BQ(A)	402559

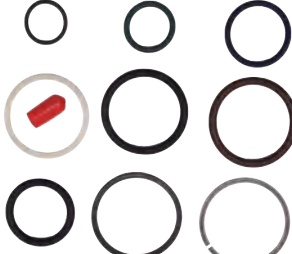

The diagram shows an exploded view of a mechanical assembly. On the left, there are two main components: a rectangular flange with four mounting holes and a larger, more complex flange with a central circular feature and a smaller circular feature. To the right of these components are 20 small circular callouts arranged in a grid. The callouts are organized into four rows of five. The first row of callouts is positioned above the rectangular flange. The second and third rows of callouts are positioned between the two main flanges. The fourth row of callouts is positioned below the larger flange. The callouts are represented by two different styles of circles: some are solid black, and others are hollow with a black outline. The arrangement suggests a sequence of parts to be assembled onto the main components.

The diagram shows the following components:

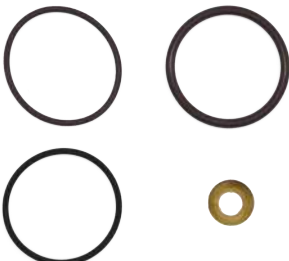

- 1. Silver-colored circular ring.
- 2. Purple circular ring.
- 3. Silver-colored circular ring.
- 4. Small silver-colored C-clip.
- 5. Reddish-brown circular ring.
- 6. Silver-colored square-shaped ring with rounded corners.
- 7. Silver-colored circular ring.
- 8. Silver-colored circular flange with a central hole.
- 9. Silver-colored circular flange with a central hole and two side holes.
- 10. Black circular ring.
- 11. Yellow cylindrical component.
- 12. Black threaded rod.
- 13. Silver-colored pin or screw.
- 14. Small silver-colored circular washer or spacer.
