丰富的产品，满足市场各式需求
There is rich products to satisfy various

润滑油加注设备
Lubricating oil filling equipment

中央供油系统
Central oil distribution system

黄油加注设备
Grease filling equipment

废油收集设备
Waste oil drainer equipment

汽车保养设备
Car Vehicle equipment

废油回收系统
Waste oil recycling system

5 简易式抽油泵
Simple oil transfer pump

39008电动抽油泵
39008 electric oil transfer pump

- 出油平稳、快速。
  Smooth and fast oil delivery.
- 可抽粘度高的油，冬季使用无忧。
  Don' t worry to use the high viscosity oil in the winter
- 电动齿轮泵，安全耐用。
  It is safe and durable for electric gear pump
- 便携小巧，使用方便。
  It is portable and easy to use
- 用途广泛（209L油桶/60L油桶/吨桶····）
  Widely used (209L oil barrel/60L oil barrel/ton barrel)
- 可选择24V低压型号和蓄电池型号，使用场景更丰富。
  Choice of 24V low-voltage models and battery models for richer usage scenarios

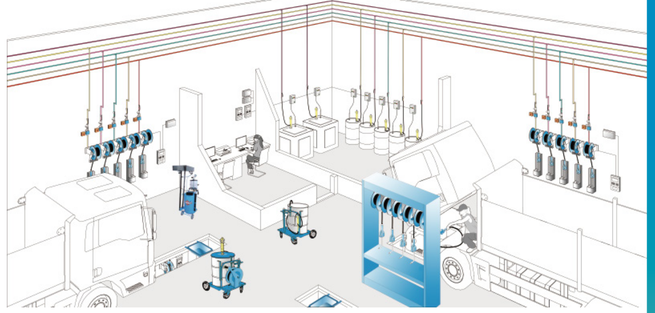

37813气动抽油泵
37813 pneumatic oil transfer pump

- 气动抽油安全合规
  Pneumatic pumping safety compliance
- 油量大小可调节
  Adjustable oil volume
- 操作简单，无需安装
  Easy to operate, no installation required
- 现场或油料库都可以放置
  It can be placed on site or in the oil depot
- 超长保修期
  Long warranty period

网联加注优势
Advantages of online connection

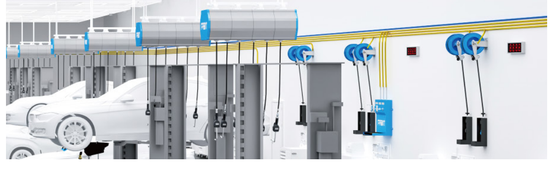

- 支持手机、电脑远程管控，不限地点登录。
  Support remote control of mobile phones and computers, with unlimited login locations.
- 授权加注，全透明管理，数据实时更新。
  Authorization annotation, fully transparent management, and real-time data updates.
- 油品消耗量数据分析，客户需求个性化定制。
  Analysis of oil consumption data and personalized customization of customer needs.
- 公众号/小程序/APP/网页，多终端互联互通。
  Official account/applet/APP/web page, multi terminal interconnection.

2 中央（分布）式供油系统
Central (distributed) fuel supply system parts

润滑油集中放置在油料库里，经耐压流体专用管道，输送至各个加油点。仓管员在控制器上进行加注量设定后，操作工即可开枪加注，当达到预设的加注量时，自动停止。系统将自动记录加油信息，如：加注量、加油工位、时间、操作员编号等，并可在电脑上实现累计、查询、调用等功能。

The lubricating oil is concentrated in the oil storage and transported to various refueling points through pressure resistant fluid dedicated pipelines. After the warehouse keeper sets the filling amount on the controller,The operator can shoot and fill, and when the preset filling amount is reached, it automatically stops. The system will automatically record refueling information, such as refueling volume, refueling station Time, operator number, etc., and functions such as accumulation, query, and call can be achieved on the computer.

吊装/壁装
Hoisting/wall mounting

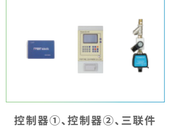

适用于大型4S店、汽修厂 汽车快速换油、集中输送、加注、管理，极大地方便用户，节省空间，降低成本，提高工效，清洁环保，提升客户满意度。

Suitable for fast oil change, centralized transportation, refueling, and management of large 4S stores and repair garages, greatly facilitating users, saving space, reducing costs, improving work efficiency, cleaning and environmental protection, and improving customer satisfaction.

成本优先 Cost priority
节省时间 Save time
效率领先 Leading in efficiency
清洁环境 clean environment
提升体验 Enhance the experience

Mobile oil filling equipment kits

型号配置
Model Features

型号 Model	37200	37201	37150	37151
油泵比例 Oil pump ratio	3:1		5:1	
最大流量 Maximum flow	14L/min		18L/min	
加注油枪 Refueling gun	数显枪 Digital display gun	预设定枪 Preset fixed gun	数显枪 Digital display gun	预设定枪 Preset fixed gun

型号 Model	37210	37211	37100	37101
油泵比例 Oil pump ratio	3:1		5:1	
加注油枪 Maximum flow	数显枪 Digital display gun	预设定枪 Preset fixed gun	数显枪 Digital display gun	预设定枪 Preset fixed gun
最大流量 Maximum flow	14L/min		18L/min	
卷管器管长 Reel length	10m			

远近移动加注
Move far and near refueling

配备4~15米出油软管，远近可轻松加注，适用范围广，汽车4S店、汽车快修店、换油服务中心、物流中心服务站、工程机械工厂都适用。

Equipped with a 4-15 meter oil outlet hose, it can be easily refilled from afar and has a wide range of applications, including car 4S stores, car repair shops, oil change service centers, logistics center service stations, and engineering machinery factories.

- 近距离加注 Close up refueling

- 远距离加注 Remote refueling

- 移动方便 Easy to move
- 计量精准 Accurate measurement
- 坚固耐用 Sturdy and durable
- 剩油量少 Low residual oil
- 优质软管 High quality hose
- 安全合规 Security compliance
- 专业油泵 Professional oil pump
- 配置多样 Diversified configurations

4 气动抽接废油机
Pneumatic waste oil drainer machine

气动抽接废油机—D款
D-type pneumatic waste oil drainer machine

承诺质保三年！ Three year warranty

专利产品
patented product
ZL 2015 2 1132014.5

气动原理优化设计（独创平衡气管）
Pneumatic principle optimization design(original balanced trachea)

脱开气源抽油，杜绝喷油！
Disconnect the air source for oil extraction and prevent oil injection!

抽油速度快 Fast pumping speed

量杯22秒即可抽到-8bar真空！整机2分20秒即可抽到-8bar真空，抽油最快可达3L/min！
The measuring cup can be pumped to -8 bar vacuum in 22 seconds! The entire machine can be pumped to -8 bar in 2 minutes and 20 seconds Vacuum, the fastest pumping speed can reach 3L/min!

可靠的升降杆锁定方式
Reliable lifting rod locking method

确保密封！防止冲杆

金刚不坏量杯 Diamond Measuring Cup

采用高硼硅材料，比传统量杯更耐用。
抵抗一切腐蚀，绝不龟裂，精密研磨套件，不漏气。
Made of high borosilicate material, it is more durable than traditional measuring cups.
Resist all corrosion, never crack, precision grinding kit, no air leakage.
