A GLIMPSE INTO THE PAST, OUR VISION FOR THE FUTURE.

With more than two decades of experience in the automotive industry, Dinoil has established itself as a leading company in the production of lubricants, recognized for reliability and prestige on an international scale. The evolution of the company has been marked by a steadfast commitment to innovation and the pursuit of superior quality.

Since its inception, Dinoil has quickly risen in the automotive industry, standing out for the superior quality of its products. The formulation of Dinoil lubricants uses base oils of excellent quality and state-of-the-art synthetic additive packages, in line with the strict criteria set by leading global vehicle manufacturers, including Audi, VW, BMW, Mercedes-Benz, among others.

Corporate Objective

Dinoil's objective is clear: to maintain its position as a benchmark in the global lubricant industry. The company aims to further expand its reach into key international markets, offering high-quality solutions for a wide variety of applications, ranging from the automotive sector to heavy industry and agriculture. Dinoil is committed to environmental protection through the use of eco-friendly formulas that prevent contamination of water resources and soil.

The trust conferred by customers serves as the motivating factor that drives the company to pursue continuous improvement and promote innovation. While maintaining gratitude for the past, Dinoil remains focused on the future, ready to meet challenges and seize emerging opportunities.

Dinoil invites you to participate in the progression towards a tomorrow of excellence in the field of lubricants, supported by the trust of its customers.

QUALITY WITHOUT SECRETS

Dinoil's raw materials are the foundation of our superior quality. We collaborate with industry leaders such as Castrol, Petronas, Lubrizol, and Afton, using base oils of the highest quality and advanced additives. This partnership ensures lubricants that exceed the rigorous standards of the world's leading automotive manufacturers, guaranteeing reliable performance and long life.

OUR PRIMARY MARKETS

Our customer network extends all over the world, encompassing countries in Europe, Africa, the Middle East, and beyond. This geographic spread is a testament to the success of our global expansion strategy and the appreciation of customers for the quality of our products. We are committed to continuing to grow and to serve an increasing number of international markets.

AFRICA

Our sales network in Africa is strong and constantly expanding, with clients in Ivory Coast, Lebanon, Tanzania, Libya, Liberia, and other African countries. We are proud to serve this growing region with our high-quality products.

AMERICAS

Dinoil has a strong presence in the Americas, with clients in Guadeloupe, Martinique, and other nations on the American continent. Our sales network is constantly growing, demonstrating our commitment to providing quality products to this expanding region.

EUROPE

Dinoil has established a solid presence on the European continent, successfully serving a growing number of clients in various nations, including Italy, France, Albania, Kosovo, Macedonia, Montenegro, Croatia, Slovenia, Romania, Bulgaria, Spain, and Greece. This demonstrates our constant commitment to offering high-quality products and our ongoing interest in serving this expanding region.

ASIA

The current focus of expansion is in Asia. We are in contact with various entities in many countries and currently have clients in Kazakhstan, but we are finalizing collaborations with clients in many parts of Asia.

AN OVERVIEW OF OUR PRODUCTS

PROFESSIONAL

Dinoil's Professional line lubricants are formulated with the highest quality base oils and advanced synthetic additives specifically designed for modern sophisticated gasoline and diesel engines, adhering to the specifications required by manufacturers. They offer exceptional fuel savings and extended intervals between oil changes, ensuring reliable performance.

PREMIUM

Dinoil Premium offers a 100% synthetic formula with cutting-edge additives. It reduces harmful emissions, protects the engine and turbocharger, ensuring reliable starts even at low temperatures. This line ensures fuel savings and greater engine longevity.

MULTIGRADE

The Multigrade line is ideal for gasoline, diesel, and turbo engines. Formulated with special additives, it prevents the formation of harmful deposits and reduces emissions. These lubricants are particularly suitable for stressed engines and offer a high cleaning power, protecting the engine in all conditions.

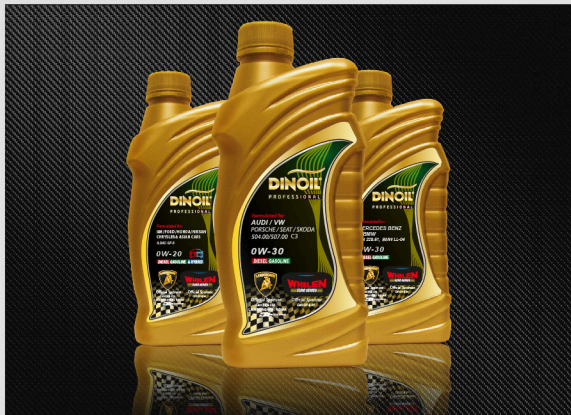

NOT JUST LUBRICANTS

In addition to the Main Lines of Lubricants, Dinoil offers a wide range of products that meet the most specific needs. Our Concentrated Antifreeze preserves the engine from overheating and corrosion, offering protection down to -70°C. The Additives solve a variety of problems, from cleaners for gasoline and diesel engines to antifreeze that prevents the formation of paraffin crystals in fuels. Greases based on high-quality mineral oil enhance the protection of mechanical parts subjected to high stress. Our complete range is designed to ensure maximum performance and reliability in every application.

OUR COMPETITION LINE

The Dinoil Competition Line is the result of years of direct collaboration with various teams competing on a global level. These partnerships have allowed us to perfect our leading product line, formulating lubricants with cutting-edge technologies to face extreme challenges in automotive and motorcycle competitions, as well as in high-intensity driving conditions for engines in general.

Our Competition Line has been specifically designed to exceed the limits of automotive performance. Thanks to its advanced formulation, it offers extraordinary resistance to high temperatures and extreme pressures, ensuring optimal performance even in the most critical moments. It reduces internal engine friction, maximizing power and responsiveness during competitions. Furthermore, it provides advanced protection for the engine and its components, prolonging the vehicle's service life. Developed for automotive competitions, this line ensures a competitive edge on the most demanding tracks.

FEATURES

Maximum Endurance: The Competition Line offers exceptional resistance to high temperatures and extreme pressures, ensuring optimal performance in critical moments.

Friction Reduction: Reduces internal engine friction, maximizing power and responsiveness during competitions.

Extreme Protection: Provides advanced engine and component protection, extending the vehicle's service life.

Top-Level Performance: Developed for automotive competitions, this line ensures a competitive edge on the most challenging tracks.

WE SUPPORT SPORTING EXCELLENCE

Dinoil is a trusted partner for the success of automotive competitions. Our mission is to enhance our expertise and increase the competitiveness of the teams we support. We are proud to sponsor one of the Nascar Whelen Euro Series teams, the Lamborghini Roma by DL Racing team with the Huracan Super Trofeo Europe EVO 2 car, the MTA-Dinoil team in the Spanish CEV Championship and the Italian CIV GP3 Championship, a Skoda car in the Rally of Montecarlo, the World Champion of Jetski Freestyle Roberto Mariani as well as non-motor-sport sponsorships such as matches of the French Ligue 1 at the stadium of AS Monaco FC. We are committed to the ongoing research necessary to compete at the highest levels in every competition we are involved in.
