

RABOTTI TEST BENCHES

Advanced technology for your workshop

**Do you already have a Rabotti test stand and you want to upgrade it to our last generation technology?
The “MBB retrofit” is the solution for you!!**

For its hundredth anniversary, Rabotti company decided to introduce a new device to allow the update of existing test stands, equipped with the former electronic board (MBB), to the last version of Rabotti electronic technology which is the same mounted on the newest generation of Rabotti stands (EM). The MBB retrofit device is the right solution developed by Rabotti for those loyal customers who want to maintain their stand at the top level of quality and technology.

The proposed update provides all coding capabilities present in newest Rabotti stands with enhanced quality of the results. Furthermore, this proposed upgrade also gives access to the new **“pay as you go”** strategy which is aimed at providing a new economical solution to better fulfil the necessity of each customer.

The activation of each coding capability is FREE!
