Our Services

Sourcing and Purchases

Our job is to look for you the best suppliers and/or products, to help you find a new source of supply.

The Gateway to Excellence

Our dedicated team of experienced professionals is ready to guide you through the complexity of international markets.

With deep expertise across many sectors and knowledge of local regulations, we are your best ally to optimize your purchasing processes and maximize your performance.

Whether you are looking for reliable suppliers, want to streamline your operations, or are simply looking to reduce costs, our purchasing center is there to meet all your needs.

We are committed to providing you personalized, transparent, and results-driven services, enabling you to fully leverage the advantages of top-tier international procurement opportunities.

Outstanding Negotiators

Our offices in different countries all over the world gives us negotiating power with the most privileged suppliers, by culture and language.

Quality Inspection

Quality is at the core of our operations. To ensure the excellence of your products, our team employs rigorous protocols for supplier qualification, using 137 distinct criteria to select and qualify a supplier. This meticulous approach underscores our commitment to maintaining the highest standards of quality throughout our supply chain.

Your Satisfaction, our Priority

When our supplier options are limited, our international team conducts a thorough search, selecting candidates based on detailed criteria such as price, production quality, and capacity. Following this, selected candidates undergo audits to determine the best factory, ensuring it meets your requirements.

However, our involvement doesn't end there. Inspections are rigorously conducted before, during, and after production to guarantee compliance with strict standards.

Extensive testing on samples ensures reliability, durability, and adherence to specifications. We continually refine our processes to optimize inspections and deliver accurate reports.

Guaranteed Security

We work with factories certified by our audit teams. 80% of our suppliers have integrated the CSR (Corporate Social Responsibility) social audit.

Certifications are carried out according to the most stringent international standards in force (ISO 9000).

Factory Audits

We also offer you our service of factory audits, made to ensure quality and compliance at every stage of your international purchasing process.

The Key to Transparency and Reliability

Our factory audits are conducted by a team of qualified and experienced experts, who are carried out on-site to assess production facilities, working practices, and safety and quality standards.

Through rigorous protocols and strict evaluation criteria, we provide you with a clear and detailed view of your supplier's performance, allowing you to shop with confidence.

We perform a full factory inspection, based on our supplier experience. Then, we provide you a report, highlighting the compliance of the facilities, the factory policy, and compliance with applicable laws and standards.

We offer 2 types of audits : ethics or technical. These audits can be carried out according to international standards or internal directives of your company.

Choose Integrity and Trust

Whether you want to verify regulatory compliance, assess working conditions or ensure product quality, we are here to meet your needs. We are committed to providing you with accurate and comprehensive reporting, as well as personalized recommendations to improve processes and strengthen partnerships.

We will also provide you with all the necessary certificates for your products.

Laboratory Tests

We collaborate with 12 partner laboratories accredited to provide you with reports and certificates of conformity that meet international imports standards.

Your Security, Our Engagement

Our commitment to delivering accurate reports is driven by our understanding that the quality of our partnerships directly impacts the reliability of our information. Thus, we spare no effort in collaborating with top-tier organizations, ensuring our audits are conducted with precision and expertise.

Through these partnerships, we gain access to extensive resources, enabling us to exceed your expectations in delivering thorough and insightful reports.

This dedication underscores our commitment to delivering value to you, our esteemed client. We prioritize your trust and uphold the highest standards of excellence in providing complete and accurate reports consistently.

Recognized Certifications

We take pride in ensuring that your products meet all necessary certifications and standards, bearing the hallmark of credibility and quality. Our dedicated team meticulously navigates the intricate process of obtaining each required certification in your company's name. From ISO standards to industry-specific certifications and regulatory approvals, we handle every aspect to streamline your path to market success.

By establishing these certifications in your company's name, we not only demonstrate our commitment to excellence but also alleviate the burden of certification management from your shoulders. Your products will carry the assurance of compliance, enhancing their marketability and instilling trust in your customers.

Logistics Chain

We take care of every aspect of your import, export, and cross-trade orders, using various modes of transportation including sea, air, and rail from locations worldwide straight to your desired delivery site.

Tailored Excellence

Our dedicated logistics team provides personalized and continuous monitoring of all your orders, ensuring seamless coordination from production to delivery.

Comprising seasoned professionals in international freight transport, we guarantee efficient and reliable service every step of the way.

Streamlined Import Assistance

Additionally, leveraging our expertise in customs and tax regulations, we offer comprehensive support throughout the process, including assistance with the creation and registration of an EORI number for customs services.

Our goal is to provide you with the best guidance to ensure secure and hassle-free importing.

Reliable Logistics

Furthermore, rest assured that all your products are fully insured against risks according to maritime regulations, offering you peace of mind.

Our logistics suppliers are Authorized Economic Operators (AEO), complying with the latest ISO standards, ensuring the highest level of reliability and quality throughout the entire logistics chain.

Product Marketing

Our marketing department carries out all material necessary for your products.

Customized Marketing Solutions

We are aware that the construction sector is one of the most demanding. That's why our marketing services are tailored to meet your unique needs, providing you with expertise in product development, reverse engineering, and more.

Our team, specialized in product development, works closely with you to bring your ideas to life and refine existing products to best meet your demands.

From Prototypes to Distribution

Whether you need personalized prototypes, 3D modeling, colorimetry or even distribution services for your products, we have the necessary expertise to offer you innovative solutions that will set your products apart from the competition.

Elevating Your Products and Market Impact

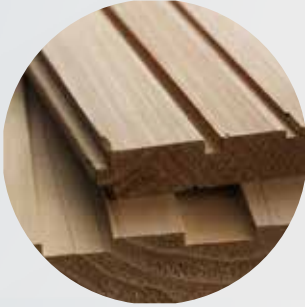

Furthermore, our comprehensive suite of services extends beyond product development to encompass distribution strategies designed to maximize your reach and impact in the market. With our expertise and dedication, we ensure that your products not only meet but surpass industry standards, setting you apart as a leader in your sector.
