THE KEY TO YOUR SUCCESS

Complete Vertically Integrated Brake Manufacturer
We Make it All, from Friction to Shims to Hardware

Baofeng is a passion driven company, with a deep, meaningful connection to the brake systems market. From concept to its current form, Baofeng leads the global market, with an emphasis on lean, technology driven manufacturing. We have extensive in-house testing systems and R & D laboratories in China, Europe and the United States to assure compliance, safety and comfort for all our customers. We are financially strong and keenly focused on the continuous development of innovative friction science technology to provide a unique, comprehensive experience for your business.

- Fulfillment

Coverage

- Assortment
- Product Mix
- Cataloging

- Established in September, 2011, located in Shandong Peninsula, city of Dongying

- Complete vertical global manufacturer of premium friction products

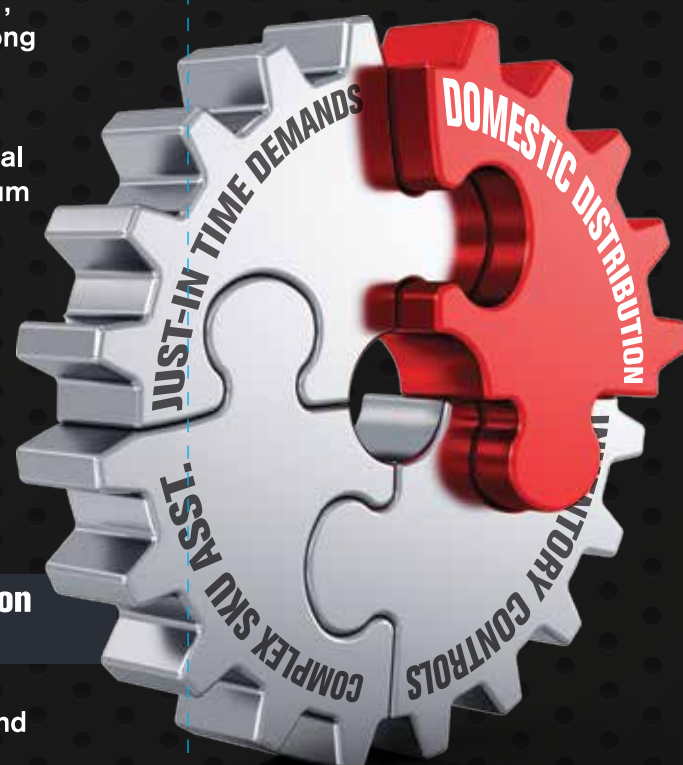

- Primary manufacturer for market leading North American brands, parts distributors & retailers as well as the European market

- OE and OES supplier

- North American Distribution & Engineering Research Center:

**Direct Import + Domestic Distribution
= Improved Service Support**

- Committed to continuous reinvestment in technology, R & D, product development and state-of-the-art manufacturing capabilities

INNOVATIVE FRICTION SCIENCE

KEY INGREDIENTS

- Extensive library of formulations
- Over 1,600 part numbers tooled with progressive late model coverage
- Customized manufacturing to customer needs, including scorching and post-curing features
- 3 Dimensional prototype assembly line to create unique designs
- Provide access to OE manufacturing technology and collaboration on ideas for new innovative noise reducing solutions
- Fully compliant on the latest ACES & PIES electronic cataloging systems

Certified Quality

- In-House R & D with OE Benchmark Link Dyno testing
 - Four OE Link NVH 3900 Dynos provide superior test data to verify optimum performance levels
- New Frankfurt, Germany R & D Center with 8 Link Dynos

Extensive Quality Controls and Traceability, including:

Big Enough to Serve You

Small Enough to Know You

- Customer driven & flexible to your needs
- Can create a customizable program with tangible pull through support to match your specific market needs
- Dedicated sales support and training
- Complete catalog development and technical support
- Provide a fresh and enthusiastic business approach designed to improve product mix
