

# Hangzhou Botai Auto Parts Co., Ltd.

Professional manufacture of Wheel Hub Bearing

# Introduction

**Our Motto: Quality-Oriented,  
Honest And Keep Promise**

Hangzhou Botai Auto Parts Co., Ltd., established in 2005, specializes in manufacturing wheel hub bearings. In 2019, we acquired Zhejiang Hongning Bearing Technology Co., Ltd., boosting our presence in the Chinese market. Moreover, We are planning to build a new factory in Bangkok, Thailand, with production slated to commence in the third quarter of 2024. This strategic move aims to further expand our presence in the international market.

Our portfolio features over 3,000 wheel hub units crafted in our advanced production facilities. These high-quality components are compatible with a broad range of vehicles, including American, European, Japanese, Korean, and Chinese models, ensuring worldwide compatibility and performance.

We are ISO/TS 16949 certified and have earned a strong reputation for our quality, packaging, and customer service. Our products reach markets across the North America, South America, Europe, the Middle East, and Asia.

Leveraging years of experience, the latest technology, and thorough testing processes, we strive to deliver top-quality products and reliable service to customers. Our goal is to be recognized as a trusted wheel hub bearing manufacturer.
