ELEGANCE

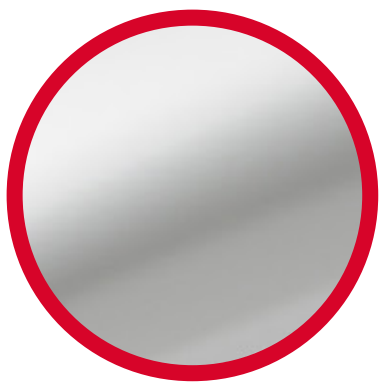

ROOF RAILS

As the name indicates these roof rails provide practicality without spoiling your vehicle's elegant look. It is available in two colors, garnishing its reliable and robust aluminum bars through flawless anodizing.

Elegance roof rails are precisely made to fit on your vehicle's roof fixing points, sparing you the burden of drilling holes on your roof. Feet made of "heavy-duty" plastic and rubber endings ensure a maximum fixation and zero leaks on rainy days.

Two Color Options

The roof rails are installed using three fixing points on each side. Bolts and other fitting pieces are provided in the product box in addition to detailed mounting instructions. A Stick-on version is available for the vehicles without fixing points.

To make the product box smaller, we created a dividable version of the Solid roof rail. The packaging is nearly half the length of the rails, saving up mainly on individual shipping costs.
