Mycarr is your best partner

Design LED Lamp

● HEAD Office (TAIWAN)

● NO.1 Factory (TAIWAN)

● NO.2 Factory (TAIWAN)

- **Established : 1985**
- **Employees : 160**
- **R&D : 20**

Mycarr always works for research and development LED lamps and combine with electronic,optical, constructer design, making sample and validation test. Then to make tooling design and produce then pass the testing and certification. All made in Mycarr only.
We can achieve customer's requirement quickly and lead into market.
We have passed the certification of IATF 16949, ISO 9001, ISO 14001, ISO 45001. This is the best guarantee to customer.
From 2000, we do business with Europe Ph..., Japan Stanley, American Harley Davison and Taiwan, Japan Toyota, and Germany Osram. We always have good relationship with them.
In order to achieve future trend, Mycarr will increase more RD engineers and testing equipment to raise Mycarr capacity of competition.

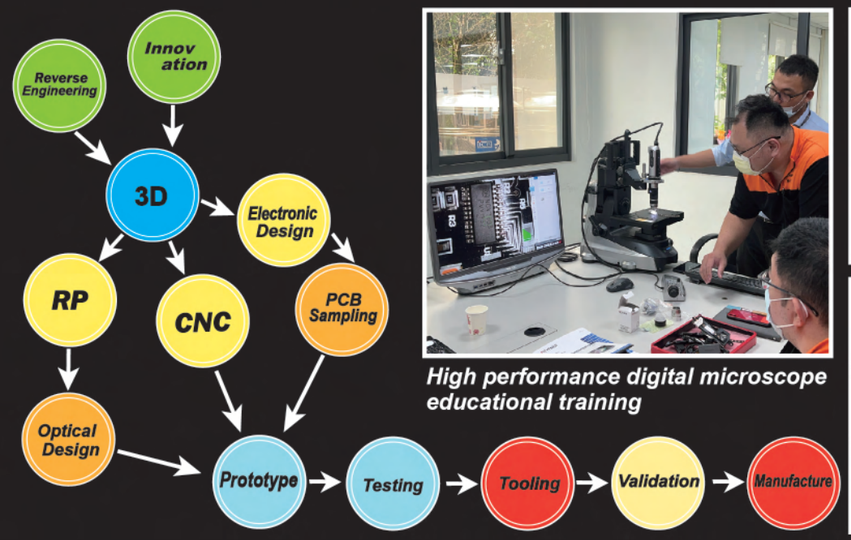
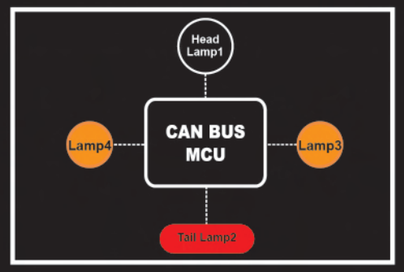
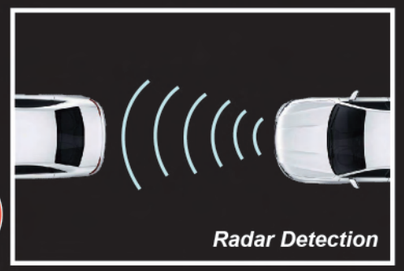
MYCARR LIGHTING TECH

MYCARR RESEARCH & DESIGN & VALIDATION PROCESS

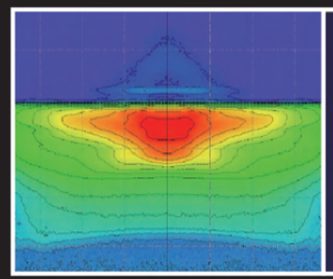


High performance digital microscope educational training

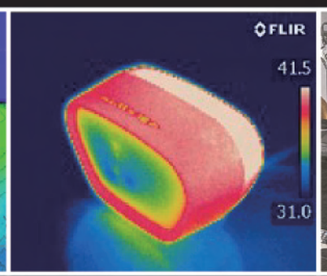




Radar Detection

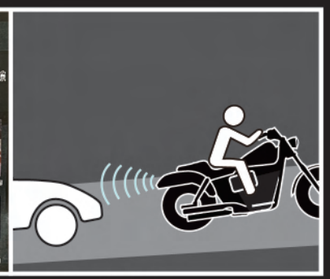


Simulation of E-Bike front lamp low beam light distribution



Infrared thermal imaging camera

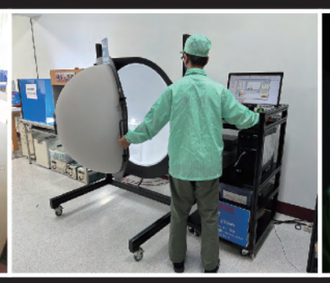
High performance digital microscope



Rear Traffic Alert

Rapid Prototyping machine for sampling

CNC engraving machine



Integrated sphere

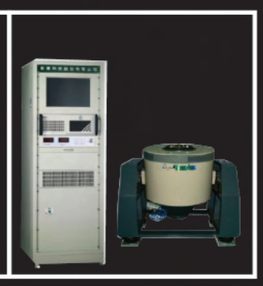
Goniophotometer Lab

Reflow machine

Programmable Temp. & Humi. Chamber

Thermal Shock Tester

Rain / Spray test Chamber



Electrodynamic Type Vibration Tester
