品牌故事

Brand story

郁慶塑膠成立於1979年，董事長張富評在工業尚未普及時毅然決然踏入射出領域，以農業用的秧苗盤、花盆等產品，一步一腳印奠定基礎。工業發展時期郁慶塑膠進行第二次轉型，投入工具箱製造及代工領域深耕至今，目前由總經理張書瑋帶領團隊持續成長，除了在本業中精益求精外還拓展其他行業版圖。

Yu Ching Plastics was established in 1979. When the industry was not yet popular, Chang Fu-ping, the chairman, resolutely stepped into the field of plastic injection, and laid the foundation step by step with agricultural seedling trays, flower pots and other products.

During the period of rapid industrial development, Yu Ching Plastics has undergone the second transformation and has devoted itself to the field of toolbox manufacturing and OEM. Up to now, Yu Ching Plastics is currently led by the general manager Chang Shu-wei and continues to grow. Sports equipment, medical, outdoor supplies, etc.

「客戶至上、品質第一」為郁慶塑膠服務的理念，總經理張書瑋致力於維持高品質生產與穩定性較佳的產品，因早期設備始終無法達到預期目標，所以陸續汰換及更新設備，現今所有設備皆已從機械化升級成電腦化，以確保所有產品皆可以以最高的品質提供給客戶。

"Quality first and treat the customers as supremacy" is the service concept of Yu Ching Plastics. General Manager Chang Shu-wei is committed to maintaining high-quality production and products with better stability. Because the early equipment has never been able to achieve the expected goals, it has been replaced and updated successively. Today, all equipment has been upgraded from mechanization to computerization to ensure that all products can be provided to customers with the highest quality.

中空吹氣成型專業製造商

Professional Manufacturer of Plastic Air-blowing Molding Machine

四十多年來的經驗使郁慶塑膠成為中空吹氣成型專業製造商，承蒙顧客對郁慶塑膠專業開發技術的信任，使產品種類非常多元，包括：工具箱、醫療器材、廣宣器材、汽車配件、戶外用品等，與國內外品牌、企業都有合作關係，成為各大企業唯一指名中空吹氣代工廠。

Yu Ching Plastics has dedicated to plastic manufacturing industry for more than 40 years and now being the professional manufacturer of air-blowing molding in the middle of Taiwan.

We really appreciate those customers who trusts our development technology to make Yu Ching extend variety of products, including toolboxes, medical equipment, advertising devices, auto parts, outdoors products etc.

Also, we cooperate and have a good partnership with several domestic and international brands and enterprise. Furthermore, Yu Ching become the only designated of plastic air-blowing molding OEM for major companies and enterprise.

郁慶塑膠也協助設計開發，從初始的塑膠原料種類挑選，甚至附加功能的需求，例如抗紫外線、耐寒、抗菌、回收使用等，協助企業找出最符合的生產條件。並從OEM到ODM的設計、研發、生產製造，郁慶塑膠都能依產品特性調整生產製程的各個環節，以確保產品品質條件符合客戶的要求，提供最佳客製化服務。

Yu Ching Plastics also provides design development technology. It assists enterprises to find out the most suitable production conditions by selecting the types of the plastic materials and even the requirements for the features such as resistance to UV-rays, hardness, antimicrobial properties, recycling, etc.

Yu Ching Plastics is from OEM to ODM design, R&D and manufacturing and it could adjust the manufacture process according to the product characteristics to ensure the quality is suitable for the customer's requirements and provide the best customized service.

規範品質保證

Standard Quality Assurance

ROHS標準值規範

ROHS standard value specification

ISO 9001品質認證

ISO 9001 quality certification

因為循環經濟議題興起，郁慶塑膠近年持續關注綠色材質與減碳議題，並要求所有產品皆須符合歐盟ROHS標準值規範或是符合環保綠能回收再利用，亦取得ISO 9001品質管理系統認證，利用四十多年專業生產經驗，減少設計到產品量產過程中的耗損與廢料。

The rise of circular economy issues, Yu Ching Plastics has continued to pay attention to green materials and carbon reduction issues in recent years, and requires all products to comply with EU ROHS standard value specifications or comply with environmental protection and green energy recycling, and has also obtained ISO 9001 quality management system certification. Yu Ching Plastic has more than 40 years of professional production experience, reducing waste and waste from design to mass production.

品牌願景：改變民眾對塑膠的觀念

Brand Vision : Change public perceptions of plastics

總經理張書瑋發現海廢再生料的特殊物性和市場及社會價值，同時也瞭解海廢再生料產品開發的挑戰。以公司過去累積的開發技術能力結合外部支援力量，能為海廢再生料開發新市場，提供國內外企業使用。

General Manager Chang Shu-wei discovered the special physical properties, market value and social value of marine waste recycled materials. Also understood the challenges of product development of marine waste recycled materials.

Using the company's accumulated development technology capabilities in the past combined with external support forces, it can develop new markets for marine waste recycled materials and provide domestic and foreign companies for use.

民眾對於塑膠的觀念是破壞環境的產品，總經理張書瑋從漁網海廢料著手，成功將海廢料重新製成產品，進而使環境的破壞變成是可以無限循環再使用。總經理張書瑋更表示後續會持續研發塑膠廢品回收利用之其他領域，例如醫療產業、民生產業等等，期望扭轉大眾對塑膠製品無法回收再利用的觀念。

The public's concept of plastic is a product that destroys the environment. Chang Shu-wei, the general manager, started from fishing nets, and successfully remade the sea waste into products, thereby making the environmental damage infinitely recyclable. General Manager Chang Shu-wei also stated that he will continue to develop other fields of plastic waste recycling, such as the medical industry, civilian production industry, etc., hoping to reverse the public's perception that plastic products cannot be recycled and reused.

海廢料回收再利用

Recycling Marine Waste

改變大眾對塑膠垃圾無法回收的觀念

Changing the public's perception that plastic waste cannot be recycled.

海廢料影響海洋的環境，郁慶塑膠採用回收海廢漁網，經由造粒廠將漁網回收、破碎、清洗後造粒，再經由產品設計製造，經過反覆耐心測試，終於完成海廢商品。郁慶默默在海廢料回收塑膠製品領域中耕耘，希望能透過自身的能力，結合政府的力量，實踐永續材質產品開發理念。

Marine waste affects the marine environment. Yu Ching Plastics recycles fishing net. The granulating mill will collect, break, wash, granulate the nets, and then design and manufacture the products. By trial and error, it finally finishes the marine-waste products. Yu Ching Plastics has been working hard in the field of marine waste recycling plastic products. It also hopes to use own capabilities and combine with the strength of government to accomplish the concept of sustainable material product development.
