MADE IN GERMANY

MITAN Mineralöl GmbH is a filling company specializing in lubricants, radiator protection systems and automotive chemicals.

We don't just offer you lubricants - we offer you a partnership. Become our sales partner and benefit from a comprehensive all-round service. Whether under your own brand or as part of our proven and popular own brands, we will support you every step of the way.

Why with us?

- Expertise and experience: Decades of experience in the filling and distribution of lubricants worldwide.
- Quality assurance: Highest standards at every stage of production - from filling to delivery.
- Customized solutions: Customized packaging solutions, perfectly tailored to your requirements.
- Global reach and logistics: Worldwide distribution and just-in-time deliveries so that your products are always available.
- Product development: We help you to select the right lubricants for your market.
