

➤ Tools for various quality control operations

- Tools custom made to the requirements of the production process

Hint points

1. Purpose

- Go-no-go tools ("GO-NOGO" tools);
- Leakage testing ("leakage testing tools");
- Control of shape and dimensions;
- Etc.

2. Upon customer demand

- ESD properties;
- Pneumatic or electric system;
- Other.

➤ Pneumatic couplings for "Leak test" of fluid transport parts

- Standard or on the customer demand

Hint points

1. Purpose

- Leakage control ("leak test tools");
- They are used to quickly fill the installation with air for leak testing.
- The principle of operation is to seal the air inlet.
- Sealing of the inner and outer diameters;

2. Upon customer demand

- ESD properties;
- Pneumatic or electric system;
- Other.

➤ Rubber products for industrial application

- Standard or on the customer demand

Hint points

1. Purpose

- Seals for leak test tools;
- Feet and bumpers;
- Gripper support supports;
- Etc.

2. Upon customer demand

- ESD properties;
- Pneumatic or electric system;
- Other.
