Our solutions

Product portfolio

Wiring harness

Wiring harnesses
for doors and
hatchbacks for
European
applications

Pump-nozzle cable assemblies

Pump-nozzle cable
assemblies for
common VAG
injectors

Glow plug bridges

Glow plug bridges
for common VAG
applications

Plug in systems

Different plug in
systems for the
European, US and
Asian market

Adapter cables

Adapter cables for
ABS for VAG
applications

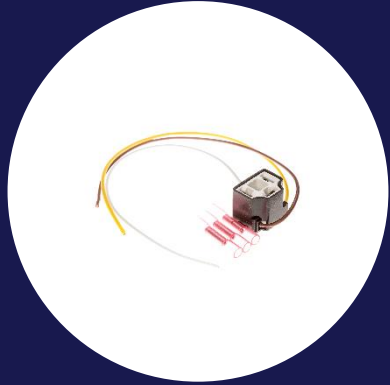

Glow plug repair cable

Easy to install glow
plug repair cables
for common glow
plugs

Adapter cable headlight

Adapter cable sets
for headlights for
european
applications

Lamp socket

Lamp sockets for
universal and
specific applications

Tailgate wiring harness

Tailgate wiring
harnesses for the
european market

Repair kit case

Repair kit cases to
have everything that
you need right by
your side
(filled with customer
specific items)

Sealing kits

Sealing kits for
injector/pump-
nozzle units in VAG
applications

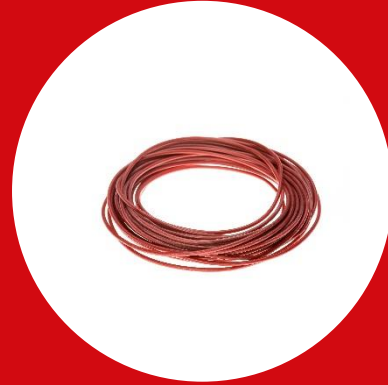

Connector sets

Over 5000 different
connector sets
including fitting
terminals and
sealings

Repair lines

Single repair lines
for easy and quick
repairs without
special tools

Cables

Silicone cables for
any type of repair

Water pipe repair kit

Water pipe repair
kits for universal
applications

Our main product groups

Flexible and perfect fitting
rubber grommet

Washer water pipe
with connectors

Highly flexible silicone cables
with fine-stranded tinned copper
strands

Optionally fitted with butt or
thermal shrink connectors
(waterproof)

Wiring harness

Due to our **high quality materials** and manufacturing, our products are highly robust, temperature resistant and completely corrosion-free.

Pump-nozzle cable assemblies

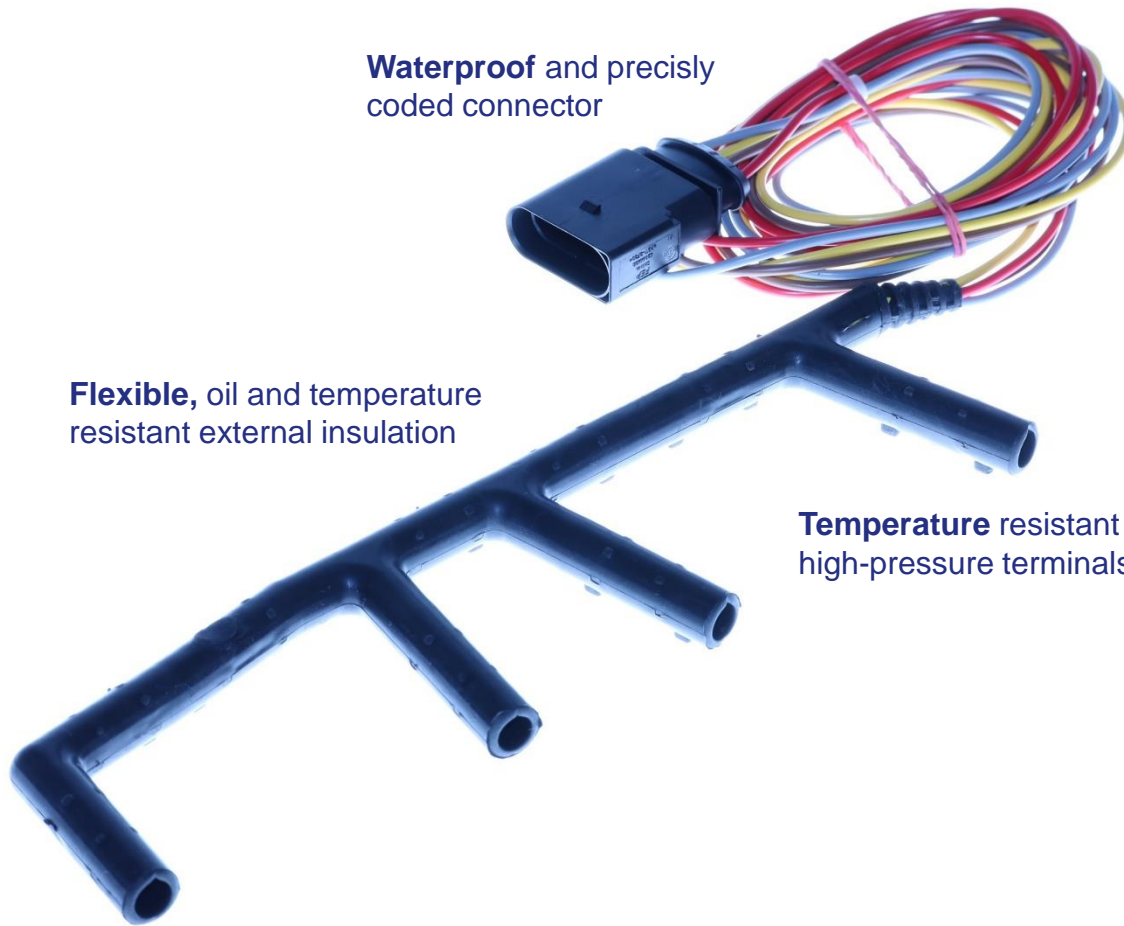

For this product group we especially focused on creating a **sustainable solution for oil leaks and cable breaks.**

The polyamide housing together with the additional sealing and terminal security result in a highly temperature and oil resistant pump-nozzle unit.

Waterproof and precisely
coded connector

Flexible, oil and temperature
resistant external insulation

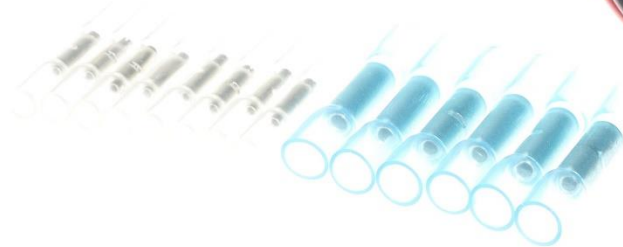

Temperature resistant
high-pressure terminals

Glow plug bridges

To provide the **highest quality for our costumers**, we produce our articles only with high quality materials. To prevent any damage done by oil and heat, we also rely on temperature and oil resistant materials.

Pre-assembled
silicone cables

Includes waterproof thermal
shrink connectors

Precisely coded and
pre-assembled connector
with fitting terminals

Plug in systems

For this type of product we especially focused on **optimizing the mounting process**. With our pre-assembled plug in systems you can complete a repair quick and easy without any special tools.
