企业简介 Company Profiles

阜阳市普利林汽车部件有限公司座落于历史悠久,名流辈出,人文蔚盛的安徽阜阳。于2019年通过政府招商引资建厂成立于阜阳颍泉区。

本公司是一家具有22年汽车配件制造经验的企业,素以提供高质量的产品著称。作为汽车配件行业的生力军,公司遵循“守诺、践约、责任”的企业信条,不断创新,以“严谨、高效、可靠”的理念,确保为客户提供最优良的产品和服务。公司目前拥有员工110多人,技术工人13余人,拥有专业生产设备数控机床,加工中心,注射机等60余套。公司主要生产皮带轮,曲轴减震皮带轮两大系列500多个品种,产品覆盖全球20多个国家。在合作过程中,产品质量、服务深受客户的好评,部分产品在主机厂配套中得到免检荣誉证书。

阜阳市普利林汽车部件有限公司秉承品质与服务的经营理念,竭诚为新老客户提供优质产品与服务,最大限度满足广大客户的需求。“服务客户,成就客户,开拓创新,追求卓越”是普利林人的不断追求。真诚期待与新老客户合作并进,共创未来!

PULLEY (FUYANG) AUTO PARTS CO., LTD. is located in Fuyang, Anhui province, which has a long history, a large number of celebrities and prosperous humanities. We were established in Yingquan District of Fuyang by attracting investment from the government In 2019. We are the company with 22 years experience in auto parts and are well-known for providing high quality products. As the main force in the auto parts industry, we abide by the enterprise creed of "keeping promise, fulfilling contract and taking responsibility" with the concept of "preciseness, efficiency and reliability", ensure providing customers with the best products and services. At present, we are over 110 staffs, more than 13 technical workers, and more than 60 sets of professional production equipment, such as CNC machine tools, machining centers and injection machines. We are specialized in Damper Pulley and Crankshaft Pulley these two series, covering more than 500 varieties and as the main force in the auto parts industry, our products covering more than 20 countries around the world. In the process of cooperation, the product quality and services have been highly praised by our customers and some of the products have obtained the honorary certificate of exemption from inspection in the main engine factory. We are adhering to the business philosophy of quality and service, dedicated to provide new and old customers with high-quality products and services, to maximize meet the needs of customers. "Serving customers, achieving customers, pioneering and innovating, and pursuing excellence" is the constant pursuit of ours. We are sincerely looking forward to cooperating with new and old customers to create a better future!

公司优势 Company Advantages

- 22年专业制造曲轴皮带轮的经验
22 years of specialized experience in manufacturing crankshaft pulley
- 拥有独立的橡胶配方,可满足不同的客户需求
With independent rubber formula that can meet the needs of different customers
- 适用于多种车型和型号,品种丰富
Suitable for vehicle type, model, rich varieties
- 在与主机厂配套合作时,荣获免检待遇
Supporting domestic OEM factories and receiving inspection exemption treatment

产品简介 Product Introduction

曲轴减震皮带轮,是发动机前端附件系统的重要零件之一,分为橡胶减震皮带轮、硅油扭转减震皮带轮及橡胶硅油复合型扭转减震皮带轮。基本结构一般由轮毂、外圈、橡胶组成,大多安装于曲轴的前端,传递曲轴输出的扭矩以驱动轮系附件。

The crankshaft damping pulley is one of the important components of the engine front-end accessory system, which is divided into rubber damping pulley, silicone oil torsional damping pulley, and rubber silicone oil composite torsional damping pulley. The basic structure is generally composed of wheel hubs, outer rings, and rubber, which are mostly installed at the front end of the crankshaft to transmit the torque output by the crankshaft to drive the gear train accessories.

它的功能主要有三点

It has three points mainly function:

1

消减曲轴 扭转振动,提高曲轴的疲劳寿命,减少应力水平。

To reduce the crankshaft torsional vibration, improve the crankshaft fatigue life and reduce the stress level.

2

传递扭矩, 衰减扭矩波动。

To transmit torque and attenuate torque fluctuations

3

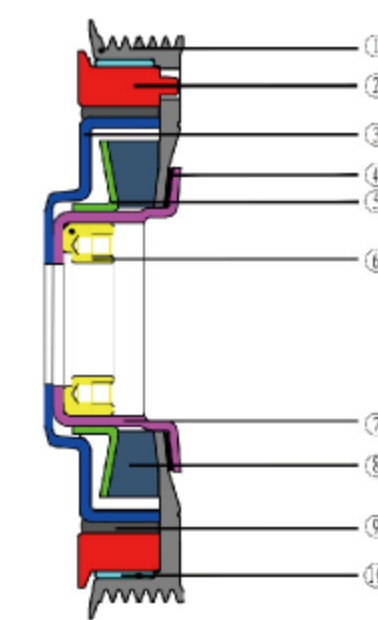

减少发动机的振动、噪音。

To reduce the vibration and noise of engine.

单级扭转减震器

1. 铸件 CASTING
2. 橡胶 RUBBER
3. 铸件 CASTING

两级串联式扭转减震器

1. 钢件 STEELING
2. 铸件 CASTING
3. 冲压件 PRESSING
4. 塑料 PLASTIC
5. 冲压件 PRESSING
6. 钢件 STEELING
7. 冲压件 PRESSING
8. 橡胶 RUBBER
9. 橡胶 RUBBER
10. 衬圈 THRUST BEARING

生产设备 Production Equipment

检测设备 Testing Equipment

适用于车系 Applicable Vehicle Series

秉承高质量
高效率的精益制造
不懈追求完美
Adhering to high quality
Efficient Lean Manufacturing
Relentlessly pursuing perfection
