Veropa – a forward looking family business with experience and a sense of duty

Over 50 years ago, our father and uncle, Dkfm. Peter Vogt, founded Veropa in Vienna. Since then, we have been able to establish ourselves as a successful manufacturer of high quality car accessories on the European market.

The second generation has taken over a while ago, but more than ever, the name Veropa stands for:

- Innovative and design-oriented product development
- High quality production techniques
- Flexible and solution-oriented client service

We are looking forward to the next 50 years!

English Edition
2024

Innovation and Design – our driving force

Veropa stands for innovative product ideas and modern design. We strive to come up with new products on an annual basis. Over the years we have launched a number of innovations, which have since become industry standards. Here is a small selection:

- **Patented swivel brush-head “Rota-Brush”:** Head returns to original position if met with too much resistance instead of breaking.
- **Robust telescope system:** extremely resistant and seamlessly extendable.
- **X-treme blade:** brass and polycarbonate blade in one.
- **BIO-Ice scraper:** the first 100 % biodegradable ice scraper.

Of course we are still working very hard on surprising our customers every year with interesting innovations.

Customer service: family- and solution-oriented

Our customers are important to us. So much so, that we have been working with some of them for decades, and that many of them have turned from business partners into friends.

Nevertheless we never lost sight of what matters most to our customers:

- **Timely delivery during the winter season:** Thanks to our warehouse in the middle of Europe and consistent pre-production outside the season, we can react to any cold weather spells with lightning speed. Delivery times under a week are often feasible.
- **Stable pricing without nasty surprises:** We strive to shield our customers from short term extremes on the raw materials market and keep our prices stable over a period of several years.
- **Own branding – even for small quantities:** Manufacturing in Europe means being able to implement specific customer requests (special colours, own packaging), even for small quantities, without a massive increase in price or delivery time.

Saving the environment – sustainability is more than just a catchword

As a manufacturer in the plastics industry, we have a special responsibility towards the environment. We can no longer ignore the pollution of our seas with plastic waste. It is our responsibility to come up with innovative and environmentally friendly solutions. Our strategy for this is threefold:

- **To manufacture high quality and long-living products.** An ice scraper or squeegee by Veropa is built to last many years or even decades, not break the first time it is used.
- **To manufacture in the heart of Europe:** Our factory in Slovakia and our warehouse near Vienna make for short delivery routes within Europe. Most of our suppliers are European too.
- **Innovation and boldness:** We are the first and only manufacturer in our industry to come up with an ice scraper made of 100 % bio-degradable materials. We are working very hard on an extension of this to a whole range of bio-degradable products.

Production – first class products can only be made with high quality materials

We are one of the very few manufacturers in our field to use polycarbonate. Polycarbonate is a technical plastics component, which is highly break-proof, especially at very low temperatures!

Polycarbonate is somewhat more expensive, but its advantages outweigh the extra cost. Veropa ice scrapers are more durable and more efficient. Some of our customers have been using the same ice scraper for over 10 years!

It is not a surprise then, that our products regularly win independent tests.

Important detail: all materials we use in the manufacturing process comply with European regulations (for example REACH, SVHC, AZO, ...).

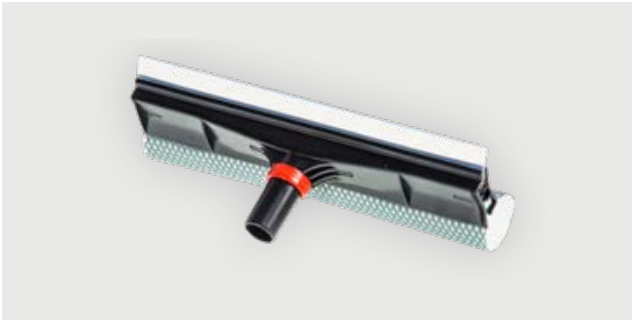

ISO 9001 Certificate and OEM Customer

Since December 2020 we are ISO 9001:2015 certified. Since April 2021 we deliver MAN with specially developed Veropa products.

Professional Squeegee “X-change”

Revolutionary new squeegee for professional use. Once it is worn out, the detachable head is replaced by a new one. The aluminium tube and the handle are preserved. The professional series is available in different lengths and widths.

6133 H Replacement head with polyester sponge, nylon mesh and silicone lip. Width 24 cm

6133-40 Professional squeegee with polyester sponge, nylon mesh and silicone lip. Length 40 cm, width 24 cm

6133-70 Professional squeegee with polyester sponge, nylon mesh and silicone lip. Length 70 cm, width 24 cm

6133-100 Professional squeegee with polyester sponge, nylon mesh and silicone lip. Length 100 cm, width 24 cm

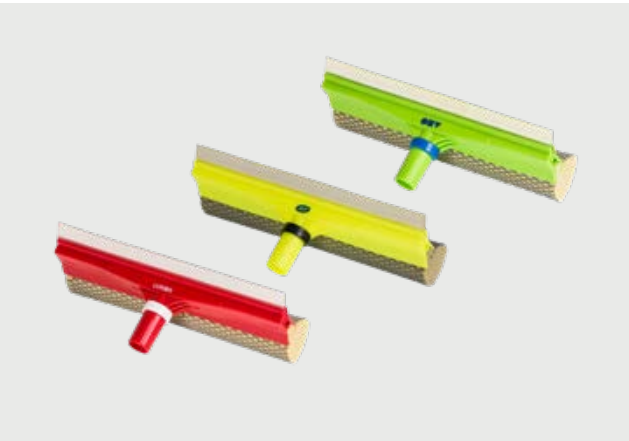

Professional Squeegee “X-Change”.
We are always looking for ways to improve the comfort of our customers, and have therefore added a soft grip handle to our professional squeegees.

6133-40SG Professional squeegees with polyester sponge, silicone lip and soft grip. Length 40 cm, width 24 cm

In addition, there is a choice between rubber and silicone lip, as well as a choice between rubber sponge or polyester sponge with reinforced nylon mesh.

New Wash Brush VARIO BRUSH Profiline

We are proud to present our brand new and improved brush head for our VARIO BRUSH series. The new brush head has an impressive, modern design and a multitude of useful innovative features: rubber edges, swivel head, integrated nozzles to name just a few. It is available in 3 different bristle strengths and sports a new one-click connection system, which makes it super easy to connect with the VARIO BRUSH aluminium tubes.

2 extra nozzles by turning 180°

Strong, pointed, jet spray

Softer, 2m wide rinsing spray

Brush Head VARIO BRUSH Ultra Soft

Ultra soft bristles, made of 50 % natural hair. Ideal for cars, solar panels, conservatories, etc.

6680 Brush Head VARIO BRUSH Ultra Soft.

Brush Head VARIO BRUSH Soft

Soft, split tip bristles. Ideal for cars, lorries, caravans, blinds, etc.

6681 Brush Head VARIO BRUSH Soft.

Brush Head VARIO BRUSH Hard

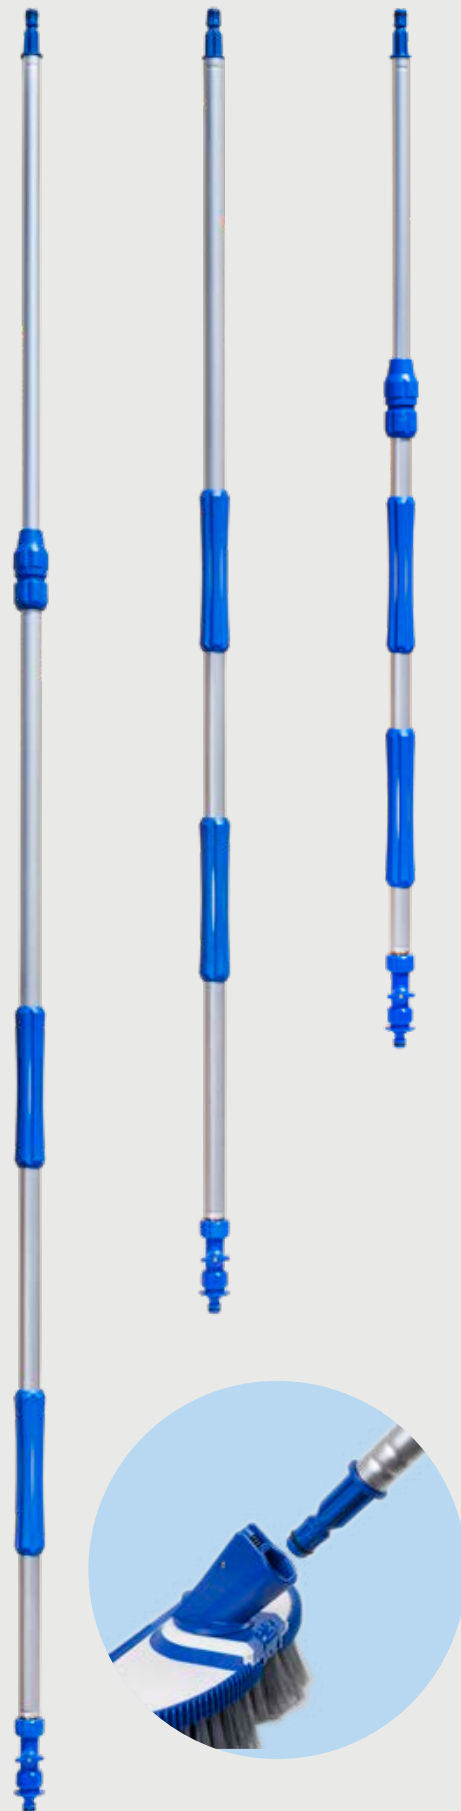

Short, hard plastic bristles. Ideal for terrace floors, tiles, pools, boats, etc.

6682 Brush Head VARIO BRUSH Hard.

New!

**VARIO BRUSH Profiline Aluminium Tubes**

Our new brush heads are best used in conjunction with our improved and enlarged assortment of water fed aluminium tubes. We have a new telescopic tube (80–150 cm) and have also equipped all our tubes with our new one-click connector, to ensure a super easy connection with our VARIO BRUSHES.

6652-300 Telescopic, 160–300 cm length, with on-off tap.

6653-150 No telescope, length 150 cm, with on-off tap.

6652-150 Telescopic, length 80–150 cm, with on-off tap.

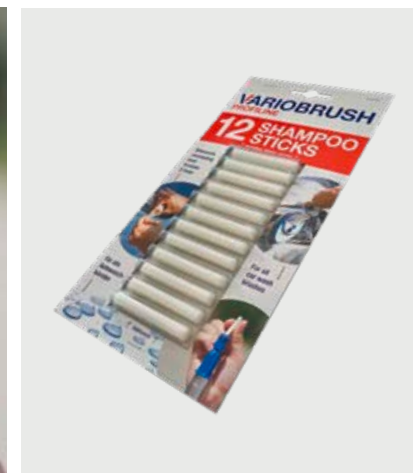

New!

**Water Hose VARIO BRUSH Profiline**

We recommend our VARIO BRUSH Profiline water hose, which fits with all our aluminium tubes and wash brushes. Due to its three layer construction, the blue, 20 m hose with water stop connectors is very durable, abrasion resistant and will not kink. It is of course free of Cadmium, Barium and Lead.

6610 Water Hose 20 Meters.

**Shampoo Sticks VARIO BRUSH**

Don't forget to include our practical Shampoo Sticks. One or two are enough to wash a complete car. It is best inserted in the opening provided at the end of the aluminium tubes.

6062 12 shampoo sticks in our practical blister card with dispenser.

New!

**VARIO BRUSH Display**

One display contains up to 28 wash brushes, 20 aluminium tubes and 30 Shampoo Stick blisters. The display is delivered fully mounted, on a 60 x 40 cm wooden pallet.

VARIO BRUSH Profiline – Hand-Held Wash Brush

We are proud to present our brand new hand-held wash brush in the VARIO BRUSH Profiline series. The Hand Held Wash Brush is ideal for cleaning cars, motorcycles, bicycles, garden furniture, ...

You can see this Vario Brush in action here

6686 VARIO BRUSH Profiline – Hand-Held Wash Brush.

Safe Sight

The product range that is all about the care and protection of your windscreen. Ensuring clear sight under all circumstances.

Own Branding and Promotional Items

We develop own series of products based on our clients wishes, or adapt existing product series to achieve an “own brand” look. Many of our products are ideally suited for logos, promotional messages etc.

The technical possibilities are manifold:

- Embossing
- Printing
- Stickers
- Gift Boxes
