PRODUCT PORTFOLIO

About

E-XTEQ designs, develops, manufactures, and distributes trailblazing 12V and EV diagnostic battery equipment, handheld testers, chargers/dischargers, maintainers, balancers and leak testers to OEM and aftermarket professionals worldwide.

With over 30 years of experience in the aviation industry, E-XTEQ engineers and technicians have the technical knowledge and expertise to create the equipment solution to match your specific project requirements.

Our team will be available to support you throughout all phases of the implementation cycle; from design through production, as well as providing training and local service and maintenance.

Headquartered in France, E-XTEQ has a physical presence in 27 countries, regional subsidiaries in the U.S.A, Japan, Brazil, and China along with three manufacturing sites located in China, Taiwan, and Mexico.

E-XTEQ, with 108 repair locations, provides Level-10 customer service globally, offering our customers rapid turnaround time.

VISION

Values

We maintain a high level of ethics, teamwork, and professionalism, while demonstrating a caring attitude towards employees and customers. We manage our assets by company's values to provide a safe, productive, enjoyable work environment. Our focus is to make a positive difference for our customers through the level-10 customer service, deliver quality of products and reliability.

Purpose

We are committed to stability and effective strategic methods and assure an integral organization.

Niche

Global leaders of innovative technology by providing premium testing equipment.

EMPOWER CUSTOMERS

Customer focused products created with collaboration between parties to ensure an optimal, tailor-made solution.

X-FACTOR

Global engineering development core with over 40 years of experience in the industry.

TEAM CULTURE

Utilizing collaborative teamwork, we put together the best possible solution to meet customer needs. There is an element of fun in everything we do.

ELITE TECHNOLOGY

The invented, Smart Logic technology that provides comprehensive, precise results for our customers, is one of the key features that differentiates us in the market.

QUALITY FIRST

Consistently evolving and driving forward to meet the unique needs of our customers and portraying confidence in the quality of our products.

12V Battery Modules & Packs

12V EFB Batteries

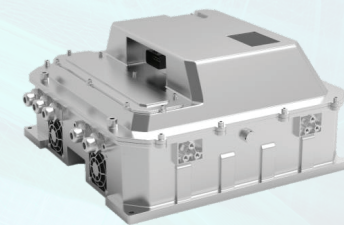

12V AGM Batteries

12V Flooded Batteries

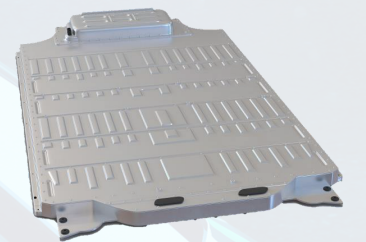

12V Deep Cycle Batteries

48V Hybrid Packs

Modules
Up to 33SPX

Complete Battery Packs

Our Products

E-XTEQ Cloud based management system

- A**ccess to tools full lifespan
- R**etrieve all data
- G**ather all software updates
- O**rganize all results
- S**ynchronize all to one account

BATTERY CHARGER/MAINTAINER

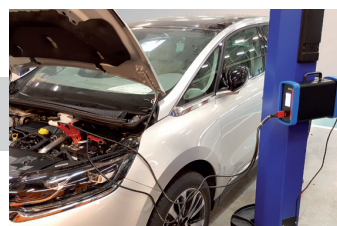

512 EVO

Automatic **12V/50A** charger with quick diagnostic for Flooded, AGM, EFB, Deep Cycle and more

PATENT PENDING

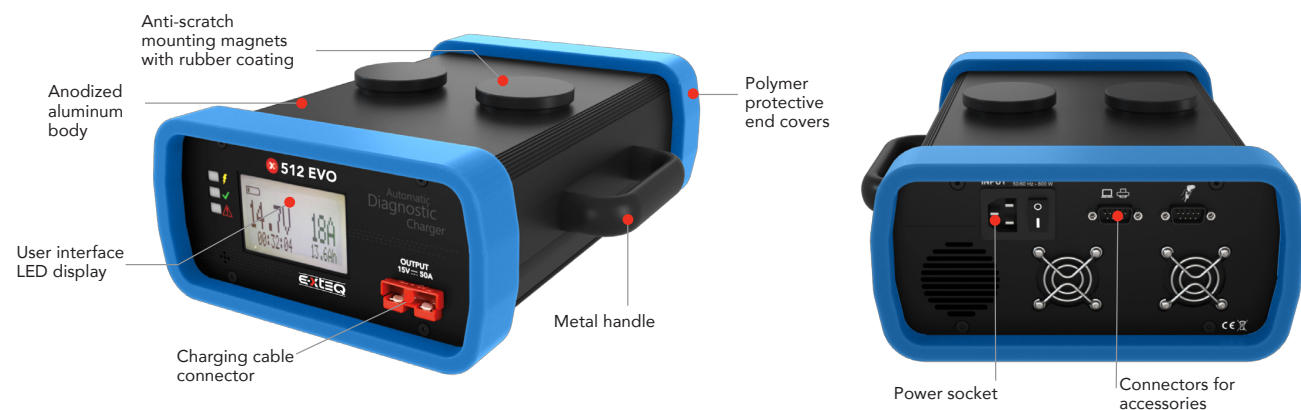

Pre Delivery Inspection (PDI)

Used Car Inspection (UCI)

Power supply maintainer

Highlights

- ✓ Automatic battery diagnostic and charging
- ✓ User friendly interface with LED indicators
- ✓ Engine start auto detection
- ✓ Self protecting reverse polarity indicator
- ✓ ARGOS cloud based user interface for data collection
- ✓ Automatic battery recovery
- ✓ Showroom/Trade Show battery maintainer
- ✓ Deep Cycle charger/maintainer for all industry applications (automotive, industrial, marine, recreational vehicles, truck and bus, and more)

Designed in France / 108 Service Locations Worldwide / High Capacity Production

E-XTEQ EUROPE: +33 (0) 6 89 51 73 13 | E-XTEQ USA: 1.877.453.3265 | E-XTEQ.COM | MarketingUSA@e-xteq.com

E-XTEQ

BATTERY CHARGER/MAINTAINER

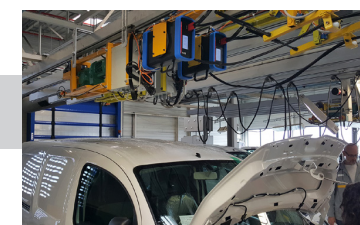

512 EVOi

Automatic **12V/50A** charger with quick diagnostic for Flooded, AGM, EFB, Deep Cycle and more

Production line

Manufacturing quality control

Highlights

- ✓ Automatic battery diagnostic and charging
- ✓ User friendly interface with LED indicators
- ✓ Engine start auto detection
- ✓ ARGOS cloud based user interface for data collection
- ✓ Automatic battery recovery
- ✓ Self protected reverse polarity indicator
- ✓ Production line battery top off
- ✓ Battery data stored in Argos cloud for record tracking/warranty analysis

Designed in France / 108 Service Locations Worldwide / High Capacity Production

E-XTEQ

BATTERY CHARGER/MAINTAINER

1012 EVO

Automatic **12V/100A** charger with quick diagnostic for Flooded, AGM, EFB, Deep Cycle and more

Metal handle

Safety strap

Anti-scratching mounting magnets with rubber coating

Power socket

Connectors for accessories

Intuitive 4.3" touch screen LED display

Polymer protective end covers

Anodized aluminum body

Charging cable connector

Highlights

✓ Automatic battery diagnostic and charging

✓ User friendly interface with Touchscreen LED

✓ Engine start auto detection

✓ ARGOS cloud based user interface for data collection

✓ Self protected reverse polarity indicator

✓ ECU re-flash up to 100A (CCCV) Constant Current / Constant Voltage

✓ Deep Cycle charger/maintainer for all industry applications (automotive, industrial, marine, recreational vehicles, truck and bus, and more)

BATTERY ANALYZER

DS One

CUSTOMIZABLE battery tester and vehicle system for Flooded, AGM, EFB, Deep Cycle and more

1D/2D Barcode scanner

Infra-red temp measurement

Clamp connection

LED's for on demand information

SD card for local job storage

4.3" LED color screen

USB port for update & charging

Highlights

✓ Easy icon based user interface with SOC and SOH animated, color diagrams.

✓ Docking station + printer kit. (optional)

✓ Starter and Alternator test.

✓ ARGOS cloud based data collection, storage, retrieval and tool updates.

✓ VIN scan with embedded vehicle battery database (optional)

✓ Local Job History Storage (2 Million+)

✓ Applicable for different applications; Automotive, Commercial, Marine, Power Sports, etc.

✓ Operational with different chemistry batteries: Lead Acid, AGM, EFB, Gel, Deep Cycle, etc.

✓ Testing battery range: 6V, 12V, and 24V

✓ Reverse Polarity Alert, noise detection, incorrect clamp connection detection

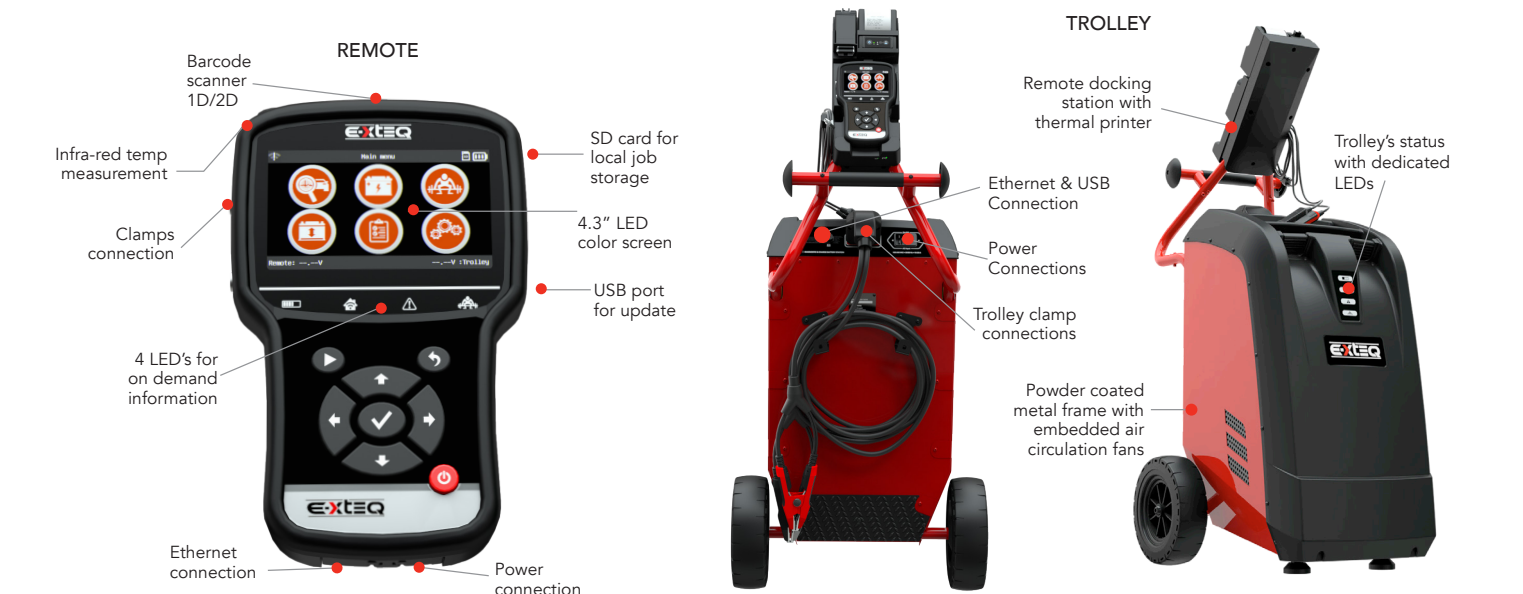

✓ 27+ Languages

BATTERY ANALYZER
CHARGER/MAINTAINER

DCBS

Diagnostic & Charge Battery Station, **all-in-one**
solution for OEM/Aftermarket workshops

PATENTED

Highlights

- ✓ Preforms IR, CCA Test, True Reserve Capacity, Automatic Load Test and Charge Acceptance
- ✓ Rechargeable handheld diagnostic tester with embedded IR temperature measurement and 1D/2D scanner
- ✓ Clean, consistent power supply for vehicle ECU reflash
- ✓ Built in diagnostic functions to service and troubleshoot battery conditions (SOC/SOH)
- ✓ Built in safety features for noise detection and reverse polarity detection
- ✓ CCCV Power Supply (Constant Current Constant Voltage)
- ✓ ARGOS cloud based user interface for data collection and tool updates
- ✓ Trolley runs charging while remote runs quick diagnostics

Designed in France / 108 Service Locations Worldwide / High Capacity Production

BATTERY ANALYZER
CHARGER/MAINTAINER

MAXIMUS

Diagnostic & Charge Battery Station, **all-in-one**
solution for OEM/Aftermarket workshops

PATENTED

Highlights

- ✓ Preforms IR, CCA Test, True Reserve Capacity, Automatic Load Test and Charge Acceptance
- ✓ Wi-Fi connectivity for wireless updates and job data transfer through Argos cloud based system
- ✓ Provides consistent power for vehicle ECU reflash
- ✓ Built in diagnostic functions to service and troubleshoot battery conditions (SOC/SOH)
- ✓ Built in safety features for noise detection and reverse polarity detection
- ✓ Thermal IR scanner pistol and embedded database
- ✓ CCCV Power Supply (Constant Current Constant Voltage)

Designed in France / 108 Service Locations Worldwide / High Capacity Production

ELECTRIC VEHICLE LEAK TEST

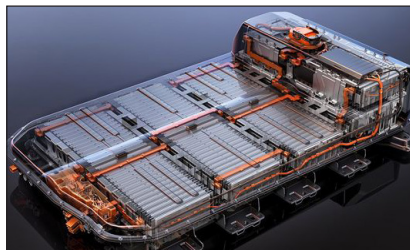

E-VLT

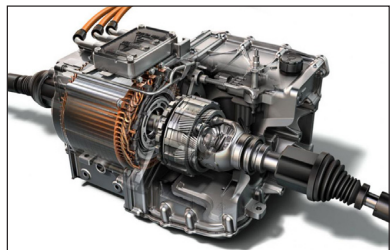

Leak Tester **Optimal solution for rapid, reliable leak testing in OEM/Aftermarket**

PATENT PENDING

Autonomous all-in-one solution that provides quick and accurate results for leak testing.

Battery Pack Housing / Cooling System

Electric Motor Cavity

Gearbox Housing / Cooling System

7" LED Color Touch Screen Display with Icon Based Menu

Aluminum housing with powder coated paint

Test Output Port

Power connection

Storage Hooks

Robust industrial legs with embedded anti-scratch magnets

Highlights

- ✓ Most advanced and accurate leak tester dedicated to the service environment
- ✓ Fully secured system with embedded housing pack protections (hardware & software)
- ✓ Embedded database (parameters & thresholds)
- ✓ Complete traceability with test reports and storage capability on the tool and Argos cloud database
- ✓ Self generating system: Pressure: 3 bar/43.5 psi (max) / Vacuum: -1 bar/-14.5 psi (max)

Designed in France / 108 Service Locations Worldwide / High Capacity Production

E-XTEQ EUROPE: +33 (0) 6 89 51 73 13 | E-XTEQ USA: 1.877.453.3265 | E-XTEQ.COM | MarketingUSA@e-xteq.com

EV/HEV APPLICATION

MB1550

Module Balancer
For charging/discharging battery pack modules

PATENT PENDING

Highlights

- ✓ Compatible with worldwide power circuits (100-240V)
- ✓ Protective Cover with Security Anti Pinch System
- ✓ Air Circulation Fans with LED warning lights
- ✓ Wi-Fi & Ethernet connectivity
- ✓ Downloadable Balancing reports (USB)
- ✓ Electrical actuators for secured and automatic lid opening/closing
- ✓ Cloud based specific interface (ARGOS) for data collection, tool updating and real-time monitoring
- ✓ Technical support and troubleshooting provided worldwide
- ✓ Wide balancing range with 150V-20A / 60V-50A for charge and a 3000W maximum power
- ✓ Exchangeable power module in case of evolution
- ✓ Monitoring connectors allowing real time supervision of each internal cell
- ✓ Incorporated voltage and current thresholds

EV BATTERY PACK
CHARGER/DISCHARGER

NERO X High Voltage Battery Pack Charger / Discharger & Balancer PATENT PENDING

EV BATTERY PACK
CHARGER/DISCHARGER

NERO S High Voltage Battery Pack Charger / Discharger & Balancer PATENT PENDING

Anodized Metal Frame with Nylon Plastic Cover

Job Status LED Light

7" LED Color Touchscreen Panel

Power Switch

Emergency Stop

Monitoring Cable Connector

AC Connector / Circuit Breaker

Charging/Discharging Connectors

Integrated Air Circulation System

Highlights

✓ Trolley model to meet higher power demands

✓ Transportable; Designed for arch environments (IP53 Protected)

✓ Intuitive operator interface featuring icon based applications

✓ Fully Secured Algorithm with integrated watchdogs, thresholds & parameters

✓ Argos cloud database connectivity (update/reports) via local Wi-Fi (internet access required)

✓ Charge output: 100 to 1000VDC, 20kW

✓ Discharge output: 1000VDC to ≈0V, 20kW

✓ NERO X may be upgraded with additional power racks to increase discharge output capacity

✓ Operation Modes: Module Balancing, Transportation, Storage, De-powering, Capacity Test, Battery State

✓ CAN/CAN FD communication for wakeup/maintain sequence with battery pack BMS

✓ Compatible with battery packs from all manufacturers

ARGOS

Anodized Metal Frame with Nylon Plastic Cover

Job Status LED Light

Power Switch

7" LED Color Touchscreen Panel

Emergency Stop

Integrated Handles with Air Circulation System

Monitoring & Charging/Discharging Connectors

Highlights

✓ Workbench model to meet your specific space and power requirements

✓ Compact & Transportable; Designed for arch environments (IP53 Protected)

✓ Intuitive operator interface featuring icon based applications

✓ Fully Secured Algorithm with integrated watchdogs, thresholds & parameters

✓ Argos cloud database connectivity (update/reports) via local Wi-Fi (internet access required)

✓ Charge output: 150 to 1000VDC, 3kW

✓ Discharge output: 1000VDC to ≈0V, 3kW

✓ Operation Modes: Module Balancing, Transportation, Storage, De-powering, Capacity Test, Battery State

✓ CAN/CAN FD communication for wakeup/maintain sequence with battery pack BMS

✓ Compatible with battery packs from all manufacturers
