Function Software

- ⊙ Airbag Reset
- ⊙ MVBM Reset
- ⊙ SAS Reset

Functions

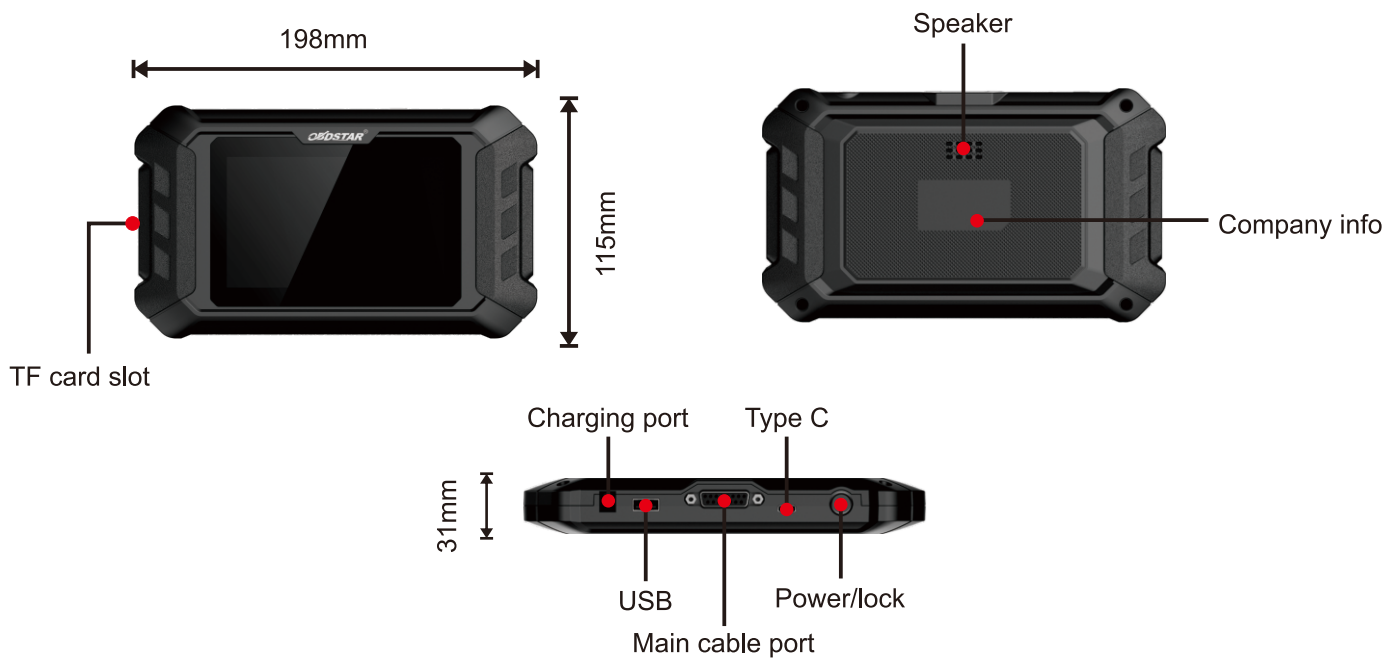

All by OBD or by BENCH.

- ⊙ Supports one-click airbag reset for 86 brands and over 11600+ ECU part No.
- ⊙ Supports fuzzy search for ECU part No.
- ⊙ Contains clear BENCH mode wiring diagram
- ⊙ Contains powerful and complete description files for fault code
- ⊙ Supports battery reset(MVBM) function
- ⊙ Supports SAS reset function
- More functions in developing...

Advanced Functions

- ⊙ ECU Info.
- ⊙ Read DTC
- ⊙ Erase DTC
- ⊙ Read EEPROM
- ⊙ Write EEPROM
- ⊙ Read FLASH
- ⊙ Write FLASH
- ⊙ Erase Crash
- ⊙ Write VIN
- ...

Merits of P004 Adapter

Designed for ECU programming, reading or writing data in bench mode.

- ⊙ Programming devices keep in normal communication no matter turn on or off 12V power button;
- ⊙ Turn on or off 120Ω resistance at any time for CANBUS ECU;
- ⊙ Support 6&14 and 3&11 CANBUS protocol at the same time;
- ⊙ Optional CANFD adaptor (Mainly used for models after 2020. such as HYUNDA/KIA. etc.)
- ⊙ Support GM Single CAN(GM SCAN);
- ⊙ Support K-line Protocol;
- ⊙ P004 jumper can connect with multiple wires at the same time, make wiring clearer and easier;
- ⊙ DB15 connector can communicate with any OBDII-16 I/O interface.
