

COMPANY PROFILE

15+

More than 15 years of much experience in the field of high pressure common rail fuel injection system

20+

6 invention patents and more than 20 utility model patents for high pressure common rail fuel injection system

600K pcs

Annual production capacity of common rail injectors reaches 600,000 pieces

Beijing Top Diesel Parts Co., Ltd. is a high-tech company with core independent intellectual property rights, and also foreign trade enterprise. It is committed to research and development, production and sales of high quality diesel engine core components. Our factory is located in Changsha, Hunan Province, "the capital of China's construction machinery" with industry-leading automatic assembly lines and various advanced production and inspection equipments, with an annual output of 600,000 pcs diesel high-pressure common rail injectors and 300,000 pcs valve sets.

The company team has been deeply engaged in the field of high pressure common rail fuel injection system for more than 15 years, and has obtained 6 invention patents and more than 20 utility model patents in this field. Through the implementation of LP lean production and TQM total quality management, the company achieves excellent product quality. At present, the company has passed ISO9001 quality management system certification, and is membership of China automobile industry association and American APRA association.

Our main products are diesel high-pressure common rail injectors and spare parts such as valve caps, valve sets, nozzles, etc. Our parts could meet diversified requirements from domestic and foreign cars, commercial vehicles including trucks and trailers, engineering machineries, agricultural machineries, etc.
