TOWARDS A NEW ECONOMIC AND ECO-FRIENDLY MOBILITY

HYPER LUBRICANTS - DEGREASERS - GREASES - ADDITIVES - MAINTENANCE PRODUCTS - BIOLOGICAL DEGREASING FOUNTAINS - BODYWORK - WORKSHOP PRODUCTS

mechanical perfection

"THE LEADING PLAYER IN ECONOMICAL, ENVIRONMENTALLY-FRIENDLY MOBILITY AND MAINTENANCE"

At a time of climate urgency and resource depletion, everyone's energy and inventiveness must be put to good use. At the heart of this commitment to the future, MECACYL has been developing innovative, environmentally-friendly lubrication and maintenance solutions from the outset. The aim is to extend the life of mechanical systems and engines, while reducing consumption and pollution. This is the role of hyper-lubricants developed by an inspired engineer, the founder of the brand, and the support of a network of partners with whom we share the same beliefs and values.

Together, we're doing our part.

A TECHNOLOGY UNIQUE IN THE WORLD!

"Mecacyl does what oil and other forms of lubrication can't do chemically, physically and mechanically."

An *INNOVATION*

This UNIQUE and REVOLUTIONARY process achieves wear-resistance, slip-resistance, pollution reduction and lower energy consumption than ever before!

The *PRINCIPLE*

Hyper-lubricants make it possible to move from a "crystalline" to a "lamellar" surface. Metal-to-metal friction is replaced by perfect sliding!

PROPERTIES

- Can be used alone or in addition to oil
- No film build-up
- Does not alter oil viscosity
- Hydrophobic, antioxidant
- Improves engine efficiency
- Reduces mechanical wear
- Reduces pollution
- Keeps the manufacturer's warranty

The *BENEFITS*

REDUCED ENERGY CONSUMPTION

- Up to 15% savings in a combustion engine
- Up to 45% savings in electromechanical systems

1

PERFECT COMBUSTION AND REDUCED POLLUTION

- The burning of the oil decreases and allows a reduction of hydrocarbons which tend towards zero
- Exhaust gases are hotter, so fuel is burned more efficiently (EGR and DPF valve protection)
- Carbon monoxide pollution is close to zero
- CO2 pollution is reduced by 15% to 20%
- Nitrogen oxide pollution lowered

2

SILENCE & FLEXIBILITY

- Better metal-to-metal sliding
- Silent operation
- Vibration suppression

3

PERFORMANCE IMPROVEMENT

- Torque / power / acceleration
- Eliminates rattling, clicking and instability of explosions. With Mecacyl, this leads to remarkable continuous thrust, astonishing flexibility and decisive acceleration

4

REDUCED WEAR

- No friction, wear or vibration
- Reducing constraints and mechanical fatigue
- Mechanical release

5

CAR HYPER-LUBRICANTS

ENGINE HYPER-LUBRICANTS

MECACYL CR SPECIAL OIL

- Fuel economy
- Performance optimization engine
- Reducing pollution
- Engine protection

Cont. : 100ml / 300ml / 500ml / 1L / 5L...

MECACYL CR BIO ETHAN SPECIAL BIOETHANOL OIL CHANGE

- Reduces the negative effects of ethanol on engine wear and temperature
- Fuel economy
- Improved cold starts
- Anti-Oxidation
- Optimizing engine performance

Cont. : 100ml / 300ml / 500ml / 1L / 5L...

MECACYL CR-P SPECIAL DRAINING HYDRAULIC PUSHRODS

- Noise reduction to stop rattling
- Tappet protection
- Wear reduction and mechanical protection
- Extends engine life

Cont. : 100ml / 300ml / 500ml / 1L / 5L...

HYPER-LUBRICANTS FOR 2-STROKE ENGINES

MÉCACYL AER

- Temperature rise limitation
- Reduced risk of clamping
- Optimizing engine performance
- Reducing pollution
- Fuel economy

Cont. : 100ml / 300ml / 500ml / 1L / 5L...

HYPER-LUBRICANTS GEARBOX

MECACYL HY MECHANICAL GEARBOX, AXLES, POWER STEERING

- Smooth gear shifting
- Noise reduction
- Reduced wear on gearboxes, axles and hydraulic systems
- Anti-Oxidation
- Longevity

Cont. : 100ml / 300ml / 500ml / 1L / 5L...

MECACYL BVA AUTOMATIC GEARBOX

- Quiet, smooth, vibration-free gear shifting
- Reduced wear
- Anti-Oxidation
- Increased gearbox efficiency

Cont. : 100ml / 300ml / 500ml / 1L / 5L...

SPECIAL INJECTORS

MECACYL HJD DIESEL ENGINE INJECTORS

- Limits clogging and protects injection circuits (water, contaminants)
- Reducing exhaust fumes
- Silent injection operation
- Passing the pollution control test

Cont. : 200ml / 300ml / 500ml / 1L / 5L...

MECACYL HJE INJECTORS/VALVES GASOLINE ENGINES

- Fouling control and protection of injection and carburetor circuits
- Silent operation
- Passing the pollution control test
- Switching to unleaded gas
- Valve protection (ethanol, gas)

Cont. : 200ml / 300ml / 500ml / 1L / 5L...

MECACYL HJD2 INJECTOR CLEANING

- Quick injection cleaning
- Reducing exhaust fumes

Cont. : 200ml / 500ml / 1L / 5L...

MOTORCYCLE HYPER-LUBRICANTS

4-STROKE ENGINES

MECACYL CR SPECIAL OIL

- Fuel economy
- Optimizing engine performance
- Reducing pollution
- Engine protection

Cont. : 60ML

2-STROKE ENGINES

MECACYL AER

- Climb limitation in temperature
- Reduced risk of clamping
- Optimizing engine performance
- Reducing pollution
- Fuel economy

Cont. : 60ML

SPECIAL INJECTORS

MECACYL HJE INJECTORS/VALVES GASOLINE ENGINES

- Fouling control and protection of injection and carburetor circuits
- Silent operation
- Passing the pollution control test
- Switching to unleaded gas
- Valve protection (ethanol, gas)

Cont. : 60ML

HYPER-LUBRICANTS GEARBOXES

MECACYL HY MECHANICAL GEARBOX, AXLES, FORKS

- Smooth gear shifting
- Noise reduction
- Reduced wear on gearboxes, axles and hydraulic systems
- Anti-Oxidation
- Longevity

Cont. : 60ML

GOLD MEDAL

Mecacyl was awarded the Gold Medal at the 55th World Innovation Fair for New Technologies and Research.

ENSAM SERAM TEST

Official tests validate the results of Mecacyl hyper-lubricants in terms of wear reduction, temperature rise reduction, efficiency improvement and energy savings.

GUARANTEES

Insured and guaranteed for all metal / metal, engine, roto motor, turbine. Insurance and guarantees valid worldwide. Commercial information in line with these guarantees.

CAR COMPETITION

MECACYL® RACINGTEAM

HYPER GREASE

MECACYL GR1

- No shape memory
- Shear-resistant
- Reduced wear and tear on parts
- Limiting temperature rises
- Silence
- Perfect sliding
- Anti-Oxidation
- Reduced maintenance

Capacity : GR1 : 250ml / 290gr / 400gr / 500gr

HYPER PENETRATING OIL PRO

MECACYL HD HYPER PENETRATING OIL

- Degreases
- Deoxidizes
- Cleans
- Hyper-lubricated
- Long-lasting protection

Capacity : 75ml / 250ml / 600ml...

HYPER BIKE LUBRICANTS

MECACYL SPECIAL BEARINGS

- Frees gears and bearings
- Brings silence and flexibility to your parts
- Reduces wear and tear on parts
- Protects against oxidation

Capacity : 125ml

MECACYL HV SPECIAL SPROCKETS, CHAINS...

- Chain, crankset and bearing protection
- Near-perfect sliding of mechanisms
- Flexibility
- Anti-oxidation

Capacity : 75ml / 125ml

MECACYL'S SLIDING AND ANTI-WEAR PROPERTIES FOR ALL YOUR APPLICATIONS!

ENGINE OIL ADDITIVES

PRE-OIL CHANGE CLEANER

- Ideal before using CR, CR-P, CR Bio Ethan or for maintenance purposes
- Dissolves and disperses sludge and deposits in the engine oil circuit
- Cleans pumps, strainers, hydraulic tappets, segments...
- Eliminates rapid contamination of new oil during oil change
- Compatible with all engine types, with or without turbocharger
- Miscible in all types of oil, including synthetic oils
- To be added to the oil before oil change
- It is essential to change the oil filter

BM521: Box of 12 x 300 ml bottles

STOP ENGINE OIL LEAKS

- Regenerates and softens lower-engine sealing rings
- Improves segmentation tightness
- Improves compressions
- Reduces consumption and leaks

BM520: Box of 12 x 300 ml bottles

DIESEL ADDITIVES

DIESEL INJECTOR CLEANER

- Quickly and completely cleans the diesel or G.N.R. supply circuit.
- Removes gum, varnish and deposits from injectors, combustion chambers, valves and piston heads
- Eliminates and prevents water condensation in the tank
- Prevents oxidation and corrosion
- Increases cetane number
- Effective from the very first hour of operation

BM500: Box of 12 x 300 ml bottles

BM800: Box of 6 x 1-liter cans

STOP FUMES

- Immediately eliminates exhaust fumes (black particles)
- Reduces diesel consumption
- Increases cetane number
- Lubricates, cleans and protects the entire supply circuit
- Recommended in preparation for roadworthiness tests

BM508: Box of 12 x 300 ml bottles

DIESEL ENGINE CLEANER

- Complete air circuit cleaning
- Cleaning the DPF, EGR valve and turbo
- Removes gum, varnish and scale deposited in the air intake circuit, particularly on the opening vanes of variable-geometry turbos
- Restores optimal functioning
- Facilitates pollution control
- Avoids costly repeat inspections
- For exclusive injector cleaning, use Mecacyl HJD2 or BM550

BM504I: Box of 12 x 300 ml bottles

BM804I: Box of 6 x 1L cans

GASOLINE ADDITIVES

GASOLINE ENGINE CLEANER

- Complete air circuit cleaning
- Cleaning the DPF and EGR valve
- Removes gum, varnish and scale deposited in the air intake circuit, particularly on the opening vanes of variable-geometry turbos
- Restores optimal functioning
- Facilitates pollution control
- Avoids costly repeat inspections
- For exclusive injector cleaning, use Mecacyl HJE or BM550E

BM504IE: Box of 12 x 300 ml bottles

BM804IE: Box of 6 x 1L cans

COOLING CIRCUIT ADDITIVES

RADIATOR CLEANER

- Quickly emulsifies and disperses pollutants in the oil cooling circuit
- Reduces the risk of breakdowns due to deterioration of hoses and other components (thermal probes, seals, etc.)
- Restores optimum system operation (pump, radiator, thermostat) and optimizes temperature exchange
- Compatible with all engine and coolant types

BM530: Box of 12 x 300 ml bottles

STOP RADIATOR LEAKS

- Quickly and permanently eliminates cooling circuit leaks and seepage
- Prevents seizing of heating valves
- Prevents greasy deposits in the cooling circuit
- Improves thermostatic operation
- Prevents deposits from attaching to temperature probes
- Curative use in a clean circuit
- Recommended after using RADIATOR CLEANER (BM530)
- Miscible in all types of circuits and coolants

BM531: Box of 12 x 300 ml bottles

GASOLINE ADDITIVES

GASOLINE INJECTOR CLEANER

- Cleans the entire fuel injection system quickly and thoroughly
- Cleans pumps and injectors without disassembly
- Removes deposits from valves, combustion chambers and intake system
- Combats water contamination, protects against corrosion and inhibits bacterial growth
- Restores optimal operation, reduces fuel consumption
- Reduces pollutant emissions and fumes
- Effective from 50 to 100 km travelled

BM550E: Box of 6 x 1-liter cans

GASOLINE ENGINE CLEANER

- Complete air circuit cleaning
- Cleaning the DPF and EGR valve
- Removes gum, varnish and scale deposited in the air intake circuit, particularly on the opening vanes of variable-geometry turbos
- Restores optimal functioning
- Facilitates pollution control
- Avoids costly repeat inspections
- For exclusive injector cleaning, use Mecacyl HJE or BM550E

BM804IE: Box of 6 x 1-liter cans

BM504IE: Box of 12 x 300ml bottles

NEW PACKAGING
Quick & easy to use

DIESEL ADDITIVES

DIESEL INJECTOR CLEANER

- Cleans the diesel fuel feed circuit completely and quickly
- Removes gum, varnish and debris from injectors, combustion chamber (valves, piston heads) and air circuit (EGR valve)
- Increases cetane number, improving fuel efficiency energy efficiency
- Effective after the first 100 kilometers or 5 hours of operation
- Prevents water contamination and corrosion

BM550: Box of 6 x 1-liter cans

BM500: Box of 12 x 300ml bottles

DIESEL ENGINE CLEANER

- Complete air circuit cleaning
- Cleaning the DPF, EGR valve and turbo
- Removes gum, varnish and scale deposited in the air intake circuit, particularly on the opening vanes of variable-geometry turbos
- Restores optimal functioning
- Facilitates pollution control
- Avoids costly repeat inspections
- For exclusive injector cleaning, use Mecacyl HJD2 or BM550

BM804I: Box of 6 x 1-liter cans

BM504I: Box of 12 x 300ml bottles

SPECIAL EGR VALVE CLEANER

- Cleaning EGR valves clogged with unburnt particles
- Dissolves and eliminates gum, varnish and scale deposited in the EGR valve, hampering its operation (dusty engine)
- Restores original operation (except in the case of mechanically damaged valves)
- Particularly recommended when the engine is dusty, when idling is unstable, when starting from cold is difficult
- Avoids costly repairs

BM805: Box of 6 x 1-liter cans

SPECIAL TURBO CLEANER

- Complete turbo cleaning
- Dissolves and removes soot and scale deposited on variable-geometry turbo blades
- Restores the turbo's original performance and optimum output
- Restores full engine power
- Reduces fuel consumption
- No need to change the turbo (a very costly operation)

BM806: Box of 6 x 1-liter cans

SPECIAL DPF CLEANER

- Catalytic cleaning of the DPF
- Cleanses and dissolves unburnt particles deposited in Diesel engine Particulate Filter (DPF)
- Removes gum and varnish
- Restores the DPF to its original function
- Recommended when the engine becomes sluggish under acceleration
- To ensure the longevity of your DPF, we recommend a treatment every 60,000 kilometers

BM807: Box of 6 x 1-liter cans

SPECIAL DPF CLEANER, TURBO

- Complete air circuit cleaning
- Cleaning the DPF and EGR valve
- Removes gum, varnish and scale deposited in the air intake circuit, particularly on the opening vanes of variable-geometry turbos
- Catalytic cleaning of the DPF
- Recommended when the engine becomes sluggish (lack of engine rpm)
- Helps reduce fuel consumption

BM808: Box of 6 x 1-liter cans

Clean Blue

ANTI-CRYSTALLINE AND UREA CLEANER

— BY —
MECACYL®
— HYPER LUBRIFIANTS —

Technical Benefits

- Preventive cleaning of urea solutions to prevent crystal formation
- Formulates high-performance additive urea from standard urea fluid
- Stabilizes and improves urea efficiency

TREATMENT

- Recommended for treating urea in storage/distribution tanks and in the fuel tanks of vehicles fitted with SCR emission control systems (trucks, buses, coaches, construction equipment, agricultural machinery, cars).
- Preventive detergent formula that prevents urea crystallization, thus protecting urea injectors and SCR catalytic converters from the whitish deposits of urea crystals that can lead to malfunctions.
- SCR pollution control system remains clean and efficient

INSTRUCTIONS FOR USE

- 1 - Squeeze the bottle to pump the correct amount into the dispenser.
- 2 - Add the contents to the tank, i.e. 25ml for 10 to 12 liters of Adblue®.
- 3 - Add additive before refueling. Can be used in all diesel vehicles

RESULTS

- Eliminates crystal formation.
- Cleans Adblue® injection system
- Improves efficiency and protects catalyst life.
- Reduces nitrogen oxide (NOX) emissions.
- Protects the exhaust line from corrosion.
- Extends Adblue® tank life
- Prevents over-consumption of fuel.

BM511: Box of 12 doses of 250ml

BIOLOGICAL WORKSHOP FOUNTAINS

SUZUKA BIOLOGICAL FOUNTAIN

- Mobile biological fountain for brakes or mechanical parts
- Operates on low pressure, solvent-free and dust projection
- It is mobile
- Safe, non-flammable, protects the operator and the environment
- Use with Bioliquid DA123

DA158: Fountain Workshops & garages

40L

ADELAIDE BIOLOGICAL FOUNTAIN

- Mobile biological fountain for brakes or mechanical parts
- Operates on low pressure, solvent-free and dust projection
- It is mobile and pneumatic
- Safe, non-flammable, protects the operator and the environment
- Use with Bioliquid DA123

DA159: Fountain Workshops & garages

40L

MONACO BIOLOGICAL FOUNTAIN

- Biological fountain for cleaning and degreasing small mechanical parts
- Boost mode to save time
- Eco mode for energy savings
- 11-liter soaking tank with overflow
- Tank volume from 60 to 80 liters
- Saves labor time
- Safe, non-flammable, protects operator and the environment
- Use with Bioliquid (DA123) and micro-organism tablets (DA124)
- Options: Wheels, bike kit

DA140: Fontaine Workshops & garages

60L

MONZA BIOLOGICAL FOUNTAIN

- Biological fountain for cleaning and degreasing mechanical parts
- Boost mode to save time
- Eco mode for energy savings
- 60-liter soaking tank
- 100-liter tank volume
- Saves labor time
- Safe, non-flammable, protects operator and the environment
- For use with Bioliquid DA123 and micro-organism tablets DA124

DA141: Construction and Public Works Fountain, transport & industry

100L

ESTORIL BIOLOGICAL FOUNTAIN

- Biological fountain for cleaning and degreasing mechanical parts
- Saves labor time
- Safe, non-flammable, for the operator and the environment
- 31-liter soaking tank
- Use with Bioliquid DA123 and micro-organism tablets DA124

DA144: Fountain Workshops & garages

100L

SILVERSTONE STAINLESS STEEL FOUNTAIN LV/CV BRAKE CLEANER

- Mobile biological fountain for brakes (HGV/ Public Works/Agriculture)
- Low-pressure, dust-free operation
- 3 positions: floor, normal, in height
- Safe, non-flammable, protects the operator and the environment
- Use with Bioliquid DA123

DA120: Construction and Public Works Fountain, transport & industry

SAO PAULO BIOLOGICAL HIGH-PRESSURE WASHING MACHINE

- Biological washing machine for cleaning and degreasing mechanical parts
- Operates with high-pressure nozzle and electric pump
- Compressed-air blower available
- Max. pressure: 24 bar
- Max. temperature: 60°C
- Use with non-foaming Bioliquid (DA122)

DA162

BIOLOGICAL WASHING MACHINES HIGH-PRESSURE

- Biological washing machine for cleaning and degreasing of mechanical parts
- Does not require an operator
- Works with high-pressure cleaning nozzles
- Works with a rotating basket
- Max. pressure: 3.5 bar • Max. temperature: 60°C
- Use with non-foaming Bioliquid (DA122)

Available in 3 sizes:
DA160: Nürburging 60cm
DA155: Francorchamps 74cm
DA147: Melbourne 114cm

100% FRENCH - INNOVATIVE BACTERIA - ODORLESS

BIOLIQUE FOR BIOLOGICAL FOUNTAIN

- Bioliquid is not a conventional degreaser, nor is it an aromatic or halogenated solvent
- Aqueous solution, composed of specific surfactants, formulated to loosen and remove all types of dirt, grease, oil, solids...
- Ph 8.5
- Non-flammable
- ISO 14001 compliant

**DA123: 20-liter can
ready to use**

BIOLIQUE NON-FOAMING

- Aqueous solution for degreasing plastic parts and mechanical parts made of steel, cast iron and aluminum
- Can be used up to 35 bar and 70°C

**DA122: 20-liter can
ready to use**

TABLETS FOR BIOLOGICAL FOUNTAIN

- Micro-organism tablets are used in conjunction with Bioliquid (DA123) in biological degreasing fountains
- These tablets contain micro-organisms that continuously regenerate the cleaning bath through the bioremediation of fats and oils
- They improve the efficiency of the degreasing liquid and extend bath life
- The tablets also reduce the amount of sludge produced from degreasing and neutralize unpleasant odors
- Skin-friendly

DA124: Box of 4 tablets

A COMPLETE RANGE

For the maintenance of your vehicle!

Surfactant-based
100% NATURAL ORIGIN

VEGECAR brand interior and exterior cleaning products are made from agricultural raw materials, processed using green chemistry.

With VEGECAR, you can clean your vehicle efficiently, while helping to preserve the environment and revitalize the local economy.

ECODÉTERGENT

INTERIOR MAINTENANCE

PLASTIC AND LEATHER CLEANER

- Cleans, renovates and protects dashboards and all plastic, leather, imitation leather and rubber car surfaces
- Creates a non-greasy protective film that gives the treated surface a smooth, delicate feel
- Contains no silicones

B000289: Box of 6 x 500ml sprayers

B000287: Box of 2 x 5L cans

CONCENTRATED FABRIC AND CARPET CLEANER

- Cleans and renovates fabrics, carpets and rugs
- Ideal for regular maintenance of fabric seats
- Easy to use
- Acts deep down without leaving traces

B000349: Box of 6 x 500ml sprayers

B000345: Box of 2 x 5L cans

EXTERIOR MAINTENANCE

MILD RIM CLEANER

- Effectively cleans rims of brake pad residues, grease and other contaminants
- For use on steel wheels, alloy wheels and plastic hubcaps

B000250: box of 6 x 500ml sprayers

B000248: box of 2 x 5L cans

WATERLESS CLEANER

- Cleans, polishes and protects all smooth surfaces without a drop of water
- Perfectly removes dirt
- Adds shine and protection
- Non-scratch
- Contains no silicones

B000295: Box of 6 x 500ml sprayers

B000293: Box of 2 x 5L cans

GLASS CLEANER

- Gives glass surfaces perfect brilliance and transparency without annoying streaks or reflections
- No deterioration of paints, plastics, rubbers, metals or chromes

B000392: box of 6 x 500ml sprayers

B000383: box of 2 x 5L cans

PLASTIC RENOVATOR

- Renovates and protects unpainted interior and exterior plastics
- Revives plastics
- Suitable for all types of bumpers
- Gloss finish
- Leaves no greasy film

B001057: box of 6 x 500ml sprayers

B001058: Box of 2 x 5L cans

CAR BODY SHAMPOO

- Designed for cleaning all types of vehicles, bodies, chassis, cabins, tarpaulins, engines and mechanical parts, floors, walls...
- Can be used with various types of equipment: gantry washers, high-pressure washers, sprayers, brushes, sponges, gloves...
- Effective action on all types of dirt

B000842: Box of 6 x 1L cans

B000304: Box of 2 x 5L cans

INSECT CLEANER

- Effortlessly removes mosquitoes, midges and droppings
- Softens insects and organic matter in seconds
- Easy to remove with a high-pressure jet or a soft cloth, for a perfectly clean surface

B000236: box of 6 x 500ml sprayers

B000235: box of 2 x 5L cans

CAR BODY TREATMENTS

HEADLIGHT TREATMENT AUTO PAINT

- Deoxidizes paint
- Restores gloss and shine to paintwork
- Removes shallow scratches
- Removes paint transfers
- 4 times faster than traditional techniques
- Easy to use and projection-free
- Valid for 1 car

PC500

ULTRA CUT CAR ANTI-SCRATCH

- Removes deep scratches without abrasives
- Removes appearance defects
- Eliminates paint mist
- Adds shine and radiance
- Ease of use and without projection
- Valid for 2 cars

PC800

SCRATCH-RESISTANT TREATMENT

- Removes deep scratches without abrasives
- Removes appearance defects
- Eliminates paint mist
- Adds shine and radiance
- Easy to use and projection-free
- Screwdriver tray included.

PC400.1

TITANIUM CAR PAINT TREATMENT

- Adds incomparable shine and brilliance
- Protects against road spray (gum, dust, pollution...)
- Water-repellent effect
- Ease of use
- No projection
- Valid for 2 cars

PC510

SCRATCH-RESISTANT CAR ANTI-HOLOGRAMS

- Removes holograms (circular micro-scratches)
- High-gloss polishing
- 4 times faster than traditional techniques
- Ease of use
- No projection
- Valid for 2 cars

PC540

CERAMIC CAR PROTECTION

- Protective film composed of ceramic nanoparticles (Silicon)
- Adds radiance and shine
- High impact resistance
- Protects against UV rays, acid rain, pollution and resins
- 8 times faster than traditional techniques
- Water-repellent effect
- Easy to use and projection-free
- Valid for 2 cars

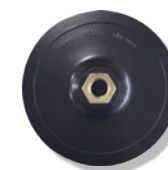

PC505

CERAMIC EXPRESS PROTECTION

- Protective film composed of ceramic nanoparticles (silicon)
- Adds radiance and shine
- High impact resistance
- Protects against UV rays, acid rain, pollution and resins
- Water-repellent effect
- Easy to use - sponge integrated applications

EPCR

ADAPTER TRAY

Ø125 MM ADAPTER TRAY

- Tray to adapt pad to polisher
- For use with DABS bodywork products (PC500, PC540, PC550, PC510 and PC520)

PC505

REGENERATING

OPTICAL RENOVATOR OF HEADLIGHTS

- Bring optics back to life in minutes
- 1 single operation without sanding or varnishing
- Quick and easy to use
- Renovator valid for 4 optics
- Supplied with a Ø80mm tray that can be fitted to a screwdriver

PC530

WINDSHIELD TREATMENT

SCRATCH-RESISTANT WINDSHIELD RAIN REPELLENT

- Highly water-repellent
- Easy to clean glued insects
- Quick and easy 1-step application
- Rain safety from 60km/h
- 6 months of treatment included

AP80

MOTORCYCLE BODY TREATMENTS

REGENERANT MOTORCYCLE PAINT

- Deoxidizes paint
- Restores gloss and shine to paintwork
- Removes shallow scratches
- Removes paint transfers
- 4 times faster than traditional techniques
- Easy to use and projection-free
- Valid for 1 motorcycle

PM580

ULTRA CUT ANTI-SCRATCH MOTORCYCLE

- Removes deep scratches without abrasives
- Removes appearance defects
- Eliminates paint mist
- Adds shine and radiance
- Easy to use and projection-free
- Valid for 1 motorcycle

PM800

CERAMIC PROTECTION MOTORCYCLE

- Protective film composed of ceramic nanoparticles (Silicon)
- Adds radiance and shine
- High impact resistance
- Protects against UV rays, acid rain, pollution and resins
- Water-repellent effect
- Easy to use and projection-free
- Valid for 1 motorcycle

PM560

MOTORCYCLE TITANIUM PROTECTION

- Adds incomparable shine and brilliance
- Protects against road spills (gum, dust, pollution...)
- Water-repellent effect
- Ease of use
- No projection
- Valid for 1 motorcycle

PM590

BUBBLE RENOVATOR AND MOTORCYCLE VISOR

- Restores transparency and brilliance to visors and bubbles in Plexiglas or polycarbonate
- Removes micro-scratches and oxidation without sanding, varnishing or polishing
- Joint protection not required
- Treatment for a 3 sq.m. surface in 1 operation
- Supplied with a Ø80mm tray that can be fitted to a screwdriver

PMB530

ADAPTER TRAY

Ø80 ADAPTER TRAY

- Tray to adapt pad to polisher, drill or screwdriver
- For use with PadExpress motorcycle products (PM560, PM580, PM590, PM800)

PC531

Find all our products on our website

The laptop screen shows the MECACYL website with the tagline "la perfection mécanique". The navigation bar includes links for "Hyper Lubrifiants", "Additifs", "Graisses et Degrippants", "Fontaines de dégraissage biologiques", "Carrosserie et Entretien", "Les usages", "FAQ", "L'entreprise", and a search icon. A large banner on the website reads "VENEZ DÉCOUVRIR NOS NOUVEAUTÉS" and features a row of product bottles. Below the banner, statistics are displayed: 3 MILLIONS D'UTILISATEURS, 16 PAYS, 2400 CLIENTS INDUSTRIEL, and 4500 POINTS DE VENTE. A section titled "Choix par gains générés" includes three categories: "PROTECTION DU MOTEUR ET DE L'HUILE", "PUISSANCE ET PERFORMANCE DU MOTEUR", and "RÉDUIRE SA CONSOMMATION ET LA POLLUTION". In the foreground, several MECACYL products are shown: a blue bottle of "MECACYL CR HYPER LUBRIFIANT MOTEUR", a white bottle of "MECACYL NETTOYANT DIESEL", a white bottle of "MECACYL VEGEAR", and a white bottle of "MECACYL PADXPRESS". A blue liquid splash is also visible.
