FULES AUTO PARTS

COMPANY BROCHURE

Zhejiang FULES Auto Parts Technology Co., Ltd. is a high-tech enterprise. It's a professional manufacturer which specializes in R &D, production and sales of electric sensor automotive shock absorbers. mainly professional in the aftermarket of shock absorbers. Our company is located in Huzhou, Zhejiang Province, with about 170km away from PVG (Shanghai Pudong International Airport). We also have a plant named Resco, located in Hosab Bursa Turkey. It is a professional manufacturer that produces the cabin shock absorber (spring and air bellows). This company is held by our shareholder.

FULES is jointly established by Han Fusheng's scientific research team (originally specialized in the design and test Verification of energy absorption and vibration damping materials in the Soft Landing Gear for lunar Chang'e 3 and 4 probes and Tianwen-1 Mars Probe) and with the production technology team (originally from KH Automotive Technologies (Changchun) Co., Ltd and FAW Group).

Our team has been deeply delved into the shock absorber aftermarket nearly 20 years. FULES have been making progress from creation to development, we were constantly improve and grown. we bring together high-tech talents team from all over the world, and set up a very strong professional R&D team strive to absorber' innovation. Use the High-technology and collide with the spark of wisdom, and timely develop new products in accordance with market demands. we always insist on providing customers with technical solutions and high-quality supporting products, that match the vehicle' s vibration damping system and the whole vehicle. When it' s time to select replacement shocks for your Passenger cars, you could count on FULES to provide

the world-class ride and handling control you expect. All of the products developed by our company pass a rigorous testing program to ensure that the damping system could completely match the vehicle damping system. then to make sure the maximum safety and comfort for passenger. And our shock absorber will be loaded on cars to go road test by our professional vehicle tuning team. Base on the premise of high-quality products, it also could save the costs for customers and provides you with cost-effective shock absorbers.

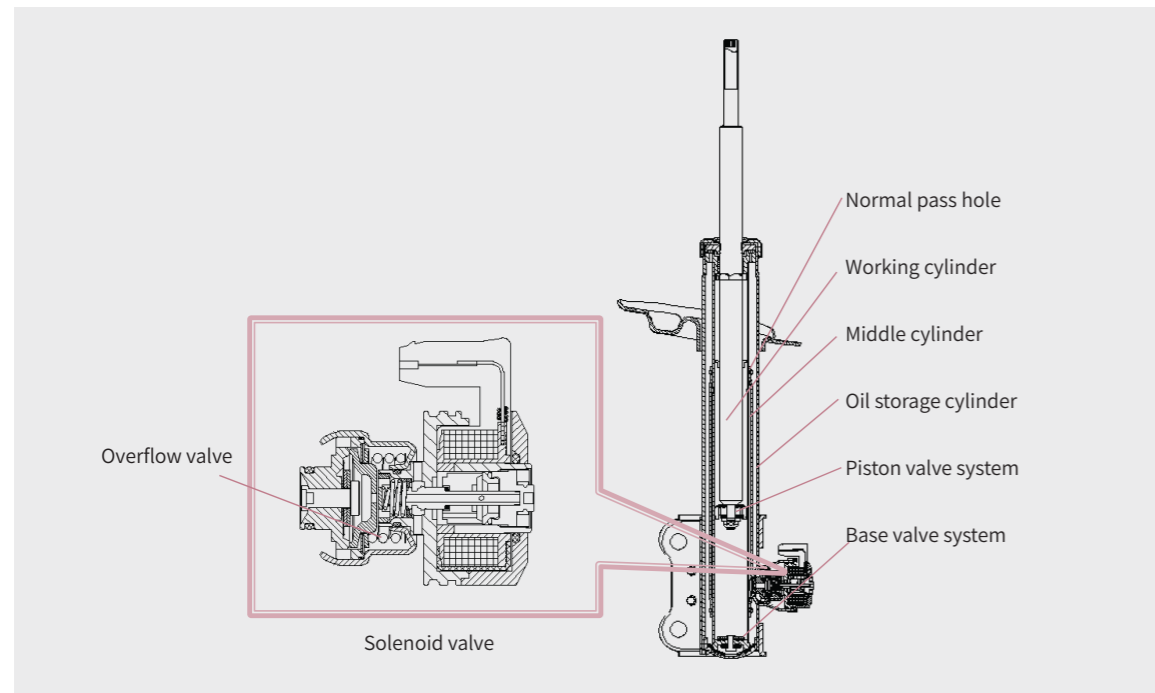

Today, we have made successful breakthroughs in the development of CDC automatic continuous damping control, has won a number of national invention patents of ADS automatic adjustable damping system, electric sensor shock absorber, and Magnetic shock absorbers for air suspension and so on. Our products mainly cover passenger cars, such as sedan, Off-road vehicle, SUV, sports car, van. Totally about 100 varieties shocks. In addition, we could accept to be the Original Equipment Manufacturer (OEM). We also could develop special models according to customer requirements (the modified shock absorber for refitted vehicle, such as nitrogen shock absorber/4wd Offroad adjustment Shock Absorber). For now, our products range over Middle and Top brand cars such as Cadillac, GMC, Porsche, Land Rover, BMW, Mercedes Benz, Audi, Volkswagen, etc. Above all, when your vehicle needs to replace the shock absorber, you could choose an independent repairer to perform the repairs using alternative (aftermarket) parts.
