# Our SUSTAINABILITY

At Peruzzo our company ethos has always been to conduct our business to the best of our abilities and in the best ways possible. This includes evaluating the impact our business has at all levels, from the territory where our offices and factory are situated, the people we work with, our customers, staff, collaborators and suppliers. This work is not finished, we are even more aware today that we have more to do, always looking to improve our business in an ethical and sustainable manner.

Peruzzo is now focused on evaluating our business following modern ESG standards, these standards are divided into three macro sectors: The Environment, Social Responsibility, Ethical Governance.

Below we set out our mission, we invite you to scan the QR codes below to stay up-to-date as we progress with our work.
