HEAVY DUTY POWER STATION SOLUTION

Rough & Tough Usage Anywhere For PRO's

PERFORMANCE

Charging Time / 1 Hour To 70% Approx. Approx. 1.5 Hour To Complete

Rated Power / 2,000W

Peak Power / 4,000W

IP / 65

Capacity / 1,500Wh

Weight / 26kg

Build by PROs for PROs

Suitable For Construction Sites

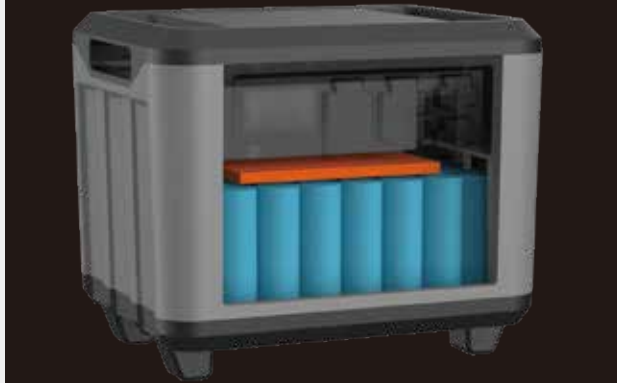

Without Fan

-No Fans Used From Outside To Inside
No Filter/No Noise

Temperature Range

Charging Up To 0°C Up To 60°C
Discharging From -30°C Up To 60°C

Integratetd & Patented Extinguisher
for More Safety
LiFePo4 - 6,000 Charging Cycles

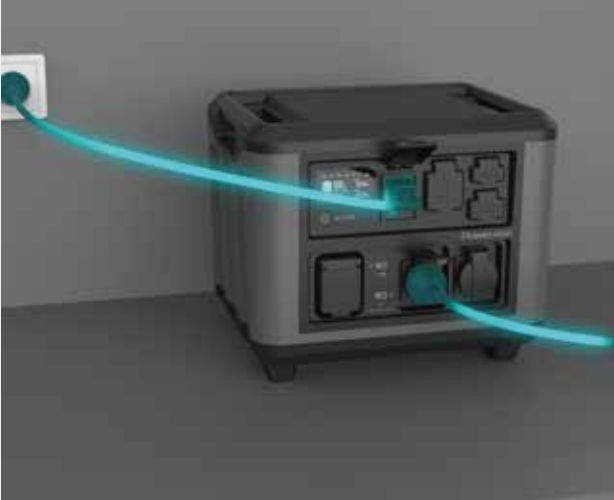

Longer Operating Time
Rechargeable by Solar Panel
More Capacity with Additional Battery J010
