COMPANY PRESENTATION

2024

ADVANCED FLUID TECHNOLOGY

COMPANY PROFILE

HEXOL LUBE Ltd. is registered in Romania at the Commercial Registry under no. J05/1259/2011 and VAT no. RO28678527.

The company's headquarter is located in Paleu, 1A Ardealului Street, Bihor. The main activity of the company is: lubricants and chemicals blending and packaging CAEN Code - 2059.

The company's administrator is **Mr. Cristian Apolozan**

The president of the company is **Mr. Daniel Serghei Condratov**

ISO 9001 CERTIFIED

The ISO-9001 certification of HEXOL LUBE S.R.L. is yet another confirmation that we are carrying out our professional activities with motivation and dedication.

HISTORY

In 1998, Hexol began its activity by importing its products in Romania from the Canadian Hexol branch. An increase of sales and good development of the Romanian market in the following 3 years led to the establishment of a production unit in Romania for motor oils, industrial lubricants and automotive chemicals, alongside the imported products, all under the HEXOL license/brand.

In 2002, local production developed and diversified as a result of the new blending and packaging facility. In the fall of the same year, by assimilating the blending technology, Hexol Lubricants increased the production volume of automotive (engine and transmission) and industrial oils (hydraulic, compressor, turbine, soluble, etc.).

In 2003, after the expansion of our facility, adding new blending and packaging equipment, we started the production and packaging of automotive lubricants in different shapes and volumes and PET bottles, as well as that of special industrial lubricants such as: metalworking fluids, heat transfer fluids, slideway lubricants, etc.

Starting with 2011, our company began to sell its product range outside of Romania, first in Bulgaria, then in 2012 in Hungary and later in Croatia.

In 2015, we created a dedicated export department, then approached and opened new markets.

As a result of the activity of this department, Hexol products are today present both in the AMEA area (Africa, Middle East, Asia) through an exceptional manufacturing partnership with one of the most important companies in the United Arab Emirates, as well as in the following markets in over 20 countries: Austria, Belarus, Bosnia-Herzegovina, Bulgaria, Croatia, Cyprus, Estonia, Georgia, Greece, Iraq, Kosovo, Latvia, Lithuania, Macedonia, Moldova, Montenegro, Romania, Serbia, Slovenia, Hungary and Ukraine .

We are determined to strengthen existing markets, explore new opportunities, but also improve and optimize production by expanding and modernizing the lubricant factory into a state-of-the-art production facility, thus marking our 25th year of existence of the brand Hexol®. The investment exceeds 1,200,000 Euros and will respond to the growing needs of the company and its partners by expanding the bulk storage capacity to store over 1,000 tons of various products, increasing the total production capacity to 40,000 tons of lubricants per year and the storage capacity for packaged products at over 1300 pallets.

The potential for expansion is very high and the location of the factory near to the north-western border of Romania, a connection point with Central and Western Europe, facilitates faster delivery to markets all over the world.

PRODUCTION

In 2011, we started a very successful collaboration with Stihl Romania, producing private label chain oil for the Romanian market. Due to a very good cooperation, in 2013, Stihl Germany approved new countries and we extended the collaboration with Stihl Greece and Stihl Hungary.

Today, the plant located near Oradea has a blending capacity of over 10 000 MT of lubricants and chemicals. The facility is endowed with four bottling lines (different bottle capacities), feed regulators, labeling, ink-jet printing, shrinking-foil packaging machines, etc. Almost 50% of the blending capacity can be packaged in small volume bottles (0.23L - 5L), the rest of the production being intended to accommodate large industrial packages (10L - 1 000 L).

The PET and HDPE bottles are manufactured in different customized shapes, by a company within our group. We have a good variety of packages – 0.23L, 0.45L, 0.5L, 0.6L, 0.9L, 1L, 3L, 4L, 5L, 10L, 20L, 60L, 208 L and 1 000L.

In regards to quality assurance, we perform chemical analysis in our own laboratory, which is equipped with digital, high-performance tools from leading manufacturers of lubricant testing equipment such as: Canon, Tanaka, Talassi, Herschel, Koehler and Grabner. As such, quality control is done by our own specialists thus ensuring that every batch produced maintains a high level of quality.

PRODUCTS

HEXOL's portfolio includes:

- HEXOL lubricants
- HEXOL greases
- HEXOL automotive chemicals

The launch of our Synline product range marked the starting point of a more complex process of renewing the Hexol® image and portfolio.

Due to the positive reaction and the success of the new Synline product range, on both domestic and international markets, Hexol® continued updating and integrating the new industrial personalized packaging within the new image of the company's products.

This process accompanies the development of new products in the existing series and the extension of the Synline series with new premium products, meeting the most demanding quality and performance standards available at the moment.

Being considered a producer of high-quality lubricants and chemicals, we continuously develop new products and packages, striving to grow our sales and profitability through a competitive management team, new products, new customers and new territories.

- The following list does not contain all Hexol products and packaging, nor all product specifications!

A. HEXOL AUTOMOTIVE

1. HEXOL SYNLINER SERIES LUBRICANTS

- are new generation automotive multi-grade high quality oils, dedicated to high performance engines:

- Hexol SYNLINER UltraDiesel DPF SAE 5W30 • API CF/SN • ACEA C3 • VW 504.00/507.00
- Hexol SYNLINER UltraDiesel DPF SAE 5W40 • API CF/SN • ACEA C3 • VW 502.00/505.00/505.01
- Hexol SYNLINER SprintPlus SAE 5W40 • API SN/CF • ACEA A3/B4 • VW 502.00/505.00
- Hexol SYNLINER SprintPlus SAE 5W30 • API SN/CF • ACEA A3/B4 • VW 502.00/505.00
- Hexol SYNLINER SuperDiesel DPF SAE 5W30 • API SN/CF • ACEA C3-12, ACEA A3/B4 • VW 502.00/505.00/505.01
- Hexol SYNLINER Sprint SAE 10W40 • API SL/CF • ACEA A3/B4 • VW 501.01
- Hexol SYNLINER SuperDiesel SAE 10W40 • API CI-4/SL • ACEA A3/B4 • MB 229.3/229.5
- Hexol SYNLINER SuperTruck SAE 10W40 • API CI-4/SL • ACEA E7 • MAN M 3275 • MB 228.3/228.5 • VDS 3
- Hexol SYNLINER UltraTruck SAE 10W40 • API CJ-4/SN • ACEA E6/E7/E9
- MAN M 3477/3677 • VDS 4 • MB 228.51
- Hexol SYNLINER UltraTruck SAE 15W40 • API CJ-4/SN • ACEA E6/E7/E9
- MAN M 3477/3677 • VDS 4 • MB 228.51
- Hexol SYNLINER 4T MotoSprint SAE 10W40 • API SL/CF • ACEA A3/B4 • JASO MA-2
- Hexol SYNLINER Torsion ATF • DEXRON III H
- Hexol SYNLINER Torsion SAE 75W90 • API GL-5
- Hexol SYNLINER Torsion SAE 75W80 • API GL-5

2. HEXOL PREMIUM SERIES LUBRICANTS

- Hexol SuperDiesel SAE 15W40 • API CI-4/SL • ACEA A3/B4
- Hexol TurboDiesel SAE 10W40 • API CF/SJ • ACEA A3/B4 • VW 501.01
- Hexol TurboDiesel SAE 15W40 • API CF/SJ • ACEA A3/B4 • VW 501.01
- Hexol Sprint SAE 10W30 • API SF/CD
- Hexol Sprint SAE 15W40 • API SF/CC
- Hexol Sprint SAE 20W50 • API SF/CC
- Hexol SuperTruck SAE 15W40 • API CI-4/SL • ACEA A3/B4
- Hexol Torsion 80W90 • API GL-5
- Hexol Hydromotor SAE 10W • API CF •
DIN 51524 part 2 (HLP)
- Hexol Torsion Hydrgear TO-4 SAE 10W • API CF
 - CAT TO 4 • Alison-C4 • Alisson TES-439
 - Komatsu Driveline • ZF TE-ML 03C, 07F
 - DIN 51524 part 2 (HLP)

3. HEXOL STANDARD SERIES LUBRICANTS

- Hexol Standard SAE W30 • API CF
- Hexol Standard SAE W40 • API CF
- Hexol Standard SAE W50 • API CF
- Hexol Standard SAE15W40 • API SF/CF
- Hexol Standard SAE 20W50 • API SF/CF
- Hexol Standard SAE 20W40 • API SF/CF
- Hexol Standard T75 • API GL-2
- Hexol Standard T90 • API GL-2 • API GL-5
- Hexol Standard T140 • API GL-2
- Hexol Standard 80W90 • API GL-4
- Hexol ATF • Dexron II D
- Hexol ATF Universal • GM Type A

B. HEXOL AGRO, GARDEN&FOREST LUBRICANTS

■ Hexol STOU 10W30 / 10W40 / 15W40 • API CG-4/SF • API GL-4

■ Hexol UTTO 80W/10W30 Premium • API GL-4

■ Hexol UTTO SAE 80W Standard • API GL-4

■ Hexol SYNLINe Moto&Garden 10W30 • API SL/CF

■ Hexol Standard Garden 10W30 • API SF

■ Hexol Sprint 2T • API TC

■ Hexol 2T Moto&Garden • API TC

■ Hexol 2T Standard • API TA

■ Hexol 2T Eco • API TA

■ Hexol Premium Chain Oil ISO VG 100 • DIN 51501 L-AN

• ISO 6743-1 • ISO-L-AN • DIN 51517-1 (C)

■ Hexol Standard Chain Oil • DIN 51501 L-AN

• ISO 6743-1 • ISO-L-AN • DIN 51517-1 (C)

C. HEXOL GREASES

- are high quality products formulated for a wide range of automotive, agricultural and industrial applications:

- Hexol Ca SX 2/Ca SX ½ CO Ultra • ISO 6743-9 • L-XBFIB 2 / ½ • DIN 51825 • KP2/½R-25
- Hexol Li EP 2 Complex Blue LongLife • ISO 6473-9 • L-XCDEB 2 • DIN 51502 • KP2N-30 • NLGI-2
- Hexol LiEP2 Supreme • ISO 6743-9 • L-XCCEB 2 • DIN 51502 • KP2K-30 • NLGI-2
- Hexol Li2 Standard • ISO 6743-9 • L-XBCEA 2 • DIN 51502 • K2K-25 • NLGI-2
- Hexol LiEP 00 Central • ISO 6743-9 • L-XCCEB 00 • DIN 51502 • KP00H-30 • NLGI-00
- Hexol LiCa2/LiCa3 Premium • ISO 6743-9 • L-XCCEA 2/3 • DIN 51502 • KP2/3K-30 • NLGI-2/3
- Hexol LiCa2/LiCa3 Standard • ISO 6743-9 • L-XBCEA 2/3 • DIN 51502 • K2/3H-20 • NLGI-2/3
- Hexol CaG2 Optimum • ISO 6743-9 • L-XBAHA 2 • DIN 51502 • KF2C-20 • NLGI-2
- Hexol Ca3 Premium Anhydrous • ISO 6743-9 • L-XBCEA 3 • DIN 51502 • K3H-20 • NLGI-3
- Hexol Ca2/Ca3 Standard • ISO 6743-9 • L-XBAHA 2/3 • DIN 51502 • K2/3C-20 • NLGI-2/3

D. HEXOL INDUSTRIAL LINE

- are high quality products manufactured directly under the Hexol license. The raw materials and additives used in the formulation of these lubricants and fluids are purchased from well-known market leaders such as: Infineum, Lubrizol, BRB.

- Hexol I 22/32/46/68/100 • DIN 51501 • ISO-L-AN • DIN 51517-1 (C)
- Hexol H 22/32/46/68/100 • ISO-HH
- Hexol K 22/32/46/68/100 • DIN 51506 (VB VC) • DIN 51517-1 (C)
- Hexol L 22/32/46/68/100 • DIN 51501 • ISO-L-AN • DIN 51517-1 (C)
- Hexol HA 22/32/46/68/100 • ISO-L-HM • DIN 51524 PART1
- Hexol HV 32/46/68 • ISO-L-HV • DIN 51524-3 (HVLP)
- Hexol AW-EP 22/32/46/68/100 • ISO-L-HM • DIN 51524 PART2
- Hexol AW-HLPD 32/46/68 • ISO-L-HM • DIN 51524-2 (HLPD)
- Hexol KA 22/32/46/68/100/150/220/320 • ISO-L-DAA • DIN 51506
- Hexol LA 22/32/46/68/100/150 • DIN 51524-1 • DIN 51506 VBL
- Hexol TBA 32/46/68 • DIN 51515-1 • DIN 51515-2
- Hexol TIN 68/100/150/220/320 • ISO-L- CKD
- Hexol BK 22/32/46/68 • ISO-L-AN
- Hexol GA 32/46/68/100/220 • ISO-L-GA
- Hexol Soluble GP XL
- Hexol MET F, NF, FS 32/46/68/100
- Hexol HT, TT 32/46/68/100

HEXOL SYNLINE SERIES

HEXOL STANDARD AND PREMIUM SERIES

E. HEXOL AUTO CHEMICALS

- are high performance products used to clean and maintain the engine and the entire vehicle.

- Hexol G12+ Alupro Concentrated Antifreeze • VW G-12 • SAE J1034 • ASTM D3306
- Hexol Universal Diluted Antifreeze
- Hexol No Bugs Diluted Summer Windshield Washer
- Hexol Starlight Concentrated Winter Windshield Washer
- Hexol Ecostar Diluted/Concentrated Winter Windshield Washer
- Hexol DOT 3 Brake Fluid • SAE J1703 FMV 5516 CMV
- Hexol DOT 4 Brake Fluid • SAE J1703 FMV 5516 CMV
- Hexol DOT 5.1 Brake Fluid • SAE J1704 • FMVSS 116 • ISO 4925 Class 5-1
- Hexol HexBlue • DIN 70070 • ISO 22241-1 (a non-toxic aqueous urea solution used to chemically reduce Oxides of Nitrogen [NO] emission from heavy-duty diesel power vehicles Euro IV, V and VI)
