

EV CHARGING CABLE

CHARGE WITH CONFIDENCE

Our charging cable for electric and plug-in hybrid cars is developed and produced according to the highest automotive standards available in this field. The Type 2 32A - 3 phase cable meets protection class IP 54 against dust and water, and silver-plated contact pins guarantee a high number of connector mating cycles with low heat generation. The robust housing guarantees drive-over safety and the ergonomic design of the fully potted handle provides the high-quality level experience we set as goal for this charging cable.

With over 30 years of experience, you can be confident that with ECS Electronics you have a strong partner on your side in the automotive industry.

MAKE IT YOURS

The charging cable can be fully customized to your wishes in order to match your brand identity or special model line-up. Together with your engineering team we can investigate the possibilities to match your demand.

The color of the Type 2 connector, the color of the cable itself and even the color of your logo can be customized.

We invite you to discuss the numerous possibilities with our design team and discover the many ways our charging cable can be adapted into your corporate identity.

ECS Electronics is an established international company specialised in development, manufacturing, validation and marketing of premium quality electronic connection systems for the automotive industry.

Our product portfolio includes solutions for automotive accessories, vehicle telematics and test & diagnostic equipment. In addition, by maintaining a flexible automotive manufacturing base and our own in-house Research & Development and Electronics departments, we are able to deliver customised solutions.

With over 30 years of continued improvement, we are the number one supplier of vehicle specific towbar wiring kits in the European market.

From our production plants in The Netherlands and Vietnam we provide cutting-edge products to more than 20 of the biggest automotive original equipment and aftermarket brands around the world.
