DATA SUPPLIER

Cuymar **Targets**

Growth of the company despite the pandemic.

Next steps...

- Quality is very important for Cuymar, for this reason we are adapting our manufacturing and organizational processes to obtain the **ISO TS-16949 certification**.
- Digitalization is now the present. We did a first step with the creation of our **B2B platform**, we are committed on implementing improvements in this area in order to offer the most completed service to our customers.

We want our Brand to keep on growing at an international level. In our roadmap we have the goal to increase the number of countries in which our brand is present in **Tec Doc /Techalliance application**.
