ment of the ecological environment**

Since 2006

Shenzhen Anche Technologies Co., Ltd.

A leader in China's motor vehicle inspection industry

Established in 2006, Anche is a leading provider of total solutions for motor vehicle inspection industry and comprehensive services for automotive aftermarket in China. Headquartered in Shenzhen City, China, Anche is a listed enterprise in Shenzhen Stock Exchange in China (stock code: 300572). So far, Anche's business covers 32 provinces and serves over 100 million people in China.

As a high-tech enterprise in China, Anche is an overall solution provider in the industry that integrates R&D, production, sales and services. After nearly 20 years of unremitting development, Anche has developed a business covering four major fields: motor vehicle inspection and driving technology equipment, intelligent supervision of pan transportation intelligent operation of test organizations and green mobility with new energy, which involves 15 application scenarios and has more than 30 industry solutions, building a complete industrial ecosystem.

Innovation is the core driving force for the sustainable development of Anche. Currently, there are more than 800 employees, and the core team is composed of experts with years of experience in the inspection history. There are many doctors and masters among the team, with professional and technical talents accounting for over 50% of the team members. Anche has participated in the drafting and revision of Chinese national and industry standards, and holds 81 patents and 158 computer software copyrights.

Anche has set up Tai'an Production Base, Shenzhen New Energy R&D Center, Jinan R&D Center and Nanjing R&D Center. Anche also has three wholly-owned subsidiaries and eight holding/joint stock companies.

For many years, Anche has been committed to providing comprehensive services to customers and becoming a practitioner of sustainable improvement in the ecological environment. The products and solutions have gained recognition and praise from numerous customers both domestically and internationally. In the field of motor vehicle inspection alone, our products have been delivered to over 3,000 test organizations and over 200 automakers both in China and abroad.

In future, Anche will continue to adhere to its philosophy of "Technology first" and be committed to providing customers with first-class products and services, and continuously contribute Anche's strength to the development of the industry.
