## Europe Standard

# High Gloss Spray Paint

- Quick Drying
- Full Gloss
- Hard Wearing
- Low Smell
- Pleasant Flower Flavor
- Thicker & Safer Can
- Good Coverage
- Interior/Exterior

Indoor/outdoor, fast drying paint that is ideal for use on wood, metal, plastic around the house, home or work.

AEROPAK® Spray Paint is a high quality quick drying high gloss paint. It's ideal for odd jobs and touch ups around the house, office or work. It's perfect for indoor or outdoor use on metal, wood, fibreglass and most surfaces.

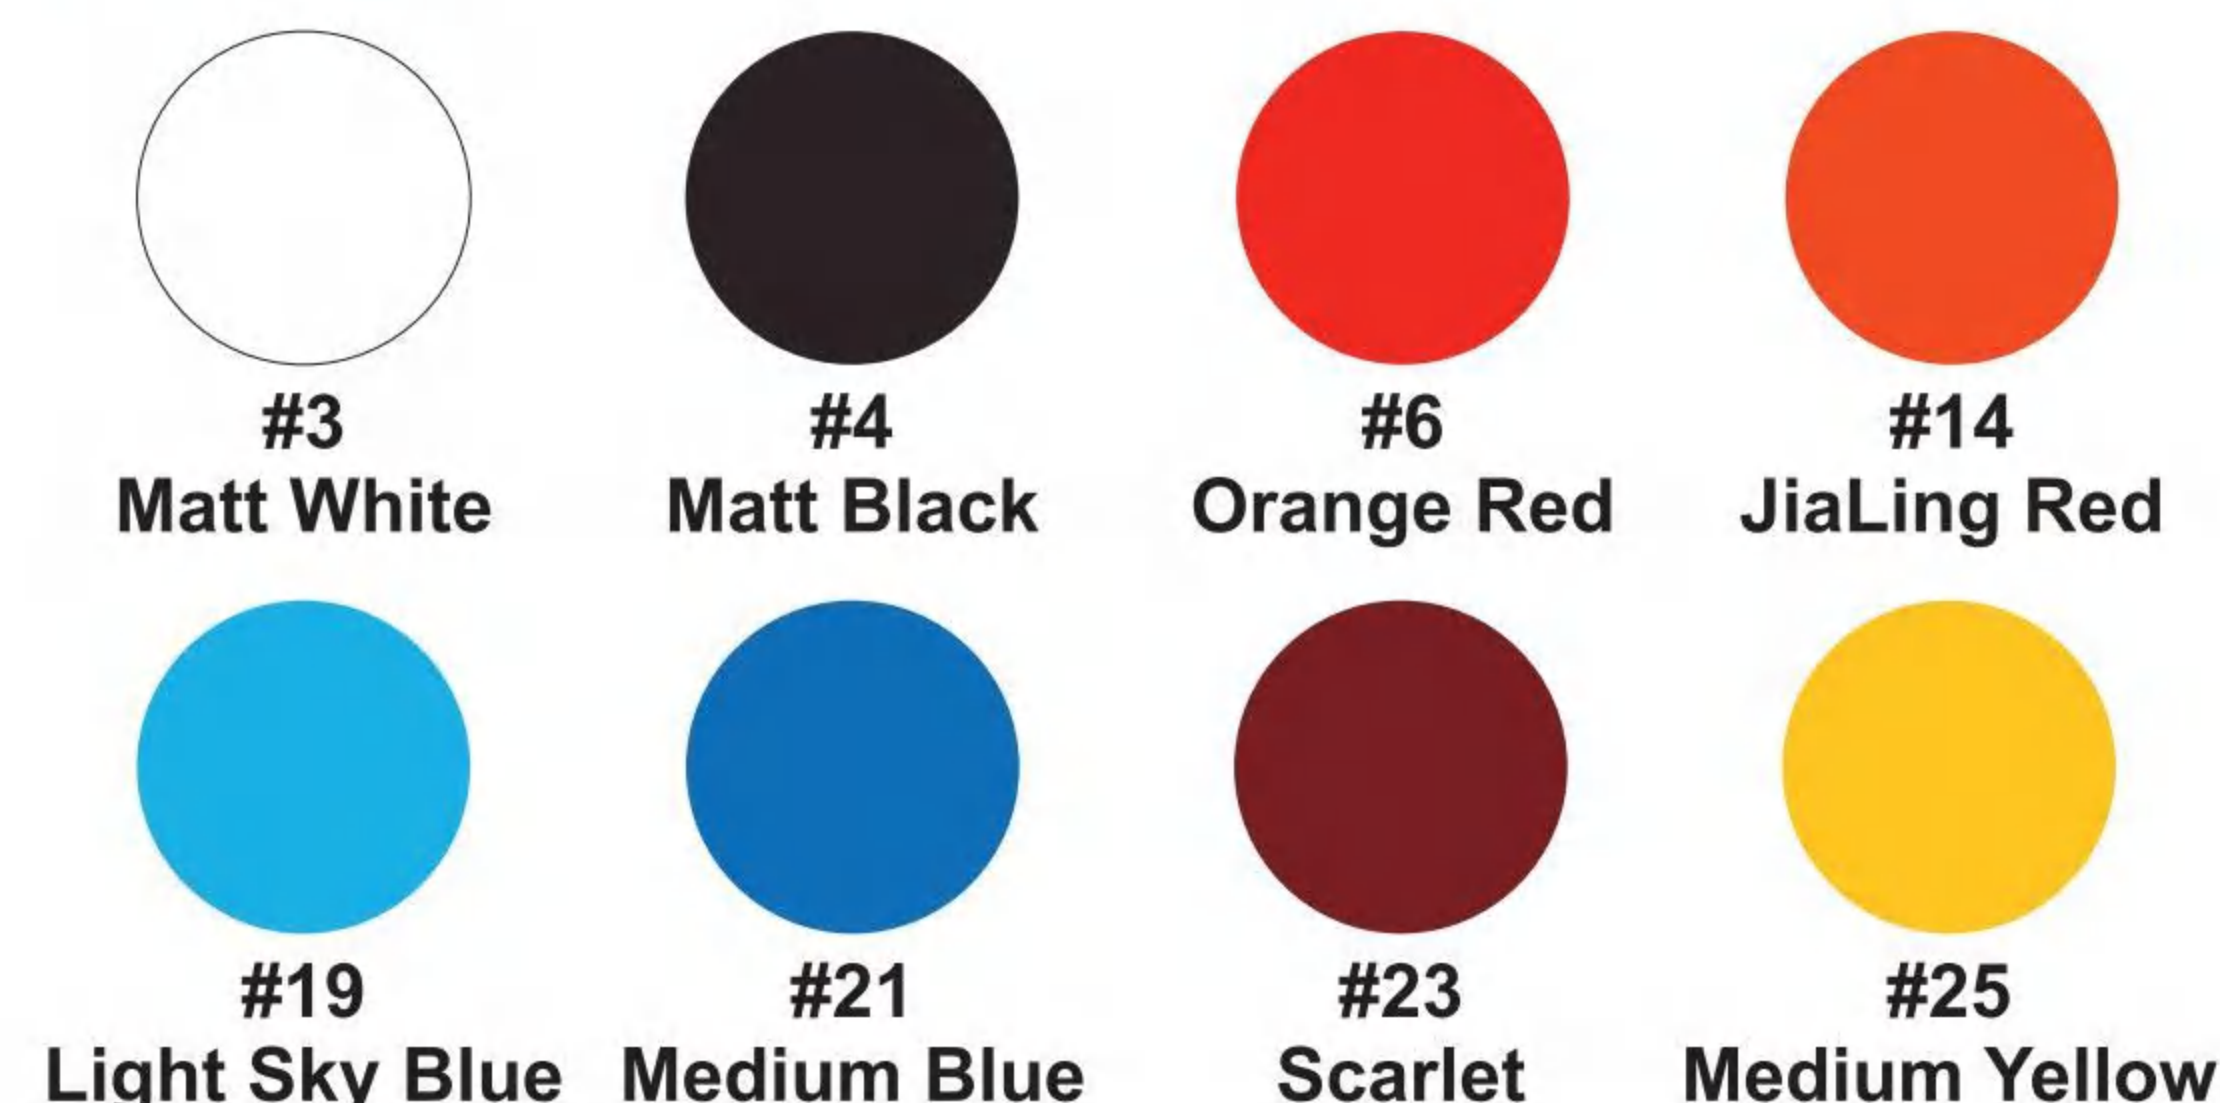

## ESPAÑOL

Este producto es hecho de resina acrilicatermoplástica con técnicas avanzadas americanas. Puede dar excelente resistencia al clima. Tiene características de buen nivel, alto cubrimiento, secado rápido, color firme y alto brillo, mayor flexibilidad, fuerte adhesividad, impacto duradero y combinar bien con muchos tipos de pintura. Puede ser ampliamente usado en superficies pulidas y reparación de metal, madera, vidrio, cuero, cerámica, plásticos y otros materiales.

## PREPARATION

For best results, clean surface of grease, wax, rust and dust. Scuff or lightly sand all glossy surfaces removing any bumps or flaking paint, then dust off. Prime raw timber or metal with AEROPAK® Etch Primer and allow to fully dry.

## Hot Colors

50+ Colors Available

Available in Gloss, Matt, Metallic, Chrome Effect, Gold Effect, Fluorescent, Hammer Finish and Heat Resistant Spray Paints.

# Brake & Parts Cleaner

- 360° Valve
- Benzene Free
- Non-chlorinated Formula
- DOT-2Q
- Acetone Free

AEROPAK® Brake & Parts Cleaner will safely, easily, and quickly removes the brake dust and metal powder from brakes, and restores capability to your brakes. AEROPAK® Brake Cleaner is ideal for the removal of brake fluid and oil from brake drums & rotors, linings, pads, cylinders & springs.

AEROPAK® Brake & Parts Cleaner is a non-chlorinated formula and benzene free that can safely be used on: Disc & Drum Brakes, ABS Brakes, Clutches, CV Joints, Wheel Bearings, Non Electrical Tools, Greasy & Oily Surfaces.

## ESPAÑOL

El Limpiador de Frenos de AEROPAK® es una mezcla de disolventes, que tiene una rápida acción de limpieza y secado, penetrando en todo el sistema de frenos,removiendo efectivamente y rápidamente líquido de frenos, asbesto, grasas, siliconas, aceites y residuos metalicos sobre sistemas de freno. Elimina la humedad, los chirridos y ruidos de los frenos y campana. Aumenta la eficiencia del sistema de frenos.

## APPLICATION

**IMPORTANT:** Shake the can before use.

**Keep cleaner away from painted or plastic surfaces.**

**Cleaning in place:** Remove the wheel, hold the can 15-30cm from brakes, spraying brake parts from top moving downward, washing dust, dirt and contaminates away.

**Workbench use:** Apply liberally to all parts and surfaces to be cleaned, allowing cleaner to wash all contaminates away. Stubborn areas may need a second application to ensure that contaminates fully have been removed.

## INSTRUCCIONES DE USO

Retire la llanta. Agite el envase antes de usar. Aplice con el envase en forma vertical con la válvula hacia arriba. Asegúrese de apuntar con la flecha del dosificador hacia la superficie a limpiar. Aplique en forma uniforme a unos 20 a 25 cm de distancia. Sature la superficie de arriba hacia abajo. Aplique el limpiador de frenos AEROPAK® en el disco y en las pastillas de los frenos en forma abundante, hasta que las impurezas empiecen a deslizarse. Limpie con un paño las sustancias que no alcanzaron a deslizarse. Se recomienda repetir la aplicación hasta que las superficies estén completamente limpias de polvo. Evite rociar en excesolas partes de plástico.

## Throttle Body, Carby & Choke Cleaner

- Fast Acting Formula
- Leaves No Residue
- Improved Performance & Economy

**Ideal for sticky choke & throttle valves, linkages, heat-riser valves and PCV and EGR valves.**

AEROPAK® Throttle Body, Carby & Choke Cleaner regular use will ensure smoother, trouble-free performance. AEROPAK® Throttle Body, Carby & Choke Cleaner will effectively remove grease, dirt, gum, varnish, build-up and carbon deposits, increasing combustion efficiency, saving fuel and reduce pollution.

### ESPAÑOL

El Limpiador de Carburador AEROPAK®, es una mezcla de dispersantes, detergentes y disolventes orgánicos, desarrollado para optimizar el funcionamiento del carburador. Es un producto muy efectivo para remover depósitos de gomas, lacas, resinas, parafina, aceite, sales metálicas, barnices, sedimentos y carbón, causados por la combustión de la gasolina; sin tener que desmontar ni desbaratar el carburador, dando un mejor arranque, mejor marcha en el vacío y mayor kilometraje por galón de gasolina. Especialmente formulado para limpiar efectivamente todos los componentes del carburador del automóvil.

### APPLICATION

**IMPORTANT:** Shake the can before use.

**Internal Cleaning:** Remove the air cleaner, start the engine, spray cleaner into air inlet (throttle valves, nozzles, flow meter plates, air inlet valve, etc) until all deposits are removed. You may need to increase the engine revs at the same time to prevent stalling. Replace the air cleaner unit after servicing.

**External Cleaning:** Turn off the engine. Spray on the outside parts of the carby, or throttle body, let penetrate for a few minutes, then dry with compressed air or clean cloth.

### INSTRUCCIONES DE USO

**Limpieza Interna:** ❶ Retire el limpiador de aire, arranque el motor, y el limpie aerosol en la entrada de aire (válvulas de mariposa, boquillas, placas de medidor de flujo, válvula de entrada de aire, etc) hasta que todos los depósitos se eliminan; ❷ Aumentar las revoluciones del motor al mismo tiempo para evitar el estancamiento; ❸ Reemplazar la unidad de limpieza de aire después del mantenimiento.

**Limpieza Externa:**

❶ Apaga el motor. Rociar en las partes exteriores de la carby, o cuerpo del acelerador, y dejar penetrar durante unos minutos; ❷ Seque con aire comprimido o con un paño limpio; ❸ Se recomienda realizar esta operación una vez al mes.

Box Size(mm)	275W*205D*255H
N.W. / Carton	6.12kg
G.W. / Carton	6.35kg
Shelf Life	3 years

## Engine Degreaser

- Engine Safe
- No Scrubbing
- Powerful & Effective
- Cleans Oil off Concrete

AEROPAK® Engine Degreaser quickly removes dirt, dust, road grime, grease, oil, tar, wax and bitumen deposits and is safe for use on all engine components.

AEROPAK® Engine Degreaser is a concentrated solvent based degreaser suitable for use on engines, tools, mechanical parts, and concrete without damage to rubber and plastic.

### ESPAÑOL

El desengrasante de motor AEROPAK® puede actuar efectivamente eliminando las grasas y demás partículas impregnadas en el motor de vehículos y maquinarias industriales sin ocasionar impacto ambiental. El desengrasante de motor es un limpiador a base disolvente de rápida evaporación. Limpia y desengrasa todo tipo de mecanismos y piezas, elimina grasa, aceite, lubricante, polvo, sedimentos, etc.

### APPLICATION

1. Leave engine idling about 5mins to warm grease & oil.
2. Shut down engine and remove the air filter, wrap or cover the carburetor and distributor using plastic or cloth.
3. Vigorously shake the can for a minute before use.
4. Spray to the surface of the engine with AEROPAK® Engine Degreaser.
5. After 5mins, wash it with clean water.

### INSTRUCCIONES DE USO

Para un uso óptimo siga los siguientes pasos :

1. Apague el motor y deje enfriar.
2. Tape con un plástico las superficies y partes eléctricas.
3. Agite el envase antes de usar y luego rocíe el producto sobre la superficie a limpiar.
4. Después de 5 minutos limpie con agua.

**Water-Based Foaming Engine Degreaser is also available in 650ml.**

## Dashboard Polish

- Gloss Finish
- Scented & Rejuvenates
- Repels Dust
- Interior Clean & Protect

AEROPAK® Dashboard Polish cleans & protects for ABS, plastic, vinyl, rubber and most auto interiors. It provides a high gloss rejuvenating finish while sealing and protecting your interior. AEROPAK® Dashboard Polish's anti-static property repels dust and prevents aging and cracking.

### ESPAÑOL

Es una parte de la familia de productos AEROPAK®, diseñado para conservar, proteger y embellecer su automóvil. Al aplicar esta Silicona Spray se obtiene un acabado brillante, dejando como nuevo su automóvil.

### PREPARATION

Surface must be free of heavy soiling and ready to be cleaned.

### CAUTION

Do not use on controls, floors, seats, or surfaces where slipperiness will be a hazard. Not for use on glass or clear plastics, fabric, woven materials or paint.

### APPLICATION

1. Remove any water, dirt, and dust from the surface.
2. Shake the can well before use.
3. Apply liberally directly onto the surface, holding the can upright 15-20cm away from the surface to be sprayed, or directly onto a clean cloth/sponge wiping cleaner evenly over the surface.
4. After spraying, gently polish with a clean soft dry cloth.
5. Apply regularly to maintain appearance and protection.

### INSTRUCCIONES DE USO

1. Retire el agua, la suciedad y el polvo de la superficie.
2. Agite bien la lata antes de usar.
3. Aplica liberalmente directamente sobre la superficie, manteniendo la lata en posición vertical a 15-20cm de distancia de la superficie a rociar, o directamente sobre un paño o esponja limpia y limpiando uniformemente sobre la superficie.
4. Después de rociar, pula suavemente con un paño limpio suave y seco.
5. Aplica regularmente para mantener la apariencia y la protección.

## Silicone Spray

- Protects
- Lubricates
- Waterproofs
- Prevents Seizing
- Eliminates Squeaks

AEROPAK® Silicone Spray is ideal where you don't want oil or grease but you still need lubrication. AEROPAK® Silicone Spray is a durable, odorless, advanced synthetic silicone formula that is safe for use on metal, wood, rubber, and vinyl. A highly water-resistant quality lubricant that's ideal in extreme temperature ranges, is non-reactive to most substances, and is also an excellent mold release.

### ESPAÑOL

El aceite de silicona en spray AEROPAK® protege piezas de goma o plástico prolongando su vida, evitando que sea grieten. Este producto puede ser utilizado como desmoldante en la industria de plástico y otros materiales. También tiene un excelente efecto anti-moho y una gran función de lubricación que puede ser aplicada en mecanismos, piezas de precisión, rodamientos, cadenas y productos del metal.

### NOTE

Some plastics and painted surfaces may be damaged on contact, please spot check before use. Avoid using silicone spray on any surface upon which you walk or sit, on surfaces to be painted, on non slip areas like control surfaces, door knobs & safety rails.

### NOTA

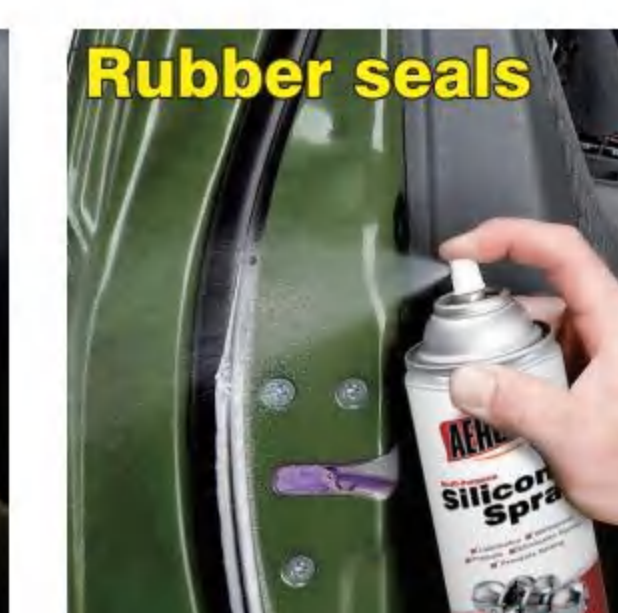

Algunos plásticos y superficies pintadas pueden dañarse al contacto, por favor compruebe antes de usar. Evite usar spray de silicona en cualquier superficie sobre la que camine o se siente, en superficies que se van a pintar y en áreas antideslizantes como superficies de control, perillas de puertas y barandillas de seguridad.

### APPLICATION

**IMPORTANT:** Shake the can vigorously for one minute before use. Hold upright, point nozzle at target from a distance of 15cm and spray. Use regularly for best effect. Wipe off excess with a clean dry cloth.

### INSTRUCCIONES DE USO

Agite vigorosamente la lata durante un minuto antes de usarla. Manténgalo en posición vertical, apunte la boquilla hacia un objetivo desde una distancia de 15 cm y rocíe. Úselo regularmente para obtener el mejor efecto. Limpie el exceso con un paño limpio y seco.

# Tyre Sealer & Inflator

Seals Punctures with No Dirty Hands  
Reinflates Tyre with No Jack Required

AEROPAK® Emergency Tyre Sealer Inflator is designed to quickly seal small punctures and leaks, reinflating your tyre in seconds. AEROPAK® Tyre Sealer Inflator does not require a jack or wheel removal; It's a fast, easy and clean procedure that gets you back on the road in seconds. Suitable for small punctures on all tubeless tyres. IMPORTANT inform your tyre repair shop that Emergency Tyre Sealer Inflator was used.

	E-Bike	125ml*1
	Small motorcycle	300ml*1
	Big motorcycle	450ml*1
	Sedan car tyre	450ml*2 or 650ml*1
	SUV tyre	650ml*1.5 or 650ml*2

DOT-2Q high pressure cans

1. If possible remove the object causing puncture.
2. Keep the punctured part between 5-7 o'clock position.
3. Shake the can well for about 30 seconds.
4. Screw connecting tube firmly onto tyre valve.
5. Hold the can upright, remove the protector cap, and press the button until tyre appears firm.
6. After pumping is finished, disconnect both ends of the tube. Immediately drive 3-5km to allow the sealer to spread in tyre and mend the puncture. Then check and adjust tyre pressure.

# Liquid Tyre Sealer

-15°C/5°F Anti Freeze

AEROPAK® Liquid Tyre Sealant seals punctures for the life time of the tyre. It's long lasting formula is made of a chemically neutral, 100% organic polymer that will not corrode or damage metal rims, tyres, plastic or rubber parts. AEROPAK® Liquid Tyre Sealant will seal punctures up to 6mm and is non-flammable, will not freeze, is non toxic and safe to the environment. Once AEROPAK® Liquid Tyre Sealant is in the tyre, it remains a liquid until a hole is found, allowing the sealant to escape and react with the atmosphere to seal the leak.

## Waterless Cleaning Wax

- No Water Required
- Cleans Exterior Surfaces of Motor Vehicles
- Removes Tar, Dirt, Bugs, Tree Sap & More!
- Long Lasting Shine, Gloss & Protection

AEROPAK® Waterless Cleaning Wax provides cleaning, polishing and protecting effect for car. It can effectively wipe off dusts, pitch, greaser etc, and form a layer of protective film, which can prevent the lacquer film from being chapped in the exposure of UV light. It can also be of polishing, protecting and dust-proofing to all furniture, electronic appliance iron cupboards and handcrafts.

### ESPAÑOL

Es una carnauba natural de fácil aplicación, su exigente formulación permite una aplicación rápida de secado inmediato, aporta brillo y protección a la carrocería de su vehículo. Su película de protección impide el daño proauciao por rayos uv y temperaturas altas. Hace perdurar por años el color nuevo de su auto. Permite una aplicación rápida y efectiva.

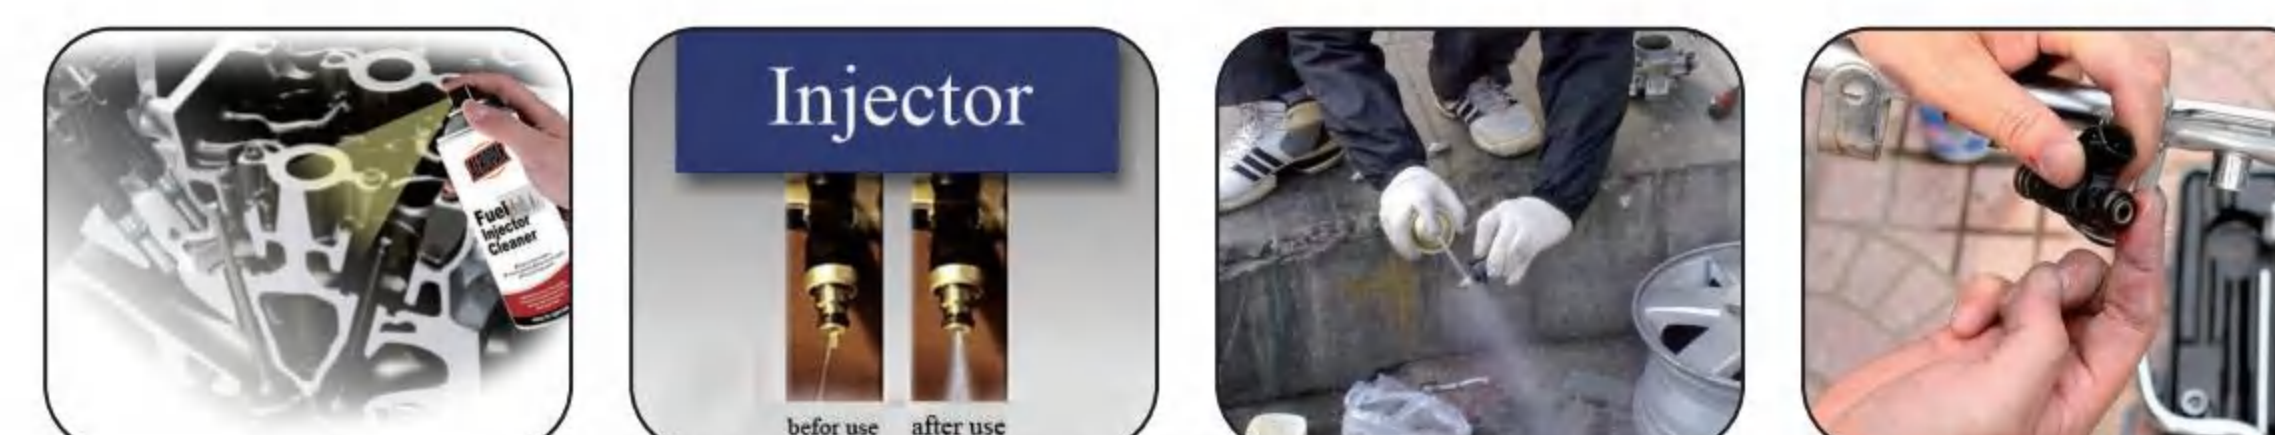

## Fuel Injector Cleaner

- Cleans Fuel System Deposits
- Improves Injector Performance
- Improves Fuel/Air Ratio Balanced

AEROPAK® Fuel Injector Cleaner is a specifically designed formula for cleaning the fuel injector system. It quickly removes dust and other deposits from injectors and restores injector efficiency and improves fuel atomization.

AEROPAK® Fuel Injector Cleaner is ideal for multi-port and throttle body in fuel injection systems, safe for oxygen sensor and catalytic converter equipped vehicles.

Suitable for just about any type of gasoline powered machine: motorcycles, cars, trucks, boats, yard and industrial machines.

APK-8315

## Nano Coating

- Protects from Minor Scratches
- Resists Water and Dirt
- Improves Paint Colour

AEROPAK® Nano Coating Automotive Paint Protection creates a high gloss protective coating that reduces the effects of UV oxidisation and protects the paint finish from road splatter, fuel.

### DIRECTIONS

1. Wash vehicle, the surface should be totally free of dust, wax, dirt, oil, water etc.
2. Apply the coating to a cool vehicle, in a shady area.
3. Work in one sq/m blocks.
4. For best result spray 10-20 times to each sq/m.
5. The surface should be immediately buffed with clean dry micro-fiber cloth.
6. Coating curing time is 24h.

### ATTENTION

Do not use on freshly repaired or repainted surfaces as these require a hardening period of approx. 6-8 weeks before the sealant can be applied, new vehicles can be sealed directly.

## Underbody Sealant

- Anti Rust
- Make Cars Last Longer
- Reduces Road Noise

AEROPAK® Underbody Sealant is a professional grade flexible undercoating for protection against stone chips, corrosion, general road abrasion and reducing road noise. It has a high quality protective rubber coating that remains flexible, while sealing out road noise, fumes, dust and moisture. It is road salt resistant and provides the best possible corrosion protection for your vehicle.

### APPLICATION

**IMPORTANT: Use in a well-ventilated space. Shake the can before use.** Vehicle under the surface must be **clean, dry, and free of rust and grease** before application. From a distance of approximately 20-30 cm, spray on with 2-3 back-and-forth motions. Allow the product to dry between layers in case of thicker layers. **Additional layers will improve sound-deadening properties.** Drying time will depend on thickness, humidity and temperature.

**Underbody Sealant is also available in 1L&2L.**

## Chain Cleaner

Non-corrosive and Non-Staining Formula that is Fast, Efficient, and Easy to Use

AEROPAK® Chain Cleaner is a solvent-based chain cleaner that cleans chains and sprockets of dirt, sand, grime, chain grease, wax, oil silicone as well as quickly dissolving grease clumps on chain drives. AEROPAK® Chain Cleaner is the non-corrosive and non-staining formula that is quick, efficient, and easy to use.

Regular use of AEROPAK® Chain Cleaner is important to remove any grime build up. These clumps wear and shorten the life of your chain. AEROPAK® Chain Cleaner works on all types of motorcycle chains such as standard, O-ring, X-ring, and Z-ring. Leaving a chain ready for AEROPAK® Chain Lube application.

**NOTE** The type of motorcycle chain fitted will affect the way you clean. A plain motorcycle chain consists of metal-on-metal links with no seal. Plain chains can be cleaned more aggressively than sealed motorcycle chains.

A sealed motorcycle chain (aka O-ring, X-ring, or Z-ring chain) uses a rubber seal between the inner link and outer links to keep grease inside the pin and bushing cavity (and to keep road grime out). This extends life and requires a more gentle approach to cleaning.

## Instant Cooling Spray

- Relief the Heat
- Summer Essential
- Non-flammabel

AEROPAK® Instant Cooling Spray is suitable for the rapid cooling of the motorcycle surface after being exposed to the sun. It has an effective cooling factor which quickly vaporizes when spray. It absorbs the heat of the air and the surface of the object to achieve a rapid cooling effect.

### APPLICATION

**Importan:** Shake the can well before use.

**For motorcycle and electronics use:** Spray directly onto the parts that need to be cooled.

**For human body use:** Hold the can 10-15cm away from the area of pain and spray, and do not spray for more than 5s in the same place in the human body to avoid frostbite.

## Engine Start

- Starts Engines Quickly
- Reduces Battery Drain
- Work's with Gasoline or Diesel Engines

AEROPAK® Engine Start is a high ether content starter that's designed for quick and easy starting of difficult engines in cold, wet and freezing weather (-40°C). It has features of easy operation, fast starting, low ignition point, engine friendly, and no knocking to the engine. It is for use on gasoline and diesel engines of automobiles, trucks, construction and agricultural equipment, marine and recreational vehicles.

### ESPAÑOL

AEROPAK® Engine Start es un arrancador con alto contenido de éter diseñado para un arranque rápido y fácil de motores difíciles en climas fríos, húmedos y helados (-40°C). Tiene características de operación fácil, arranque rápido, bajo punto de inflamación, amigable con el motor y sin golpes en el motor. Es para uso en motores de gasolina y diésel de automóviles, camiones, equipos agrícolas y de construcción, vehículos marinos y recreativos.

## Turf Marker

**Provides long-term durability**

- Quick Drying
- No Grass Damage
- Ideal for Graphics and Sports Marking

Ideal for permanent marking of car parks, warehouses, factory floors, and playgrounds. AEROPAK® Marking Paint is ideal for marking parking lots, indicating danger zones, and marking areas for safety, installation, evacuation, or maintenance procedures. Resistant to weather and most chemicals. Can be used on most surfaces including concrete, asphalt, grass, wood, and synthetic surfaces. Stripes of between 6-12 cm wide can be achieved, depending on the nozzle setting, line marking lengths of 55-100m can be achieved with one can, this will vary according to the speed of application and surface texture.

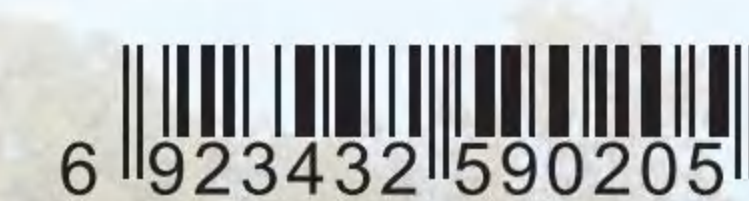

### DIRECTIONS

**IMPORTANT: Shake the can vigorously for 2mins before use.**

1. Invert the can and point at ground;
2. Hold the can 12-15cm (4.7-5.9in) above ground surface;
3. Use the spraying handle or AEROPAK® Marking Wand for straight line marking;

### CLEAN UP

Clean any overspray with mineral turps or general-purpose thinners. For better long-term storage, turn the can upright and spray until no paint is coming out.

## Home Air-Conditioner Cleaner

AEROPAK® Home Air-Conditioner Cleaner is a water-based, ECO-friendly formula with a lemon fragrance with built-in corrosion inhibitors to prevent rust that will not harm plastic or other unpainted parts. AEROPAK® Home Air-Conditioner Cleaner removes dirt, mold, fungus, grease lint, and odors, from air conditioners, air dryers, refrigerators, and ice machines. Eliminating bacteria and odor quickly and effectively, leaving a fresh lemon smell.

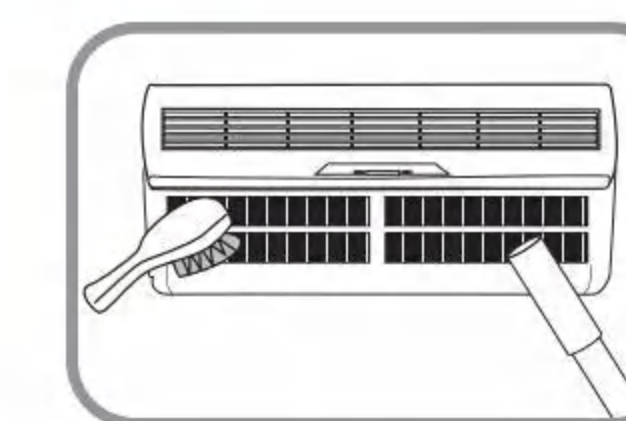

**NO SMOKING** while using Air-Conditioner Cleaner

1. Turn off air-conditioner power and open windows for good ventilation.

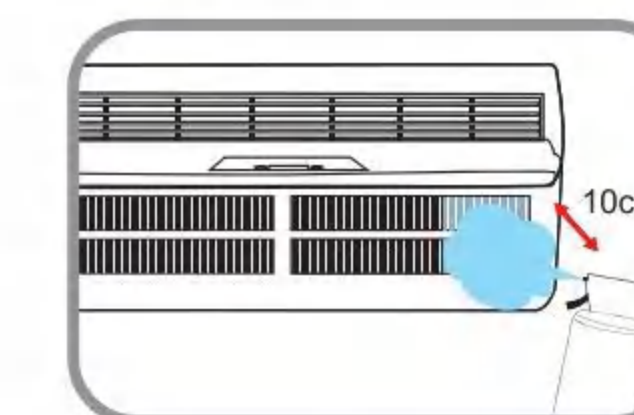

2. Open the casing to remove dirty filters for washing.

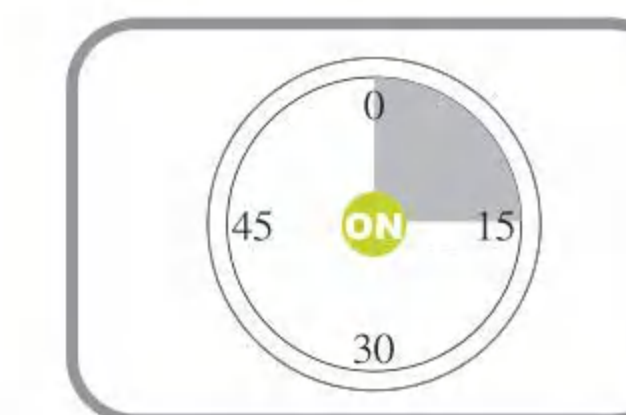

3. Remove the thick layer of dust on coil fins with a vacuum cleaner or brush.

4. Shake the can well before use.

5. Position can be approximately 10cm away from the coils. Spray cleaner in a zig-zag motion from top to bottom.

6. Wait for 15mins until the foam vanishes. Re-install the filters, and run the air-conditioner for about 50-60mins on the lowest temperature.
