

► Mission

Pro Part Distributor Co., Ltd. has been established to manage the increasing overseas' interest in genuine and aftermarket parts that are produced in Thailand.

We have pulled together experienced automotive part management and logistic personnel in Thailand to fulfill the current and future AUTOPART markets, both domestic and overseas. Our operation is virtually computerized from order to delivery on our customized software and network. We are continually striving to provide our customers with quick and accurate part information at a competitive price. We have sourced and selected only the highest quality products from a variety of manufacturers in the so-called "Detroit of Asia".

We are well connected with part distributors for genuine brands such as Toyota, Isuzu, Mitsubishi, Nissan, Chevrolet, Ford, Mazda, and Suzuki. Apart from the above-mentioned, we represent many world-renowned OE brands with local manufacturing facilities; Exedy clutch, Tokico shock, KYB Shock, Daido Engine bearing, Aisin components, Threebond adhesive, Cherry gasket, Akebono brake, and Denso parts.

From our automotive sales experience and distribution expertise, we would like to introduce our sister Filter factory Schvakon Co., Ltd. an ISO9001:2015 certified organization. We represent our factory through Power-S and G-Part filter brands, where we stressed heavily on quality material and high standard manufacturing techniques drawn from our experiences in directly dealing with customers. In addition to Power-S and G-Part brands, the factory also manufactures and distributes other distinguished brands such as ProServ filter, ACT filter, and many other well-recognized brands in many parts of the globe.
