### Advanced Testing Technology

- ✔ Tensile Strength Test
- ✔ Fatigue Test (Developed In-House)
- ✔ Rheometric Test
- ✔ Load and Force Test
- ✔ Crankshaft Pulley Fatigue Test

### Advanced and Innovative Engineering

- ✔ Computer Aided Design (CAD)
- ✔ Computer Aided Manufacturing (CAM)
- ✔ Electro Discharge Machining (EDM)
- ✔ CNC Machining
- ✔ Reverse Engineering
- ✔ Analysis & Simulation

### Fully Automatic Robotic Welding

### In - House Mold Productions

Taking advantage of technological innovations from the first step of production to the end user

### Fast Automatic Packaging

### Fast and Safe Shipment with Advanced Warehouse Automation

**Success is not accidental!**
