Şirket Profili

İstanbul da 1986 senesinde imalata başlayan Elbir Oto müşterilerinin artan talepleriyle fabrika yatırımlarını yaparak kapasitesini büyüttü ve ihracata başladı.

Elbir Oto, (after market) yenileme pazarında binek ve hafif ticari araçlar için direksiyon ve süspansiyon parçaları olan,Rotil (Ball Joint), Rotbaşı (Tie Rod End), Rotmili (Axial Joint), Askı rotu / Z-rot (Stabilizer Link), Salıncak (Track Control Arm), Burçlar ve kauçuk parçalar üretmektedir.

Bütün binek araç gruplarının (Avrupa – Japon & Kore – Amerikan araçları) süspansiyon parçalarının imalatını yapan firmamızın ürün yelpazesinde yaklaşık 15.000 çeşit ürün bulunmaktadır. Yapılan AR-GE çalışmaları ile de her ay bir çok yeni model üretimimize dahil edilmektedir.

% 80 ihracat ağırlıklı üretim yapan Elbir Oto dünya pazarlarındaki Steering & Suspension parça taleplerini karşılamak için ürün yelpazesini geliştirmiş ve bugün 25.000 m2 lik kapalı bir alanda ayda 350.000 adetlik bir üretim kapasitesine ulaşarak 70 den fazla ülkeye ihracat yapmaktadır.

About Us

In 1986, Elbir Oto was founded as a manufacturer of Steering & Suspension parts such as Ball Joint, Tie Rod End, Axial Joint, Stabilizer Link, Track Control Arms Rubber & Bushing parts and Engine Mountings for passenger cars and light commercial vehicles. Our factories are located in ISTANBUL and GEBZE /TURKEY.

We produce Suspension parts for all European – Japanees & Korean – American passenger cars and our production range has approx. 15.000 items. Thanks to our Research & Development dept. that every month many new models are included.

Since the beginning, majority of our production meets with overseas customers. During the time new investments has been made to enlarge the production range and to cover aftermarket steering & suspension parts requests of our customers. Today, we produce high quality products in our factories utilizing 25.000 sqm indoor facilities. By the continues demands of our customers we increased our capacity to 350.000 parts per month and export them over 70 countries.Experienced & Qualified production team, high-tech machineries, top quality raw materials and taking small details into consideration carries ETS products to perfection.

Our Quality Management System is IATF 16949:2016 certified. Therefore, ETS aims to be one of the leading companies in the aftermarket by using its dynamic structure, developing professional identity and updating itself according to World Automotive Industry. We are proud of exporting 80 % of our production to USA, UK, Germany, Italy, other EU countries, and many Asian and North African countries.

Our prensiple is

- Premium Quality
- On time delivery with exact quantities
- Competitive price

Beyond the quality, ETS products are known in the market with its reliability and competitiveness.
