WHAT WE DO

AFTERMARKET

We develop **automotive spare parts** with a specific goal: We offer not only products, but **Technologies, Services** and **Solutions**.

ORIGINAL EQUIPMENT

Our **experience** in the sector, allows us to **design** and **build finished products** and **customized technical components** for every kind of vehicle.

2

OUR HISTORY

Our company was founded in 2019 just before the start of the pandemic. Despite the complicated period, our **values**, our **skills** and our **long experience** gained over the years have been a basic added value and they have given an even greater impetus to the passion that normally **moves us**.

We combined **technical-managerial skills** and **international know-how** to offer the best, but we didn't stop there. Indeed, our ambition pushes us to pursue continuous improvement in terms of **quality, service and completeness of the range**.

3

OUR PRODUCTS

A **complete product range** that reflects the **real** needs of the **market** and our **distributors**.

**WHEEL
HUBS**

**SHOCK
ABSORBERS**

STRENGTHS

- **High quality/price ratio.**

A lean but efficient organization allows us to be competitive while maintaining the best quality levels.

- **Good range coverage and high product development capability.**

Starting from an initial range based on the coverage of the most important articles, our skills allow us to develop new products and new solutions in a constant and optimized way.

- **Constant investments in logistic.**

This is how we can guarantee an high level of service constantly monitored for a continuous improvement.

- **Distribution policy of our products in line with the needs of the today's market.**

We only choose distributors who are modern, dynamic, proactive and, above all, close to the customer.

- **Deep technical know-how.**

Maximum attention to the production process and to the quality of the products.

9

PACKAGING

Attention to details is very important to us, this can also be seen in our packaging. **High-level materials** and **modern design** come together to give life to a **very refined** packaging in terms of style and quality.

10

HEADQUARTERS AND CONTACTS

Located in the industrial area of **Bruino** (30 km from Turin), our headquarters is the hub of our business, where you can find the **warehouse, logistics, quality** and **product development center** and all our **offices**.
