- ✓ heavy commercial vehicles

TEXCO

Zent
PARTS

The brand was introduced to the market by the German company ATH&S GmbH, which has extensive experience in interacting with auto parts manufacturers around the world and successfully developing more than 10 brands that cover more than 800 product categories in various quality lines.

In 2023, for the purpose of global distribution and further development, the brand was acquired by Texco FZE, United Arab Emirates, specializing in the production and supply of automotive components to the international market.

The range of ZentParts-branded products includes the most comprehensive product ranges for passenger cars, for heavy and light commercial vehicles and is based on the most demanded similar parts in the market within each product range.

The brand's products are represented in more than 34 countries worldwide. They are mainly used by independent and network service stations that repair and service foreign-made vehicles.

Since 2021, the products have been supplied to the retail trade network. The consumer receives professional solutions for car repair at a fair and favourable price.

BRAND MISSION

zent
PARTS

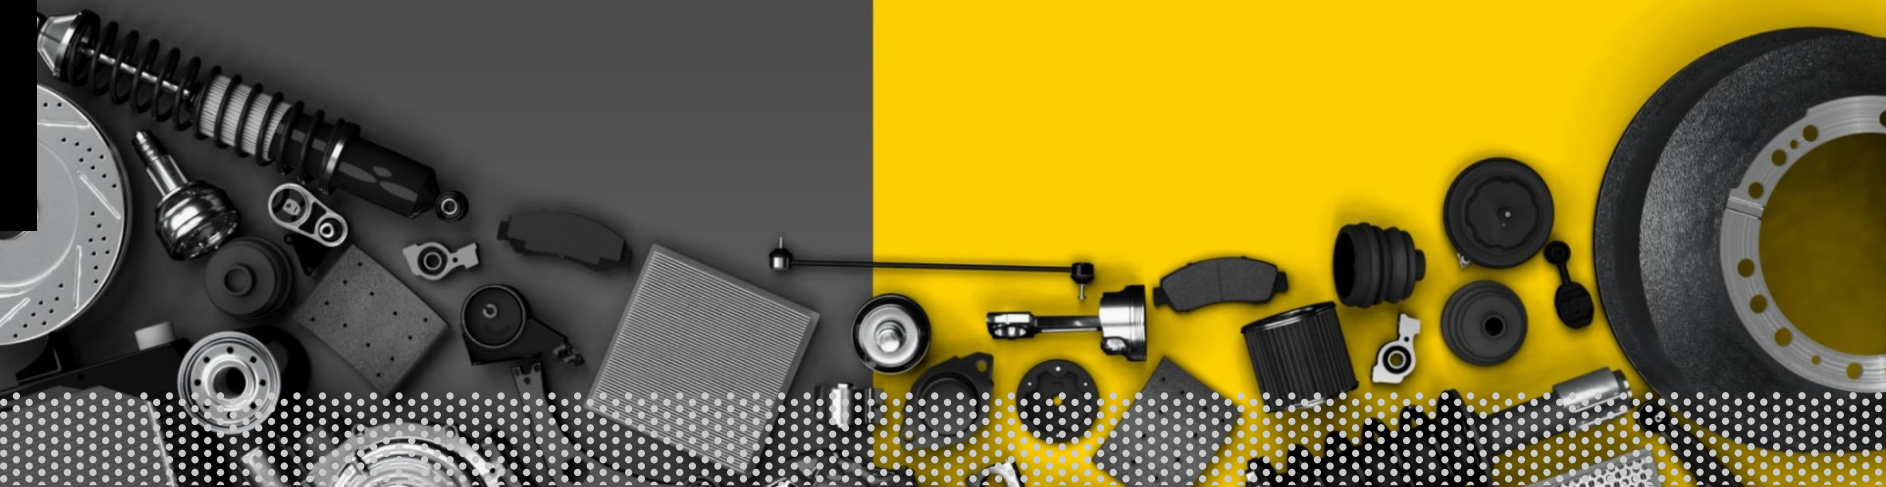

MANUFACTURE
SITES ARE EU
CERTIFIED

WARRANTY,
QUALITY
CONTROL

Taking into account all the peculiarities of the development of the auto parts market, focusing on the safest possible operation of a vehicle and scheduled maintenance, we stick to the following objectives:

- ✓ We provide quality service at competitive prices, serving all needs of automotive aftermarket and making it a priority.
- ✓ We bear full responsibility for every spare part we sell.
- ✓ We provide consumers with exhaustive information for a conscious choice. Using advanced technologies, we create dependable spare parts for a new level of vehicle operation.

BRAND VALUES

**MANUFACTURE

CONTROL**

zent
PARTS

ZentParts guarantees impeccable durability of every part, always staying true to its key values:

TECHNOLOGIES AND QUALITY CONTROL

We provide access to the information about certification and testing of parts in accordance with the CU regulations.

Guaranteed service life of every spare part is ensured by ZentParts internal quality control system.

RESPONSIBILITY AND TRANSPARENCY

We provide information about the production of ZentParts items in factories in developed countries in a fair and open manner.

PROFESSIONAL APPROACH

ZentParts products are used in maintenance and repair activities in independent and network service stations which value their reputation.

QUALITY MANAGEMENT SYSTEM

Zent
PARTS

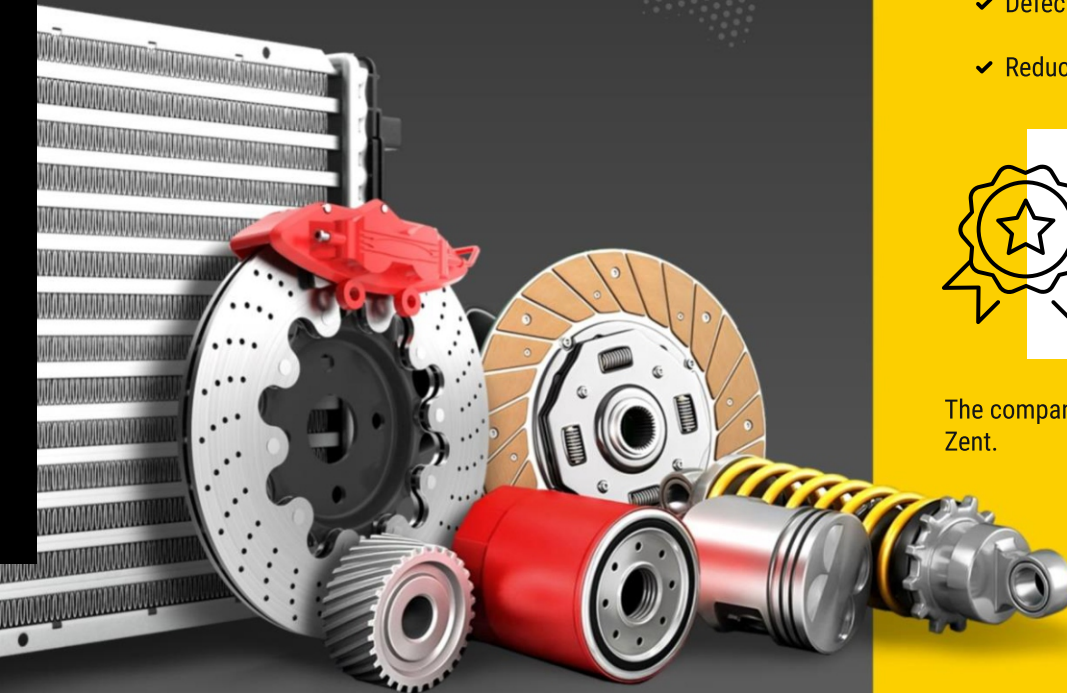

To ensure the guaranteed operational life of every spare part under the ZentParts brand, the internal quality control system called Total Quality Zent, which is based on the IATF 16949 standard, has been developed and implemented, and the system is focused on:

- ✓ Continuous quality improvement;
- ✓ Defect prevention;
- ✓ Reduction of variation and loss in the supply chain.

The defect rate for the calendar year was 0.02%; Each case was investigated and necessary measures were taken by the suppliers

The company holds an international quality system certification called Total Quality Zent.

CERTIFICATION

Zent
PARTS

ZentParts manufacturing facilities are approved by international certification bodies in terms of compliance with quality management system requirements and have the following conformity certificates:

- ✓ **ISO 9001** International standard that establishes requirements for enterprise quality management system (QMS);
- ✓ **ISO 14001** International Standard for Environmental Management System Requirements;
- ✓ **IATF 16949** International industry standard and technical specification. The standard describes the requirements for quality management systems for enterprises involved in the design, development, production, installation and maintenance of automotive products;
- ✓ **ECE R90** European product quality standard certificate that is issued after a series of tests of brake pads for performance and compliance with factory dimensions of original parts.

ADVANTAGES

ZENT
PARTS

ZENTPARTS PRODUCTS HAVE A NUMBER OF ADVANTAGES:

The spare parts are manufactured in factories in developed countries. Information about origin of manufactured parts is provided.

Guaranteed reliability. Disclosure of information on certification of parts in accordance with TR CU regulations. Disclosure of information on additional testing as part of voluntary certification.

All manufacturing sites are part of the global quality assessment system for assembly line suppliers (ISO 16949) and are certified by a European certification body.

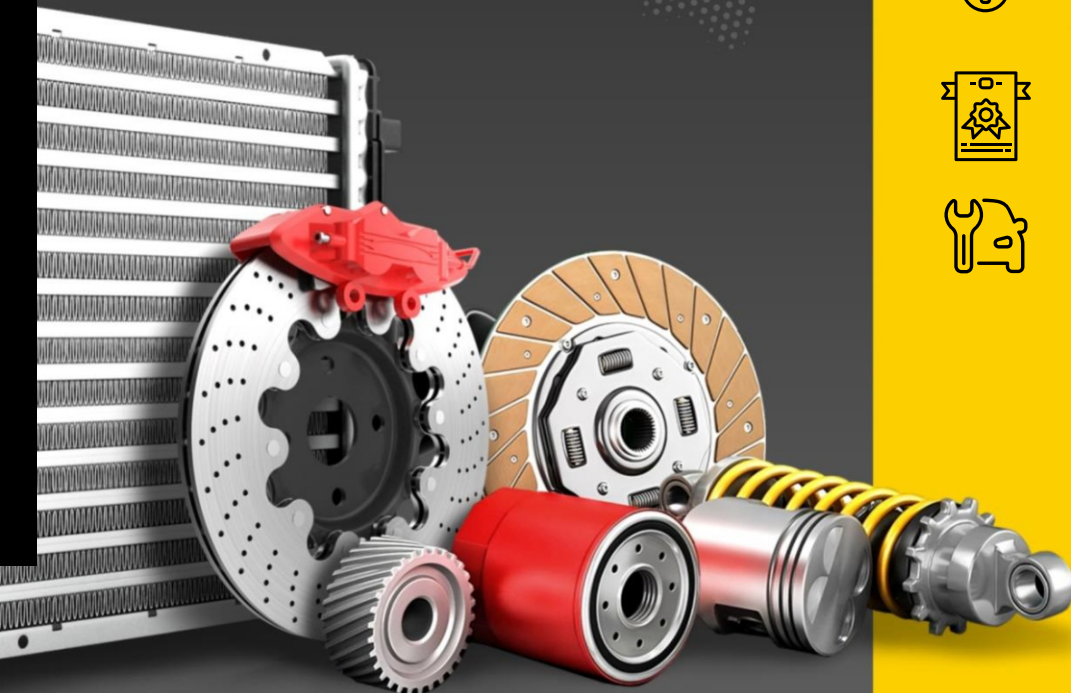

The spare parts are used to service and repair vehicles at specialized service stations.

2-year warranty for spare parts for passenger cars

1-year warranty for spare parts for commercial vehicles

ZENTPARTS TESTS
