

## 丰富的产品系列 全面的产品应用

Rich product range  
Comprehensive product application

### Product Category

OKIYA is committed to meeting different application needs at anytime, suitable for various vehicles, OKIYA people have always insisted "TO OFFER THE BEST FILTER WITH TRUSTING". We're professional in producing Oil filter, Fuel filter, Centrifuge oil filter, Air filter, Cabin filter, Air dryer, Industry filters. OKIYA has over 4000 kinds of filter and the capacity of the filter is 20 million pieces. OKIYA can provide the filters for all the different engines under reliable services. In order to meet the standard requirements from the OEM, OKIYA has already develop a high-end standard also for the aftermarket. WELCOME TO DISCOVER THE WORLD OF OKIYA.

### Quality Assurance Capability

- 1999.12, OKIYA passed ISO9001: 1994 International Quality System Certificate.
- 2004.11, OKIYA passed ISO/TS16949: 2002 International Quality System Certificate.
- 2006, OKIYA R&D centre was awarded ZHEJIANG Province R&D centre.
- 2007.05, OKIYA passed ISO 14001: 2004 Environment Management System Certificate.
- 2009, OKIYA brand was awarded China famous brand.
- 2017, OKIYA passed IATF 16949 International Quality System Certificate.

## 奥凯嘉滤清器 精芯, 尽心, 放心

OKIYA Filter  
Exquisite, Dedicated, Reassured

### 关于我们

奥凯嘉品牌创建于1995年。公司坐落在享誉国内外的中国汽摩配之都——浙江省瑞安市，是一家集设计、研发、生产、销售于一体的创新型企业，是中国内燃机工业协会和中国汽车工业协会理事单位和滤清器分会副理事长单位。严谨、科学、高效、合理的管理制度，让公司的运作更为规范化，在行业内率先通过IATF16949国际质量管理体系认证，打造品质精良的“浩刚达”滤清器。历经近30年的稳健发展，公司已成为国内大型生产企业及综合型配件供应商。精良的品质、公平的价格、优质的服务和诚信的合作，使奥凯嘉系列产品遍布国内市场，配套潍柴、锦柴、全柴、云内、玉柴、华鑫等主机厂；并远销欧洲、美洲、澳洲、非洲等世界各地，深受客户赞誉和信赖。与世界500强企业联手合作，强强联手，助推了奥凯嘉快速发展。企业规模不断扩大，生产工艺精益求精，产品质量稳中有升，品牌建设成效显著。

### Introduction to History

- 1995.10**: Zhejiang Haogangda Automobile Parts Co., Ltd. Founded And Studied In The Filed Of Filter.
- 1999.10**: Developed And Produced The Turbocharger.
- 2006.05**: Based On The Haogangda Company To Establish Okiya Group Co., Ltd.
- 2006.06**: Set Up Okiya Group Electricity Subsidiary Company.
- 2008.10**: Established Haogangda Turbocharger Co., Ltd In Hangzhou.
- 2014.04**: Okiya Auto Technology-the Reorganization Of Auto Parts Filed Which Is Demerged From Okiya Group.

### About us

OKIYA was established in 1995 and is located in Rui'an city Zhejiang Province which is famous as a capital of auto parts manufacturing in China. OKIYA is a company which focusing on R&D, producing & providing a suitable filter for the final customer. Moreover, OKIYA is the member of China Association of Automobile Manufactures and China internal of Combustion Engine Industry of Association, and we are also the vice president of filter branch. OKIYA has a rigorous, scientific, high-efficient, reasonable management system which normalize the operation of the company, also OKIYA take the leading in passing the automobile quality management system standard IATF16949 certification.. After nearly 30 years of steady development, OKIYA has already been the large production enterprises and integrated parts suppliers in China. OKIYA branch filters are famous in China and export to the whole world like Europe, America, Australia & Africa because of better quality, reasonable price, superior service and honesty cooperation. Also, we also cooperate with world famous engine factory, for example: FAW, XICHAI, QUANCHAI, YUNENI, YUCHAI and also the "Ranking 500 company" in the world. Also, due to the cooperation with those company, it helps OKIYA to develop, we have a better producing line, better quality, and a well-known brand name.

## Strength Deduces Quality

### Technical Capabilities

- 2006.02, As approved by Zhejiang Province Science & Technology Bureau, The OKIYA Group Develop & Research Center was set up as Zhejiang province Central Technology Center.
- 2006.08 Our turbocharger (HTB28-5754W) was selected by China Torch Program and won the name of China Main Innovated Products.
- Till 2009.10, OKIYA Group has acquired eight National Patents for turbochargers and Filters.
- 2009.08, OKIYA Group was in accreditation for one of Key Enterprises in China.

### Market Conditions

- 2003.06, began the export, mainly exported to Europe, America, Asia etc.
- 2005.03, HAOGD began supply OE filters to Dalian diesel engine company.
- 2006 OKIYA began supply OE filters and turbochargers to FAW.
- 2011 OKIYA began supply OE filters to SHINERAY.
- 2012 OKIYA began supply OE filters to GEELY.
- 2014 OKIYA began supply OE filters to QUANCHAI.
- 2015 OKIYA began supply OE filters to WEICHAI.
- 2017 OKIYA began supply OE filters to YUCHAI.
- 2020 OKIYA began supply OE filters to YUNNEI.
- 2021 OKIYA began supply OE filters to SANYL.

OKIYA®

## EASY TO HANDLE; POWERFUL PERFORMANCE LONG LIFETIME, FAST REPLACEMENT

更易组装, 更强性能, 更长周期, 更多可靠

Spin-on Filters is divided into oil filter and fuel filter. OKIYA oil filter is linked on pipeline on the fuel pump and throttle control. Oil filter can filtrate out Iron oxide, dust and other solid impurities, to prevent clogging of the fuel system (especially the fuel nozzle). To reduce mechanical abrasion and ensure stable engine operation, improve reliability. The fuel filter has the advantages of high fuel-water separation efficiency and filtration efficiency, ensuring that most of the moisture and particle impurities are filtered out, reducing abrasion, avoiding blockage, effectively protecting the common rail fuel system, ensuring smooth fuel circuit, allowing you to rest assured and safe driving.

旋装式滤清器分为机油滤清器和柴油滤清器; 奥凯嘉机油滤清器串联在燃油泵和节气门体燃油进口之间的管路上。能滤掉燃油中的氧化铁、灰尘和其它固体杂质, 防止燃油系统堵塞(尤其是喷嘴)。减少机械磨损, 确保发动机稳定运行, 提高可靠性。柴油滤清器具有高油水分离效率和过滤效率的优势, 确保过滤掉大部分水分和颗粒杂质, 减少磨损, 避免堵塞, 有效的保护共轨燃油系统, 确保油路顺畅, 让您放心、安全驾驶。

## SPIN-ON OIL & FUEL FILTERS

旋装式机油、柴油滤清器

## GASOLINE FILTER

汽油滤清器

## TAILOR-MADE SHAPE. OUTSTANDING PERFORMANCE

量身定制的外形, 脱颖而出的性能

OKIYA gasoline filter are assembled directly in the fuel line. The complete module is simply replaced during maintenance.

We have two different material versions - plastic and metal. Both variants can have different designs and ensure optimum protection for the fuel system as well as long service intervals. Special features such as pressure control and fuel preheating make the filter particularly useful and versatile.

奥凯嘉汽油滤清器直接集成于燃油管路中, 能够及其容易的就进行更换。奥凯嘉可以生产两种不同材质的燃油滤清器—塑料和金属。

为了给燃油系统和使用寿命提供最好的保障, 两种材料都会有不同的设计。同时, 为了使燃油滤清器更有效, 奥凯嘉滤清器有了独特的性能, 比如压力控制和燃油预热。

## INNOVATIVE DOWN TO THE LAST DETAIL GOOD FOR THE ENVIRONMENT

细节创新, 利于环境保护

OKIYA high performance filter elements have been specially developed for use in modern engines. Thanks to outstanding dirt holding capacity, high material resistance and a filter fineness perfectly matched to the relevant vehicle model, our filter inserts can cope with intensive use and deliver superb results.

The most modern filter media prolong service intervals and will continue to meet the technical requirements of high-performance engines in future.

奥凯嘉的高性能滤芯专为应用于现代发动机而研发。通过材料的高容尘量, 稳定性以及高精度, 能够完美的适用于有关车型, 所以我们的滤芯能够适应高强度的使用环境, 并产生良好的效果。同时通过先进过滤延长维护周期, 并不断满足未来高性能发动机的技术要求。

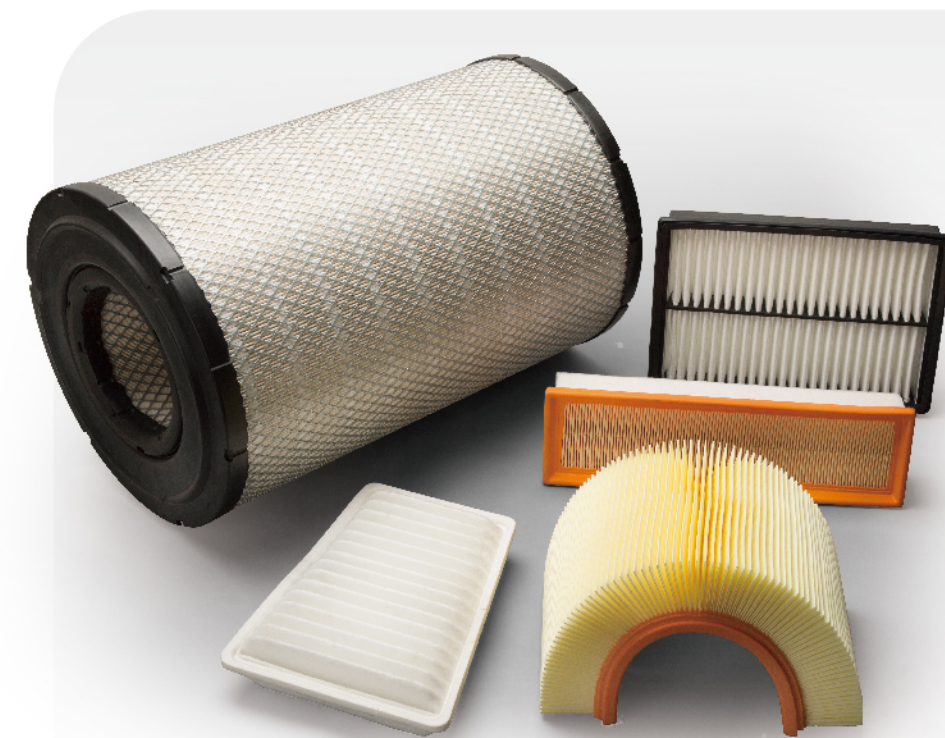

## FILTER ELEMENT

## AIR FILTERS

空气滤清器

## CLEAN AIR, TRUSTWORTHY

洁净空气, 值得信赖

To achieve optimum performance, combustion engines require clean intake air. Here is another hallmark of OKIYA air filters: the high dust holding capacity ensures it is the end of the road for all dirt particles. No matter whether it's dust, pollen, sand, soot or even water droplets - thanks to the highest degree of dirt separation and high mechanical stability, OKIYA air filters even filtrate the smallest particles out of the intake air. This enables an optimum composition of the fuel-air ratio and ensures that the engine performance is consistent.

奥凯嘉为了保证内燃机得到清洁的空气, 获取最佳性能, 保证了空气滤清器的高容尘量, 能有效过滤路況中的各种颗粒物, 具有过滤效率高, 稳定性强等特性, 能够过滤及其微小颗粒, 不管他是粉尘, 花粉, 沙子, 炭黑还是水滴, 都能——过滤。促进了燃油充分燃烧, 确保发动机性能稳定。

## A HEALTHIER ATMOSPHERE. GREATER COMFORT.

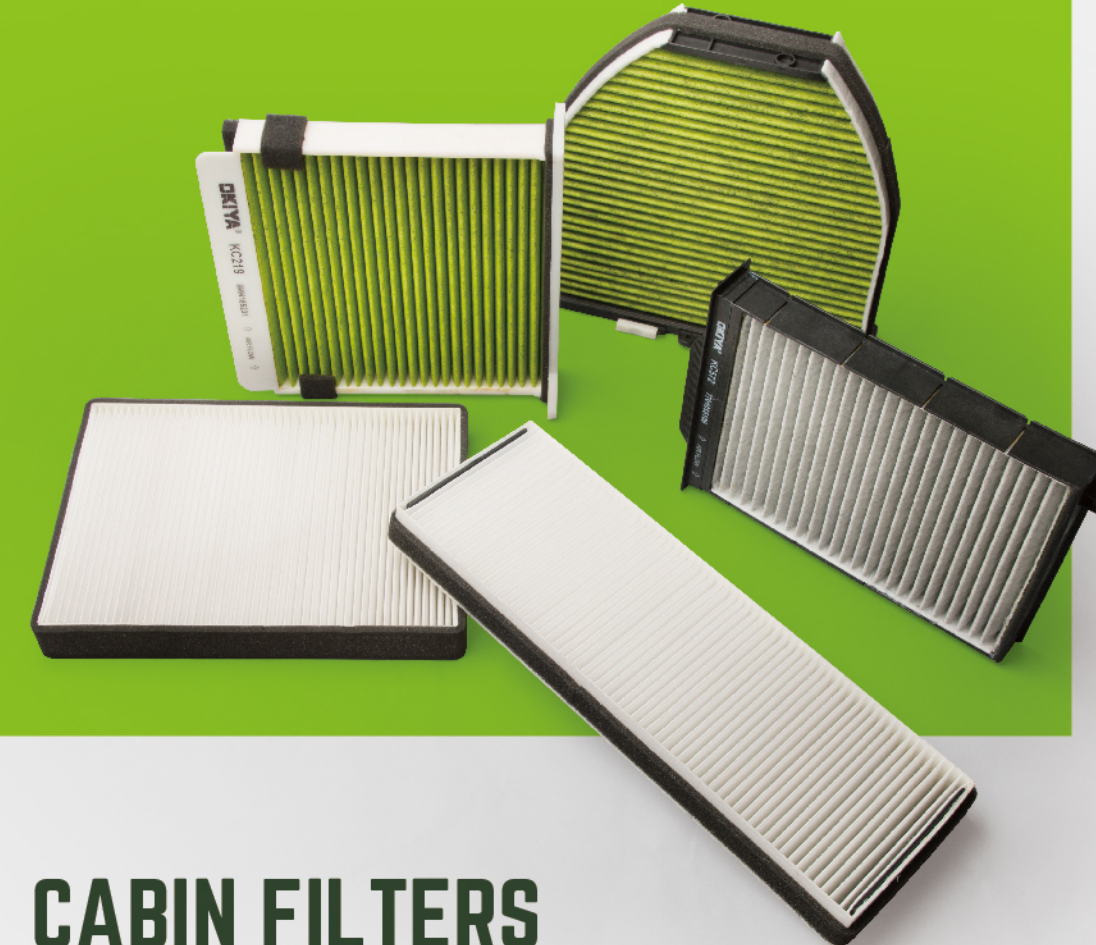

更清醒的空气, 更舒适的氛围。

OKIYA Cabin filters ensure to improve comfort and fresh air in your car.

As a general rule, they should be replaced at one-year intervals or after every 15,000 km travelled. Misty windows, a stuffy cabin and a malfunctioning air conditioning system are also sure signs that replacement is necessary.

Next time you are changing your cabin filter, play it safe and choose a patented high-tech filter from OKIYA. Our products are a perfect fit and of verified OEM quality.

奥凯嘉滤清器能够确保车内空气的清新, 提升舒适度。通常, 在使用一年或者15000公里之后, 需要及时更换。同时, 当您发现您的爱车车窗出现积灰, 驾驶室内闷热以及空调系统失灵时, 也需要注意及时更换空调滤清器。
