DONG YANG JEONG MIL GASKET CO., LTD.

1.Introduction

We are Engine Overhaul Gaskets and Cylinder Head manufacturer supplied our products to the Domestic and International Market for the past 40 years since 1970.

On this occasion, we Dong Yang Jeong Mil Gasket (DYG) would like to express our sincere appreciation to all customers supported us continually.

The DYG was granted ISO/TS16949 and are working hard ahead for the high performance of our products and developing new products to meet our customers' demand.

All products are tested in accordance with a high standard level of quality control system to keep the OEM products quality standard.

We look forward to working with you shortly to the mutual benefits and we remain

GASKET MANUFACTURE

REMANUFACTURE CYL.HEAD

2.Manufacturing Process

● METAL Transfer

We can mass produce cylinder head gasket and etc. by line of automated transfer machine, and it is produced using the good quality and high reliability.

● SEMI-METAL Automation

Can mass-produce standardized product by introduce of flow production system and can correspond as elastic in customer's requirement.

● B/K Automation Line

Steelbestos.(NA, graphite) Head gasket blanking unmanned facilities are safe and you can check the quality of the product to facilitate mass production, and a high confidence rate.

● Rubber Injection

It that is used by various purpose being producing directly is doing best for product production that have quality of customer satisfaction and good quality by large size equipment use.
