used in car dealerships and garages, this depot offers space for 24-hour customer sevice key pockets (up to 20can be savely stored), as well as six compartments described above. We recommend ensuring that the key issuance system is mounted at a location protected from rain.

RFID PROTECTION

With envelope slot for quick customer sevice deposit

With integrated keypad for the handover of the car key

Also suitable for large or unshaped keys

With possibility to store the customer service key pockets

9201-00036
Weather Protection Roof
made of acrylic glass

KEY ISSUANCE SAFE

>>

The electronic key safe offers separate compartments for six keys. It is also suitable for large or bulky keys and can be expanded up to 96 compartments. Each key has its own access code; a master password is used to program all compartments and the system settings. All codes are also protected in case of a power outage.

Special features of the key safe Plus: A front display simplifies use and can also be programmed for two time slot access. Locking procedures are logged for better traceability and added security.

PU = 1 piece

WEATHER PROTECTION ROOF

>>

Reliable weather protection as an optional addition to the electronic key vending mentioned above. Made of crystal clear acrylic glass, 3 mm thickness. Inclusive mounting hardware.

KEY DROPBOX
>>

This dropbox simplifies your key management and is easy to use. Made of 1.5 mm thick sheet steel; painted white. Two integrated inner wings secure the deposited keys against a high fall and unauthorized removal. Rely on EICHNER's high quality standards for your key management.

Made of 1.5 mm thick sheet steel; two inner wings secure against a high fall; dimension: 280 x 345 x 93 mm (H x W x D), weight: approx. 4.5 kg; color: white

PU = 1 piece

Item-No.
9201-00021
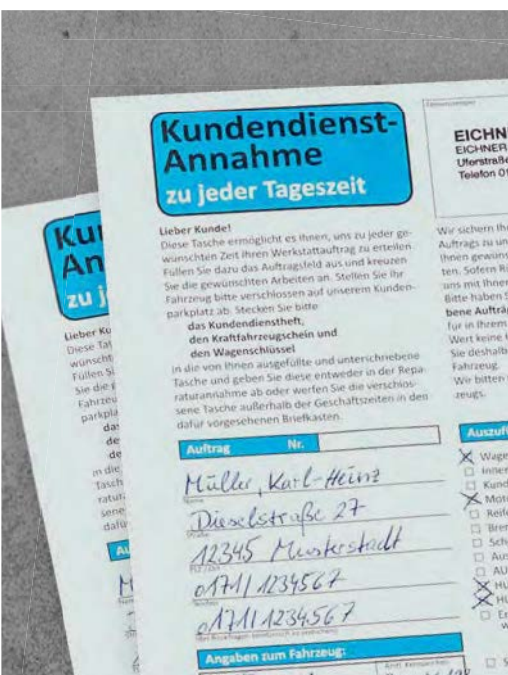

KEY ORGANIZATION MADE EASY.

KEY COLLECTION POUCH

>>

With the practical key collection pouch made of robust and easy-care Polyester can easily organize keys. They can be securely attached to the included clips and are quickly at hand. The key clips are clearly arranged next to each other and equipped with a blank labeling field. After removal, the respective clip can be attached to the supplied red lanyard. This prevents unwanted loss. The folders are available for 14 or 28 keys and are closed with an all-round zip. The XL folder also has space for two pens in the integrated pen holders. Labeling templates for labeling the folder and the key positions are included as a download link in the scope of delivery.

PU = 1 piece

Item-No.	Dimension	Clips
9201-00034	220 x 275 x 40 mm	14
9201-00035	275 x 385 x 40 mm	28

Possibility for individualisation through a transparent label pocket of the front.

Ideal for organising and storage of a large number of keys.

9201-00034
Key collection pouch with 14 Clips

9201-00035
Key collection pouch with 28 Clips

KEY CLIP FOR KEY COLLECTION POUCH
>>

The robust replacement key clip for EICHNER key folders made of polyester offers a replacement option if existing key clips get lost or need to be replaced. The clip including movable key ring is included.

PU = 1 piece

Item-Nr.	Color
9201-00039	black

- **With movable key ring**
- **Spare key clip suitable for key folders item. no.: 9201-00035 and 9201-00034**
- **Made of robust plastic**
- **Colour: black**

KEY BOARD INSERT FOR FILING
>>

For use in ring binder systems and folders in DIN A4 format.
As an alternative to the key ring binder, the key board is the ideal solution for storing up to twelve keys in a clearly arranged and space-saving way. Thanks to durable metal eyelets it can be filed in almost any standard ring binder with a 2-ring mechanism and a material thickness of 4 mm. Key organisation made easy!

PU = 1 piece

Item-Nr.	Color
9201-00040	grey

Scope of delivery: Key board insert incl. key clips and pendant

PRICE LABELING OF ALL VEHICLES MADE QUICK AND EASY

Handling the price-sheet holder is extremely easy - in seconds you can place your price-sheet or the description of the vehicle features behind the bonded transparent cover made of polycarbonate. Thanks to the use of polycarbonate, the price-sheet holder is of particularly high-quality and shatter-proof. Neither high nor low temperatures inside the vehicle cause deformation or discoloring, the price-sheet holders look like new even after long periods of use. The price-sheet holder is available in different sizes and versions. These are attached either as a clip version for side windows or windscreen, with a hook on the rear-view mirror or with a suction cup on the side window or other smooth surface. EICHNER price-sheet holder have already proven themselves over years as perfect price labeling tools.

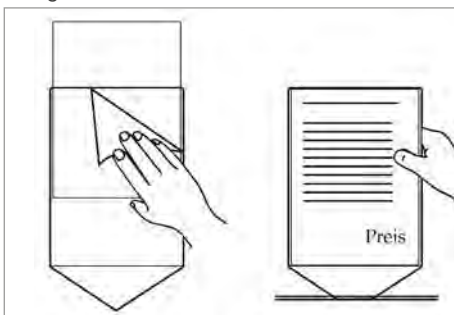

PRICE-SHEET HOLDER
>>
Made of shatter-proof and shock-proof polycarbonate, insensitive to light, heat and cold, various sizes and alignments, to insert behind the windscreen or side window.
PU = 5 pieces/pack

Item-No.	Size	Alignment	Dimension (W x H)	Fixing
9219-00102	DIN A4	Portrait	216 x 378 mm	Insert behind window
9219-01030	DIN A4	Portrait, with silver edge	216 x 378 mm	Insert behind window
9219-00133	DIN A4	Landscape	306 x 287 mm	Insert behind window
9219-00129	DIN A3	Landscape	426 x 375 mm	Insert behind window

Usage:

Lift the transparent foil and place the corresponding sheet behind it.

The price-sheet holder can be conveniently clipped behind the windscreen or side window

FIXING MATERIAL FOR SALES SIGNS

>>

Suction cup for easily fixing the sales sign to the side window or other smooth surfaces.

Hook for easily fixing the sales sign to the rear-view mirror or other suitable points.

PU = 5 pieces

PRICE-SHEET HOLDER WITH HOOK / SUCTION CUP

>>

Made of shatter-proof and shock-proof polycarbonate, insensitive to light, heat and cold, various sizes and alignments, to use with a hook on the rear-view mirror or with a suction cup on the side window. Hooks and suction cups inlcuded.

LCD PRICE LABELING

>>

Self-adhesive PVC figures in yellow, numeric set on transfer film for attaching to the windscreen; simply pull off the transfer film, stick and press firmly.

Important: The required price is formed by removing the unnecessary number segments.

**PU = 10 numeric sets**

Item-No.	Film size
9220-00116	580 x 120 mm
9220-00120	1.160 x 240 mm
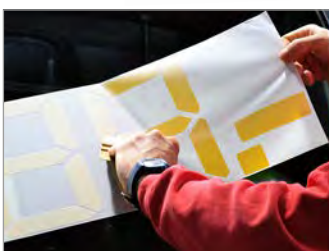

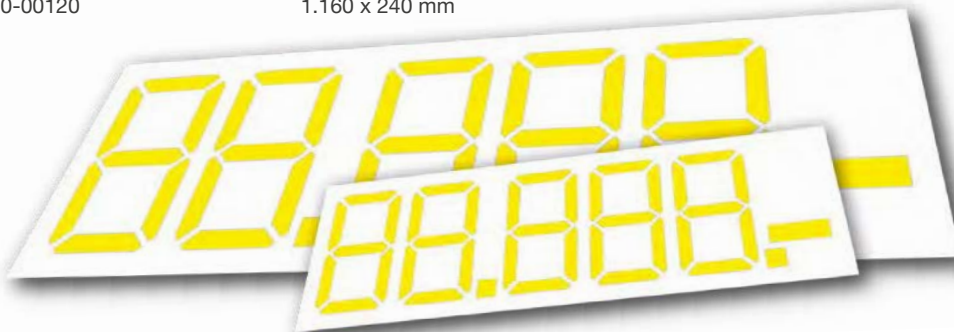

Rub or roller transfer film firmly.

Pull off the transfer film carefully.

Complete numeric field results.

Remove surplus segments.

ELEGANT AND CONVENIENT PRICE LABELING.

EICHNER provides you with a flexible and professional solution for your price labelling as well as for the description of your vehicle features or your finance quotations. Increase your sales with the clear design and the good legibility of your message when selling your used cars.

CAR ROOF SIGNS TO BE CUSTOMISED
>>
For DIN A4 formats
Effective and fast price labelling for selling cars. In next to no time, A4 computer print outs an be slipped into the transparent pocket of the roof sign.

The magnets integrated into the feet give the roof sign the necessary grip. Thanks to the flexible construction, the roof sign adapts to the curve of the car roof. Suitable for use in the car dealership and in the showroom.

PU = 1 piece

Item-No.	Color
9218-08013	black
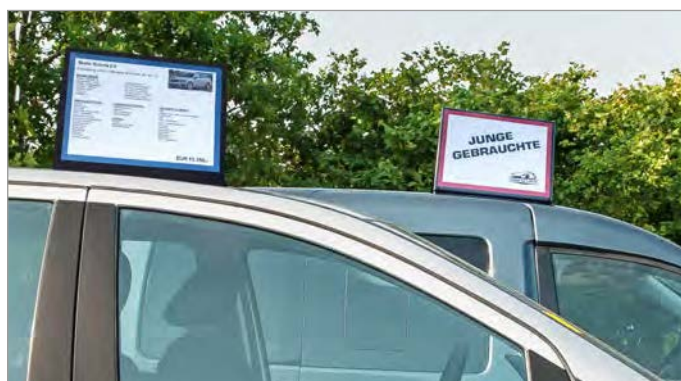

ADHESIVE POUCH

>>

These adhesive pouches fit to every windscreen angle and adhere securely without glue to glass and glass-like materials. The adhesive pouches have already proven themselves over the years in the field of price labelling in vehicles.

A lot of advantages at a single glance

- Self-adhesive without glue. Leaves no residue when detached.
- Attachable in seconds and remove just as fast. Reusable again and again. Adheres securely to glass and all glass-like materials.
- Colored border signals importance of message

PU = 10 pieces/pack, for DIN A4

Item-No.	Frame color
9015-00379	silver
9015-00380	red
9015-00381	blue
9015-00398	yellow
9015-00394	transparent

FOIL MOUNT

>>

The colored mounting frame is an easy way to let look your sales signs professional and attract your customers' attention directly to the offer. Available in five different colors. Promotes your used-car sales activities. Fits perfectly into the price-sheet holder to upgrade the appearance.

PU = 5 pieces
Dimension: W 211 x H 298 mm for inserting a DIN A4-sheet
Temperature resistant up to 80 ° C

Item-No.	Color
9219-00293	blue
9219-00294	red
9219-00295	yellow
9219-00296	green

ⓘ In combination with an EICHNER price sheet holder, the foil insert in passe-partout design ensures an eye-catching appearance. You can also use it to put notices in your company premises in the spotlight.

Increased safety of the working environment

Visually conspicuous colour coding

Efficiently organised work processes

Flexible and quick to use

Perfect marking and equipment
of modern electrical workplaces

SAFELY MAINTAIN ELECTRIC & HYBRID SYSTEMS.
WITH OUR PRODUCTS FOR THE JOBS OF THE FUTURE.

Hybrid and electric cars, which are becoming more and more present in our everyday lives, are causing immense changes that are already evident in the handling and maintenance of these state-of-the-art vehicles. For the workplaces of the future, special equipment is needed to ensure safe working conditions.

Special marking of the work areas, articles for personal protection when working on high-voltage systems, clearly marked organisational equipment - thanks to our many years of know-how, we are also in a position to provide the right equipment for the specialised field of e-mobility.

ELECTRICAL RISK PREVENTION
Thresholds for electrical hazards
Use of occupational safety products necessary

- DC nominal voltage difference greater than 60 V DC
- AC potential difference greater than 25 V AC
- Battery capacity greater than 180 Ah

ELECTRIC INSULATING GLOVES

>>

The protective class 0 electrical insulating gloves are soft and highly flexible. They are designed exclusively for electrical purposes as basic personal protective equipment when working under voltages up to 1 kV or as additional protective equipment for voltages above 1 kV. They are worn as the first layer of protection and should be protected from damage with leather overgloves. The gloves are supplied in a length of 36 cm.
PU = 1 pair

Item-Nr.	Class	Category	Length	Size	PU
9219-01254-009	0	RC	36 cm	9	1 pair
9219-01254-010	0	RC	36 cm	10	1 pair
9219-01254-011	0	RC	36 cm	11	1 pair

Tested safety!
The electric gloves comply with the standard EN 60903:2003+AC2:2005

LEATHER OVERGLOVES

>>

The robust gloves made of grained cowhide leather with split leather cuff form the top protective layer for electrically insulating gloves. Commonly used electrical insulating gloves for protection against electric shock are made of latex and have a low resistance to mechanical damage. Therefore, electrically insulating gloves should be used together with leather gloves.
PU = 1 pair

Item-Nr.	Size	PU

MAGNETIC CAR ROOF SIGN HOLDER
››

For DIN A 4 formats
An effective and quick way to mark sensitive areas. A4 computer printouts can be slid into the transparent pocket of the roof display in no time at all.

The magnets integrated into the feet give the roof display the necessary hold. Thanks to its flexible design, the roof display adapts to the curvature of the car roof. Suitable for use in car dealerships and showrooms.
PU = 1 piece

Item-Nr.	Color
9218-08013	black

More flexibility!
The car roof signs are supplied for self-design without content.

INSERT FOR CAR ROOF SIGNS
››

Two-sided, water-repellent laminated card in DIN A4 format for the identification of electric vehicles.
For use in combination with the magnetic car roof signs.
Front: International (pictograms), **back:** German
PU = 1 piece

Item-Nr.	Color
9220-00080	black-yellow

ROOF DISPLAY WITH LIGHTNING SYMBOL
››

The roof-mounted display unit is used for marking vehicles on which repairs or maintenance work is to be carried out on electrical or electronic components. It is securely attached to the floor by means of a suction cup.

For marking maintenance work on electrics and electronics.

Item-Nr.	PU
9218-00789	25 pc.
9218-00795	5 pc.

"NO LOADING" SIGN WITH SUCTION CUP
››

The prohibition sign is securely attached to the fuel cap with the suction with the suction cup on the fuel filler cap during repairs or maintenance work. This reliably indicates that the vehicle must not be connected to a charging device and ensures safe working. The practical sign is available in DIN A5 size. **PU = 1 piece**

Item-Nr.
9220-00074

Rear view   Front view

SERVICE BOARD „EDGE"

>>

Made of high-strength transparent film - even more robust thanks to a new fold-over welding - serves as closed storage for all working papers. On the back there is a key pocket made of fabric-reinforced foil, the cord allows the order bag to be attached.

PU = 10 pieces

Item-Nr.	Size	Color
9015-00270	DIN A4	yellow

PP KEY RING „FIX"

>>

Coloured, size 210 x 35 mm, easy handling due to plug-in closure, can be written on both sides.

PU = 100 Stück, pieces

Item-Nr.	Color
9218-00274	yellow

GROUND MARKING TAPES

>>

For marking parking spaces, work and safety areas for handling electrical systems. The high-quality marking aids are suitable for dry areas and have a very good adhesive force. They are particularly flexible and extremely hard-wearing. An ideal aid for more safety and overview.

PU = 1 roll

Type Standard: PVC 0.16 mm, load capacity: pedestrians, lift trucks
Type Premium: PVC 0.50 mm, load capacity: pedestrians, lift trucks, forklifts

- Secure work areas efficiently
- Easy and quick handling
- Flexible to use
- Space-saving stowable

BARRIER POST WITH WEIGHT
>>
The mobile and robust plastic posts are easy to handle, self-standing and flexible in use. Made of weather-resistant material, they are used to cordon off sensitive areas indoors and outdoors. The large-dimensioned plastic base ensures a high degree of stability thanks to a concrete weight inside the base. The connection with the separately plastic chains, which can be ordered separately and are easy to attach and remove, they provide an effective, quick-to-use barrier.

PU = 1 piece

Item-Nr.	Height above floor	Ø Pipe	Color

WHEEL STORAGE - THE SERVICE FOR BETTER CUSTOMER LOYALTY

The seasonal storage of the summer and winter tyres for your customers requires organisation and a clear system in your tyre store. The unambiguous correlation of the clean tyres to the right vehicle and customer is easier and quicker with the EICHNER wheel/tyre tages. **The right marking for every storage type:** For upright storage, the wheel/tyre tag with a loop is best. Good legibility of the label is deci- sive here. If you prefer to store your complete wheels lying flat, then select the wheel tag for fixing to the valve. Both systems are characterised by the fact that they can be quickly and easily fixed to the wheel and can be fixed and loosened as often as necessary. As an alternative the metal- reinforced sticker is the perfect one-time solution even for dirty or wet tyres.

PP-WHEEL/TYRE TAGS WITH LOOP

>>

The label is well-protected from moisture and the tag can be reused sev- eral times. The front of the label is already pre-printed. The back can be inscribed as required with a laser or ink-jet printer. Being placed on the tread of the tyre, the good legibility of the label is guaranteed. The fixing band can be re-opened and closed as often as required.

In multi-piece packs including fixing band and labels, made from durable PP, format DIN A6, easy to detach perforated labels, can be used hori- zontal and vertical.

Item-No.	Loop	PU

THE WHEEL/TYRE TAGS FOR FIXING TO THE VALVE
>>

The basic element of this labelling aid is a particularly resilient valve pocket made from environmentally friendly PP-material. Depending on the model the scope of the delivery includes labels for inscription or a complete order form. This snap-apart set simplifies the internal organisation. Thank to the consecutive numbering in the upper field and the repe-tition of this set of numbers on the detachable labels in the lower part of the forms, the unambiguous relationship between the set of wheels and the customer is guaranteed. Regardless of which design you choose, the tag accommodates the corresponding label and protects it reliably from dirt and moisture.

WHEEL STORAGE STICKER
>>
Mastering wheel storage professionally.

Uncomplicated storage and retrieval - no longer a problem with the special EICHNER stickers. The high-quality stickers with metallised backing adhere perfectly to the wheels, regardless of whether they are dry, wet or dirty. The pre-printed form contains all important information about the storage, such as eg customer name, storage number and numberplate, but also the vehicle brand and type, tyre size and rim type, as well as space for tread depth, wheel caps and bolts.

Wheel storage sticker
in white, with metallised backing, waterproof, non-fading, inscribable with any pen, even adheres to wet or dirty tyres.

**PU: 100 stickers on a roll**

DUST BROOM

>>

The practical cleaning tool in car dealerships and/or at car shows -
a real dust magnet.

Suitable for all smooth surfaces, the long handle makes cleaning easy, even in hard-to-reach places (car roof or windscreen), long cotton fibres avoid scratching the paintwork, the floor cover can be removed and washed.

Supplied in a practical storage bag.

**PU = 1 piece (dust broom + storage bag)**

Item-No.	Handle	Color
9219-00682	wood	red

REPLACEMENT WAX

>>

For rewaxing fringes after washing
PU = 1 can

Item-No.
9219-00341

UNIVERSAL FRONT COVER
>>

This Front-Cover offers a good all-round protection for all works inside the motor compartment. An unfoldable large flap ensures protection for large wings too. This cover can be self-adjusting by elastic bands, hence suitable for the most popular models.

Adjustable velcro's for fixing at the exterior mirrors, removable anti-slip batting in the wing area, washable, radiator with mesh-cover, transparent notch for headlamps, suitable for the most popular models

PU = 1 piece

Item-No.	Color
9219-00678	black

WING PROTECTOR
>>

Wing protectors provide the perfect protection from scratches, dents, oil and dirt. In this way the quality of your work improves and the need for annoying finishing work is reduced. The protector is available either as a magnetic version or with sand weights. It can be used on almost all vehicles. The high quality materials guarantee you can keep on using it for a long time.

Incl. wheel arch, Dimension: 110 x 63 cm.

PU = 1 piece

Item-No.	Fixing
9219-00719	sand weights
9219-00659	magnetic

PP TENDER DOCUMENT AND PRESENTATION FOLDER WITH TAB CLOSURE

>>

The durable tender document folder with business card slots is made of environmentally friendly polypropylene. Ideal for project documentation, tender document presentations, etc. Includes eyelets for filing in ring binders or files. The integrated side flaps and the fastener on the front cover prevent documents from falling out.

PU = 15 pieces

Item-No.	Dimension	Color
9218-00871	DIN A4	transparent

TENDER DOCUMENT FOLDER

>>

This flexible tender document folder with transparent outer pocket is ideal for professional storage of your documents. Filing in a ring binder or file is possible thanks to the integrated filing mechanism. The integrated side flaps protect the documents against dirt, creases and loss.

PU = 5 pieces

Item-No.	Dimension	Color
9700-00001	DIN A4	transparent

FLAP FOLDER WITH ELASTIC BANDS

>>

Comes in different sizes and colors for DIN A4 or DIN A3, with elastic bands on corners.

These flap folders with elastic bands on the corners are the right choice if you want to safely store and transport plans, files and brochures. They are environmentally friendly, extremely durable and safely hold everything together. Available in different colors for A4 and A3 formats.

PU = 10 pieces A4 / 5 pieces A3

Item-No.	Dimension	Thickness	Color
9038-00739	DIN A4	0,45 mm	blue
9038-00740	DIN A4	0,45 mm	black
9038-00741	DIN A4	0,45 mm	white

9038-00743	DIN A3	0,60 mm	black
9038-00744	DIN A3	0,60 mm	blue

PP WALLETS

>>

These sturdy wallets are made of environmentally friendly 0.45 mm-thick polypropylene film. They have an integrated tuck-in flap that prevents documents from falling out.

Thanks to the transparent film you can still see what is inside the wallet. Available in DIN A4 and DIN A5 formats.

PU = 20 pieces

Item-No.	Dimension	Color
9038-00737	DIN A4	semi-transparent
9038-00738	DIN A5	semi-transparent

PRESENTATION AND PROJECT FOLDER

>>

Our practical project folder with side flaps has two additional inside pockets on the front and back for inserting title pages. Documents cannot fall out thanks to the unique closure that holds the bottom and side flaps together. The project folder includes business card slots and can also be used for DIN A3 documents. It is waterproof and made of durable 0.30 mm-thick PP film.

PU = 30 pieces

Item-No.	Dimension	Color
9700-00032	DIN A4	transparent

PP DOCUMENT POUCH WITH FILING STRIP

>>

Your documents are safe and sound in this document pouch. Thanks to the filing strip the DIN A4 document pouch can be filed in various files and ring binders. The snap on the flap protects your documents against loss. The transparent front gives you a quick glimpse of your documents.

PU = 10 pieces

Item-No.	Dimension	Color
9038-00748	DIN A4	transparent

PVC-DEHNFALTENTASCHE, HALBHOCH MIT DECKEL
>>

This professional expandable pocket features a high-quality and functional design. Made of 180 µm transparent PVC, with cover flap and filing strip; offers high stability, large capacity and good transparency. Provides quick access to your documents thanks to the semi-opening.

PU = 10 pieces

Item-No.	Dimension	Color
9218-01055	DIN A4	transparent

PVC EXPANDABLE POCKET, FULL COVER FLAP WITH FILING STRIP
>>

Our expandable pocket made of 180 µm PVC film reliably protects your documents and is easy to use. It opens upwards and features a filing strip with a euro hole pattern. Adds structure and clarity to your loose-leaf papers or other vehicle documents.

PU = 10 pieces

Item-No.	Dimension	Measurements
9218-01061	DIN A4	309 x 238 mm

PP DOCUMENT POUCHES
>>

This transparent document pouch is made of environmentally friendly PP and comes in DIN A4 and A5 landscape or portrait formats. Adds order to unstructured collections, e.g. for trade fair planning or company car use. The pockets are available with a velcro or snap fastener and hold up to 50 sheets.

PU = 5 pieces

Item-No.	Dimension	Alignment	Fastener
9218-00939	DIN A4	landscape	snap fastener

Bio-based plastic

Made from renewable sugar cane

Sustainable and innovative

Extremely tear and puncture resistant

Available in two versions

NEW

SIMPLY CONVINCING! THE FURTHER DEVELOPMENT OF OUR PRODUCTS THROUGH THE USE OF ENVIRONMENTALLY FRIENDLY FILMS.

The transparent EICHNER covers made from sugar cane are a particularly innovative and sustainable product. They are made from organic plastic and consist of renewable raw materials. Nevertheless, they are in no way inferior to conventional transparent covers in terms of appearance and handling. The consistently high quality that you have come to expect from EICHNER is also impressive here. The covers are extremely tear and puncture resistant, as well as recyclable and thus contribute to a saving on products made from conventional plastic. You can choose between a version with and without Euro perforation, depending on the desired area of application.

TRANSPARENT FILE COVERS

>>

The transparent file covers made from LDPE made from renewable sugar cane are a pioneering alternative to conventional envelopes of this type. They are document-proof, open on two sides for loose insertion of your documents and come with a grip strip and tear protection. Format: DIN A4, film thickness 0.10 mm.

PU = 100 pieces

Item-No.	Design	Material
9545-00001-110	open at top and right, with handle strip and tear protection	crystal clear

BROCHURE COVERS

>>

The brochure and filing pockets are also made from bio-based plastic. By dispensing with conventional covers, you can save on the consumption of petroleum-based plastic. They are document-proof, open at the top for filing documents that do not need to be perforated. They include a transparent, tear-resistant perforated edge reinforcement with Euro perforation. Format: DIN A4, film thickness 0.10 mm.

PU = 100 pieces

Item-No.	Design	Material
9545-00010-110	open at the top, tear-resistant perforated edge reinforcement with Euro perforation	crystal clear

Custom-fit covers for your requirements

For the document-proof storage of documents you can choose out of various file and brochure covers, which are available in different versions for individual applications. The storage articles are made of high quality on modern machines and are therefore durable and ready to use for a long period of time.
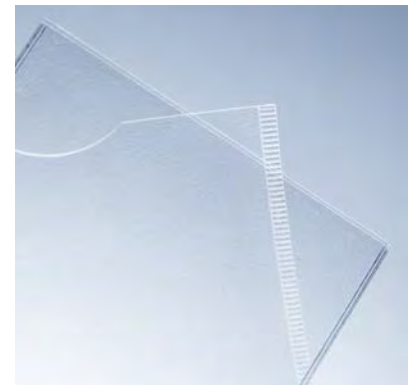

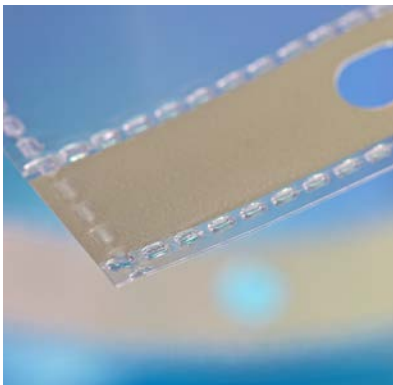

FILE COVERS

>>

The high-quality file covers are open on two sides, unperforated, with a grip strip and tear protection for loose insertion. Some of them are document-proof and plasticizer-free and available with different surface structures and in different film thicknesses. **PU = 100 pieces**

Item-Nr.	Typ	Size	Color
9540-02114-110	Polypropylene, film thickness 0,12 mm, plain	DIN A4	crystal clear

STORAGE CABINETS FOR FIRE EXTINGUISHERS, DEFIBRILLATORS AND FIRST AID KITS – MADE OF HIGH-QUALITY PLASTIC

>>
Some things we are happy to have but even happier if we never have to use them. These cabinets are not only attractive but also guarantee quick access in case of emergency, thus offering the perfect combination of an appealing look and utility. Put together your own "HELP" centre according to your available space and requirements. The first aid kit and defibrillator are variable add-ons for the fire extinguisher cabinet (for 6kg-powder-extinguisher or 2kg-Co²-extinguisher). „HELP" is very easy to open and features superior workmanship and quality.

PU = 1 piece

Rear width 311 mm

Front width 193,7 mm

MEDICAL AND EMERGENCY CABINETS

>>

In the first-aid cabinets there is space for all of the important medical supplies. The spacious shelves provide space for medicines, dressing materials and much more. Thanks to the lockable doors, you can store the contents safely.

Delivery is without contents, with an extra lockable inside compartment, white and made of powder-coated metal, with a green cross, shelves can be taken out.

Important: The inside compartment and the outer door are each equipped with a different lock (each with 2 keys).

You are an innovative business - why not show it outwardly?

Every business has its own image. Our professional designers will provide you with a distinctive contemporary design. That applies equally to folders and files for quotations, as well as driving licence cases, registration document covers and handbook folders. We would be pleased to advise you personally about the diverse design options.

Consistently representative

Your company color, your logo, your typography - all important elements of your internal and external communication. We are happy to take all of that into consideration in the design of your folders. The materials you favour also play an important role. We provide you with a multitude of options. Your individual image is applied throughout all areas - from organiser folders, registration document and driving licence covers to handbook and service folders. We produce folders, bags, covers, pouches, mouse pads etc customised according to your requirements. Numerous variations are conceivable, from simple bags and underlays to complex storage systems.

Handbook folders and vehicle documentation pouches according to your requirements

Vehicle folders reliably protect all important documentation and keep all of the documents together centrally. They even provide space for pens, business cards and service cards. We produce customised models for you in numerous colors, with various inner linings and your individual advertising print. Just contact us. We will be happy to advise you and submit an individual offer.

## Individual offer folders, writing pads and mouse pads

Thanks to the diversity of materials and print options, the folders for your quotations, desk pads or mouse pads become attractive advertising for your business. At the same time, the customer receives your quotations, brochures or vehicle documentation in an appealing form and a representative setting. If your customers find the practical folders attractive, they will often reuse them - creating effective advertising for your business.

The right idea for the perfect result

Would you like to provide information about your services or present contract documents in an appealing way?

Then we are the right partner for you! Our dedicated design and development team is always happy to take on new challenges, but will also be happy to advise you on tried and tested standard solutions. Contact us and together we will find the right product for your needs!
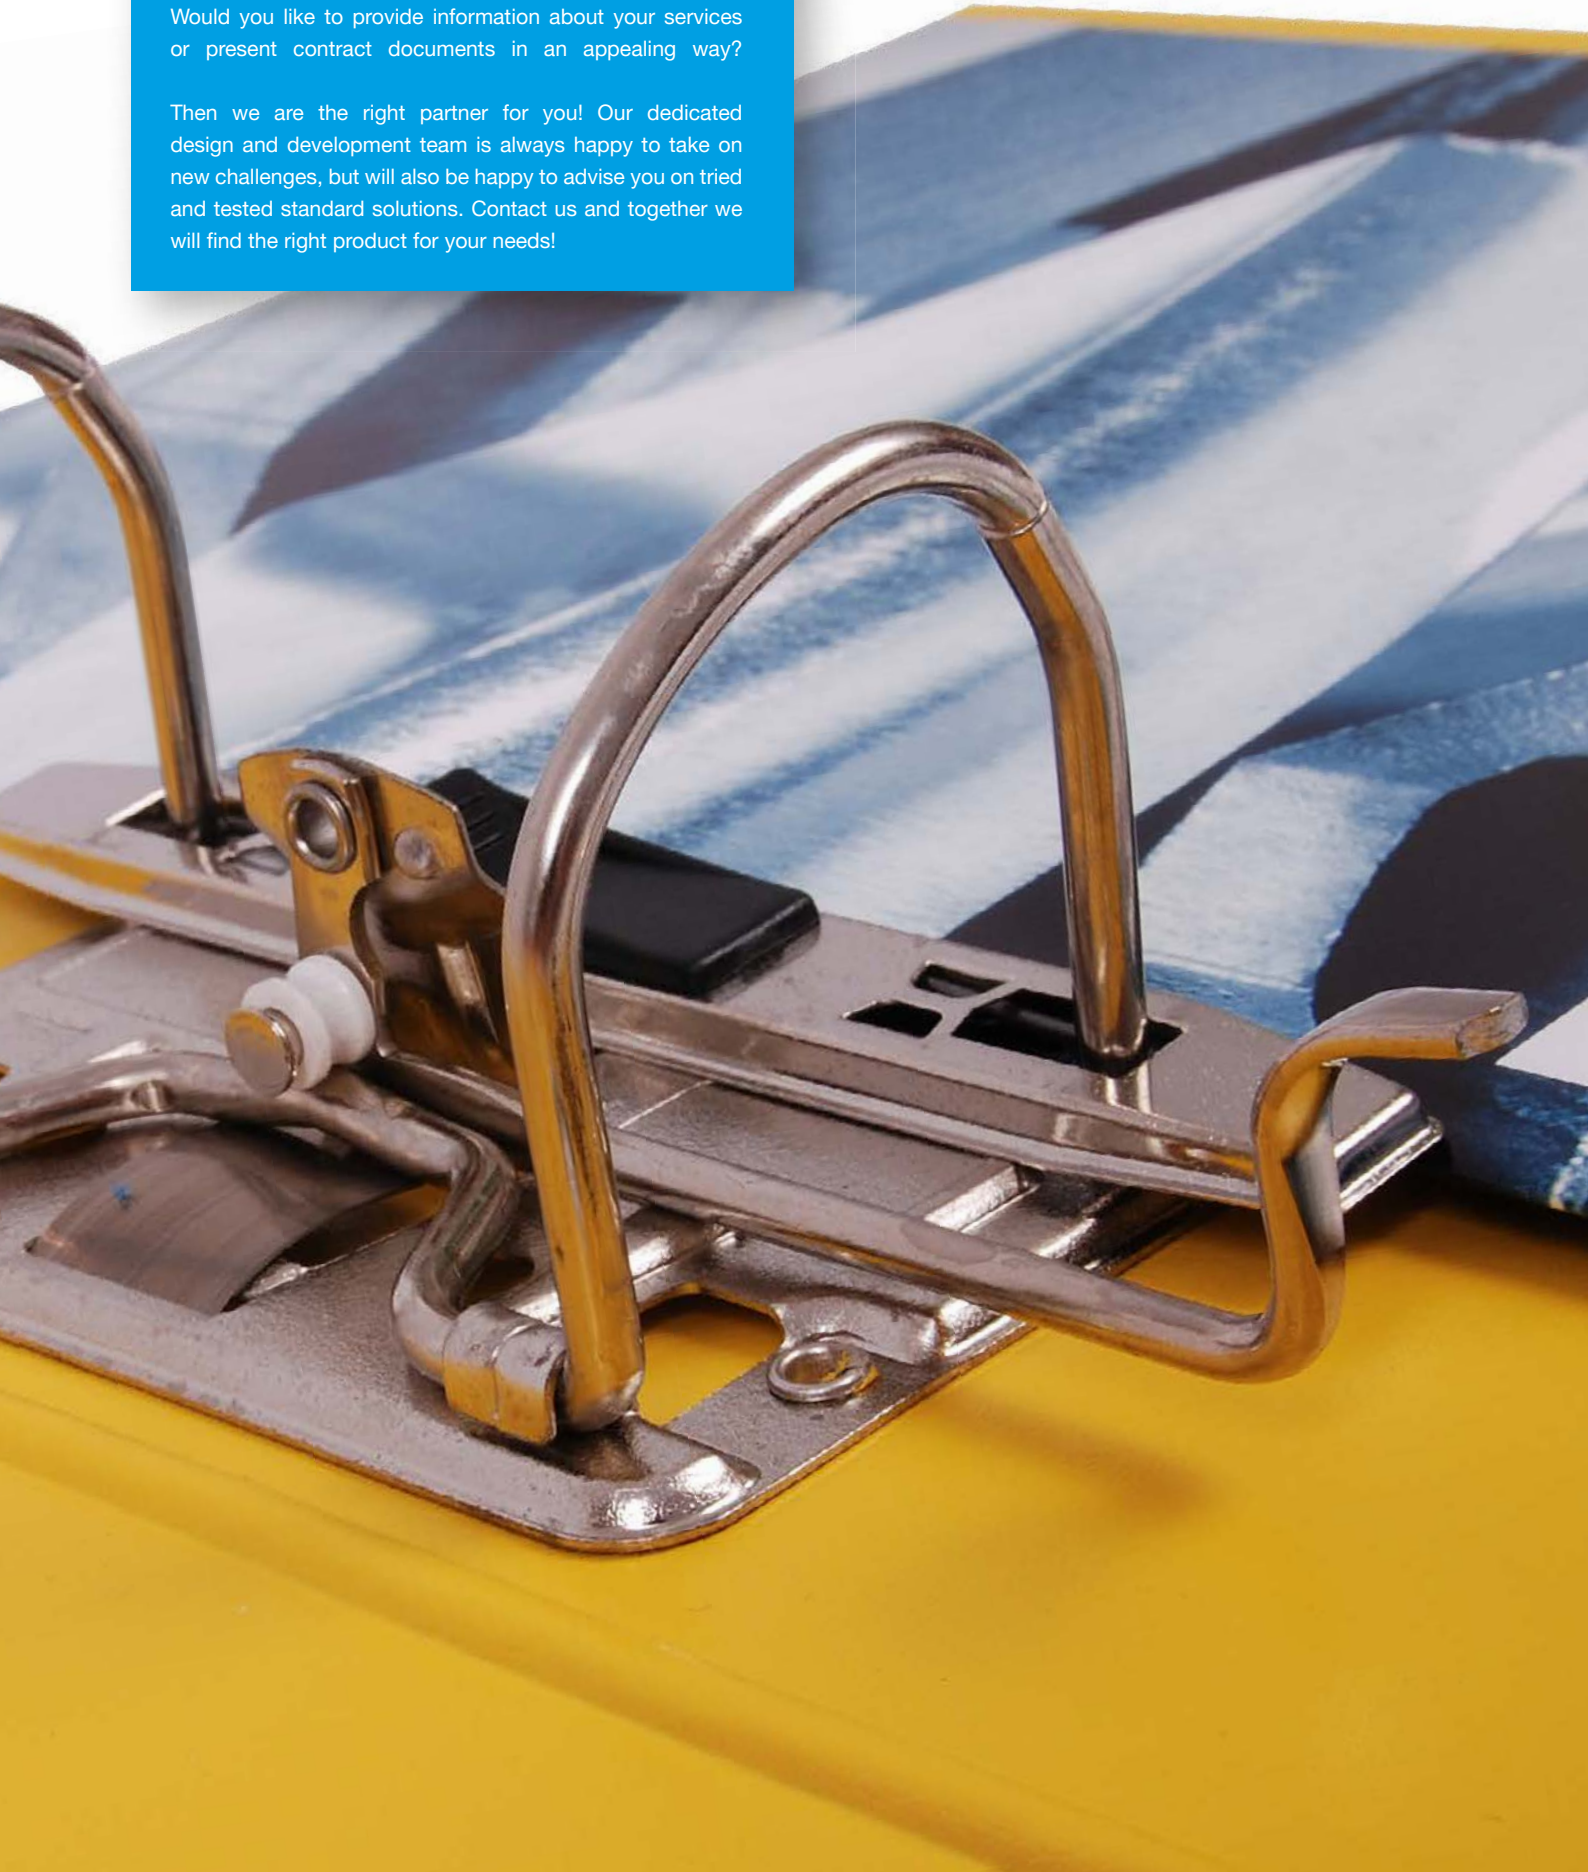

REGISTRATION DOCUMENT COVERS, ID POCKETS AND REGISTRATION DOCUMENT FOLDERS
>>

All designs made from a special foil - so that the inserted documents do not stick. Great protection for your driving licence and vehicle registration document.

REGISTRATION DOCUMENT FOLDERS
>>

These registration document folders made of high-quality soft-touch foam foil you can keep your documents safe together with a debit card and fuel card. The colored foil on the front can be customised with an advertising print.

9220-00124	150 x 40 mm
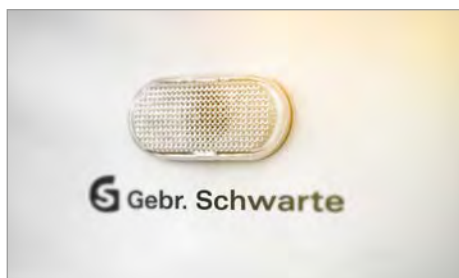

Effective protection against data misuse for all RFID/NFC products such as:

EC, credit and access cards, electronic ID cards, passports, fuel cards, fleet cards and other IDs.

What is RFID?
RFID stands for Radio Frequency Identification. This technology makes it possible to read and store data without physical or visual contact.

What is NFC?
Near Field Communication, or NFC, is an international transmission standard based on RFID technology for contactless exchange of data using radio waves over short distances of a few centimetres.

The spread of RFID technology has made data theft much easier. Instead of having to physically acquire the card to copy it illegally or to use it directly, RFID makes it relatively simple to read the information without contact from a distance of several metres. Another problem compared to traditional theft: The person concerned does not notice that he is a victim of a data theft. Use EICHNER products to effectively protect yourself against payment fraud and identity theft.

KEY CASE WITH SHIELDING FOIL
>>
Keep your keyless remote/smart key in this high-quality leather case to protect your keyless entry data from unauthorized access by hackers. Offers effective protection against theft of your vehicle by means of range extension (RSA) for keyless/radio systems.
Key ring diameter 30 mm.

PU = 1 piece

Item-No.	Dimension	Color	Key ring
9707-00336	125 x 80 mm	black	yes
9707-00382	120 x 90 mm	black	no

So funktioniert ein Hackerangriff per Funk

Keyless systems can be read through doors, walls, pockets and from a distance using radio technology

The hacker has a portable radio range extender

The vehicle thief carries a transportable radio receiver and radio transmitter with him

The car can be opened/started and stolen without anyone noticing

SHIELD CASE

>>

The robust shielding case for all Keyless car key fobs offers reliable protection against car theft. It blocks the radio signal and fits into the EICHNER key box. It is therefore also ideal for the used car trade.

PU = 1 piece

Item-No.	Color
9201-00055	schwarz

> ℹ The matching key box can be found on page 29.

NEW

SHIELDING BOX, RADIO SAFE

>>

The shielded, radio-safe box blocks the radio signal in such a way that the „open signal" from the remote control cannot be transmitted to the vehicle.

PU = 1 piece

Item-No.	Color
9201-00045	weiß

PROTECTIVE COVER FOR PASSPORTS

>>

Effective protection against identity and data theft
Unique identification numbers make it very easy to create individual buyer profiles and movement patterns. It is now possible without much effort to read data on an RFID chip even from great distances.
PU = 1 piece

Item-No.	Dimension	Color

NAME BADGES WITH METALLIC SURFACE
>>

This high-quality name badge has an extra-strong magnetic clip that guarantees the badge is firmly attached to shirt or blazer without damaging the textiles. Its high-class design makes a good impression both in the salesroom and at trade fairs. The name is printed on a paper insert and is exchangeable as required. The inserts are supplied as perforated DIN A4 print sheets.

PU = 25 pieces

Item-No.	Surface	Dimension	Insert
9218-03164	silver-metallic	67 x 34 mm	62 x 15 mm

On request, the name badge can also be screen-printed with your logo. You will receive the printing costs separately on request.

UNIVERSAL TABLE CLAMPS AND HOLDERS
>>

Universal table clamps made of metal, for quick and secure fixing of commercially available partitions. These table clamps can easily fix various materials such as glass, Plexiglas, acrylic, plastic, wood or metal up to a thickness of 8 mm and can be rotated on the holder in 45 or 90 degree steps. They are widely used in sales rooms, offices, schools, canteens, conference rooms and all types of workplaces. To protect high-quality surfaces, each table clamp has a protective rubber coating. The clamping range on table tops is from min. 2.5 cm to max. 5.5 cm.

TABLE CLAMP FOR PARTITION WALL
>>

For use in conjunction with partition walls
The bracket can be attached to table tops with a minimum height of approx. 25 mm. The maximum height of the tabletop should be approx. 55 mm. high. The clamp can be rotated on the holder in 45 degree steps, this allows it to be mounted both between two tables and to separate in the middle of a table, for example as hygiene protection. However, the holder can also be placed lengthwise along tables such as counters. This means that it can be mounted on any side of the table, board or similar, regardless of whether it is free-standing or lined up. Individual corner solutions are also possible.
PU = 1 piece

BRACKET AS EXTENSION
>>

For extending an existing partition wall
Whether you want to extend an existing partition wall with a privacy or hygiene screen, this practical metal bracket offers a stable solution. The bracket can be attached to existing partition walls with a width of at least approx. 25 mm. The maximum width of the partition should be approx. 55 mm. The clamp is rotatable on the bracket in 90 degree steps, this allows the partition to be mounted lengthwise as well as to separate between two walls. This allows you to choose the extension according to your requirements.
PU = 1 piece

For use in conjunction with partition walls
For the attachment of partitions, this practical this practical aluminium foot offers a stable and flexible solution. The bracket can be used to attach partition walls with a thickness of at least approx. 2 mm. The maximum thickness of the partition should be approx. 6 mm. It can be used flexibly, prevents the partition from tilting as well as provides a secure stand.

## HYGIENE BARRIER FOR COUNTERS AND CASHIER

>>

In many areas of business an effective protection from infection is important. The transparent hygiene barrier is made of 5 mm thick strong acrylic glass which protects staff members from transmissions due to coughing or sneezing. The two stand feet can be placed in 3 different positions to fit multiple areas of staging. With a central passage cutout, documents, money or cards can be exchanged. Because of the simple design, the barrier can be disinfected and cleaned regularly and easily.

Crystal clear protection!
Easy to assemble and place. Desk protection made of acrylic glass, barrier assists in continued work protection.

Features:
- 5 mm thickness, crystal clear acrylic glass
- Central passage, 250 x 100 mm
- In 2 sizes in width, 600 or 1.000 mm
- Stable, slide-on feet 200 mm width
- Feet optional self-adhesive
- 3 stand feet positions to either expand outward or inward depending on space (at 70, 100 or 130 mm)

PU = 1 piece

- **Easy to assemble**
- **Disenfectable**
- **5 mm thick, crystal clear Acrylic glass**
- **2 standard format sizes**
  (Special formats available upon request)

Item-No.	Dimension

DISINFECTANT STAND MADE OF PLASTIC

>>

With this stable, portable disinfectant dispenser made of plastic, efficient hand disinfection can be achieved anywhere without contact. The entire structure is easy to disinfect and can be used flexibly thanks to the practical stand including handle. Due to it's size it can be easily used on desks, tables and counters.

• Supplied assembled, plastic stand
• Easy to disinfect
• Safe stand thanks to the wide base (approx. 150 mm wide)
• Refillable bottle (1000 ml)

Item-Nr.	Color
9127-01824	white

DISINFECTANT WIPES IN DISPENSER TUB

>>

The practical dispenser box holds 200 disinfectant and cleaning wipes to hand for quick disinfection on all alcohol-resistant surfaces. With the cloths in size 215 x 215 mm, you can clean streak-free and odorless without bleach and do not need to wipe again. The dispenser box can be reused several times with the environmentally friendly refill pack. The disinfectant wipes are effective against bacteria, viruses (HBV / HIV) and fungi (Candida albicans).

How to use:
• Remove the lid of the dispenser box
• Cut open the top of the bag
• Put the bag in the dispenser box, leave the tissues in the bag
• Pull the first cloth from the center of the roll through the opening in the lid
• Then put the cover back on
• Always close the lid after removing the cloth

PU = 1 dispenser tub

Item-Nr.	Cloth dimension
9127-01819	215 x 215 mm

Innovations

Always leading the way - new ideas are important. That not only means new products but also new production processes, improvement of the product characteristics and expansion of the material range. In this way, we are constantly working on satisfying your requirements and demands with our ideas and solutions.

Newest technology

Sustainability

Fulfilling today's demands without jeopardising the future - this is an essential principle in the EICHNER company strategy. That is why we mainly use biodegradable materials such as PP (Polypropylene) and PET (polyethylene terephthalate) as well as environmentally-sustainable production and printing processes.

Environmentally-sustainable materials

Quality

All guidelines and processes for the production of our products are based on international standards. Awareness of and obligatory compliance with those as well as our ISO9001 certified production sites are the foundation for our quality. Moreover, we focus all of our knowledge and experience on fulfilling the demands of our customers.

ISO 9001/2008 certified
