

Quotation list(Auto Charger)

Payment term:30%before production, 70%against B/L. Price term: EXW, valid in 10days	From: Ms.Vicky Wu Mobile/Whatsapp/Wechat: +86-18957369690 Date: 2024	mail:vicky@altertool.com
--	--	--------------------------

No.	Model	Description	Photo	Package		MOQ (pcs)	Remarks
				G.W. (kg)	N.W. (kg)		
1	chargers ECD88-1230	Voltage:220V-240V Power:300W Output Voltage:12V&24V Current:10A Dimension:24*15*10cm		2	1.7	100	Features: Suitable for general charging of ordinary batteries and start stop batteries Full power automatic stop and low power automatic start, as well as battery type selection mode Working mode with charging and repairing batteries Equipped with 12v/24V automatic conversion function Application scenarios: 4S store showroom, car decoration store, used car dealer, private car
2	chargers ECD88-3330	System voltage: 12/24v automatic identification Peak current: 20A Peak power: AC-300W Input voltage: 220V+-20V Power cord length: 100cm Output cord length: 150cm Dimension:32*28*17cm		1.7	1.2	100	Features: Suitable for general charging of ordinary batteries and start stop batteries Full power automatic stop and low power automatic start, as well as battery type selection mode Working mode with charging and repairing batteries Equipped with 12v/24V automatic conversion function Application scenarios: 4S store showroom, car decoration store, used car dealer, private car

No.	Model	Description	Photo	Package		MOQ (pcs)	Remarks
				G.W. (kg)	N.W. (kg)		
3	chargers ECD88-2220	Voltage:220V-240V Power:200W Output voltage:12V&24V Current:10A Dimension:24*19*9cm		1.7	1.2	100	<p>Features: Suitable for general charging of ordinary batteries and start stop batteries Full power automatic stop and low power automatic start, as well as battery type selection mode Working mode with charging and repairing batteries Equipped with 12v/24V automatic conversion function</p> <p>Application scenarios: 4S store showroom, car decoration store, used car dealer, private car</p>
4	chargers ECD88-4280	Voltage:220V-240V Power:800w Output Voltage:12V&24V Current:25A Overall Dimension:24*36*19.5cm		7.5	7	100	<p>Features: Suitable for fast charging of ordinary batteries, suitable for general charging of ordinary batteries and start stop batteries Self stop at full power and self start at low power 12v/24V automatic conversion power Equipped with repair mode to remove plate vulcanization Featuring winter enhanced charging mode</p> <p>Application scenarios: Automobile repair shop, fleet, battery, storefront, truck and agricultural machinery</p>
