# 2024 Company Profile

Singform Enterprise Co., Ltd.

**Products introduction** 

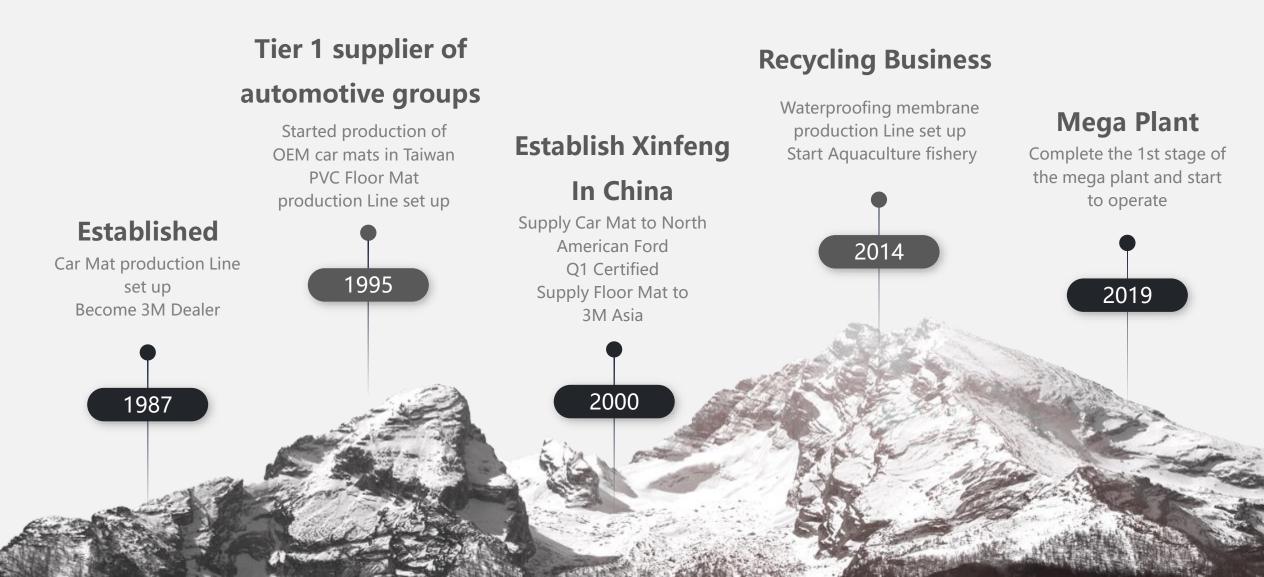

# **PART ONE** DART **Company & Team**

Singform Enterprise Co., Ltd. has always been committed to the research and development of innovative, quality control, and environmentally friendly products. At the same time, it also minimizes the impact on the environment during the production process and uses more recyclable raw materials. Our products are used in factories, homes, restaurants, and businesses...etc. To make your life simpler, more comfortable, clean, and convenient.

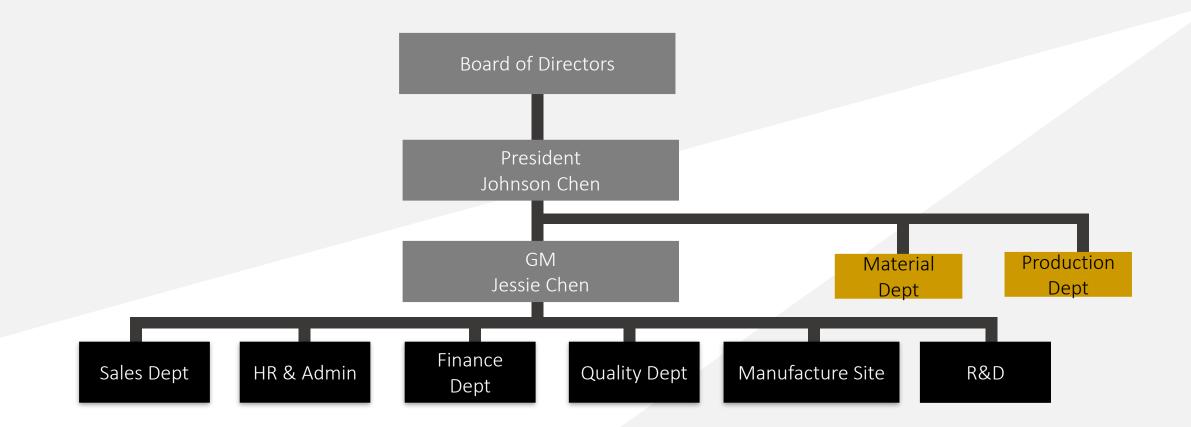

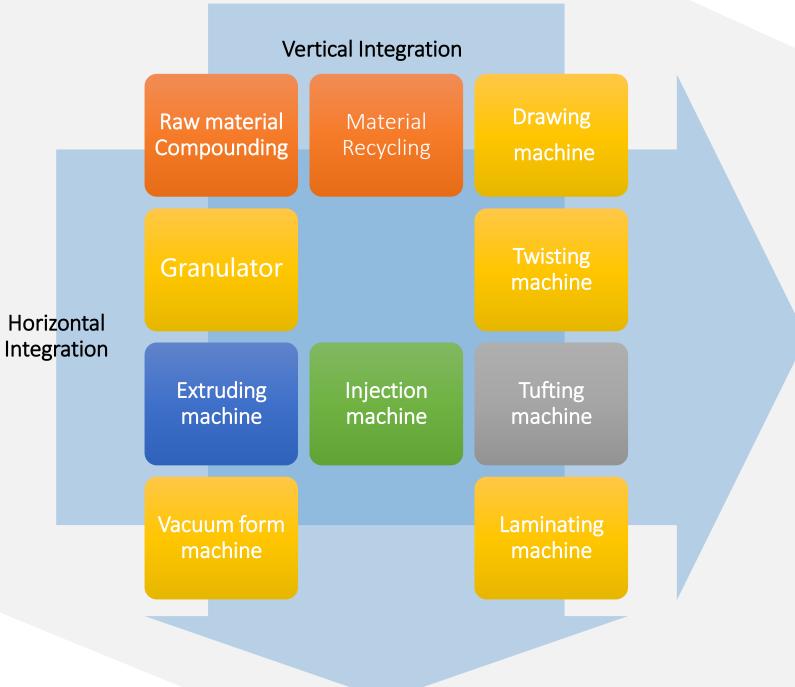

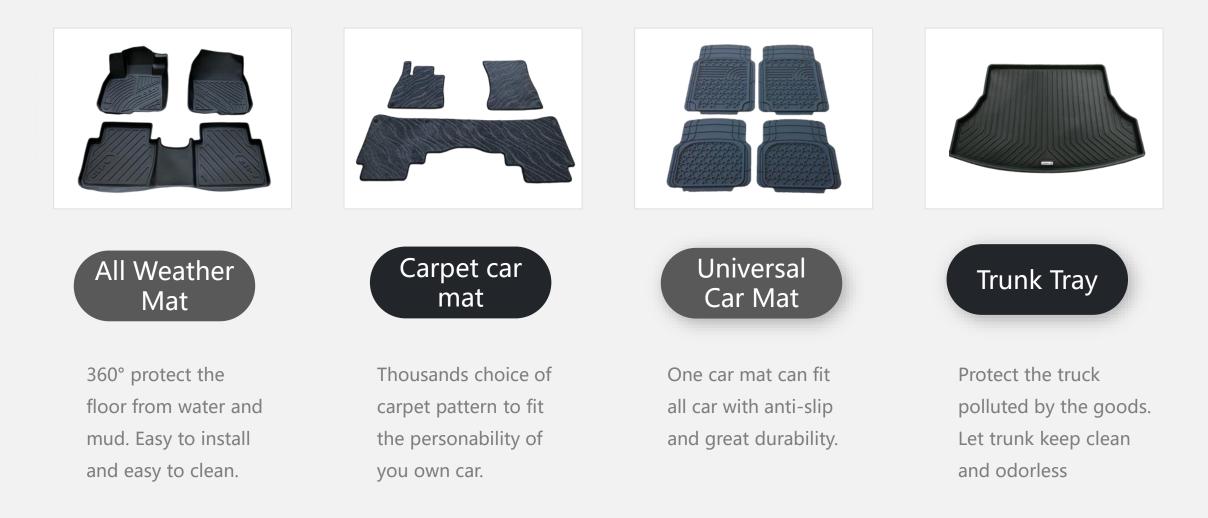

### PART TWO Products & Service

PART

### **Description and Features**

With 30 years of professional experience, Singform provides this All-weather mat by applying vacuum-formed. Its high-side three-dimensional design can prevent liquid from leaking into the car, and its Wear-resistant, non-slip, lightweight, easy to install.

#### TPE Material ECO Friendly

Weather resistance, High strength, high resilience. Recyclable

#### 3D laser scanning Technology

Tailored to the model, absolutely tight No sliding space

### Waterproof

Protect the pedal area from water and mud, easy clean and install.

### All Weather Mat

Product details

### 2021 Nissan Tiida

ltem	Details
Material	TPE
Thickness	2 mm
Weight	7.8 lbs
Packing	1 carton per set
Packing size	28 x 24 x 7 inch
MOQ	100 set per Model
HTS Code	3926.90

### **Carpet Diversity**

Thousands of choices to match the car mat with the vehicles

### **PVC Nail Backing**

Nail backing design allows the car mat to bit the floor to ensure safety.

### Improve air condition

Carpet surface absorb the dirt and aerosol in the air to clean the driving environment

### **Description and Features**

Carpet car mats are the most widely used as the standard car mat. Singfrom has provided carpet car mats to automotive companies for 30 years. The carpet surface and PVC nail backing bottom design perform the best balance for luxury and safety

### Carpet Car Mat Product details

### 2017 M.Benz S Class

_	
ltem	Details
Material	PET or PP or Nylon Carpet / PVC backing
Thickness	0.8-1.5 mm
Weight	13 lbs
Packing	Color card & PE bag & hanger for each full set, 5sets in one carton
Packing size	30 x 19 x 2 inch
MOQ	100 set per Model
HTS Code	5703.30

### Universal Car Mat

Product Introduction

### **Description and Features**

Universal car mats are designed for the customers to trim the shape to fit the vehicle' s floor. No matter which car do you own, Universal car mat is the answer you never wrong. It is so easy to clean and wear-resistant. You never have to worry about overturning liquid on the car.

### **DIY Fitting**

One car mat for all. Made to be Trimmable to Fit your Vehicle's Floor.

#### Protection

We choose the most durable material to ensure car mats can protect the floor in any extremely condition

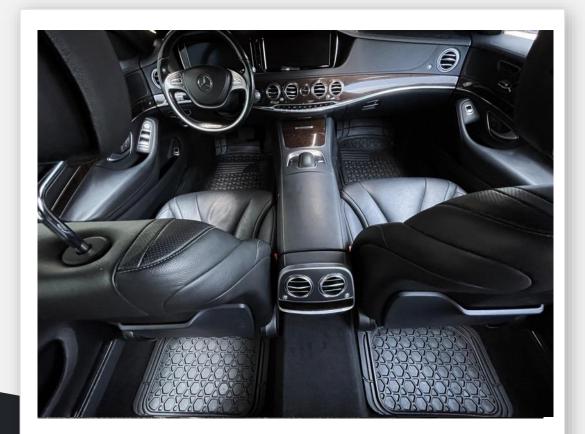

### Waterproof

Protect the pedal area from water and mud, easy clean and install.

### All Weather Mat

Product details

### 2017 M.Benz S Class

ltem	Details
Material	PVC
Thickness	2 mm
Weight	11.78 lbs
Packing	1 set with hanger and header card 5 sets a carton
Packing size	30 x 19 x 2 inch
MOQ	100 set
HTS Code	3918.10

### **Description and Features**

Trunk mats are not only waterproof, wear-resistant, and easy to clean, but also effectively prevent liquid, mud, sand, and oil stains from polluting the carpet surface of the car body. According to the needs of the vehicle user, we can provide a variety of material choices (TPO, TPE, PE, etc.)

#### **ALL WEATHER**

Weather resistance, and waterproof. The High-Side edge prevents the trunk from the water, snow, mud, and dirt

#### EASY TO SET UP & CLEAN UP

High closeness avoids the gap between the wall and trunk mat. Easy to install and washable

#### **Eco-Friendly**

Trunk tray made by Non-toxic odorless TPO which is green and recyclable.

### All Weather Mat

Product details

### 2021 Nissan Tiida

ltem	Details
Material	TPO
Thickness	2 mm
Weight	6.35 lbs
Packing	5 pieces per carton
Packing size	55 x 27.5 x 5.9 inch
MOQ	100 piece per Model
HTS Code	3926.90

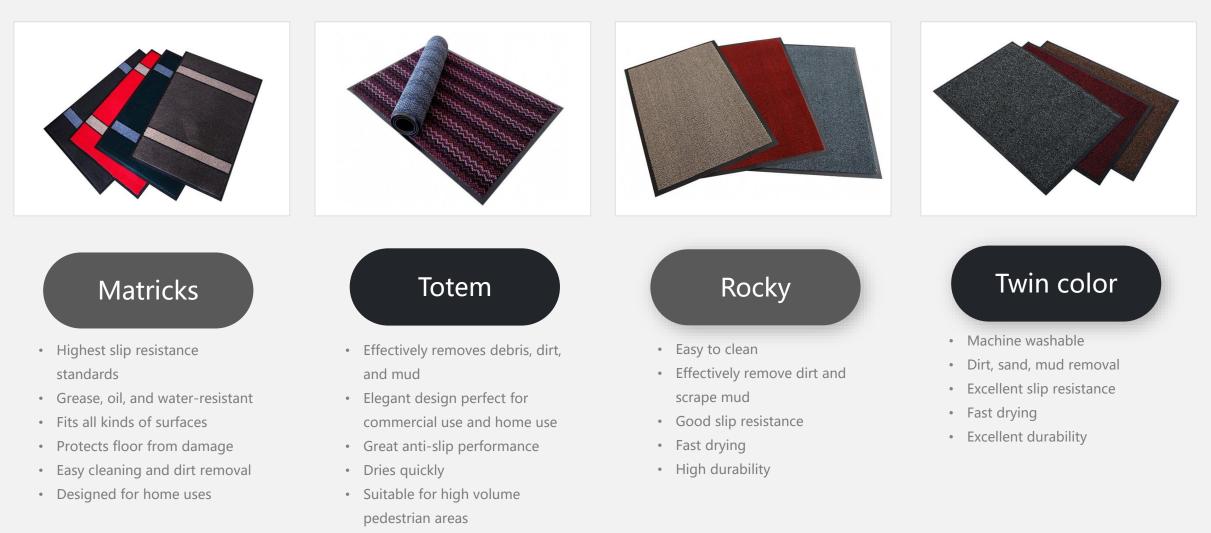

Carbon Fiber Car Mat

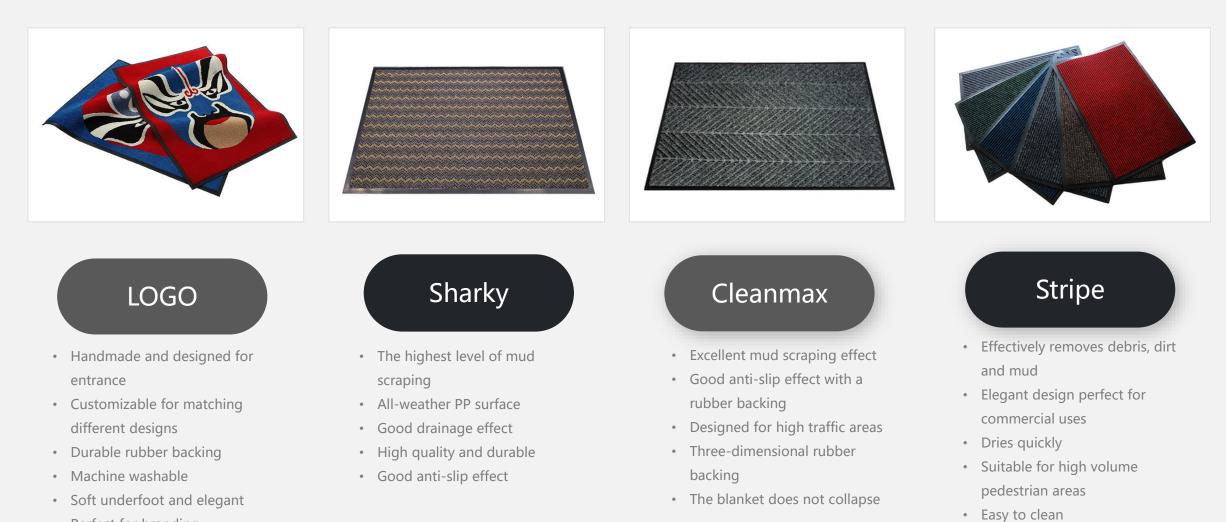

Pet Mat

**Product Introduction** 

• Easy to clean

**Product Introduction** 

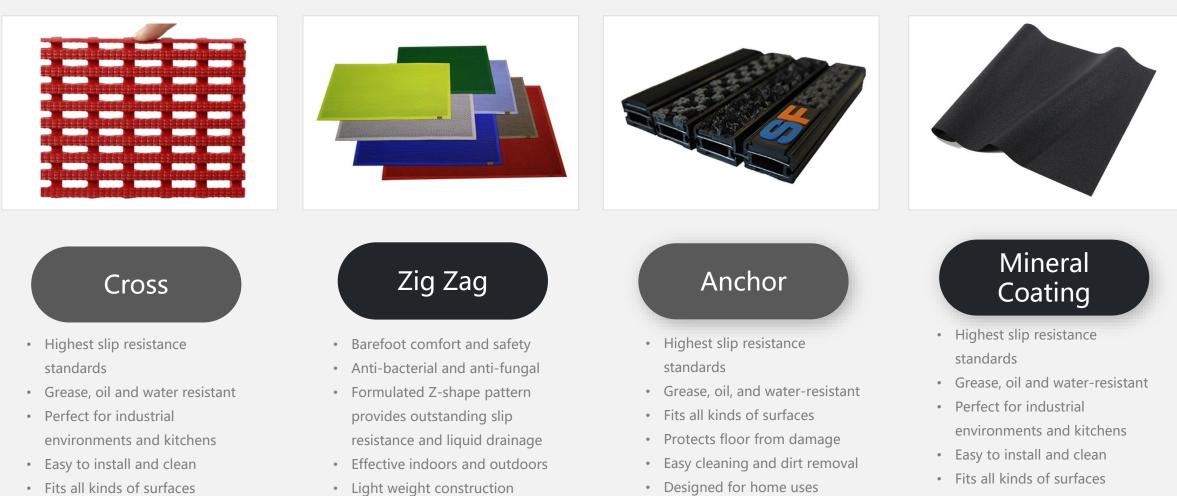

• Perfect for branding

**Product Introduction** 

**Product Introduction** 

• Low profile to reduce tripping

• Low profile to reduce tripping

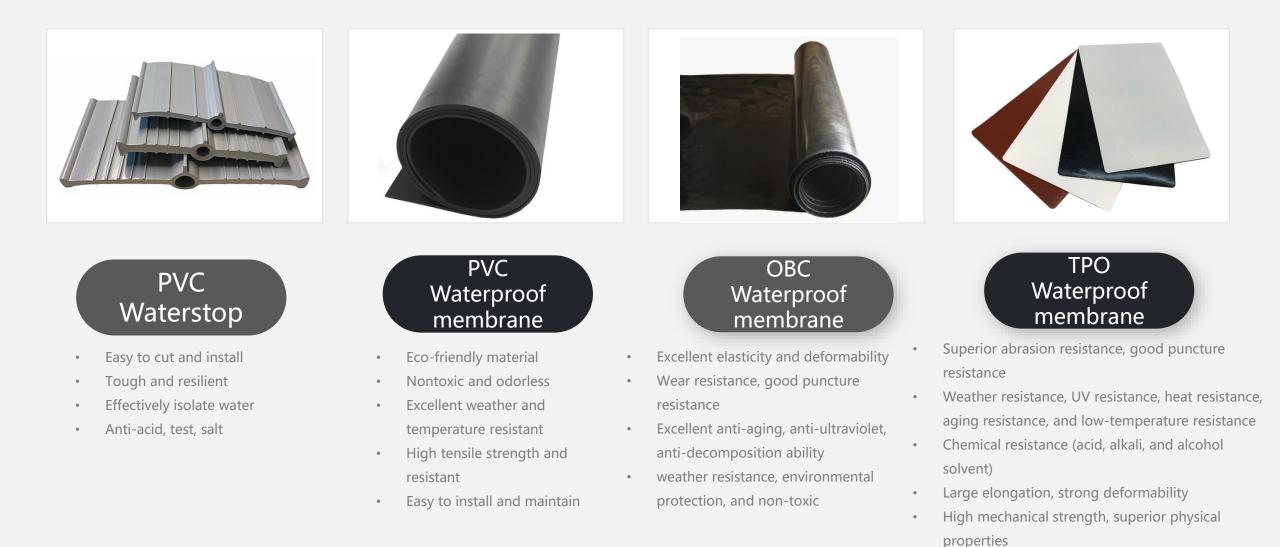

### New Floor mat / Door mat Product **Product Introduction** Dance Premium Mat Flooring Multiple Purpose • Different types of top carpets are interchangeable for various applications • Effectively absorb petroleum-based liquids with oil absorbing fabric liner • Perfect for industrial environments, commercial applications and kitchens

**Floor Protect** 

- Easy to install and clean
- Fits all kinds of surfaces
- Low profile to reduce tripping

### **Waterproof Building Materials**

**Product Introduction** 

#### No plasticizer ingredients

#### **Easy to construct**

Easy construction and easy cutting

### **Physical property**

Tough and elastic, effectively isolate water source, resist acid, alkali, salt

### QC

Strictly inspected and conform to Taiwan standards

### Description

PIt is a waterproof building material formed of polyvinyl chloride (PVC) material, which is convenient for construction and cutting. It is also not corroded and corroded by acid, alkali, salt and other factors.

**Practical use in bridge engineering** 

ltems	Specification
Material	PVC
Model	A1、A2、A3、B1、B2、E1、E2 (More models are under development)
Weight	Design by model
Package	20-30 M PER ROLL
Standard	CNS、ASTM

## PVC Waterproof Membrane

### **Description**

PVC waterproof membrane is made of thermoplastic polyvinyl chloride (PVC, polyvinyl chloride) by machine pressing into membrane, which has good weather resistance and aging resistance, as well as excellent toughness, anti-perforation and high temperature resistance. Using the hot-melt properties of PVC to achieve quick installation, easy maintenance and partial repair, PVC waterproof membrane is a commonly used material for moisture-proof and waterproof projects.

#### **Easy to construct**

Simple construction, can be repaired locally

### **Physical property**

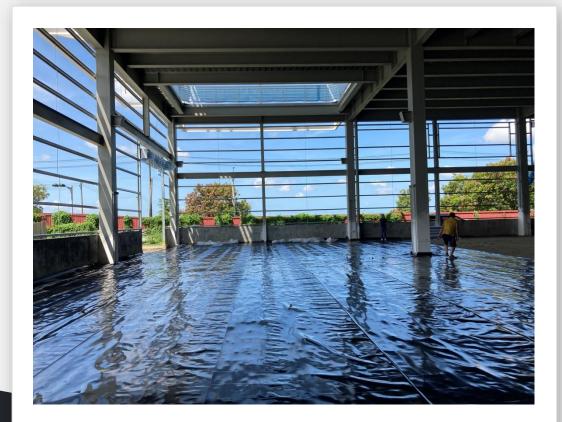

Excellent weather resistance and tensile strength

QC

Strictly inspected and conform to Taiwan standards

# PVC Waterproof Membrane

**Factory foundation moisture proof** 

ltems	Specification
Material	PVC
Thickness	1.0 – 2.0 mm
Width	2.0 M
Length	15 – 25 M
Model	Single layer, double layer, composite material
Color	black/grey
Standard	CNS10145、DIN

### **OBC Waterproof Membrane**

Product Introduction

#### **Easy to construct**

Simple construction, can be repaired locally

### **Physical property**

Excellent weatherability and tensile strength. Non-toxic, odorless, recyclable

### QC

Strictly inspected and conform to Taiwan standards

### Description

Excellent anti-seepage, anti-corrosion performance, good chemical stability. Customized according to actual engineering needs

Application: Reservoir, underground water conservancy project, big bottom moisture proof, wave protection, landfill, fish pond and shrimp pond

# OBC Waterproof Membrane Product Introduction

### **Ecological pool usage**

Items	Specification
Material	OBC
Thickness	1.0 – 1.5 mm
Width	2.0 M
Length	15 – 25 M
Model	Single layer, double layer, composite material
Color	black/grey
Standard	CNS10145

# **TPO Waterproof Membrane** Product Introduction

### **Description**

TPO waterproof membrane is a non-toxic, harmless and lightweight green material.

Application: Building anti-leakage engineering, sky garden, reservoir, rainwater recovery system, breeding pond

#### **Easy to construct**

Simple construction, can be repaired locally

### **Physical property**

Excellent weatherability and tensile strength, no plasticizers

### QC

Strictly inspected and conform to Taiwan standards

# **TPO Waterproof Membrane** Product Introduction

生態池使用

Items	Specification
Material	TPO
Thickness	1.5– 2.0 mm
Width	1.5 M
Length	20 –30M
Model	Single layer, double layer, composite material
Color	black/grey
Standard	CNS10145

Thank you Hope to have the opportunity to cooperate with you
