

Ice scraper

Arctic

Recycle - Reuse - Rethink

Did you know ?

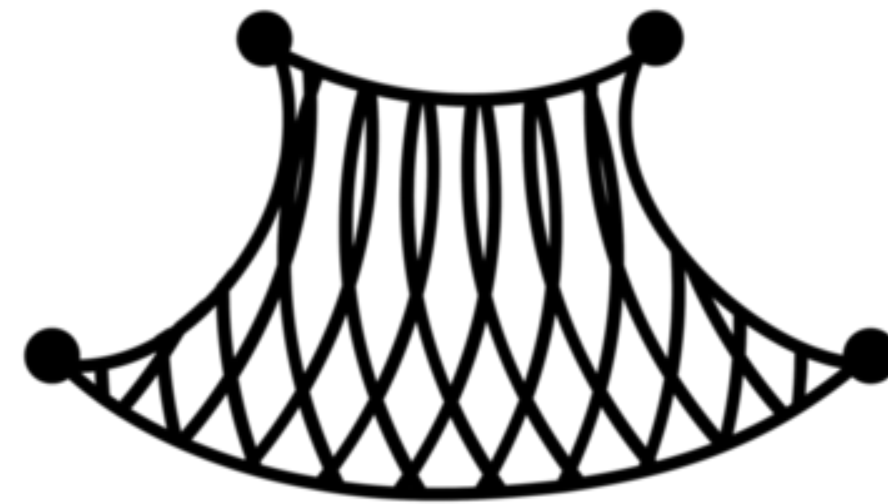

Over 100 million tons of plastic waste circulate in the oceans and about 10 million are added annually.

15%
reach the
coast

70%
are on the
depth sea

Fishing net pollution

Each year,
640 tons of fishing
nets are abandonned
/ losted

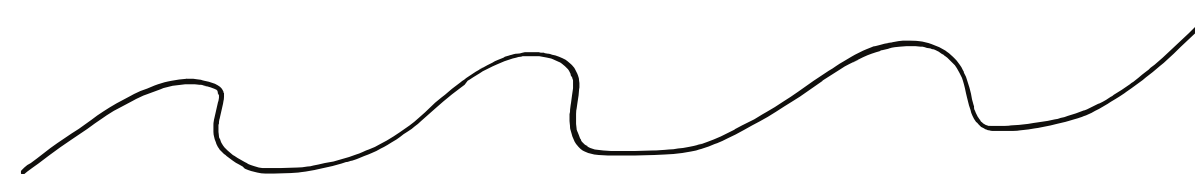

... it's the equivalent
of 14 222 222 222 ice
scrapers !

**What if we can
find a solution
today?**

Ice scraper

At BILLAT, we revalue marine litter by producing an entirely designed ice scraper with fishing nets recycled from the deep ocean.

The aim of this eco-responsible approach is to contribute to the preservation of our planet by encouraging the circular economy, and to demonstrate that plastic is not an ultimate waste but a recyclable material.

Made in France

100% recycled – 100% recyclable

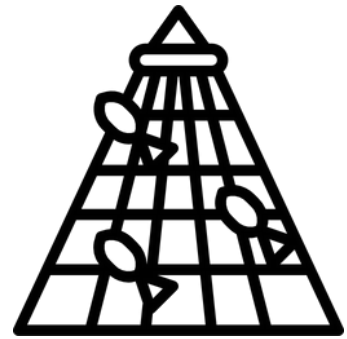

The basic material is made using fibres from the maritime industry such as fishing nets.

These fishing nets are provided, classified and fractionated into different types of plastics and colours. Once sorted, the material is shredded, washed, separated and finally dried.

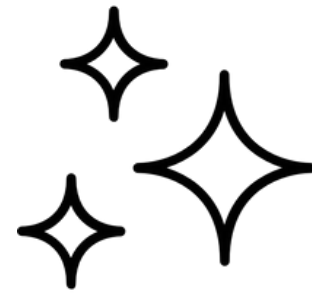

Finally, plastic is recomposed and extruded into a brand new raw material called pellets.

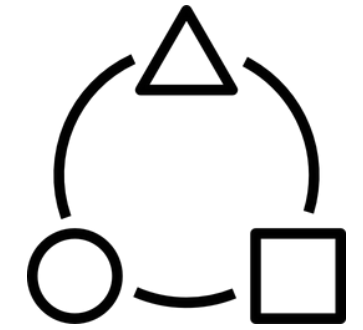

How does it work?

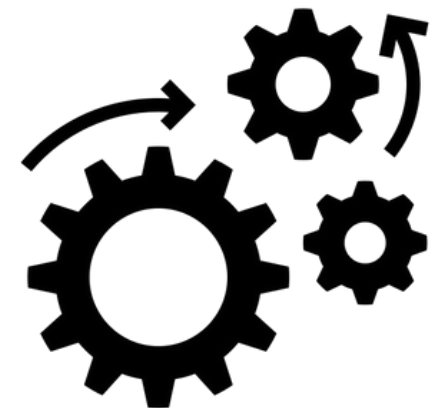

Collect
maritime waste

Clean
cut, separate, dry

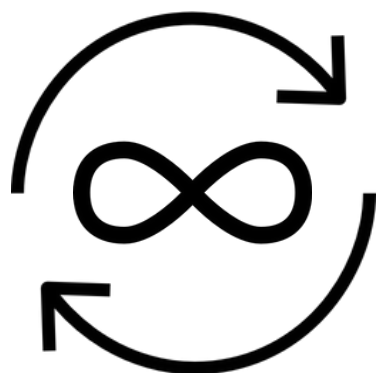

Transform
in green plastics

Inject
plastic

Use it
over and over

Recycle
for a second life

Our Arctic range is growing !

We don't want to stop there our eco-responsible approach. Discover our ice scraper Eclair and our 2 seasons squeegee.

Nordic Arctic Ice Scraper
100% recycled and recyclable

Eclair Arctic ice-scraper
100% recycléed and recyclable

2 saisons squeegee
100% recycled et recyclable

Available in shelf ready box

Or in stackable boxes
