EFI AUTOMOTIVE SERVICE JOINVILLE – FRANCE

With a turnover of 18 million euros in 2023, the Joinville site is mainly focused on the Group's spare parts business. More than 5,500m² are dedicated to the various activities required for distribution, addressing all of the Group's aftermarket customers around the world.

Recently, the company integrated a programme for the industrialisation of non-automotive start-up in fields such as robotics, connected objects (IoT) and structural monitoring, in close collaboration with Axandus, the EFI Group's industrial accelerator.

EFI AUTOMOTIVE BEYNOST – FRANCE Group headquarters

EFI Automotive is a leading manufacturer specialising in the design and manufacture of sensors, actuators and injection actuators to improve the efficiency of powertrains and transmissions. Moreover, thanks to its innovations and new technological platforms in the field of low-carbon mobility, its innovative mechatronic solutions and electronic and electromagnetic systems contribute to making vehicles more economical, more intelligent, more comfortable and safer.

EFI Automotive is a family-owned company with 1,700 employees worldwide, recognised in the automotive industry and in sustainable and intelligent mobility for over 85 years. Based in Beynost (Ain), the Group has a turnover of more than 220 million euros in 2023 and benefits from a strong international presence with development and production sites in Europe (France, Turkey), Asia (China) and America (USA), as well as sales offices in Germany, Brazil, China and Japan.
