

# TOWBAR WIRING KITS

# ECS ELECTRONICS GUARANTEES:

## ✓ PREMIUM QUALITY AND ISO/IATF CERTIFICATION

Over the years, our company has continuously invested in technologies and equipment, as well as recruiting and nourishing the best employees. The ISO/IATF 16949 standard, for which ECS Electronics has been certified since 2006, serves to underline this. Additionally, we are continuously working on meeting the requirements of regulations, controlling the environmental risks and improving environmental accomplishments. This has resulted in an ISO 14001 certification.

## ✓ WIDEST RANGE OF PRODUCTS AND HIGHEST AVAILABILITY

With more than 8000 towbar wiring kits we have the widest range of products in the market including kits for the latest car models. Additionally we have more than 100.000 kits in stock. Products are stored in vast warehouses in all of Europe. As soon as orders from clients arrive, we are able to respond immediately and thus to deliver correctly and quickly. We provide our clients with the possibility to connect ERP systems through EDI data format in order to reduce order processing costs.

## ✓ BEST CUSTOMER SERVICE AND FREE TECHNICAL SUPPORT

We employ various features in order to help our customers in the best possible way. It all starts with the comprehensive fitting instructions with clear step-by-step illustrations that can be found inside each wiring kit package. For any questions during the installation, customers can easily consult the FAQ's on the website or contact the free multi-lingual ECS Technical Support helpline. Recently, we introduced the Installation Support Videos in which the most common difficulties of the installation of a specific wiring kit is covered in a registration of approximately five minutes.

## ✓ QUICK INSTALLATION, SAFETY AND DURABILITY

ECS Electronics towbar wiring kits are designed to be installed with a reduced installation time. We are specialised in dedicated vehicle solutions. When possible the plug & play principle is applied. Safety and reliability are key: the wire diameters and signal outputs are carefully calculated to ensure that there is no interference with car electronics and no risk of harming a vehicle's electrical system.

## ✓ COMPLIANCE WITH THE EUROPEAN LEGISLATION

The functionalities of our towbar wiring kits meet all requirements of the European legislation, such as C2 indicator warning system in Germany and Austria. The modules within each wiring kit conform to all European directives concerning interference resistance. In addition, ECS Electronics products comply with the REACH and RoHS directives.

*As our core product,  
ECS Electronics' towbar wiring kits  
ensure absolute satisfaction by seamlessly  
integrating the latest OE vehicle technology with the  
highest level of wiring performance and installation ease  
available. Where needed, CAN-bus technology is  
integrated into all the necessary functions.*

ECS Electronics is an established international company specialised in development, manufacturing, validation and marketing of premium quality electronic connection systems for the automotive industry.

Our product portfolio includes solutions for automotive accessories, vehicle telematics and test & diagnostic equipment. In addition, by maintaining a flexible automotive manufacturing base and our own in-house Research & Development and Electronics departments, we are able to deliver customised solutions.

With over 30 years of continued improvement, we are the number one supplier of vehicle specific towbar wiring kits in the European market.

From our production plants in The Netherlands and Vietnam we provide cutting-edge products to more than 20 of the biggest automotive original equipment and aftermarket brands around the world.
