

be Sustainable  
be Innovative

**delopoulos s.a.**

We create products. We inspire brands.

**A model production unit**

## Our activity

With more than 25 years of experience, we are the leading Greek manufacturer of automotive products in the fields of AdBlue®, Antifreeze, Screenwash, Brake Fluids and Lubricants.

Implementing the highest quality standards, Delopoulos S.A., has managed to gain the trust of the leading national and international petroleum companies and perform as a top private labelling manufacturer.

## Investing in a model production unit

Delopoulos S.A., invests in the construction of a model production unit of 10.000 m<sup>2</sup>. The facility consists of modern industrial buildings, new laboratories and office spaces. We aim to create the biggest AdBlue® production unit in South Europe, incorporating production of all types of packaging materials.

The facility has already been certified by the German Association of the Automotive Industry (VDA®) for the production of AdBlue®.

## Supporting the transition to sustainable packaging

With a clear focus on supporting sustainable packaging, we invest in the production of less plastic solutions based on PET and Flexible technologies. Our aim is to offer to our PL customers inspiring product ideas that combine minimized environmental footprint at an optimum cost.

# Eco Friendly PET technology

## Innovative AdBlue® 10L in PET

At Delopoulos S.A., we believe in the value of ecofriendly packaging as a tool to minimize production cost and offer marketing sound solutions to our customers, that help them contribute to a sustainable future. Our innovative and customizable PET packaging combines multiple benefits:

- **Up to 65%** less plastic material
- **100%** recyclable
- **90%** less waste space
- **17%** reduction of transportation cost
- Competitive cost due to our vertical production
- Easy and quick emptying of content due to our patented pourer
- E-commerce ready with strong carton that allows safe shipment

Innovative  
flexible  
solutions

## Innovative AdBlue® 5L in FLEXI

At Delopoulos S.A., we invest in innovative AdBlue® flexible packaging that combines functional, economical and environmental benefits:

- **75%** less plastic material
- **95%** less waste space
- **7%** reduction of transportation cost
- Competitive cost due to our optimized production process
- Easy and quick emptying of content due to convenient pourer
- E-commerce ready with strong carton that allows safe shipment
