FULL RISE SCISSOR LIFT

- 3500KG lifting capacity.
- The profile is as low as 105mm, perfect for surface mounting.
- Platforms can be extended maximally to 2300mm. Picked-up wheelbase can be up to 3400mm.
- Users' safety is double guaranteed by using both mechanical latches and restrictive valves.
- Reliable automatic-synchronization system.
- More free space under lifted vehicles due to maximally narrowed platform width and maximally enhanced rising height.
- 24V safe control system.

TECHNICAL DATA

MODEL NO.	6501
Lifting capacity	3500kg
Max. lifting height	2000mm
Min. height	105mm
Lifting time	Approx. 45S
Motor	3.5kW
Platform width	635mm
Weight	900kg
Electricity supply	According To Customer Needs

* Machine shown with optional equipment. Actual product appearance may differ.
