ALL AROUND WEATHER PROTECTION

- Various outer layer materials: nylon, polyester, PEVA, tyvek, non-woven fabric, etc.
- Materials lined inside can be soft cotton, silver layer and non-woven fabric, etc.
- Being sewed with double lines of stitches makes the tire cover strong and durable enough.
- It can also be designed specific to your tires.
- The cover can well protect your tires against rain, wind, dust, UV rays and scratches.
