

***ABRASIVE
SOLUTIONS***

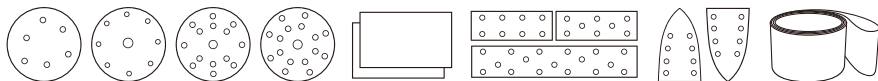

INTRODUCTION

Dongguan Yongsheng Burnish Co. Ltd, a one-stop abrasive materials manufacturer, established in 1998, catering to a wide range of industries, such as automobile, consumer electronics, manicure tools, furniture, paint, metal, leather, and musical instruments. Occupying an area of over 10,000 square meters, our state-of-the-art facility is equipped with over 40 advanced production equipment, including cutting-edge laser machines, enabling us to produce high-precision hole designs on products.

Our mission is to understand the grinding requirements of our clients and deliver professional solutions, along with exceptional after-sales support. Our brand, "  **OSLONG** " is a market leader offering top-quality abrasive sanding products that enjoy popularity across the United States, Europe, Asia, and Australia.

We are 100% committed to quality control, with more than 5 quality inspection processes in place. This dedication ensures the superior quality of Oslong products. We pride ourselves on offering customization options tailored to our clients' needs, aligning with their brand identity and target markets. Our specialized customization service takes into account client specifications while maintaining strict confidentiality for OEM customers.

Net & Paper & Film

Net Series	05
Ceramic Paper	09

Oplex Sponge Disc	21

Sponge & EVA

Soft Film Sponge Discs	23
Obric Sponge Discs	25
Soft Flex Rolls	26
Sponge Flex Pads	27
Sanding Pads	28

Sanding Belts & Sanding Rolls

Sanding Belts	30
Sanding Rolls	32
Sponge Masking Tape	33

Net & Paper & Film

Net Series

X378

Premium net abrasives

Technical Specs :

Abrasive:	Ceramic + Aluminum Oxide
Backing:	PE Net
Coat:	Open Coat
Grit:	P80 - P600

Features :

- Dust-free sanding allows a clean working environment
- Excellent durability and high efficiency
- Extremely fast cutting and consistent finish
- Anti-clogging & long lasting
- Excellent for dry grinding environments

Net Series

X368

Premium net abrasives

Technical Specs :

Grain:	Aluminum Oxide
Backing:	PE Net
Coat:	Open Coat
Grit:	P80 - P600

Features :

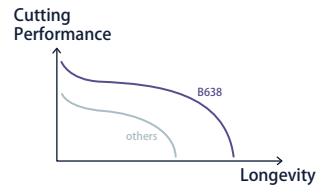

- Dust-free sanding allows a clean working environment
- Excellent cutting performance and durability
- Great surface finish and less shelling
- Anti-clogging & long lasting
- Excellent for dry grinding environments

Ceramic Series

Ceramic Paper

B638

Technical Specs :

Grain:	Ceramic + Aluminum Oxide
Backing:	Latex Paper
Coat:	Open Coat
Grit:	P40 - P800

Features :

- Exceptionally rapid cutting and consistent finish
- Stay sharp and keep an extra-long life
- Deliver outstanding performance with less pressure
- Excellent durability and high efficiency
- Reduce overall process time
- Suitable for both wet and dry sanding

Green Film

L338

Technical Specs :

Grain: Aluminum Oxide + Zirconia
Backing: PET Film
Coat: Open Coat
Grit: P40 - P3000

Features :

- Achieve swift and precise cutting performance
- Create excellent surface finishing
- Great for edges, corners, and irregular shapes sanding
- Long lasting with excellent durability
- Reduce overall work time
- Suitable for both wet and dry sanding

Fast cut
Sharp grain

L336

Technical Specs :

Grain: Aluminum Oxide + Zirconia
Backing: PET Film
Coat: Open Coat
Grit: P40 - P2000

Features :

- Achieve a uniformly smooth and flawless surface
- Create even and perfect surface
- Fine finish and less shelling
- Great for edges, corners, and irregular shapes sanding
- Long lasting and efficient
- Suitable for both wet and dry sanding

Smooth cut
Fine finish

Gold Paper

B338

Technical Specs :

Grain: Aluminum Oxide + Zirconia
Backing: Latex Paper
Coat: Open Coat
Grit: P40 - P800

Features :

- Achieve swift and precise cutting performance
- Great cutting performance without clogging
- Create excellent surface finishing
- Long lasting and cost effective
- Excellent for dry grinding environments

Fast cut
Sharp grain

B336

Technical Specs :

Grain: Aluminum Oxide
Backing: Latex Paper
Coat: Open Coat
Grit: P40 - P1000

Features :

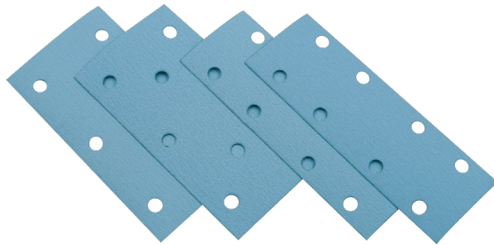

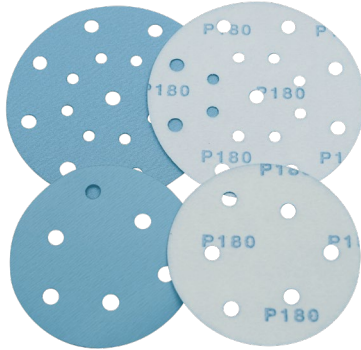

- Create fine and smooth surface
- Uniform finish and less shelling
- Anti-clogging and reduce dust problem
- Long lasting and affordable
- Excellent for dry grinding environments

Smooth cut
Fine finish

B312

Technical Specs :

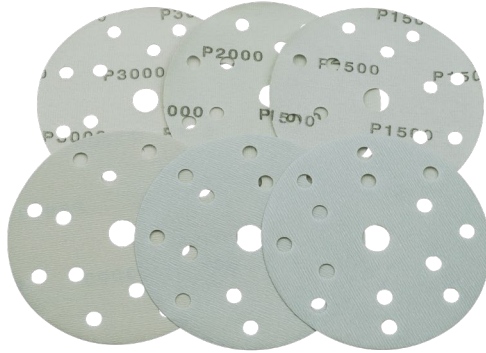

Grain:	Aluminum Oxide
Backing:	Latex Paper
Coat:	Open Coat
Grit:	P80 - P800
Application:	Wood, Automobile, Putty, Aluminum, Metal, Paint

Features :

- Ideal for automobile and wood sanding
- Creates an even surface with minimum scratch
- Excellent grinding performance
- Long lasting and affordable
- Excellent for dry grinding environments

F528

Ultra-flexible

Work with a special designed
interface pad

Technical Specs :

Grain:	Aluminum Oxide Silicon Carbide
Backing:	Flexible TPU Film
Coat:	Open Coat
Grit:	AO - P320, P400, P600, P800, P1000, P1200 SC - P1500, P2000, P3000

Features :

- Super fine surface & extremely flexible
- Delicate handling prevents excessive sanding
- Buff out easily and quickly
- Anti-clogging & uniform finish
- Fast cut & long lasting

Sanding Paper

B318T

Technical Specs :

Grain: Aluminum Oxide
Backing: 115g Latex Paper
Coat: Open Coat
Grit: P60 - P800
Application: Wood, Aluminium, Metal,
Paint, Automotive, Putty

Features :

- Stearate offers efficient protection against early clogging. It features both Hook & Loop and PSA options for convenient use.

White

B319T

Technical Specs :

Grain: Aluminum Oxide
Backing: 115g Latex Paper
Coat: Open Coat
Grit: P60 - P1200
Application: Wood, Aluminium, Metal,
Paint, Automotive, Putty

Features :

- Delivers outstanding performance on synthetic materials and softwood. Versatile application for automotive, metal, wood, and more.

Brown

Zebra

B317

Technical Specs :

Grain: Aluminum Oxide
Backing: Latex Paper
Coat: Open Coat
Grit: P80 - P400
Application: Nail file, Manicure & Pedicure Tool, Wood

Features :

- Ideal for manicure & pedicure or wood
- Durable, affordable and long lasting
- Suitable for both wet and dry sanding

White

B328

Technical Specs :

Grain: White Fused Aluminum Oxide
Backing: Latex Paper
Coat: Open Coat
Grit: P80 - P320
Application: Nail file, Manicure & Pedicure Tool

Features :

- Ideal for manicure & pedicure
- Fine finish and long lasting
- No color residue
- Offers the flexibility to print a wide range of colors and patterns
- Suitable for both wet and dry sanding

Sanding Sheets

Black

B320

Technical Specs :

Grain: Silicon Carbide
Backing: 110g & 130g Latex Paper
Grit: P60 - P3000
Size: 230mm*280mm
Application: Automotive, Wood, Paint, Metal, Electronics

Features :

- Specially treated waterproof paper
- Ultra flexible backing resists cracking, tearing and wrinkles
- Consistence of scratch pattern
- Suitable for both wet and dry sanding

Red

B330

Technical Specs :

Grain: Aluminum Oxide
Backing: 110g & 130g Latex Paper
Grit: P60 - P2000
Size: 230mm*280mm
Application: Furniture, Wood, Paint, Plastics, Automotive, Electronics

Features :

- Flexible paper backing
- Water-based, non-loading stearate resists loading
- Cost effective and long lasting
- Suitable for both wet and dry sanding

3D Structure

L938

Technical Specs :

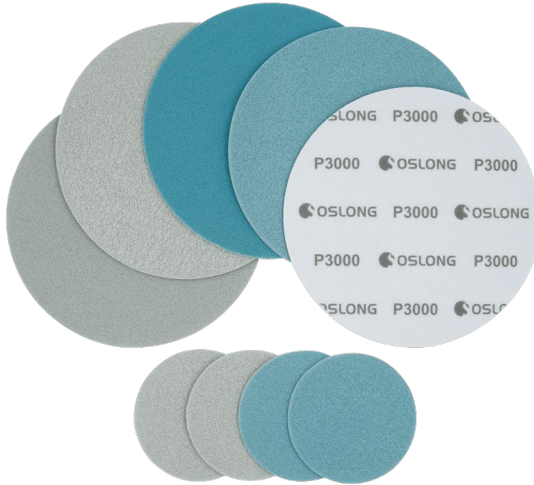

Grain:	Silicon Carbide
Backing:	PE Film
Coat:	Open Coat
Grit:	A3 (P4000), A5 (P3000), A7 (P2500)

Features :

- Ideal for the defect repair process for automotive finishes
- Superior cutting speed and extended lifespan
- Consistent performance and quality
- Minimum sanding scratches
- Suitable for both wet and dry sanding

SF738

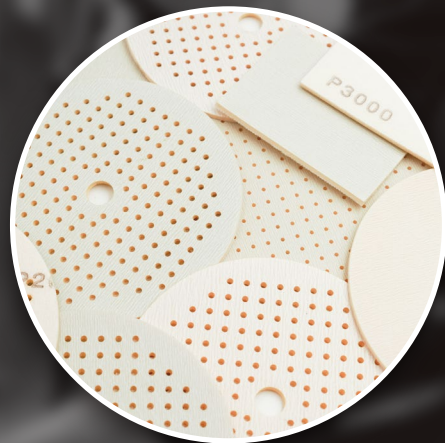

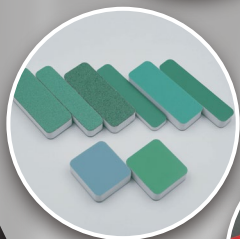

Technical Specs :

Grain:	Silicon Carbide
Backing:	Sponge
Coat:	Open Coat
Grit:	P1000, P2000, P3000, P5000

Features :

- Ideal for refining sand scratches
- Rapid cutting process & uniform finishing result
- Stay sharp and reduce material cost
- Reduce overall process time
- Suitable for both wet and dry sanding

Sponge & EVA

SF538

Work directly as sponge has
adhered to the sandpaper

Technical Specs :

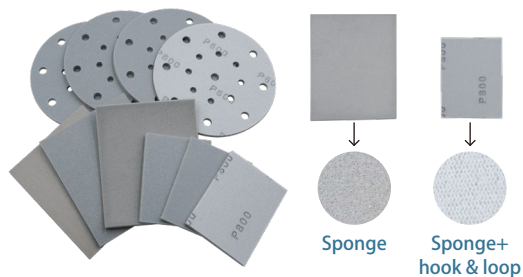

Grain:	Aluminum Oxide Silicon Carbide
Backing:	TPU Film + Sponge
Coat:	Open Coat
Grit:	AO - P320, P400, P600, P800, P1000, P1200 SC - P1500, P2000, P3000

Features :

- Ideal for buffing contoured components during automotive repairs
- Delicate handling prevents excessive sanding
- Soft touch prevents over-sanding
- Enhanced efficiency and cost-effectiveness as sponge is adhered to the sandpaper
- Anti-clogging & uniform finish
- Fast cut & long lasting

SF530

Technical Specs :

Abrasive: Aluminum Oxide
Backing: TPU Film
Coat: Open Coat
Grit: P80 - P2000

Features :

- Prevents deep scratches through high flexibility
- Excellent sanding and cutting performance
- Provides a better surface finish than that produced by PET products
- Ideal for sanding all shapes and corners evenly without damaging the surface
- Suitable for both wet and dry sanding

SF520

Technical Specs :

Abrasive: Aluminum Oxide
Backing: TPU Film
Coat: Open Coat
Grit: P220, P280, P320, P400, P600, P800

Features :

- Ideal for consumer electronic products
- Helps avoid deep scratches and excessive sanding
- Great cutting performance and uniform finish
- Suitable for both wet and dry sanding

SF838

Technical Specs :

Grain:	Silicon Carbide
Backing:	Fabric on Sponge
Coat:	Open Coat
Grit:	P360, P500, P1000, P2000 P3000, P4000

Features :

- Create smooth sanding pattern without deep scratch
- Deliver uniform surface pressure
- Excellent for contour or curved sanding
- The flexible fabric sanding surface brings a cleaner sanding process
- Good for wet sanding

SF338

Available materials for Soft Flex Rolls :
B317/B318T/B319T/B336/B338

Technical Specs :

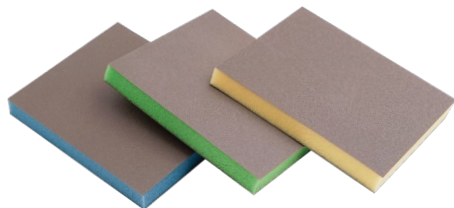

Grain:	Aluminum Oxide
Backing:	Latex Paper + Sponge
Coat:	Open Coat
Grit:	P40 - P800

Features :

- Soft Flex Roll pre-cut sheets, conveniently packaged in a roll form, are ideal for fine sanding on round edges, contours, and curves, providing an outstanding finish on primers and top coats.

SF502

Technical Specs :

Grain: Aluminum Oxide
Backing: TPU Film + Sponge
Size: 120*100*12mm
Grit: P180, P220, P280

Features :

- Highly flexible due to the stretchy film and soft sponge
- Good for hand sanding on hard-to-reach areas and round shapes
- Consistent surface finishes even on curved parts
- Uniform scratch patterns owing to steady grinding performance

SF504

Technical Specs :

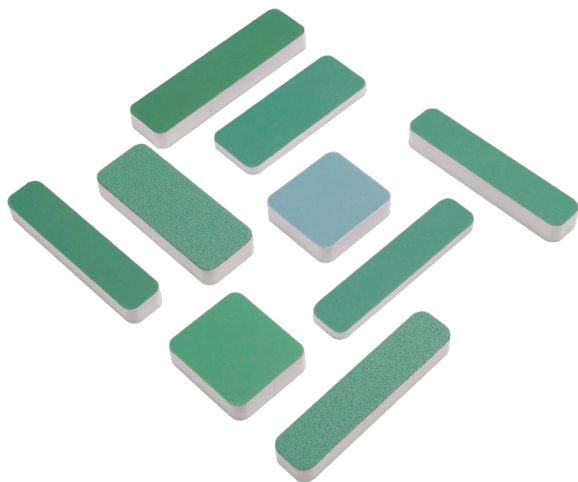

Grain: Aluminum Oxide
Backing: TPU Film + Sponge
Size: 100*70*25mm
Grit: P36 - P320

Features :

- Highly flexible due to the stretchy film and soft sponge
- Good for hand sanding on hard-to-reach areas and round shapes
- Consistent surface finishes even on curved parts
- Uniform scratch patterns owing to steady grinding performance

E338

Technical Specs :

Grain:	Aluminum Oxide + Zirconia
Backing:	EVA
Coat:	Open Coat
Grit:	P40 - P3000
Size:	Custom Size
Application:	Automobile, Jewelry, Putty, Electronics, Models

Features :

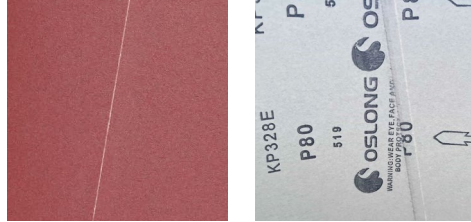

- Excellent for defect removal (Spot).
- Great for sanding projects of models, small parts and toys
- Suitable for both wet and dry sanding

Sanding Belts & Sanding Rolls

KP328E

Technical Specs :

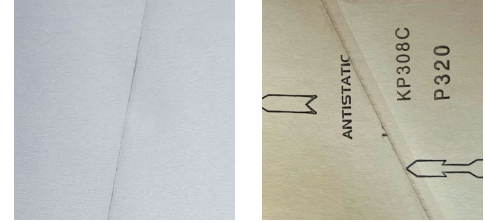

Grain: Aluminum Oxide
Backing: 250 E Grade Kraft Paper
Grit: P40 - P1000
Application: Furniture, Wood, Leather, Textile, Metal, Stone

Features :

- E Grade paper offers enhanced performance and improved durability, making it an ideal choice for furniture and solid wood surfaces.

KP308C

Technical Specs :

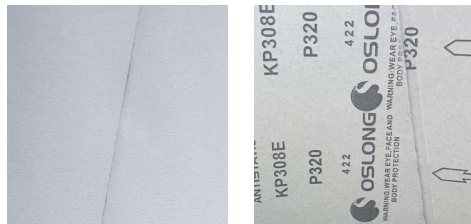

Grain: Silicon Carbide
Backing: 150g Latex Paper
Coat: Open Coat
Grit: P120 - P800
Application: Furniture, Paint, Musical Instrument, Flooring, Leather

Features :

- It excels on lacquered surfaces and musical instruments, with stearate preventing early clogging. Typically, it's accompanied by slim sanding belts.

KP308E

Technical Specs :

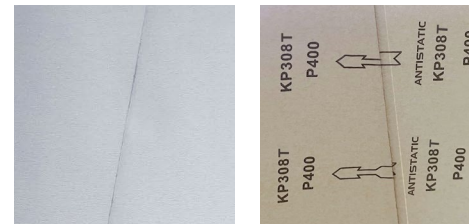

Grain: Silicon Carbide
Backing: 250g Kraft Paper
Coat: Open Coat
Grit: P180 - P1000
Application: Furniture, Paint, Musical Instrument, Flooring, Leather

Features :

- It performs exceptionally on lacquered surfaces and furniture, with stearate guarding against early clogging. It often features wide to medium sanding belts.

KP308T

Technical Specs :

Grain: Silicon Carbide
Backing: 180g Kraft Paper
Coat: Open Coat
Grit: P180 - P1000
Application: Furniture, Paint, Musical Instrument, Flooring, Leather

Features :

- It performs exceptionally on lacquered surfaces and furniture, with stearate guarding against early clogging. It often features wide to medium sanding belts.

SMT13

Technical Specs :

Size: 13mm*50m

Features :

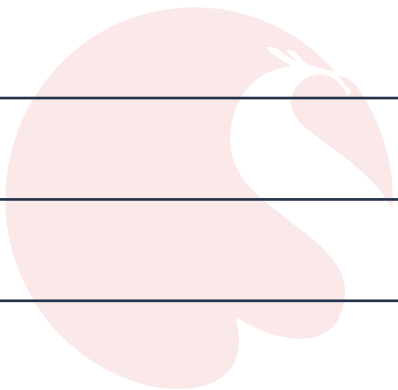

- Circular foam tape used to mask panel joints prior to primer application
- Safeguard jambs from overspray
- Panel edges remain free of primer accumulation
- Prevent odors of the primer from getting into the car
- Easy to remove, no glue residue
- Cut down total processing duration
