

About Us

Company Name: Quanxing Machining Group Co., Ltd Employees: 3400 Established: July 21st, 2000
 Floor Area: 350,000 square meters Fixed Assets: USD160 Million

Traditional Hydraulic Products:

Fixed Displacement Vane Pump (FDP), Variable Displacement Vane Pump (VDP), Gear Pump, Fuel Pump, Transmission Oil Pump, Radial Piston Pump, RCB Steering Gear, Steering Control Unit.

Electric Intelligent Products: Electric Hydraulic Power Steering Pump (EHPS), Electric-Hydraulic RCB Steering Gear (EH-RCB), Electric RCB Steering Gear (E-RCB), Electric Air Compressor, Inverter.

First-class Advanced Equipment

Highly Automated Steering Gear Assembly Line

Mäerle Slot Cutting Machine

EMAG Cam Profile Grinding Machine Group

Heat Treatment Line Japan Oriental

High Pressure Flushing Machine Center Group

OE Customer (Domestic)

Product Collection

R&D Ability

- ◎ R&D Talents — Led by 20 experts from Germany, Korea, UK, USA and 200 top engineering talents in our R&D Group
- ◎ Software Used — SolidWorks\UG\CAD\PLMD
- ◎ Simulation Ability — Ansys structural simulation\Casting mold flow analysis\CFD
- ◎ System Integration Development — Component development\Full units development\Steering system development and Synchronous development with OE\Provide the steering system solution
