Features and Performance

Double motors drive each side design: Unique design of double motor drive each side to keep enough power for E-board working, completely avoid the unilateral sag. Upgraded motor adapt the imported material and add the over-heat protector; the outer cover structure, material and processes are fully optimized, the intensity of motor outer cover is increased 1 times, much stronger output power, lower current, more reliability; add the tensional assist system can offset the board self weight, make the board work much more smooth and stable. Moreover, the upgraded motor can work normally from -40°C to over 80°C .

Features and Performance

Safety Intelligent

Control System design, the E-Board can stop automatically when have obstacles.

Load sensitivity, block sensitivity, anti-skid and anti-theft.

International Patents (six-bar linkage), ten international and domestic patents, unique six-bar linkage can achieve optimized trajectory control, much more reliable, completely avoid the board cannot retract. Small size, low noise.

Improved Control System, adapt the imported and military component, make E-board work much more smooth and stable.

Durability, passed 100000 times loading testing.

Certified by TS16949, automotive industry production and service management system certification

2 years or 50000km warranty

Suitable Individuation design makes the vehicle appearance perfect. It is a perfect integration of international design and practicability is a model of ergonomics.
