YOUR SPECIALIST IN PADS!

Manufacturing since 1984

WELCOME TO BOS CLEANING & FINISHING CATALOGUE

History

Bos Cleaning & Finishing Products was established in 1984 and is located in Loosdrecht, in the heart of the Netherlands. Founded by Dick Bos, this family company started once as a manufacturer of polishing products for the metal industry. Today, Bos Cleaning & Finishing Products has grown out to be an innovative, medium-sized industrial company that supplies cleaning and finishing products all over the world.

Our products are supplied to various industries, including the automotive industry, the metal working industry, distributors for both industry and cleaning branch, machine manufacturers and the DIY market. We focus to supply a product range as wide as possible. Based on a flexible production, good cooperation with our raw material suppliers and attention to service & quality, we are able to offer a complete range of products. This applies both for small specialist items as well as larger production runs. We are committed to our customers and we will try to find an innovative solution for every problem.

Why choose for BOS?

From the very start we are focused on supplying great quality and service. For every problem that you may encounter we will do our utmost best to find a suiting solution. With our complete product range, we offer you a price and quality ratio that fits every demand. On request we offer all of the products under private label. We already provide this for a large scale of our customers. Please contact us for the possibilities!

CONVENTIONAL FLOORPADS

BOS Cleaning & Finishing Products offers an extensive range of floor maintenance pads made from 100% recycled material developed for any cleaning need and floor type. Our products are designed to solve any floor maintenance task.

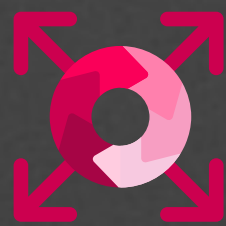

Our DutchBlue range of floorpads have a number of exceptional features and advantages that set them apart from competitors on the market

Each pad is created to carry out a particular cleaning task with the greatest efficiency and effectiveness possible. Enhancing labor productivity and clean or scrub more with each pass. Spending less time to achieve results you need.

Treated with an antimicrobial agent to help stop the development of dangerous bacteria, fungi, and other microorganisms. Creating a clean and safe working environment in commercial settings where hygiene is extra important.

All floor pads are made entirely out of recycled PET material, making them an environmentally-friendly choice that promotes sustainability and waste reduction.

Due to thicker denier fibers, high quality binder and open weave structure our floorpads are very durable and resistant to degradation, ensuring a longer lifespan and greater value. Longer-lasting floor pads need to be replaced less often, contributing to less waste in landfills.

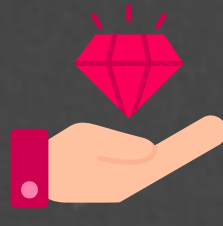

AVAILABLE IN ALL STANDARD

UNIQUE ANTIMICROBIAL

MADE FROM RECYCLED PET FIBRE

IMPROVED PERFORMANCE

Did you know?

13 bottles of 500ml water

=

1 x 17" floorpad

Use the right floorpad for the right task!

STRIPPING

To remove dirt and polymer/wax films and return floor to baseline condition.

Maroon Chemical Free Stripping Pad

Specially designed to remove sustainable a floor finish without the use of harsh chemicals.

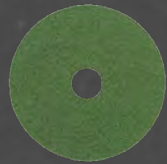

Black Stripping Pad

Heavy-duty wet stripping pad with an aggressive texture. Optimal for removing wax, dirt and any finish.

SCRUBBING

To remove deeply ingrained dirt and soil.

Green Heavy Scrubbing Pad

Heavy-duty scrubbing pad intended for wet scrubbing and light stripping. Designed for cleaning heavily soiled areas.

Blue Scrubbing Pad

Wet scrubbing and medium-duty spray cleaning pad. Capable of removing heavy dirt and scuff marks from most floor surfaces.

BUFFING

To remove scuffs, medium-traffic dirt and heel marks to restore glossy finishes to a sparkling shine.

Red Buffing Pad

This pad restores glossy finishes while removing scuff marks and dirt associated with medium traffic areas.

POLISHING

For producing a high-gloss wet look or to enhance wooden floors.

White Fine Polishing Pad

Extra-fine polishing pad for use on clean and dry floors. A fine water mist can be used to produce a high gloss wet look. Also ideal for polishing wooden floors.

BURNISHING

To remove scuffs and marks whilst restoring gloss and repairing floor finish.

Pink Eraser Pad

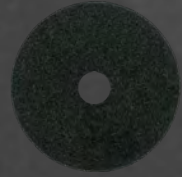

High Speed Pad, produces a high gloss finish. The special binder formulation that allows the pad to effectively remove black marks and restore gloss.

Stripping

XTREME Stripping

- Tough on extreme buildup
- Removes dirt, wax, finish, and more
- Use with all oscillating machines and rotary machines up to 350 RPM
- 100% recycled fiber content

Hi-Pro Stripping

- For the heavy duty stripping tasks
- Fast removal of multiple layers of finish
- For use on oscillating machines or rotary machines up to 350 rpm
- 100% recycled fiber content

PREMIUM Maroon Chemical Free Stripping Pad

- Restauration pad designed for fast chemical free stripping
- Use wet or dry
- Sustainable stripping with no need for harsh chemicals
- For use on oscillating machines or rotary machines up to 350 rpm

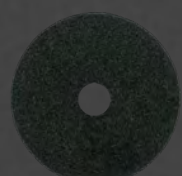

Maroon Conditioning Pad

- Use for light cleaning and conditioning of wooden floors.
- For use on oscillating machines or rotary machines up to 350 rpm
- 100% recycled fiber content

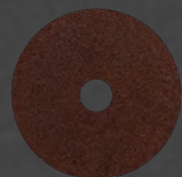

Black Stripping

- Wet stripping applications
- Aggressive removal of dirt and old finish buildup
- For use on oscillating machines or rotary machines up to 350 rpm
- 100% recycled fiber content

PREMIUM Black Stripping

- PREMIUM quality with extra long lifetime.
- Wet stripping applications
- Aggressive removal of dirt and old finish buildup
- For use on oscillating machines or rotary machines up to 350 rpm
- 100% recycled fiber content

Brown Stripping Pad

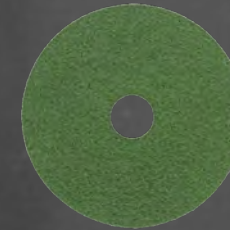

- Used for both wet and dry stripping application
- This pad will quickly remove wax, dirt and old finishes and leaves the surface ready for immediate recoating
- Use with all oscillating machines and rotary machines up to 350 RPM
- 100% recycled fiber content

PREMIUM Brown Stripping

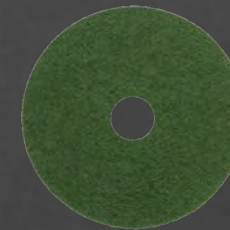

- PREMIUM quality with extra long lifetime
- Used for both wet and dry stripping application
- This pad will quickly remove wax, dirt and old finishes and leaves the surface ready for immediate recoating
- Use with all oscillating machines and rotary machines up to 350 RPM
- 100% recycled fiber content

Scrubbing

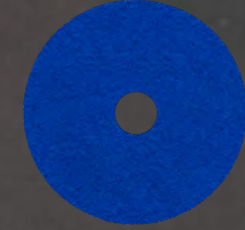

Green Heavy Scrubbing

- For deep wet scrubbing or light stripping
- Aggressively removes dirt and scuff marks from heavily soiled floors
- For use on oscillating machines or rotary machines up to 350 rpm
- 100% recycled fiber content

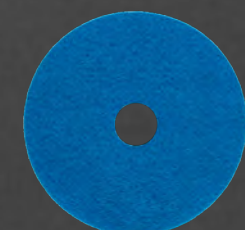

PREMIUM Green Heavy Scrubbing

- PREMIUM quality with extra long lifetime and increased cleaning performance.
- For deep wet scrubbing or light stripping
- Aggressively removes dirt and scuff marks from heavily soiled floors
- For use on oscillating machines or rotary machines up to 350 rpm
- 100% recycled fiber content

Blue Scrubbing

- For light scrubbing or heavy duty spray cleaning
- Aggressively removes dirt and scuff marks from heavily soiled floors prior to recoating
- For use on oscillating machines or rotary machines up to 350 rpm
- 100% recycled fiber content

PREMIUM Blue Scrubbing

- PREMIUM quality with extra long lifetime and increased cleaning performance.
- For light scrubbing or heavy duty spray cleaning
- Aggressively removes dirt and scuff marks from heavily soiled floors prior to recoating
- For use on oscillating machines or rotary machines up to 350 rpm
- 100% recycled fiber content

Buffing & Polishing

Red Buffing

- For light daily cleaning and spray buffing
- Removes light scuff marks and dirt while producing high gloss shine
- For use on oscillating machines or rotary machines up to 800 rpm
- 100% recycled fiber content

Tan Buffing

- For polishing and light cleaning
- Removes surface scuff marks and dirt while buffing floors
- For use on oscillating machines or rotary machines up to 800 rpm
- 100% recycled fiber content.

White Polishing

- Extra fine pad for polishing clean, dry floors
- Use dry or wet for a high gloss “wet look” to newly finished floors
- For use on oscillating machines or rotary machines up to 3000 rpm
- 100% recycled fiber content

PREMIUM Red Buffing

- PREMIUM quality with extra long lifetime and increased cleaning performance.
- For light daily cleaning and spray buffing
- Removes light scuff marks and dirt while producing high gloss shine
- For use on oscillating machines or rotary machines up to 800 rpm
- 100% recycled fiber content

PREMIUM White Polishing

- PREMIUM quality with extra long lifetime. Also ideally used for oiling of wooden floor
- Extra fine pad for polishing clean, dry floors
- Use dry or wet for a high gloss “wet look” to newly finished floors
- For use on oscillating machines or rotary machines up to 3000 rpm
- 100% recycled fiber content

Burnishing

Natural Hair Medium

This is a medium aggressive burnishing pad that combines a heavy blend of natural hair with the proper amount of synthetic fiber.

- * Best suited for medium to hard finishes.
- For use on machines up to 3000 rpm
- 100% recycled fiber content

Natural Hair Heavy Duty

This is the most aggressive burnishing pad available. The ideal combination of natural hair and synthetic fiber to provide a wet-look shine.

- * Best suited on hard finishes.
- For use on machines up to 3000 rpm
- 100% recycled fiber content

Pink Eraser

Designed to restore finish and improve gloss on harder floor surfaces. Removes marks and scuffs quickly. Excellent durability and minimal finish removal.

- * Best suited for medium to hard finishes.
- For use on machines up to 3000 rpm
- 100% recycled fiber content

Champagne

Designed to stand up to the high heat and strength required with propane burnishing. This pad produces a very high gloss finish.

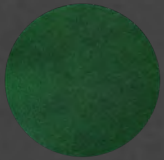

- * Best suited for soft to medium finishes.
- For use on machines up to 3000 rpm
- 100% recycled fiber content

Thinline Range

Floorpads with a lower thickness of about 10mm. Available in 5 colors , ideally used in the machine rental market.

Black Stripping
Stripping pad, designed for removing wax, dirt and any finish.

Green Scrubbing
Heavy duty stripping pad for wet scrubbing and light stripping

Red Buffing
Buffing pad for removing scuff markt and dirt on medium trafffic areas.

Tan Buffing
Maintenance pad used for light cleaning, buffing and polishing.

White Polishing
Extra fine polishing pad. For use on clear, dry floors.
Also ideal for oiling wooden floors.

Edging Pad Range

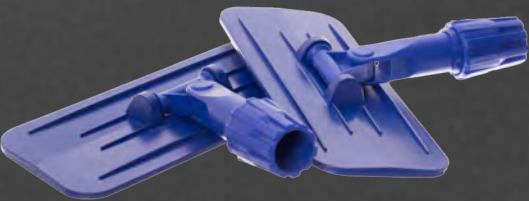

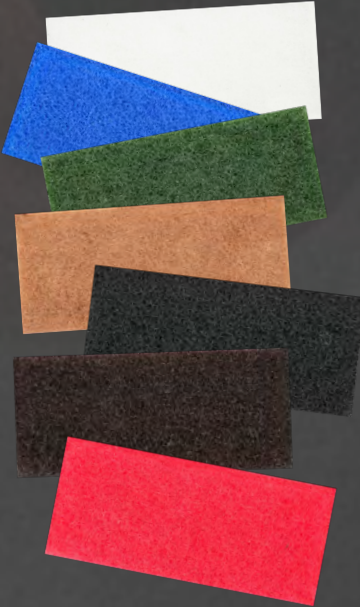

Floorpad materials cut into handpad size 115x245mm.

Used for edges, corners and manual cleaning.

Standard packed per 25 pcs.
Individual packaging options are available.

Edging pad holders for use with manual pads.
Comes with and lock-on swivel socket or with manual handle.

Ideal cleaning tools for reaching hard to get at places like baseboards, stairs, under fixtures, and furniture. The pad simply peels away from the holder for reversing or replacing.

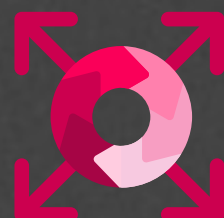

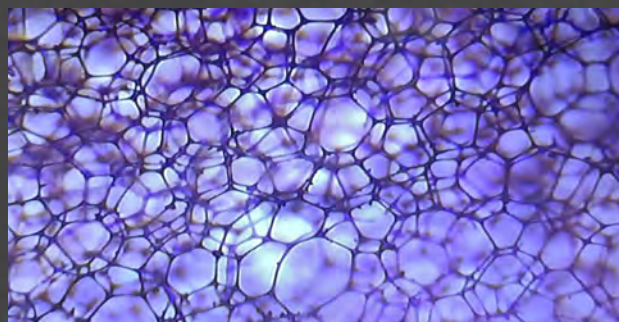

MELAMINE FLOORPADS & SPONGES

Melamine Foam only needs water to effectively clean most stains and scruff marks. No chemical or additives are necessary. Melamine Foam is a porous material, that acts similar to very fine sandpaper to easily remove stains. Though the foam feels soft & tender on the surface, each foam particle acts like a unique abrasive and uses small air pockets at the material to lift stains when moist.

Melamine Foam offers a unique cleaning medium for several applications, such as removing heavy dirt on smooth, hard floor surfaces, but also surfaces' as ceramic and glass tiles, stove tops, counter tops, walls, trim and doors. Melamine sponges can also be used on leather seats and alloy wheels in the car detailing market.

BOS Cleaning & Finishing Products offers a wide range of melamine foam products to meet every demand. With in house foam cutting machines, compressing - , laminating machines and an automated packaging line we can offer with great flexibly customized product as to the demand of the customer. We can offer a wide range of compression rates, colour & types of backing for melamine floorpads & sponges as well as private label printing on melamine floorpads.

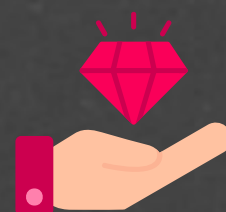

EACH PRODUCT IS DESIGN FOR SEVERAL APPLICATIONS. SEVERAL QUALITY RANGES ARE OFFERED TO MEET EACH DEMAND.

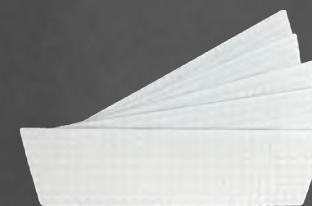

CUSTOM MADE AND PRIVATE LABELED PRODUCTS CAN BE OFFERED EASILY.

WORKING WITH MELAMINE FOAM IS ENVIRONMENTAL FRIENDLY . NO HARSH CHEMICAL ARE NEEDED, ONLY WATER!

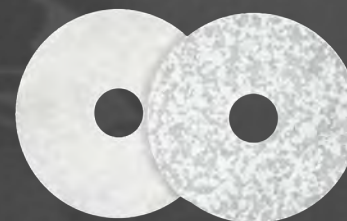

QUICK CLEANING ACTION DUE TO UNIQUE FOAM SURFACE. REMOVES QUICKLY STUBBORN STAINS AND BLACK SCUFF MARKS.

MAGIC Melamine Velcro Mops

- Available in high density and rebound quality.
- All sizes can offered and manufactured
- Customizes and private label packaging is available

REBOUND Melamine Floorpad

Melamine foam made from chipped melamine foam compressed together with a water-resistant resin. A dense quality with superb lifetime.

- Super absorbent, holds more water.
- Easily removes black marks.
- No chemicals required! Use only with water.
- More customizations possibilities.
- Long lifetime
- Made from recycled fibres.

STANDARD Melamine Floorpad

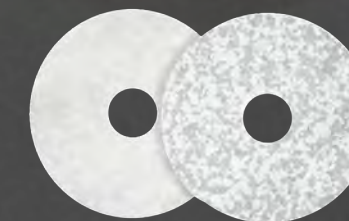

Standard quality and price friendly melamine pad.

- Excellent cleaning performance.
- No chemicals required! Use only with water.
- Easily removes black marks.

MAGIC Melamine Sponge

- Available in all quality & density ranges.
- All sizes can offered and manufactured
- Customizes and private label packaging is available

High Density REBOUND Melamine Floorpad

An extra though melamine foam made from chipped melamine foam compressed together with a water-resistant resin. An extra dense quality with superb lifetime.

- Super absorbent, holds more water.
- Easily removes black marks.
- No chemicals required! Use only with water.
- More customizations possibilities.
- Very long lifetime
- Made from recycled fibres.

PREMIUM Melamine Floorpad

High Density heat compressed melamine floorpads. A double dense quality with increased life time and cleaning action.

- Super absorbent, holds more water.
- Easily removes black marks.
- Fewer chemical residues.
- No chemicals required! Use only with water.
- Increased lifetime.
- More customizations possibilities.

DIAMOND FLOORPADS

Floorpads made with impregnated diamond abrasives. Thanks to the micro-diamond abrasives used on the pads, the cleaning performance is thorough and doesn't require any cleaning chemicals.

Diamond Floorpads are easy in use whether you need to cleaning large surfaces or do deep cleaning. Diamond Floorpads can be uses on single rotary machines, scrubbers, industrial and high-speed cleaning machines. They can be used to clean both (natural) stone & concrete for daily cleaning and give a higher gloss finish.

Diamond Floorpads can be used on Terrazzo, Ceramic, Natural Stone, PVC, Vinyl, VCT, Rubber, Wood and Polished Concrete

Several grids available. Fibre carrier as well diamond coating can be customized to customer demand and cleaning system. Private label printing & packaging options are available.

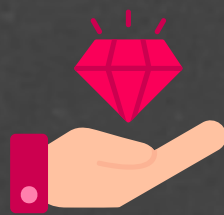

LONG LIFE TIME, EXCELLENT VALUE FOR MONEY. CLEANS UP TO 30.000 M2 SURFACE AREA WITH ONE SINGLE PAD!

LESS BACTERIA - FLOOR SURFACES TREATED WITH DIAMOND FLOORPADS CONTAINS 80% LESS BACTERIA COMPARED AGAINST CONVENTIONAL METHODS.

ENVIRONMENTAL FRIENDLY . NO HARSH CHEMICALS ARE NEEDED, ONLY WATER! FIBER BACKING CAN BE OFFERED WITH MATERIAL MADE FROM 100% RECYCLED PET MATERIAL.

EASY TO USE CLEANING SYSTEM WITH VERSATILE APPLICATIONS. CLEANING & POLISHING AT THE SAME TIME.

Cleaning & Polishing

RED - 400

RED 400 Grit is a single grit diamond pad designed to be the 1st step in the traditional 4 step floor restoration process. Red Diamond Pads are good for Deep cleaning, top-scrubbing and preparation for any upgrade procedure.

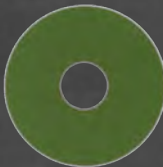

WHITE - 800

WHITE 800 Grit is a single grit diamond pad designed to be the 2nd step in traditional 4 step floor restoration process. White Diamond Pads are good for Deep cleaning, polishing, and first step of the upgrade procedure.

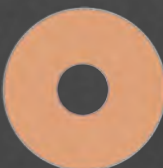

YELLOW - 1500

YELLOW 1.500 Grit is a single grit diamond pad designed to be the 3rd step in traditional 4 step floor restoration process. Yellow Diamond Pads are good for polishing, periodic maintenance cleaning, and second step of the upgrade procedure. Produces gloss finish.

GREEN - 3000

GREEN 3.000 Grit is a single grit diamond pad designed to be the 4th or final step in a traditional 4 step floor restoration process. Green Diamond Pads are good for achieving a high polish, daily cleaning, maintaining, and can be used on all types of floors. Produces high gloss finish.

CREAM - 8000

CREAM 8.000 Grit is a single grid diamond pad designed for burnishing, high polishing, and gentle cleaning. Cream Diamond Pads are good for coated floors. Produces super high gloss finish

Restoration

BLACK - 100

Black 100 Grit is a single grit diamond pad designed to aggressively remove any wax, finish and dirt-build. Removes deep scratches. Tear resistant and long-lasting. The open structure allows dirt and water to flow trough. Use for restoration purposes only!

ORANGE - 200

Black 100 Grit is a single grit diamond pad designed to aggressively remove any wax, finish and dirt-build. Removes deep scratches. Tear resistant and long-lasting. The open structure allows dirt and water to flow trough. Use for restoration purposes only!

BRUSH FLOORPADS

Floorpads made with fine brush material. The fine , dense bristle fibres penetrates deep into the surface, making these pads ideal for cleaning of grout, uneven, profiled and anti-slip flooring.. Made with velcro backing and interface layer for comfortable cleaning and long lifetime. No need for expensive brushes. Deep cleaning without being aggressive

Pads can be customized to customer demand, private label printing & packaging options are available.

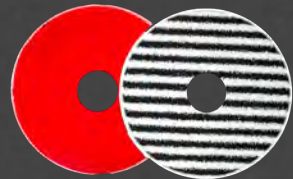

GREEN POWER BRUSH

Hard fibers with flexible interface. Ideal for cleaning deep grout lines and uneven surfaces. The coarse polyamide fires works like as a brush, but for a faction of the costs.

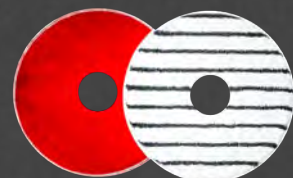

IRON POWER BRUSH

A dense mix of medium- hard polyamide fibers with absorbent microfibre . Made with a flexible interface. Ideal for cleaning deep grout lines and uneven surfaces. The microfiber in the pads allow quick dirt absorption.

HARD MICRO BRUSH

A combination of hard polyamide fibers and microfibre. This pad has been specially designed for deep cleaning and cleaning of uneven surfaces. Thanks to combination of the hard scrubbing fibers and microfiber all parts of the floor are being cleaned thoroughly trough.

SOFT MICRO BRUSH

A combination of soft polyamide fibers and microfibre. This pad has been specially designed for daily cleaning of uneven surfaces. Thanks to combination of the scrubbing fibers and microfiber all parts of the floor are being cleaned thoroughly trough. Ideallyly suitable for non-slipping floors.

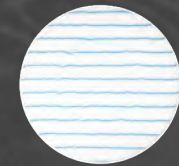

TEXTILE FLOORPADS

Our textile pads can be customized to customer demand, private label printing & packaging options are available.

GREY Striped Microfibre Pad

This pad with grey scrubbing stripes is designed for intense cleaning. Recommended for depth cleaning of stone- and tile floor. Also very suitable for anti-slip floors.

BLUE Striped Microfibre Pad

Daily microfibre cleaning pad with blue scrub stripes for deep cleaning. Can be used with or dry. Extends floor life or floor finish without any damage.

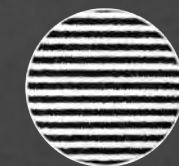

WHITE Striped Microfibre Pad

The dense microfibre comes deep into the surface and removes dirt from the smallest pores. This pads without scrubbing strips is recommend for use on delicate floors.

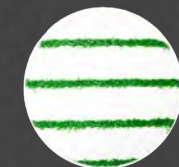

White Wool Pad

Extra dense polyester wool floorpad. Used for oiling and high gloss finishing of wooden floors.

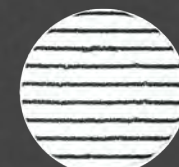

Heavy-Duty Carpet Bonnet Pad

This heavy-duty carpet bonnetpad is strong and robust. Made of both microfibre material and black monofilament agitation stripes. The combination provides a greater area of agitating material as opposed to standard heavy-duty pads. Making this pad suitable for the most soiled carpet and restoring carpet fibers at the same time.

Medium-Duty Carpet Bonnet Pad

This versatile pad is designed for cleaning carpets and upholstery is made from looped white polyamide with green stripes. The polyamide absorbs the dirt from the carpet easily whilst the scrubbing stripes loosens the dirt up first. Ideal for aggressive soil lessening and dirt trapping to produce a cleaner surface area.

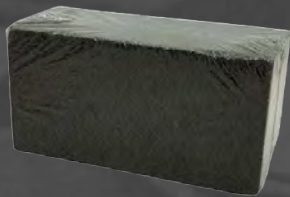

Light-Duty Carpet Bonnet Pad

A light-duty pad for cleaning carpets and upholstery. Made with a tick layer of looped white polyamide. The polyamide absorbs the dirt from the carpet very easily; therefore ideally for use on carpets in high traffic areas where drying time needs be quick.

GRIDDLE CLEANING RANGE

Grill Brick Black

- This grill brick is made of nonporous pumice stone.
- This item works very fast to clean griddles and grills while providing optimal results without scratching the surface.
- The Grill-Brick will disintegrate with use and won't lift the cure, nor clog with grease.
- It is mainly used in food service applications in restaurants, cafeterias, cafes, schools etc.

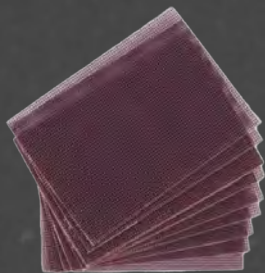

Griddle Hand Pad Black

- This Black Stripping Pad is constructed of polyester fibers in an open texture nonwoven fabrication and also contains antimicrobial treatment.
- Abrasive particles are distributed throughout the pad and adhered to the nonwoven construction with a sturdy adhesive.
- Made of 100% recycled PET fibers and resins, designed for use on both sides. For use as padding between the Griddle Holder and the Griddle Screen. Adds life to the screen. Also, may be used for polishing griddles. Private labels options are possible.

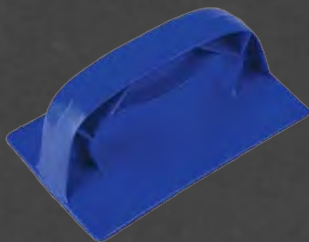

Griddle Mesh Sheet

- Tough aluminum oxide abrasive eliminates the toughest burnt-on foods.
- The open mesh screen resists clogging. Fast cleaning action leaves no mess on the grill.
- Griddle Screens are constructed with water-proof resins and aluminum oxide abrasives.
- Open mesh construction resists clogging.

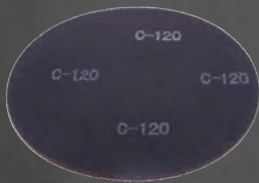

Heat Resistant Griddle Holder

- This holder holds grill pads and screens. It protects hands from burns and speeds cleaning.
- The heat-resistant and highimpact plastic handle stands up to 205°C / 400°F.
- The griddle pad/screen holder is manufactured with high heat-resistant resins, so it won't melt or burn.
- Its "gripping fingers" dig deep into the pad to hold pads firmly to holder

SANDSCREEN DISCS

Sandscreen Floor Discs

Abrasive material with an open net structure impregnated with S/C abrasive-grains. This structure makes sure that the material won't fill up with dust.

Normally used in combination with conventional floor machines for sanding worn off wooden floors. Standard available in grids 40, 60, 80, 100, 120, 150, 180 and 220

Velcro Sandscreen Discs & Sheets

Silicon carbide sandscreen discs and sheets laminated with a multihole velcro backing.

For easy fixing on a sanding machine while still giving optimal dust absorption.

Ideally used for sanding plaster and wood.

Sandscreen Sheets

Our silicon carbide waterproof sandscreen sheets are ideally suited for floor sanding, drywall, ceramics and wet deck sanding.

May be used wet or dry.
Also available in an aluminium oxide quality used for griddle cleaning.

NON-WOVEN ABRASIVES

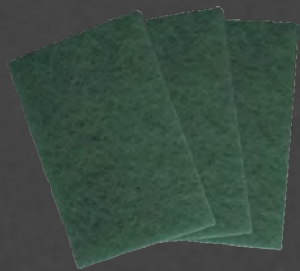

Non-woven material combines open structure fiber with abrasive grains, making it an ideal way to add a great finish, remove burrs and clean without gouging or undercutting the workpiece

Non-woven abrasives combines flexibility with effective cutting action and precise hand control to accomplish tough cleaning jobs or produce fine finishing results, use after use. Suitable for use on a wide variety of materials and for many different tasks.

- Superior alternative to steel wool, wire brushes, sandpaper, and other nonwoven products for cleaning or finishing tasks
- Suitable for use on wood, metal, plastics, ceramics, porcelain, glass, rubber, or composites
- Reusable pad resists tearing, splintering, shredding, loading and will never rust, providing a long, useful life
- Can be folded, stacked, or rolled for effective cleaning or conditioning on flat, irregular, or contoured surfaces

With in house converting machines, we can offer tailor made products, sizes and packaging options. Made from recycled fibers.

Cleaning & Janitorial Scouring Material

General Purpose Green Abrasive Scouring Pad

- All-round cleaning power
- Open-weave for easy rinsing
- Flexible and long-lasting

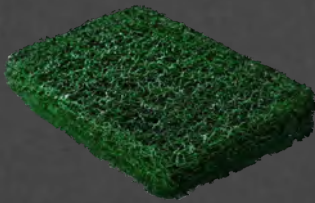

Colour: Green, Black, Red
Standard Sizes: 145x225mm, 147x147mm, 140mmx3mtr
Typical applications: Pots and pans, cooking utensils, fixtures and fittings, grills and oven interiors, floors.

Delicate White Non-Abrasive Scouring Pad

- Designed for cleaning delicate surfaces
- Flexible and comfortable
- Synthetic structure

Colour: White, Light Blue
Standard Sizes: 145x225mm, 147x147mm, 140mmx3mtr
Typical applications: China, porcelain, stainless steel, plastic, chrome & glass.

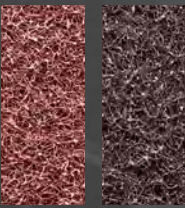

Extra Thick General Purpose Scouring Pad

- Ideal for heavy scouring work
- Easy to hold
- Open-textured for swift rinsing

Colour: Green
Standard Sizes: 90x140mm
Typical applications: Kitchen utensils, pots and pans, grills and oven interiors.

INDUSTRIAL Non-Woven Abrasives

All non-woven abrasives can be customized to customer demand, private label printing & packaging options are available.

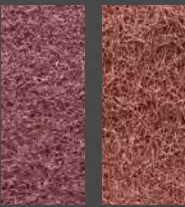

A-Coarse & A-Medium

- Durable, high strength material is adaptable to a wide range of applications and tools
- Can be folded, stacked or rolled, for cleaning or fine finishing on flat, irregular or contoured surfaces
- Can be used wet or dry to clean, produce a satin finish, denib, and defuzz
- Highly conformable non-woven material works into corners and hard-to-reach areas
- A-Coarse 80 or A-Medium 120 aluminum oxide abrasive grade delivers professional finishing results on wood, metal, and other materials

A-Medium Heavy Duty

- Dense construction allows for aggressive blending, cleaning, and polishing on metal surfaces
- Conformable and soft to meet every part of a metal surface evenly
- Flexible for getting into hard-to-reach spots
- Extremely durable material provides a long lifetime

A-Fine & A-Very Fine

- Ideal for cleaning, scuffing, finishing, blending/refining fine scratches, and cleaning light oxides or coatings on a variety of metals and plastics
- Fine 180 or Very fine 240 grade aluminum oxide abrasive cleans and finishes efficiently
- Non-woven nylon resists tearing and loading and will not rust, for long life
- Flexible open web fibers conform to contoured surfaces
- Can be used wet or dry and rinsed for repeated use
- Comes also in FLEX quality with denser mineral placement on fibers which allows for a more uniform scratch and faster cut rate. Ideally used in the automotive body shop industry.

S-Ultra Fine

- Great for light scuffing and surface preparation for better coating adhesion
- Also used for cleaning, scuffing, finishing, and light paint removal on a variety of metals and plastics
- The ultra-fine silicon carbide 800 grains preforms like steel wool grade 00 without shredding, rusting, or splintering of the material
- *Comes also in FLEX quality with denser mineral placement on fibers which allows for a more uniform scratch and faster cut rate. Ideally used in the automotive body shop industry.

S-Medium

- Universal utility for hand blending and finishing metals, wood and other materials
- Conformable material blends scratches on irregular surfaces without altering the workpiece
- Provides similar performance as steel wool grade 3 without shredding, rusting, or splintering
- Effective for woodworking applications to highlight, paint prep, sealer scuffing and scuffing between coats

General Purpose Heavy Duty

- Ideal for heavily soiled areas
- Effective alternative to scrapers, steel wool and metal sponges
- Non-rusting.

METAL POLISHING WHEELS & COMPOUNDS

With more than 40 years' experience we can call ourselves a specialist for high quality, custom made buffing & polishing wheel for professional surface treatment!

With a wide range of materials and flexible production we can offer the right polishing buff for each application.

Sisal Cotton

Polishing wheels made of combination with sisal fabric and cotton plies are especially suitable for manual heavy pre-polishing of metals such as stainless steel and aluminum. Sisal fabric cut-buffing discs are particularly suitable for light deburring work and coarse cut-buffing processes

Due to the random alignment of the fabric layers and the concentric stitching our cotton polishing wheels guarantee a vibration-free concentricity for very uniform polishing patterns. We therefore recommend these wheels especially for use bench grinders, hand-held angle grinders or together with flexible shafts.

Heavy Duty Cotton

Polishing wheels made of heavy-duty cotton plies are especially suitable for manual pre-polishing of metals such as stainless steel and aluminum. The special treated fabric allows extra cut without being more aggressive and gives longer stand time.

Due to the random alignment of the fabric layers and the concentric stitching our cotton polishing wheels guarantee a vibration-free concentricity for very uniform polishing patterns. We therefore recommend these wheels especially for use bench grinders, hand-held angle grinders or together with flexible shafts.

Cotton

Polishing wheels made of cotton plies are especially suitable for manual polishing of metals such as stainless steel, aluminum or brass.

Due to the random alignment of the fabric layers and the concentric stitching our cotton polishing wheels guarantee a vibration-free concentricity for very uniform polishing patterns. We therefore recommend these wheels especially for use bench grinders, hand-held angle grinders or together with flexible shafts.

Molton

Polishing buffs with extra soft molton. Very suitable for high-gloss polishing of complex surface. The very soft, single-layer folds adapt flexibly to any surface geometry and ensure very effective cooling.

Due to the random alignment of the fabric layers and the concentric stitching our cotton polishing wheels guarantee a vibration-free concentricity for very uniform polishing patterns. We therefore recommend these wheels especially for use bench grinders, hand-held angle grinders or together with flexible shafts.

Menzerna 439T Heavy-Cut Compound - Green

439T is a universal and fast-acting heavy-cut polishing compound for a wide range of applications. It quickly eliminates burrs, turning or sanding marks, and orange peel.

- Abrasive universal polishing compound for cut-buffing of steel and non-ferrous metals
- Creates shine with good cut
- Processing with firm cotton polishing discs or sisal polishing discs
- Greasy texture

Menzerna 113GZ Cut Compound - Brown

Heavy Cut polishing compound for a superb endresult, with economical consumption 113GZ is an abrasive triple-action compound.

- Universal pre-polishing compound for cut-buffing of steel and non-ferrous metals
- Creates shine with medium cut
- Processing with cotton polishing discs or sisal polishing discs
- Very greasy texture

Menzerna P164 Medium Cut Compound - Blue

Medium Cut polish for an exceptionally even finish P164 is a universal polishing compound. It combines high gloss with an excellent cut. Results in an exceptionally even finish.

- Creates high gloss with medium-light cut
- Processing with cotton or molton polishing discs
- Semi- greasy texture

Menzerna P126 High Gloss Compound - Pink

Specially developed for stainless steel polishing, but is also suitable for all other types of steel. With this paste you can quickly achieve a perfect high gloss. The surfaces polished to a high gloss with P126 are an ideal preparation for super-finish polishing with Menzerna P175 or M5.

- High-gloss paste especially for stainless steel
- Semi-dry
- Quickly creates a fine high gloss
- Processing with cotton or molton polishing discs

Menzerna P175 Super-Finish Compound - Yellow

Menzerna P175 is a super-fine, versatile high-gloss polishing paste. It ensures a deep-gloss and line-free surface. This super-finish paste is suitable for soft precious metals, aluminium, brass/non-ferrous metals, stainless steel, soft paint and polymer surfaces. It ensures a brilliant, deep-gloss surface.

- Universal super-finish compound
- Fat content: dry
- Process with molton polishing wheels

Menzerna M5 Super-Finish Compound

Menzerna M5 is a very fine, versatile super-finish premium solid polishing compound. It is particularly suitable for polishing hard precious metals such as white gold, silver, titanium, stainless steel and hard high-gloss lacquers. It provides a brilliant, deep-gloss surface.

- Super finish polishing compound for hard precious metals, stainless steel, titanium and lacquer
- Grease content: dry
- Process with molton polishing wheels

CAR DETAILING COMPOUNDS

Menzerna Cut Force Pro

This high-performance polish powerfully removes scratches, sanding and wear marks at top speed. Innovative polishing technology from the Menzerna laboratory ensures maximum removal while maintaining excellent gloss. The polish takes paint repair to a new level, restores the shine to heavily used clear coats and creates a noble deep gloss.

Menzerna Super Heavy Cut Compound 300

The ultimate abrasive polish for maximum sanding removal further improved

The ultimate sanding polish for modern automotive clear coats with maximum sanding effect and the latest technology. SHCC 300 removes P1200 grit sanding marks and signs of usage in the shortest time possible without damaging the surface. Without aggressive solvents.

Menzerna Heavy Cut Compound 400

An innovative automotive polish that removes scratches and creates gloss in a single step

The professional polish for automotive clear coats – with a new and improved formula – always leaves a glistening impression. As the detailers' favourite polish, it eliminates sanding marks in record time, quickly removes scratches on the car, and generates gloss all the way to the finish. Thanks to cutting-edge polishing technology with diminishing abrasives.

Menzerna Heavy Cut Compound 1000

Car polish for the speedy removal of deep scratches using foam polishing pads

This powerful polish quickly and thoroughly removes scratches in car paint, scrapes, spray, and heavy signs of use. The Menzerna automotive polish for the speedy removal of sanding marks. Optimized for use with FOAM polishing pads.

Menzerna Medium Cut Polish 2200

The classic fine abrasive polish for the removal of moderately deep scratches

A safe bet for speedy success. A Medium Cut automotive polish for slight and moderately deep scratches. This fine abrasive polish eliminates the polishing marks/smears of abrasive compounds in the blink of an eye and takes care of car wash scratches. Best value for money in the Medium Cut segment.

Menzerna Medium Cut Polish 2500

A glossy fine abrasive polish for the removal of moderately deep scratches

This Medium Cut polish offers the ideal combination of sanding mark removal and gloss on automotive clear coats. Ideally suited for the polishing of moderately deep scratches and the removal of signs of use. Exceptional gloss as standard.

Menzerna Final Finish 3000

Classic high-gloss polish for a brilliant finish

This standard high-gloss polish removes swirls and car wash scratches with the utmost reliability and paves the way for exceptional automotive gloss.

Menzerna Super Finish 3500

High-gloss polish for a perfect mirror finish

This world-beating polish removes polishing marks, micro scratches, and holograms to ensure a flawless mirror finish. On account of its dark color, this high-gloss polish is particularly ideal for polishing black and other dark car coats.

Menzerna Super Finish Plus 3800

High-gloss polish for maximum deep shine

This automotive polish boasts genuine star quality and polishes micro scratches and holograms for sparkling performance. It is the perfect choice when it comes to achieving maximum high gloss for black/dark coats. Finish polish for maximum deep shine.

Menzerna Power Protect Ultra 2in1

2 in 1: High-gloss polish and silicone-free coat seal

Top performance all the way: not only removes fine smears and holograms, but also creates a protective, dirt-repellent film. It contains carnauba wax, which protects the car coat following polishing of the holograms.

Menzerna Sealing Wax Protection

Standard coat sealant

This auto coat sealant creates a protective, dirt-repellent film. The polishing wax generates deep shine and brilliance on the surface of the coat. Standard sealant

Power Lock Ultimate Protection

Polymer sealant for all automotive clear coats

This specialist product with staying power not only offers a long-lasting seal, but also reliably protects against environmental influences. The polymer sealant boasts an unbeatable beading effect, not to mention peerless deep shine. Also suitable as a long-lasting coat sealant for new vehicles.

Menzerna Liquid Carnauba Protection

Natural sealing blend for enthusiasts

Liquid carnauba wax for long-lasting protection, combined with a soft, natural feel and brilliant deep shine. For noticeably smoother surfaces. The high-quality carnauba wax can be easily applied, either with or without a polishing machine. Liquid carnauba wax

Menzerna Ceramic Spray Sealant

Universal spray sealant for all vehicles

Easy and quick to apply spray sealant with very high water-repellent effect. The spray sealant protects the surface from environmental influences and deposits and is extremely dirt-repellent. An unbeatable product for every user in all areas of vehicle detailing. Premium long-lasting sealant

Menzerna Control Cleaner

Cleaning spray for exceptionally thorough polishing

This matchless cleaning spray enables visual inspection of the coat surface being treated – and removes polishing residues, grease, and dirt. Ideal for ensuring a clean base coat to prepare for sealing. Menzerna Control Cleaner boasts smear-free application and outstanding wipe properties.

Menzerna Endless Shine

Detailing spray to refresh the gloss

Quick Detailer Endless Shine is like a wellness treatment for all automotive coats. This detailing spray effortlessly removes light specks of dust, water marks, and bird droppings to leave behind a smooth and shiny finish. Includes an outstanding beading effect. Suitable for a variety of surfaces, including paint, glass, plastic, and metal.

Menzerna Gelcoat Premium One-Step Polish

Multi-stage boat polish: Polishes the gel coat and generates high gloss in a single

Everything shipshape – including the finish. A glossy finish that is a sight for sore eyes. This boat polish, especially developed for gel coat (fiberglass), removes scratches/signs of use and generates gloss.

***USE WITH OUR SPECIAL DESIGNED NAUTIC RANGE POLISHING PADS!**

Menzerna Gelcoat Premium Gloss

High-gloss boat polish for a perfect mirror finish

A flawless mirror finish for boats. The GC Premium Gloss boat polish does a superb job on dark gel coat surfaces. Glide effortlessly across the water thanks to a flawlessly smooth finish. Elegance meets functional excellence thanks to this high-gloss polish for sailboats and motorboats alike.

***USE WITH OUR SPECIAL DESIGNED NAUTIC RANGE POLISHING PADS!**

Menzerna Gelcoat Premium Protection

Long-lasting polymer sealant especially for boat care

Cutting-edge polymer technology enables a visibly fresher and noticeably smoother gel coat finish. Effervescent effect: less resistance, lower consumption. This sealant offers durable, long-lasting protection for your boat.

OSBORN – Unipol Metalpolish

Practical all-rounder metal polish for household, trade and car in practical 125 ml tube or 1000ml can.

Very easy in use. Apply polish, rub in with damp sponge, let slightly dry, polish and clean with soft cloth. Cleans silver, stainless steel, brass, copper, aluminum and hard plastic

PRIVATE LABEL RANGE

We offer a selection of high quality and time-saving car polishing compounds as private label products.

This range can be customized according to the wishes of our customers from packaging to formulations. Combined with our extensive range of polishing accessories, we can always find a solution for your polishing processes.

Heavy Cut Compound

Fast rubbing compound for use on heavily scratched and weathered paints that delivers a great cutting performance and high gloss finish. This compound contains a high number of abrasive grits and will quickly remove heavy scratches, paint defects and sanding marks up to 2000 grade.

Medium Cut Compound

High performance medium cut compound and is formulated to remove medium scratches, paint defects and sanding marks up to 3000 grade. This compound is formulated with fine abrasive grains, which during processing gets finer, so a high gloss finish paint surface is achieved in only one step.

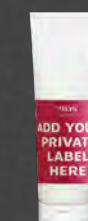

Finishing Compound

Hologram removing polishing compound formulated with the finest abrasives to remove light swirls, marring and holograms. The finishing compound leaves a deep high gloss finish on the paintwork and has a long working time.

Wax

A hybrid formulated wax with high-quality carnauba wax paste and synthetic polymers to provide a protective layer on the polished surface and to enhance a deep-gloss shine of the paintwork. The wax gives a water repellent effect and lasts up to 5 to 7 months.

Practical all-rounder metal polish for household, trade and car in practical 125 ml tube or 1000ml can.

Very easy in use. Apply polish, rub in with damp sponge, let slightly dry, polish and clean with soft cloth. Cleans silver, stainless steel, brass, copper, aluminum and hard plastic.

PRIVATE LABEL CONCEPT

With our in-house converting machines, we can offer tailor made products in any shape or size with your own personal packaging.

From our extensive range of available foam blocks we can cut into various shapes and thicknesses, glue with preferred color of hook and loop material, shape and pack in any desired type of packaging.

1. CHOOSE YOUR FOAM

We offer a variety of high-quality foams, suitable for all polishing applications. Available in different sizes and thickness. Profiled foams, like a waffle surface, are also available.

2. CHOOSE YOUR HOOK AND LOOP

We standard offer a heavy weight hook and loop material in the colors white, red and black. Other colors are available on request, as well as full private label printed hook and loop.

3. CHOOSE YOUR SHAPE

All products can be made to your adjustments and demands.

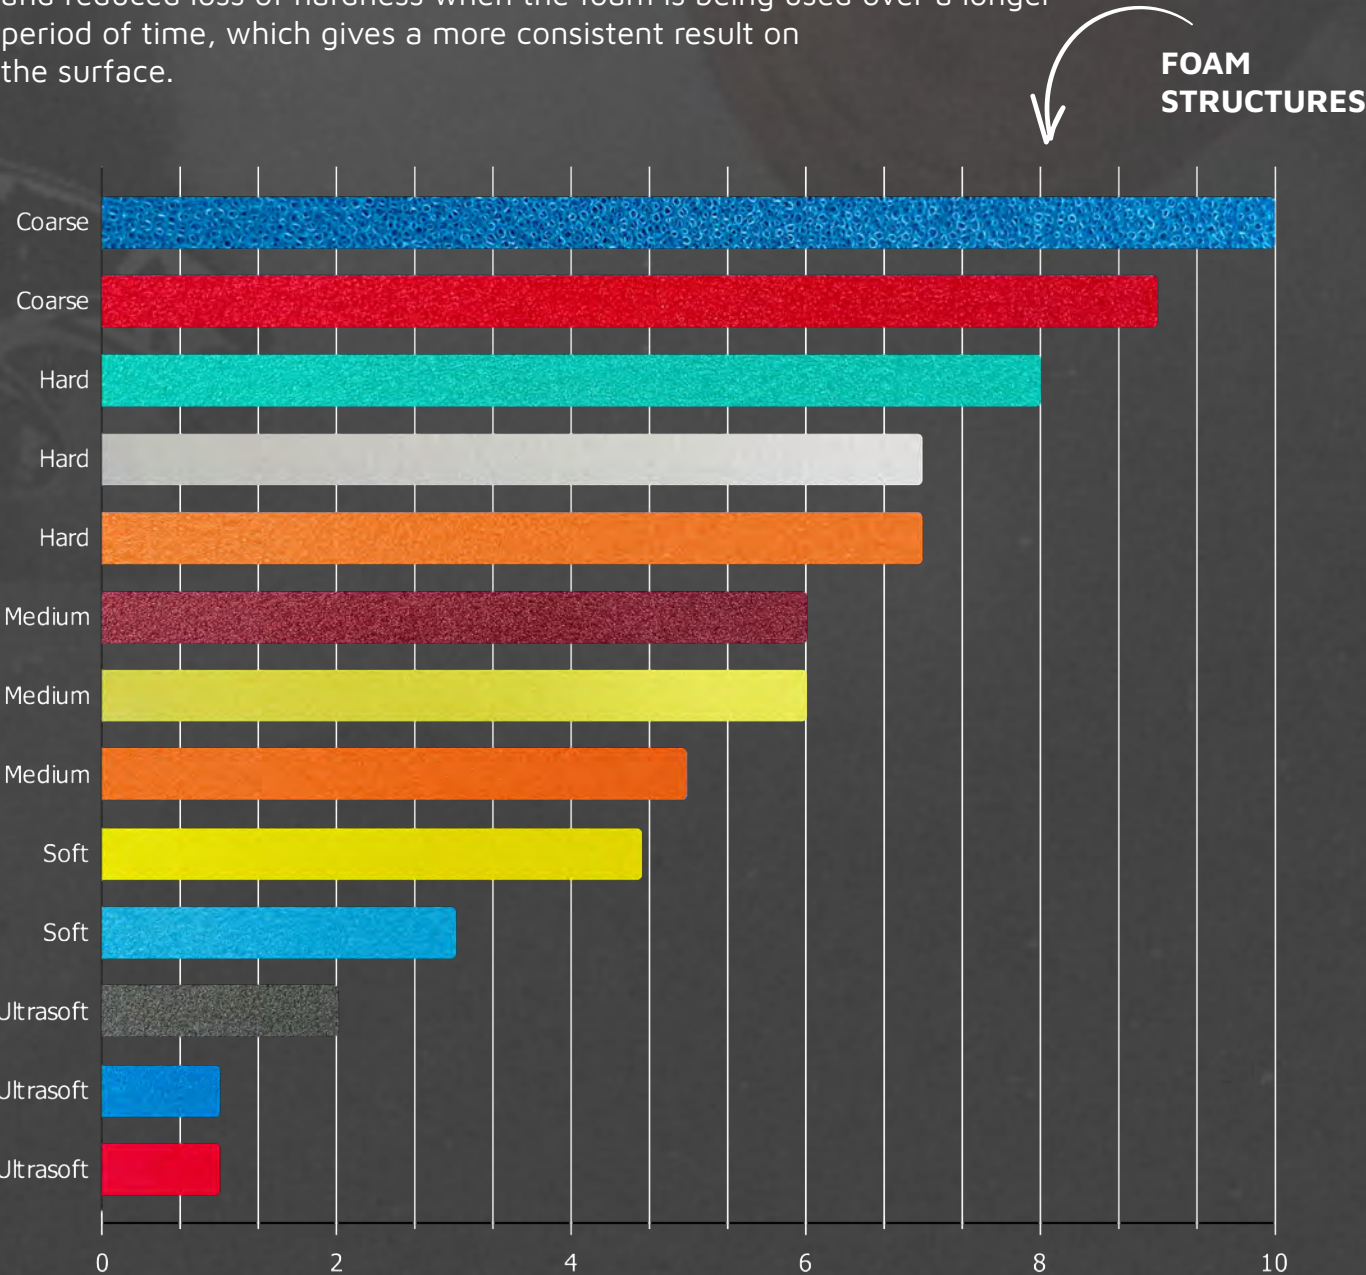

4. CHOOSE YOUR PACKAGING AND LOGO

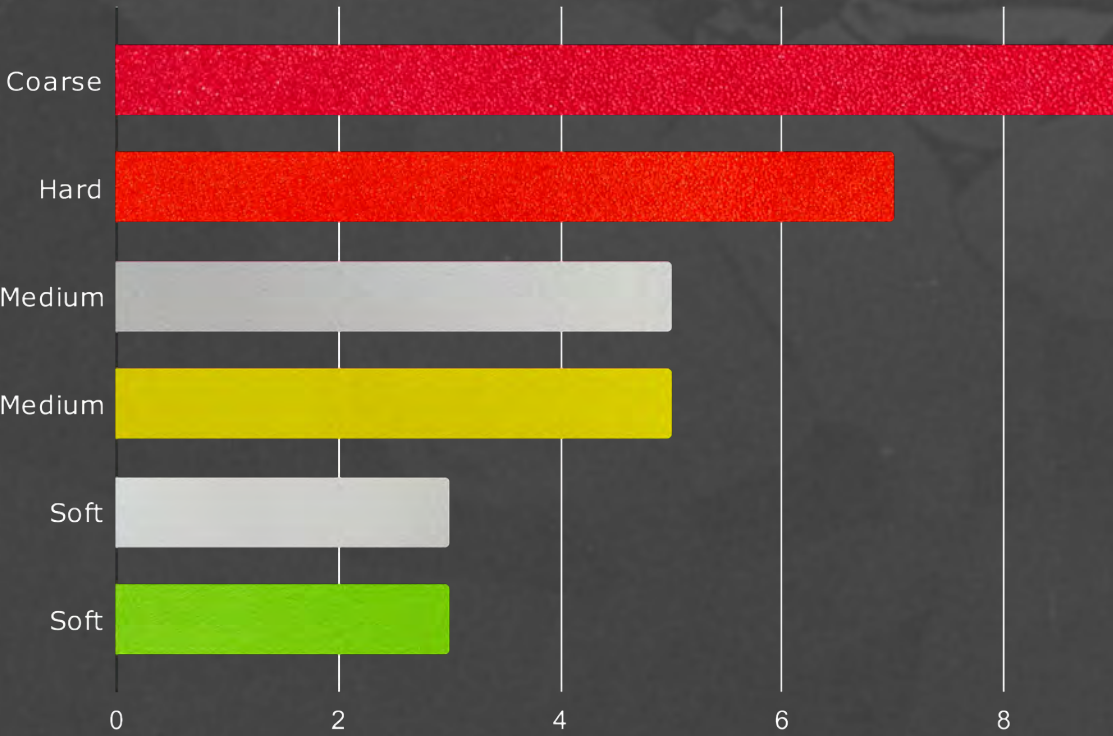

FOAM QUALITIES

Our next generation premium foam range offers enhanced durability and strength properties. This gives our polishing pads a longer lifetime and reduced loss of hardness when the foam is being used over a longer period of time, which gives a more consistent result on the surface.

FOAM QUALITIES

Our conventional standard foam range are all open-cell foams in various densities for every polishing task, from cutting to finishing abilities.

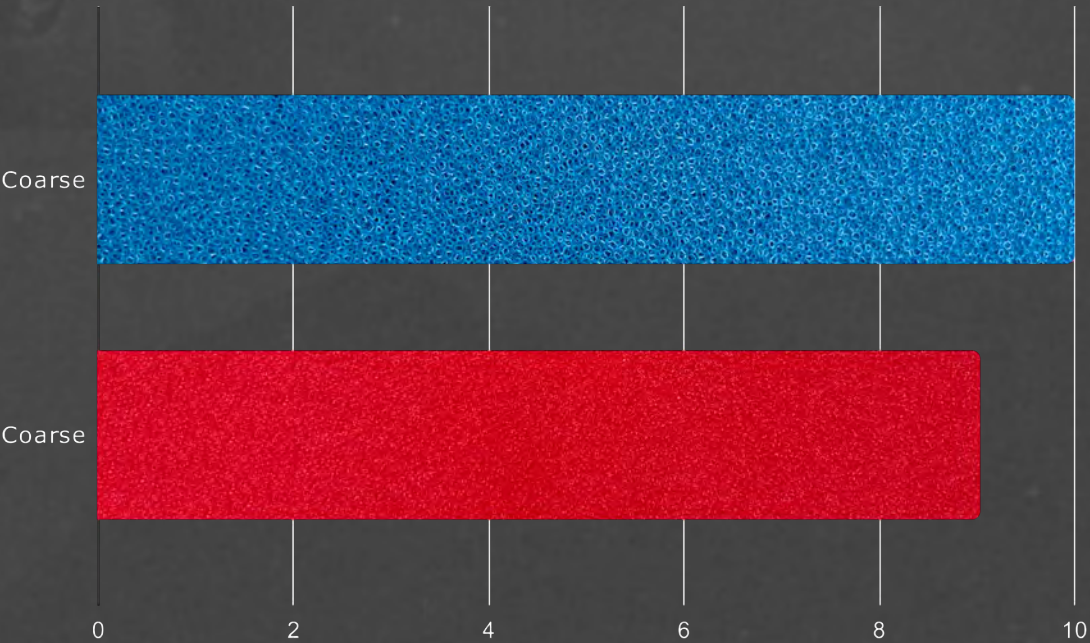

FOAM QUALITIES

Coarse cutting foams with open cells for removal of heavy paint defects, scratches and sanding marks.

Blue:
Density (kg/m3): 35 - 42
Pore Size (ppi): 35 - 45
Hardness 40% (kPa): 10 - 16

Red:
Density (kg/m3): 35 - 42
Pore Size (ppi): 50 - 60
Hardness 40% (kPa): 10 - 16

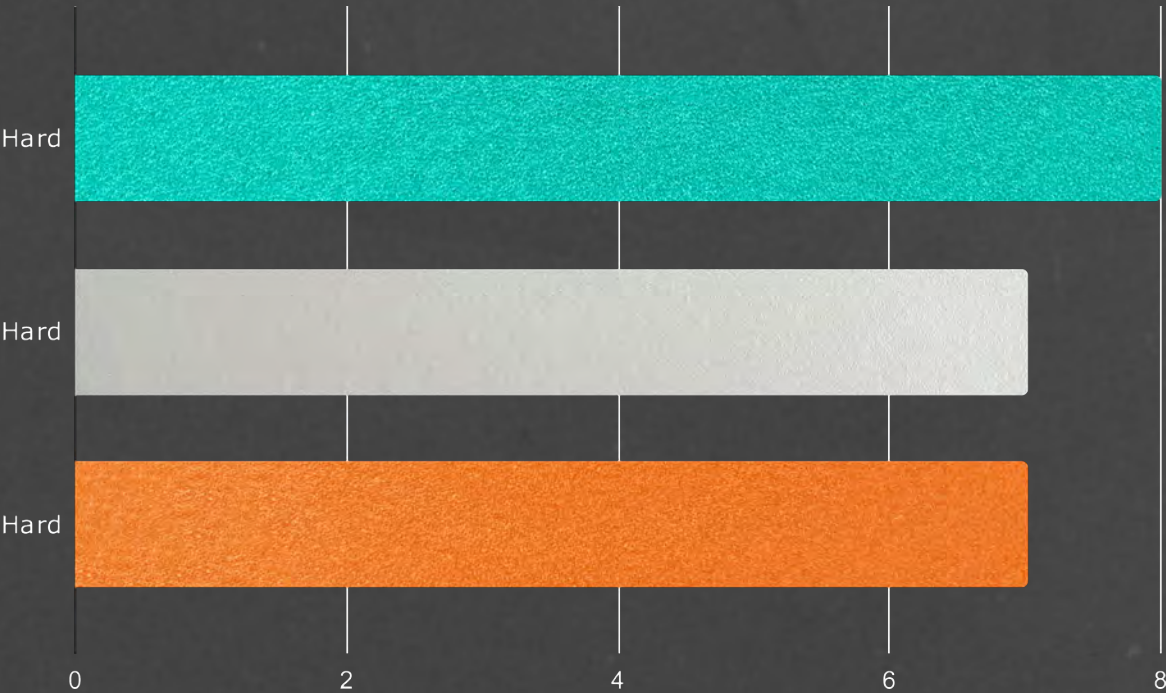

FOAM QUALITIES

Dense and firm foam construction for high cutting ability without hazing. Quick removal of medium defects, scratches and sanding marks.

Green:
Density (kg/m3): 32 - 43
Pore Size (ppi): 60 - 70
Hardness 40% (kPa): 10 - 17

White/Orange:
Density (kg/m3): 35 - 43
Pore Size (ppi): 70 - 80
Hardness 40% (kPa): 9 - 13

FOAM QUALITIES

All-Round medium density foams for easy removal of medium paint defects and leaving a high gloss finish.

Maroon:
Density (kg/m3): 31 - 40
Pore Size (ppi): 65 - 75
Hardness 40% (kPa): 6 - 8

Orange:
Density (kg/m3): 35 - 42
Pore Size (ppi): 75 - 85
Hardness 40% (kPa): 9 - 15

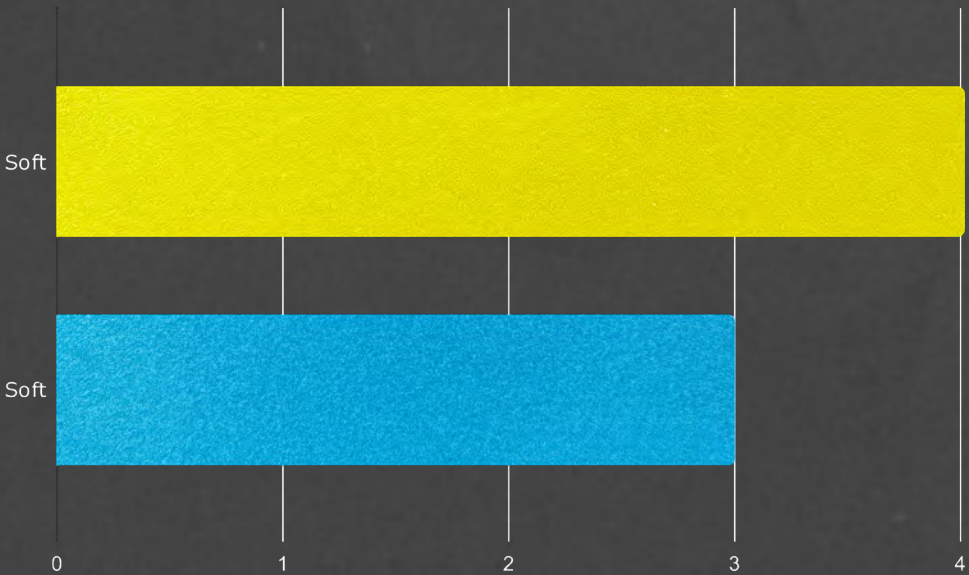

FOAM QUALITIES

Fine celled foam construction with high density for removing holograms and swirls. Will leave a high gloss finish and is the ideal fine polishing pad.

Yellow:
Density (kg/m3): 42 - 48
Pore Size (ppi): 70 - 80
Hardness 40% (kPa): 4 - 7

Light Blue:
Density (kg/m3): 41 - 45
Pore Size (ppi): 70 - 80
Hardness 40% (kPa): 5,5 - 7,5

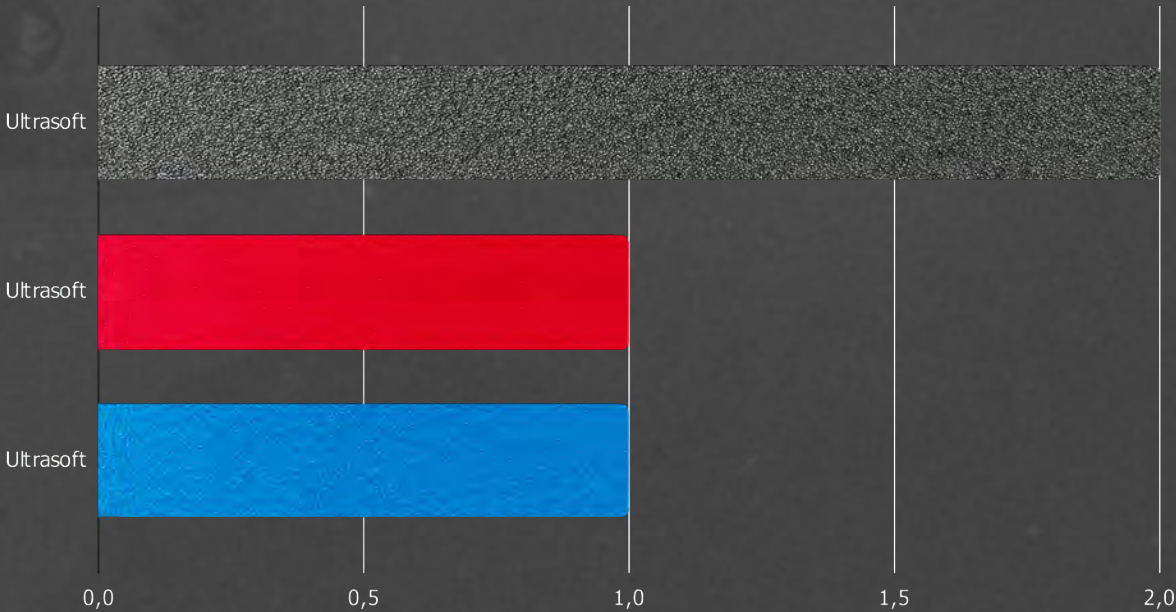

FOAM QUALITIES

Soft and fine finishing foam for any finish work on all types of paint. Perfect to remove extremely fine defects or to bring out a show car level finish.

Black:
Density (kg/m3): 27 - 33
Pore Size (ppi): 75 - 85
Hardness 40% (kPa): 2,5 - 4,5

Red/Blue:
Density (kg/m3): 27 - 35
Pore Size (ppi): 75 - 85
Hardness 40% (kPa): 2 - 4

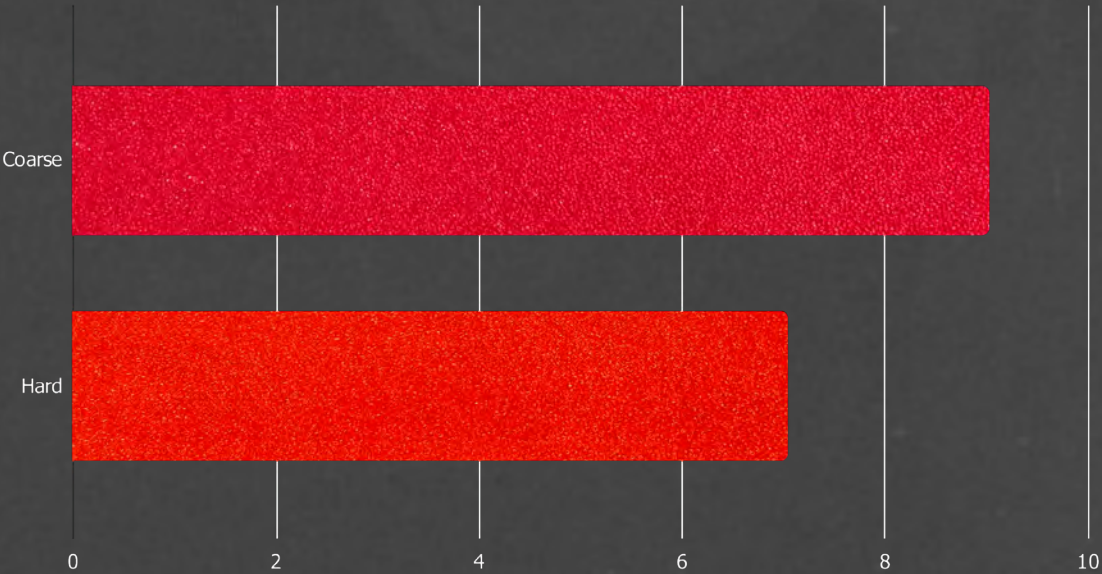

FOAM QUALITIES

Red cutting foam with open cells for removal of heavy paint defects, scratches and sanding marks. Orange medium cutting foam for removal of medium defects, scratches and sanding marks.

Red:
Density (kg/m3): 41 - 45
Pore Size (ppi): 50 - 60
Hardness 40% (kPa): > 16

Dark Orange:
Density (kg/m3): 41 - 45
Pore Size (ppi): 60 - 70
Hardness 40% (kPa): 11 - 13

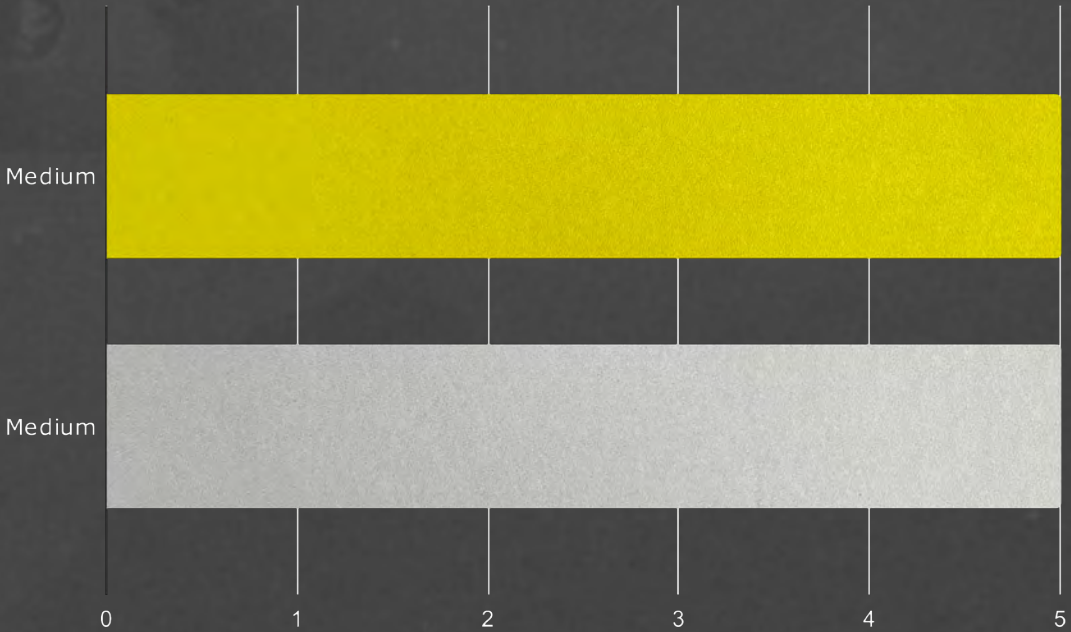

FOAM QUALITIES

Yellow and White medium foams for removal of medium defects, scratches and holograms.

Yellow:
Density (kg/m3): 41 - 45
Pore Size (ppi): 70 - 80
Hardness 40% (kPa): 8,5 - 10

White:
Density (kg/m3): 41 - 45
Pore Size (ppi): 70 - 80
Hardness 40% (kPa): 8,5 - 10

FOAM QUALITIES

Green and White soft foams for removal of holograms and swirls. Will leave a high gloss finish and suited as finishing pad.

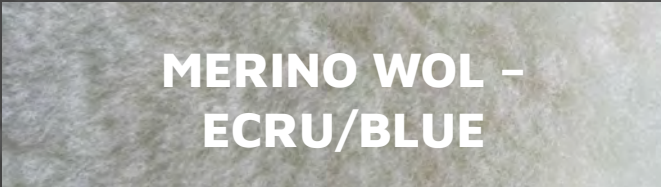

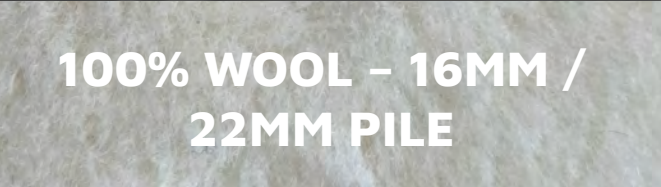

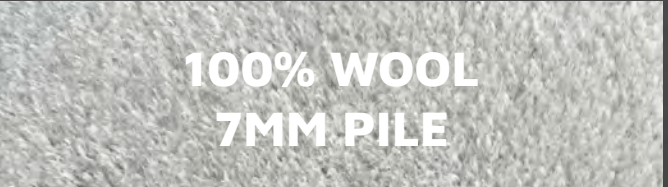

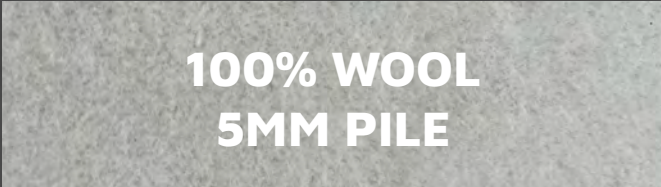

Green:
Density (kg/m3): 41 - 45
Pore Size (ppi): 75 - 85
Hardness 40% (kPa): 3,0 - 5,0

White:
Density (kg/m3): 41 - 45
Pore Size (ppi): 75 - 85
Hardness 40% (kPa): 3,0 - 5,0

WOOL QUALITIES

We offer an extensive range of various high quality and durable wool qualities, which can be produced both with or without foam interface layer.

 MERINO WOL – ECRU/BLE	 100% PURPLE PREMIUM WOOL – 9MM / 22MM PILE
 100% WOOL – 16MM / 22MM PILE	 100% WOOL 7MM PILE
 100% WOOL 5MM PILE	 100% WOOL – LOW TEMPERATURE 10MM PILE

WOOL & MICROFIBRE QUALITIES

We offer an extensive range of various high quality and durable wool/ microfiber qualities, which can be produced both with or without foam interface layer.

VELCRO

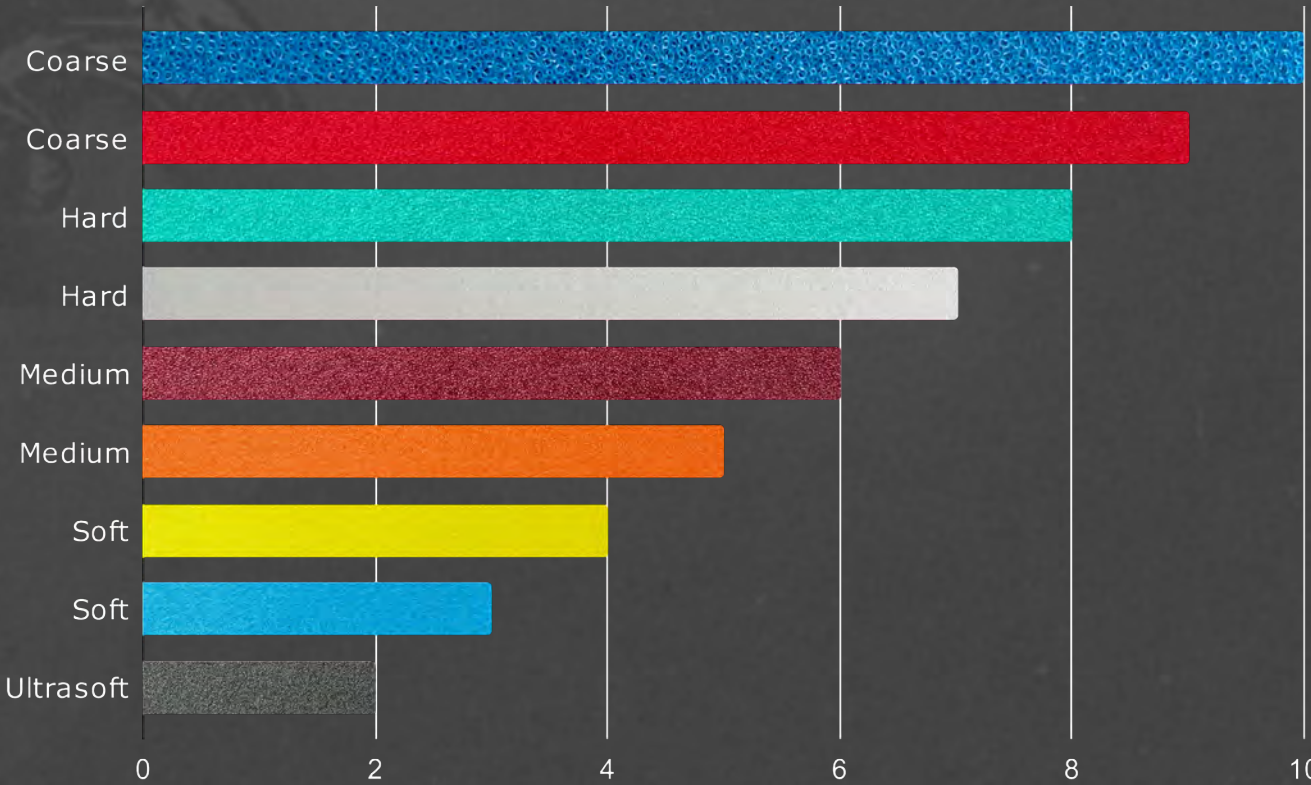

We offer a premium and durable quality of Velcro for professional usage on any machine polisher. Available in different colors.

SLIMLINE RANGE

The SLIMLINE Range is designed with 20mm thickness to improve stability and gain faster results in less time. The thinner design brings the power of the polishers directly over to the surface being polished. These pads are made from our premium foam range which offers enhanced durability and strength properties.

This gives our polishing pads a longer lifetime and reduced loss of hardness when the foam is being used over a longer period of time, which gives a more consistent result on the surface.

FOAM POLISHING PADS

Range of standard available polishing pads, which can be supplied under private label branding. | SLIMLINE PAD RANGE

BLUE SUPER HEAVY CUT PAD

Extra coarse cutting foam with open cells for removal of paint defects, scratches and sanding marks. Suitable for all types of polishers.

Available in sizes*:
1", 2", 3", 5" and 6.5".

RED HEAVY CUT PAD

Coarse cutting foam with enhanced lifetime for removal of paint defects, scratches and sanding marks. Suitable for all types of polishers.

Available in sizes*:
1", 2", 3", 5" and 6.5".

GREEN ULTRA CUTTING PAD

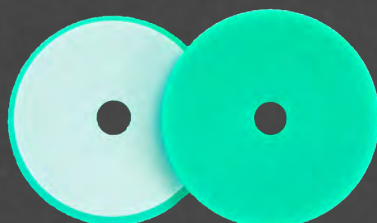

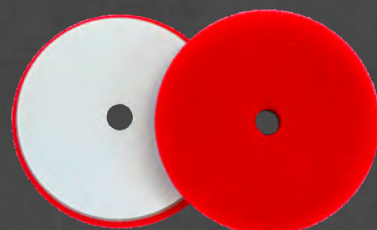

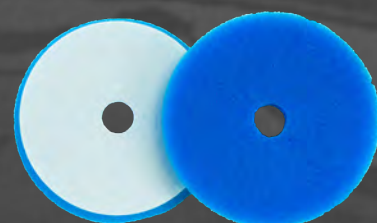

Dense and firm foam construction for high cutting ability and quick removal of medium defects, scratches and sanding marks. Perfectly suitable for all types of polishers.

Available in sizes*:
1", 2", 3", 5" and 6.5".

WHITE COMPOUNDING PAD

Firm cutting foam for removal of medium to light defects, scratches and sanding marks. Suitable for all types of polishers.

Available in sizes*:
1", 2", 3", 5" and 6.5".

MAROON HEAVY CUT PAD

Medium Cut foam pad which is ideal for the removal of medium paint defects and leaving a high gloss finish. Suitable for all types of polishers.

Available in sizes*:
1", 2", 3", 5" and 6.5".

ORANGE MEDIUM CUT PAD

Firm and fine celled foam construction for heavy to medium polishing tasks. Will give a good cut and finish in combination with various polishing compounds. Suitable for all types of polishers.

Available in sizes*:
1", 2", 3", 5" and 6.5".

YELLOW FINE POLISHING PAD

Fine celled foam construction with high density for removing holograms and swirls. Will create a high gloss finish and is the ideal fine polishing pad. Suitable for all types of polishers.

Available in sizes*:
1", 2", 3", 5" and 6.5".

BLUE POLISHING PAD

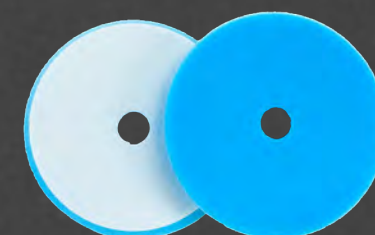

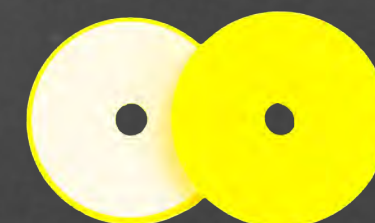

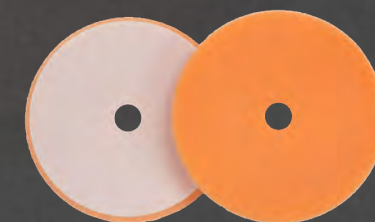

Softer polishing foam for removing light holograms and swirls with light compounds or finishing polishes. Suitable for all types of polishers.

Available in sizes*:
1", 2", 3", 5" and 6.5".

BLACK FINISHING PAD

Firm cutting foam for removal of medium to light Soft and fine finishing foam for any finish work on all types of paint. Perfect to remove extremely fine defects or to bring out a show car level finish. Suitable for all types of polishers.

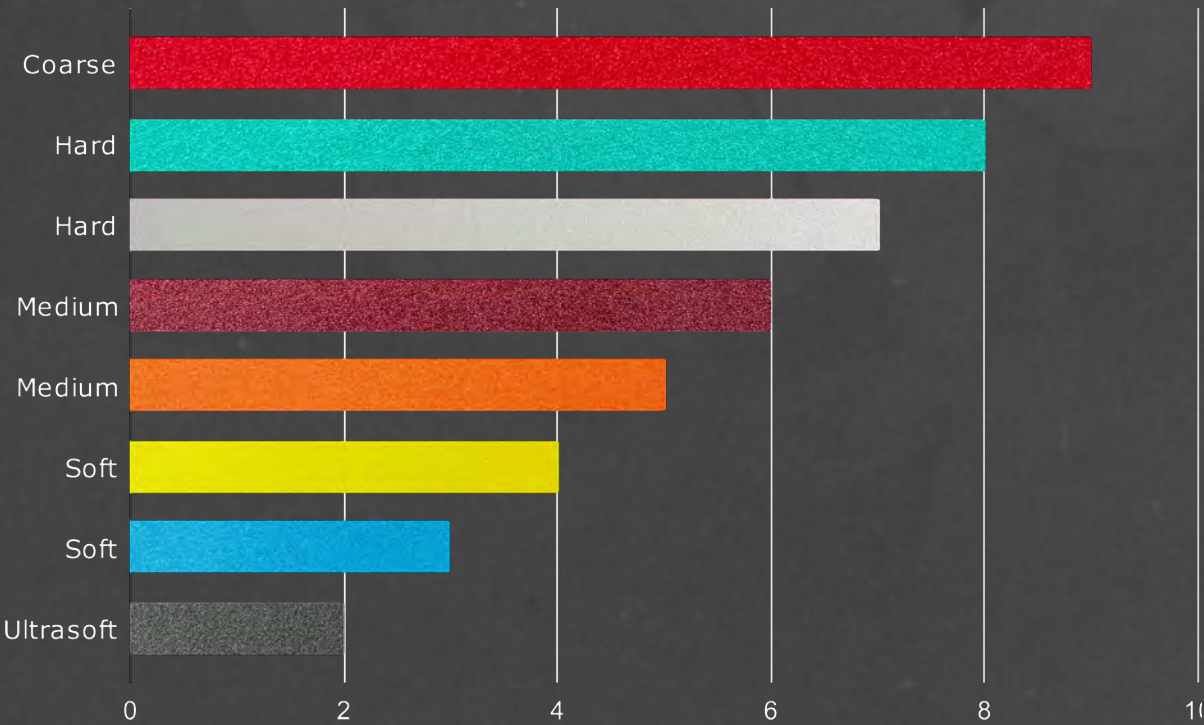

Available in sizes*:
1", 2", 3", 5" and 6.5".

SANDWICH RANGE

The SANDWICH Range is designed with an additional 7mm foam interface layer to improve durability and withstand more heat and orbit, created by long-throw polishers. These pads are made from our premium foam range which offers enhanced durability and strength properties.

This gives our polishing pads a longer lifetime and reduced loss of hardness when the foam is being used over a longer period of time, which gives a more consistent result on the surface.

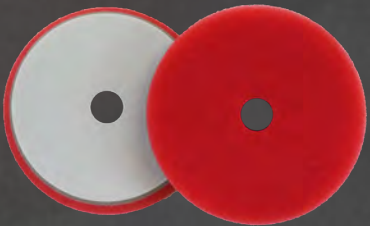

FOAM POLISHING PADS

Range of standard available polishing pads, which can be supplied under private label branding. | SANDWICH PAD RANGE

RED HEAVY CUT PAD

Coarse cutting foam with enhanced lifetime for removal of paint defects, scratches and sanding marks. Suitable for all types of polishers.

Available in sizes*: 3", 5" and 6.5".

GREEN ULTRA CUTTING PAD

Dense and firm foam construction for high cutting ability and quick removal of medium defects, scratches and sanding marks. Perfectly suitable for all types of polishers.

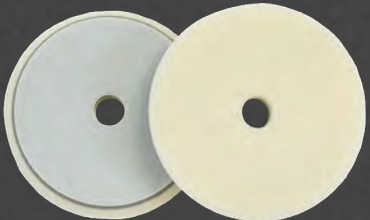

Available in sizes*: 3", 5" and 6.5".

WHITE COMPOUNDING PAD

Firm cutting foam for removal of medium to light defects, scratches and sanding marks. Suitable for all types of polishers.

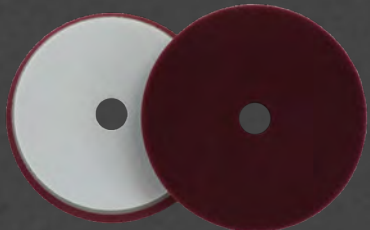

Available in sizes*: 3", 5" and 6.5".

MAROON HEAVY CUT PAD

Medium Cut foam pad which is ideal for the removal of medium paint defects and leaving a high gloss finish. Suitable for all types of polishers.

Available in sizes*: 3", 5" and 6.5".

ORANGE MEDIUM CUT PAD

Firm and fine celled foam construction for heavy to medium polishing tasks. Will give a good cut and finish in combination with various polishing compounds. Suitable for all types of polishers.

Available in sizes*:
3", 5" and 6.5".

YELLOW FINE POLISHING PAD

Fine celled foam construction with high density for removing holograms and swirls. Will create a high gloss finish and is the ideal fine polishing pad. Suitable for all types of polishers.

Available in sizes*:
3", 5" and 6.5".

BLUE POLISHING PAD

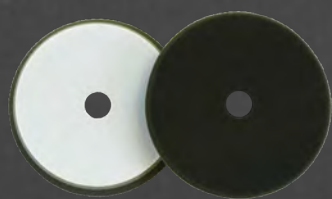

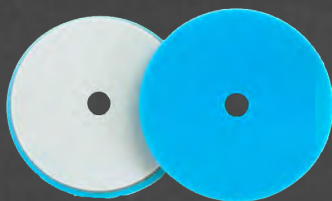

Softer polishing foam for removing light holograms and swirls with light compounds or finishing polishes. Suitable for all types of polishers.

Available in sizes*:
3", 5" and 6.5".

BLACK FINISHING PAD

Firm cutting foam for removal of medium to light Soft and fine finishing foam for any finish work on all types of paint. Perfect to remove extremely fine defects or to bring out a show car level finish. Suitable for all types of polishers.

Available in sizes*:
3", 5" and 6.5".

WOOL POLISHING PADS

MERINO LAMBSKIN - KNITTED

100% Merino Wool Bonnets with 22mm pile for excellent cutting performance and heat-resistance. Removes heavy paint defects, scratches and sanding marks. Suitable on rotary polishers.

Available in sizes*: 3", 5" and 6.5".

MERINO BLUE LAMBSKIN – FOAM INTERFACE

100% Merino Wool Pads with 22mm pile and additional foam interface layer for more control and extra cutting performance. Removes heavy paint defects, scratches and sanding marks. Suitable on rotary polishers.

Available in sizes*: 3", 5" and 6.5".

100% WOOL PAD – ROTARY & DA 16MM

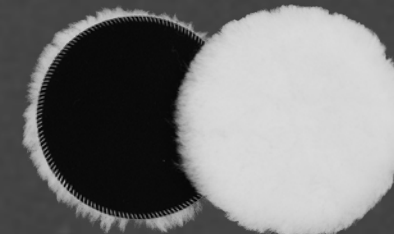

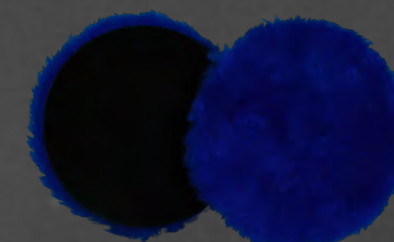

100% Wool Twisted Yarn with 16mm pile and dense foam interface layer. Removes paint defects, scratches and sanding marks without leaving a haze. Suitable with both rotary and DA polishers.

Available in sizes*: 3", 5" and 6.5".

KNITTED PURPLE WOOL PAD

100% knitted wool Bonnets with 22mm pile or 9mm pile for superb cutting performance on rotary polishers. Removes heavy paint defects, scratches and sanding marks.

Available in sizes:
3", 5" and 6.5"

SANDWICH WOOL PAD

Short pile of 5mm 100% fine wool yarn for excellent and quick cutting performance. Designed with dual-layered interface for extra control and comfort. Removes paint defects, scratches and sanding marks, whilst leaving a finish. Suitable with any dual action polisher, especially long-throw polishers.

Available in sizes* 3", 5" and 6.5".

WOOL CUTTING PAD

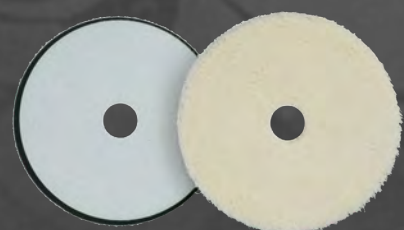

Pile of 7mm 100% coarse wool yarn for superb and quick cutting performance. Due to the soft interface layer, this pad is easy in control and adapts to the surface of the paint. Removes paint defects, scratches and sanding marks, whilst leaving a high gloss finish. Suitable with any dual action polishers

Available in sizes*: 1", 2", 3", 5" and 6.5".

GREEN WOOL – MEDIUM CUTTING PAD

Pile of 7mm with a blend of wool fibers for the removal of severe to medium paint defects, scratches and sanding marks, whilst leaving a high gloss finish. Suitable on with dual action polishers

Available in sizes*: 1", 2", 3", 5" and 6.5".

MICROFIBER POLISHING PADS

Range of standard available microfiber polishing pads, which can be supplied under private label branding.

MICROWOOL PAD

Combination of microfiber- and wool fibers with 5mm pile. Excellent cutting and finishing performance, which makes this pad versatile in application. Removes paint medium defects, scratches, sanding marks and swirls. Suitable on any dual action polishers

Available in sizes*: 3", 5.5" and 6".

MICROFIBER EXTRA CUT PAD

The Microfiber EXTRA Cut pad offers high cutting action due to its 5mm grey microfiber pile and 7mm interface layer. Works faster than conventional foam polishing pads, without leaving a haze on the paint. Suitable for any dual action polishers

Available in sizes*: 1", 2", 3", 5.5" and 6".

MICROFIBER CUTTING PAD

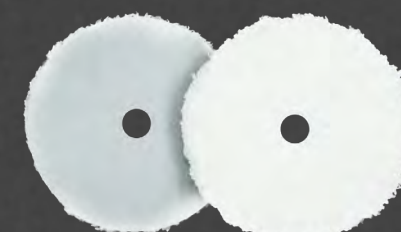

Soft and dense microfiber pad with 12mm pile. Made with a medium dense foam interface layer for removing medium to light scratches, swirls and other light defects. Cutting and finishing ability can be adjusted in use with different polishing compounds. Suitable for any dual action polishers

Available in sizes*: 1", 2", 3", 5.5" and 6".

MICROFIBER FINISHING PAD

Soft and dense microfiber pad with 12mm pile. Made with soft foam interface layer, ideally for applying a sealant or glaze as final step. Suitable for any dual action polishers

Available in sizes*: 1", 2", 3", 5.5" and 6".

NAUTIC PADS

Range of standard available polishing pads suitable for the nautic industry, which can be supplied under private label branding.

NAUTIC WOOL PAD

100% Wool Twisted Yarn with 22mm pile and dense foam interface layer. Removes heavy paint defects, scratches and sanding marks without leaving a haze. Suitable with both rotary and DA polishers.

Available in sizes*: 7.5".

BLUE WAFFLE PAD - COURSE

Coarse cutting foam with open cells for removal of heavy paint defects, scratches and sanding marks. Made with waffle surface for better cooling of both pad and surface. Suitable for all types of polishers.

Available in sizes*: 5", 6.5" and 7.5".

YELLOW WAFFLE PAD - MEDIUM

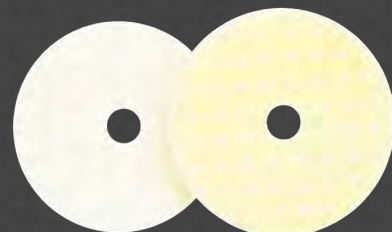

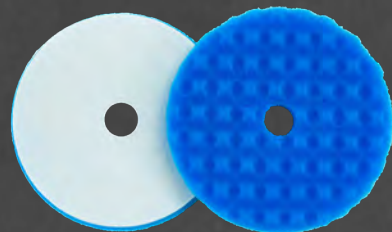

Medium density foam for removing light defects, holograms and swirls. Will create a high gloss finish and is the perfect anti-hologram pad. Made with waffle surface for better cooling of both pad and surface. Suitable for all types of polishers.

Available in sizes*: 5", 6.5" and 7.5".

WHITE WAFFLE PAD - SOFT

Soft finishing foam with waffle surface for better cooling of both pad and surface. Perfect to remove extremely fine defects in combination with finishing compounds or to apply a sealant or wax. Suitable for all types of polishers.

Available in sizes*: 5", 6.5" and 7.5".

MARINE POLISHING RANGE

Our Premium Marine Polishing Range is designed with a waffled structure, which generates a smooth polished surface and pleasant usage. The waffle-shaped surface of our pads work cooler, which reduce overheating the paint. This product range is formulated to tackle every step and remove various surface imperfections, from oxidation to fine scratches, ensuring a high gloss finish on boats and yachts.

ACCESORIES

MONKEY RANGE

Introducing our Monkey Line Range: an innovative product range designed for both professionals and enthusiasts, prioritizing high-quality results at a fair price for your car.

Crafted and perfected in the Netherlands, our mission is to provide a straightforward and time-efficient polishing system. Our products are color-coded for easy selection, ensuring the right combination for any situation or imperfection.

Blue and red signify heavy cut (Gorilla Pads and Monkey Pad Blue/Red), apricot indicates medium cut (Monkey Pad Apricot), yellow is for polishing (Monkey Pad Yellow), and green is ideal for all finishing tasks (Monkey Pad Green).

With a comprehensive selection, our range caters to diverse polishing needs, ensuring satisfaction for every requirement you encounter.

POLISHING COMPOUNDS

HEAVY CUT

The Monkey Heavy Cut Compound is a time saving cutting compound that delivers a great cutting performance and high gloss finish. This compound contains homogeneous abrasive particles and will remove heavy scratches, paint defects and sanding marks up to 2000 grade. The Heavy Cut Compound has a long working time and is easy in use and can be easily wiped off!

MEDIUM CUT

The Monkey Medium Cut Compound is a high performance medium cut compound and is formulated to remove medium scratches, paint defects and sanding marks up to 3000 grade. The Medium Cut Compound has a long working time and is easy in use and can be easily wiped off!

FINISHING

The Monkey Finishing Compound is formulated with the finest abrasives to remove light swirls, marring and hologram-free. The Finishing Compound leaves a deep high gloss finish on the paintwork and has a long working time and is easy in use and can be easily wiped off!

TRAPEZ MONKEY PADS & ROTARY MONKEY PADS

COARSE CUT - BLUE

The Blue Coarse Cut Pad is the most aggressive pad in this series with an open- and coarse cell foam and is ideal for removing deeper scratches, sanding marks and other paint imperfections in combination with our Monkey Heavy Cut Compound.

Available in sizes: 3", 5" and 6.5"

HEAVY CUT - RED

The Red Heavy Cut Pad is a firm and aggressive pad which is ideal for removing scratches, sanding marks and other paint imperfections in combination with our Monkey Heavy Cut Compound.

Available in sizes: 3", 5" and 6.5"

MEDIUM CUT - ORANGE

The Orange Medium Cut Pad is a medium aggressive pad in this series and is perfectly suited as one-step pad to remove scratches, holograms and other surface defects. Optimized use with the Monkey Heavy Cut Compound for deeper paint imperfections or the Monkey Medium Cut Compound for lighter paint imperfections.

Available in sizes: 3", 5" and 6.5"

POLISHING - YELLOW

The Yellow Polishing Pad has a dense and fine cell structure and is ideal for removing swirls, holograms and lighter surface defects combined with the Monkey Medium Cut Compound or with the Monkey Finishing Compound for light swirl marks, holograms, clay-induced marring and a high gloss finish.

Available in sizes: 3", 5" and 6.5"

FINISHING - GREEN

The Green Finishing Pad is the final step in this series and will enhance a super high gloss finish and shine on the paintwork. Removes lighter swirls and holograms. Optimized use with the Monkey Finishing Compound.

Available in sizes: 3", 5" and 6.5"

SKINNY MONKEY PADS

HEAVY CUT - RED

The Red Heavy Cut Pad is a firm and aggressive pad which is ideal for removing scratches, sanding marks and other paint imperfections in combination with our Monkey Heavy Cut Compound.

Available in sizes: 1", 2", 3", 5" and 6.5"

MEDIUM CUT - ORANGE

The Orange Medium Cut Pad is a medium aggressive pad in this series and is perfectly suited as one-step pad to remove scratches, holograms and other surface defects. Optimized use with the Monkey Heavy Cut Compound for deeper paint imperfections or the Monkey Medium Cut Compound for lighter paint imperfections.

Available in sizes: 1", 2", 3", 5" and 6.5"

POLISHING - YELLOW

The Yellow Polishing Pad has a dense and fine cell structure and is ideal for removing swirls, holograms and lighter surface defects combined with the Monkey Medium Cut Compound or with the Monkey Finishing Compound for light swirl marks, holograms, clay-induced marring and a high gloss finish.

Available in sizes: 1", 2", 3", 5" and 6.5"

FINISHING - GREEN

The Green Finishing Pad is the final step in this series and will enhance a super high gloss finish and shine on the paintwork. Removes lighter swirls and holograms. Optimized use with the Monkey Finishing Compound.

Available in sizes: 1", 2", 3", 5" and 6.5"

GORILLA PADS & ROTARY WOOL MONKEY PADS

GORILLA LONG PILE WOOL PAD

Made with a 16mm wool pile for removing deeper scratches, sanding marks and other paint imperfections in combination with our Monkey Heavy Cut Compound and rotary polishers.

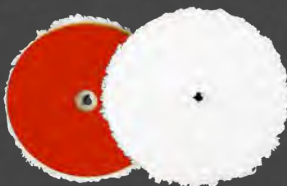

Available in sizes: 3", 5" and 6.5"

GORILLA WOOL CUTTING PAD

Designed with a 10mm foam interface and a short wool pile to provide quick defect removal whilst leaving a clear surface, without hazing or other side effects that may occur with regular wool pads. Use this pad in combination with the Monkey Heavy Cut Compound to remove heavier surface defects, like deep scratches, oxidation and swirls.

Available in sizes: 3", 5" and 6.5"

GORILLA MICROFIBER CUT N' POLISH PAD

Features a dense microfiber pile which provides a maximum surface contact during polishing. This makes it the perfect one-step pad to remove scratches, holograms and other surface defects, whilst leaving a high gloss finish. Best use with the Monkey Heavy Cut Compound for deeper paint imperfections or the Monkey Medium Cut Compound for lighter paint imperfections.

Available in sizes: 3", 5" and 6.5"

MONKEY ACCESSORIES

FOAM HAND APPLICATOR

A soft hand applicator pad for applying waxes and sealants, like our Monkey Brilliance Wax!

COMFORT MONKEY PADS

MICROWOOL PAD – CUT & GLOSS

The MICROWOOL Cut & Gloss Pad is designed with a combination of twisted wool fibers and a short pile of microfiber, to quickly eliminate scratches and paint defects whilst enhancing a high gloss finish on the paint work. The open interface structure keeps the pad cool and provides a smooth and stable polishing. Can be used in combination with the Monkey Heavy Cut Compound or the Monkey Medium Cut Compound.

Available in sizes: 3", 5" and 6.5"

HEAVY CUT - GREEN

The Heavy Cut Pad is made of a firm foam with a fine cell structure for exceptional cutting power. This pad is perfectly suited to remove deeper scratches, sanding marks and other surface defects. Optimized use with the Monkey Heavy Cut Compound.

Available in sizes: 3", 5" and 6.5"

HEAVY POLISHING – YELLOW

The Heavy Polishing Pad has an open cell structure for removing scratches, light sanding marks and other surface defects. Optimized use with the Monkey Heavy Cut Compound or Monkey Medium Cut Compound.

Available in sizes: 3", 5" and 6.5"

MEDIUM POLISHING – ORANGE

The Medium Polishing Pad is due to its dense foam structure perfect for removing light scratches, swirls and lighter surface defects combined with the Monkey Medium Cut Compound.

Available in sizes: 3", 5" and 6.5"

FINE POLISHING – BLACK

The Fine Polishing Pad is perfectly for final polishing and finishing, it will enhance a super high gloss finish and shine on the paintwork. Optimized use with the Monkey Finishing Compound.

Available in sizes: 3", 5" and 6.5"
