

DIAPABAZ

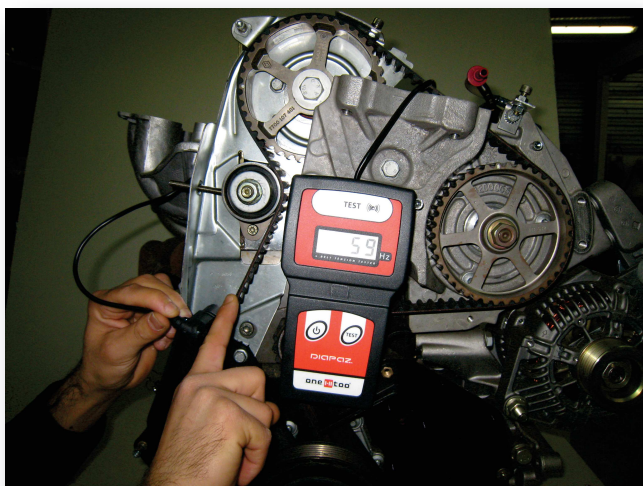

Tension measurement system for all industrial belts

Product advantages:

- * Multibrands tool : measurement range from 30 to 520 Hz
- * Free contact measurement
- * Measurement distance: 2 to 10 mm
- * Tension measurement < 30sec
- * Easy to use : only 2 buttons
- * Double microphone measurement head to filter ambient noises
- * Compact sensor making it possible to reach the most difficult of belts
- * No wear and tear, no maintenance
- * Autotest system integrated in the tool

Example of use

Technical specifications :

Case	175 x 95 x 31 mm, 300 g, 50h of use
Sensor	60 x 21 x 17 mm
Display	LCD, resolution +/- 0.5 Hz
Accuracy	+/- 1% Hz from 0 to 100 Hz & 1% if > 100 Hz
Automatic stop	after 120 seconds

Power	Battery 9 V (included)
Other elements	Beep Acquisition Acknowledgment
Packaging	Compact case
Norm	CE, RoHS, REACH, DEEE
Guarantee	1 year

Option, values booklet Diapabaz in Hz (automobile sector)

Indicates the recommended setting of the belt tension
Multibrands
Includes tensioning methods
