**PRODUCTION FACILITY**

Our production is carried out in a modern and integrated facility of 32.000 m<sup>2</sup> located in Bursa, Turkey.

# RUBBER AND RUBBER METAL PARTS

Our products are providing a perfect anti-vibration comfort to the engine and other vehicle systems.

## HOSES

We offer a great variety of hoses. Materials we mostly use in hose production are EPDM, NBR, NBR-PVC, CR, AEM, VMQ.

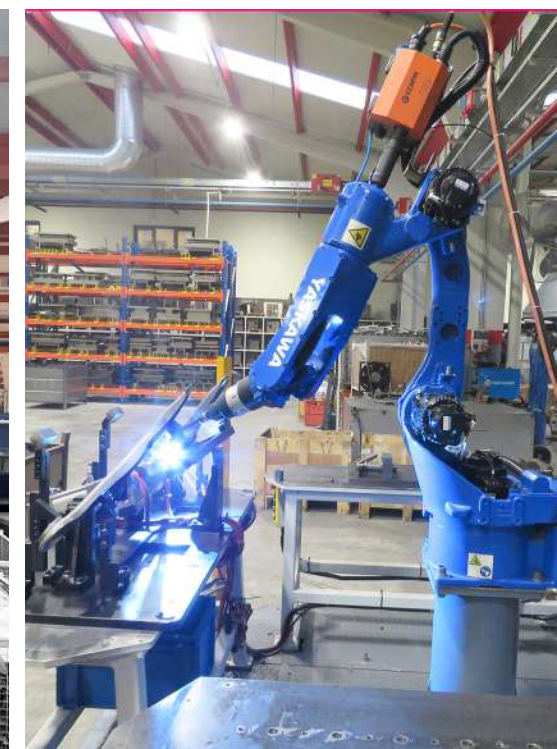

# SUSPENSION PARTS

Our production range and machinery are continuously expanding. The latest addition is suspension parts which we produce by using the latest production technologies.

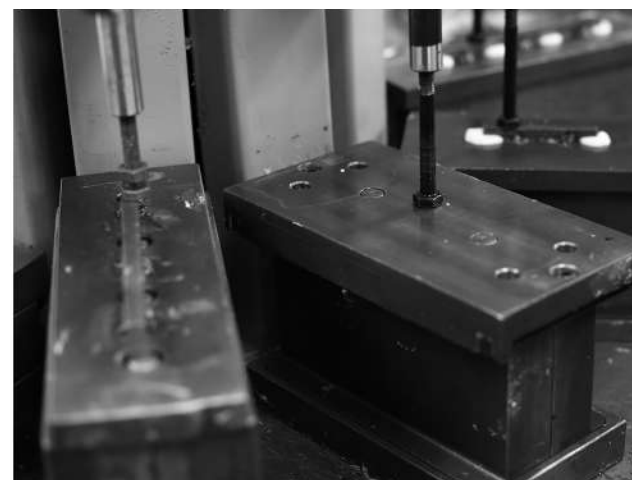

## SUSPENSION BUMPERS AND BELLOWS

Our suspension bumper and  
bellow production is made of  
high quality material.

## PLASTIC AND METAL PARTS

We have a large number of  
molds thanks to our  
inhouse molding facility.  
In this way, we can produce  
multi different metal and  
plastic products.

# QUALITY

Validation of our products quality are provided by our own testing laboratory. Every product starting from raw material to the final product is subject to a quality control by our competent technicians.

## IN HOUSE MOLDMAKING, METAL FORMING AND ALUMINIUM INJECTION

We are making our own molds with high precision and superior durability. Along with moldmaking, metal forming and aluminium injection process are also carried out inhouse.

# PACKAGING AND LOGISTICS

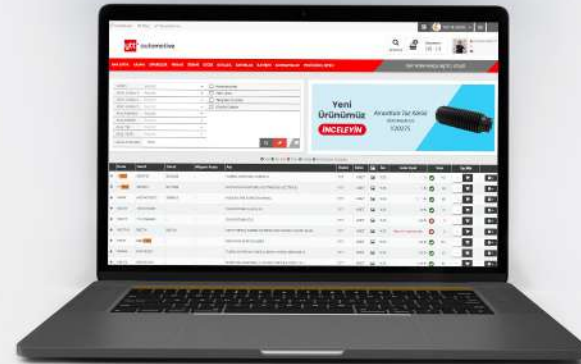

We provide fast and reliable delivery. Thanks to our well experienced packaging and logistic personel our customers receive their goods on time, safely with high quality packaging.

## ONLINE CATALOGUE AND B4B

Our user friendly website allows you to access to more than 10.000 products where you can make search by OE no / YTT no / Product name and you can also easily create your own PDF catalogue.

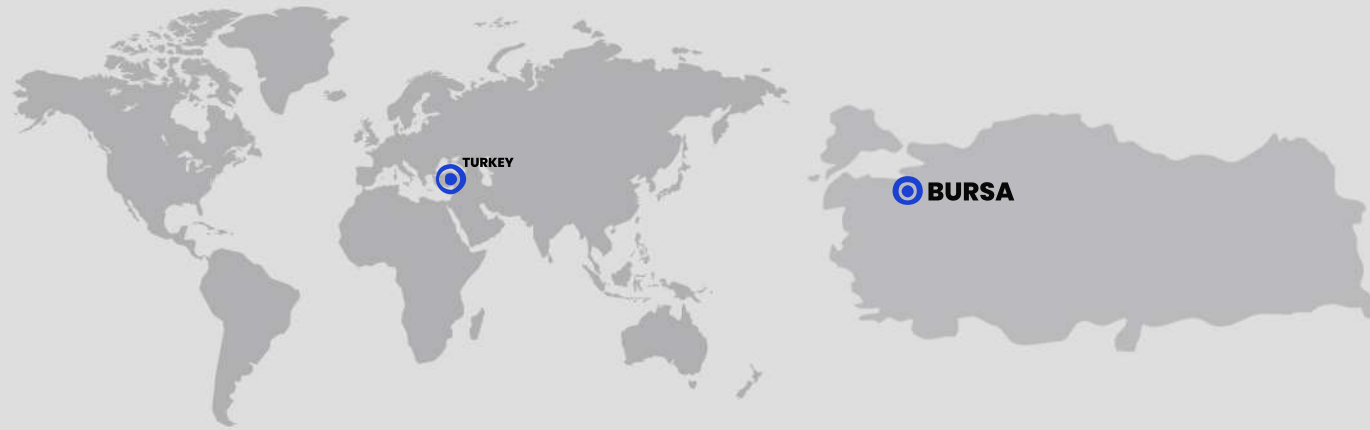

Our B4B software users can additionally prepare and validate their orders via this online tool.

## PRODUCT RANGE

We offer a wide range of products over 10.000 items and increase it continually upon the request of the market.
