SIMPLY AMAZING PRODUCTS

No. 3 **2024**

About

Flow's journey began on a sunny day in Radcliffe on Trent under a large gazebo. The first two chemical solutions to be manufactured were the Blue and Pink Caravan Toilet Cleaner. These two products became hugely successful, and were the inspiration for Flow's logo which reference these first two products and how important they are to Flow.

FlowChemUK LTD is a chemical manufacturer based in Nottingham that offers liquid solutions for several sectors. These include Pets, Camping and Leisure, Garden, and Home.

Established in 2022, FlowChem has gone from strength to strength and has gained an excellent reputation for cost effective, quality solutions within these sectors. The importance of excellent customer service, quality products, next day delivery and a sensible price point are the forefront of our business model.

FlowChem was the business idea of us, Charlotte and Simon. We had a dream to build a company that could tick all the boxes for any consumer and rival some of the larger named brands, and a background in chemicals over many years led us on the following path.

With our quality products, professionalism, and a strong focus on customer service and employee wellbeing, we plan to further grow the company but importantly, never lose the core values that have been instrumental in the success of the business so far!

We now steer FlowChem into B2B! A highly thought-out restructuring of the business and large investment to meet the demands of our trade customers gives us confidence that we can develop and maintain a sustainable and successful relationship with you going forward.

We are looking for strategic business partners to build long term relationships for mutual benefits and to grow the Flow Brand.

Kind Regards

Simon and Charlotte

WATERLESS CAR WASH SEALANT

The perfect car wash when access to water is limited. Using specialist cleaners, it will lift dirt particles allowing you to safely wipe them away with ease. Not only that, it will add gloss and protection to the surface being treated.

Code	Size	Carton Quantity	Pallet Quantity	Barcode
SEAL5L	5L	4	200	5065015 010883

WHEEL CLEANER

Wheel Cleaner is a blend of specialist surfactants which break down brake dust and soiling with ease. This powerful formula is safe for use on all alloy and steel wheels.

Code	Size	Carton Quantity	Pallet Quantity	Barcode
WHEEL5L	5L	4	200	5065015 010937

ANTI FREEZE AND SUMMER COOLANT

Anti Freeze is a liquid that's added to a car's engine cooling system. It stops the water from freezing under normal cold weather conditions. As well as lowering the freezing point, it also raises the boiling point of engine coolant. Along with a pressurised system, this helps to reduce the risk of overheating.
